In either case, the order of suspension will remain in effect, with or without modification as the Board deems appropriate.

(n) Board orders ratifying or dissolving temporary emergency orders will not have effect upon the power and duty of the Office of Enforcement Counsel to initiate, in its sole discretion, proceedings for violations of the act or this part or upon the outcome of any proceeding so initiated.

(o) Copies of the Board's final order will be served on the person named in the order in accordance with § 491a.5.

(f) A denial of an application or nonrenewal, suspension or revocation of a license, permit, certification, registration or authorization may be made for a sufficient cause consistent with the act, this part and the public interest.

§ 421a.3. Investigations; supplementary information.

(c) This inquiry or investigation does not replace the application process required under the act and this part which is a requirement for licensure.

§ 421a.5. Undue concentration of economic opportunities and control.

(a) In accordance with section 1102(5) of the act (relating to legislative intent), a slot machine license, management company license or principal license may not be issued to or held by a person if the Board determines that the issuance or holding will result in the undue concentration of economic opportunities and control of the licensed gaming facilities in this Commonwealth by that person.

(b) For purposes of this section, “undue concentration of economic opportunities and control of the licensed gaming facilities” means that a person:

(1) Would have actual or potential domination of the gaming market in this Commonwealth contrary to the legislative intent.

(2) Could substantially impede or suppress competition among licensees.

(3) Could adversely impact the economic stability of the gaming industry in this Commonwealth.

(c) In determining whether the issuance or holding of a license by a person will result in undue concentration of economic opportunities and control of the licensed gaming facilities in this Commonwealth, the Board will consider the following criteria:

(1) The percentage share of the market presently controlled by the person in each of the following categories:

(i) Total number of slot machine licenses available under section 1307 of the act (relating to number of slot machine licenses).

(5) Current market conditions, including level of competition, consumer demand, market concentration, any consolidation trends in the industry and other relevant characteristics of the market.

(6) Whether the gaming facilities held or to be held by the person have separate organizational structures or other independent obligations.

(7) The potential impact of licensure on the projected future growth and development of the gaming industry in this Commonwealth and the growth and development of the host communities.

(8) The barriers to entry into the gaming industry, including the licensure requirements of the act, and whether the issuance or holding of a license by the person will operate as a barrier to new companies and individuals desiring to enter the market.

(9) Whether the issuance or holding of the license by the person will adversely impact consumer interests, or whether the issuance or holding is likely to result in enhancing the quality and customer appeal of products and services offered by slot machine licensees to maintain or increase their respective market shares.

(10) Whether a restriction on the issuance or holding of an additional license by the person is necessary to encourage and preserve competition and to prevent undue concentration of economic opportunities and control of the licensed gaming facilities.

(11) Other evidence related to concentration of economic opportunities and control of the licensed gaming facilities in this Commonwealth.

§ 421a.6. (Reserved).

The licensee shall comply with instructions issued by the Bureau of Gaming Laboratory Operations with regard to the continued operation of the slot machine, table game, table game device, interactive game, sports wagering device, video gaming terminal or any associated equipment.

(n) Concurrent with the initial receipt of slot machines, a slot machine licensee shall file a slot machine master list as required by § 463a.5 (relating to slot machine, electronic wagering terminal and fully automated electronic gaming table master lists).

(o) The testing of equipment, devices or software under this subpart may require the dismantling of the product and testing that may result in damage to, or destruction of, one or more systems or components. Once submitted for testing, equipment, devices or software will not be returned to the manufacturer.

(p) The Executive Director shall approve, approve with conditions, reject the submitted prototype or modification or require additional testing or a trial period under subsection (h) within 30 days of the complete submission of a slot machine, table game, table game device, interactive game, sports wagering device, video gaming terminal and all associated equipment by a manufacturer or gaming related gaming service provider that has been submitted to the Board

for abbreviated certification with a testing report from a registered private testing and certification facility. The following apply:

(i) A submission will not be considered complete if it does not contain all necessary documentation as required by subsection (g)(11).

(ii) If after the submission is made the Bureau of Gaming Laboratory Operations determines that a submission is incomplete, the manufacturer or gaming related gaming service provider will be given written notice of the deficiencies in the submission.

(iii) In the instance of an incomplete submission, the 30-day review for abbreviated certification will only begin when the manufacturer or gaming related gaming service provider provides the supplemental information to the Bureau of Gaming Laboratory Operations.

(q) If the Executive Director fails to approve, approve with conditions, reject the submitted prototype or modification or require additional testing or a trial period under subsection (h) within 30 days of the completed submission a slot machine, table game device, interactive game, sports wagering device, video gaming terminal and all associated equipment submitted to the Board for abbreviated certification, the abbreviated certification shall be deemed conditionally approved until the Executive Director renders a decision under subsection (i).

(r) If a manufacturer or gaming related gaming service provider has provided a complete submission to the Bureau of Gaming Laboratory Operations for abbreviated certification but the review of the submission cannot feasibly be completed within 30 days, the manufacturer or gaming related gaming service provider will receive written notice tolling the review of the submission until a time as a review of the submission can be completed.

(s) If during the 30-day review period in subsection (p), the Bureau of Gaming Laboratory Operations preliminarily determines that a complete submission of a slot machine, table game, interactive game, sports wagering device, video gaming terminal and all associated equipment contains an issue or insufficiency likely to negatively affect the integrity of gaming operations, the Bureau of Gaming Laboratory Operations, by written notice to the manufacturer or gaming related gaming service provider, will do all of the following:

(i) Specify the nature of the insufficiency.

(ii) Direct that the 30-day review period in subsection (p) be tolled and that any slot machine, table game, table game device, interactive game, sports wagering device, video gaming terminal or any associated equipment not be implemented until approved under subsection (q).

The Board may revoke the approval of or impose additional conditions on a slot machine prototype, associated equipment prototype, or modification thereto, if the equipment, device or software meets either of the following criteria:

(1) The equipment, device or software is not in compliance with the act, this subpart or technical standards adopted by the Board and published in the *Pennsylvania Bulletin* and posted on the Board's web site.

(2) The slot machine, or modification thereto, is not compatible with, or compliant with the central control computer and protocol specifications approved by the Department or is unable to communicate with the central control computer for the purpose of transmitting auditing program information, real time information retrieval and activation and disabling of slot machines.

§ 461a.7. Slot machine minimum design standards.

(a) A slot machine may not be set to pay out less than the theoretical payout percentage, which may not be less than 85%, calculated using the lowest possible wager that could be played for any single play, or equal or exceed 100%, calculated using the highest eligible wager available. The theoretical payout percentage for the total value of slot machine wagers will be calculated using the following:

(1) The defined set of all symbols that will be displayed using spinning reels or video displays, or both.

(2) The finite set of all possible combinations which shall be known as the cycle of the game. All possible combinations in a slot machine cycle shall be independent of each other and of all possible combinations from cycles in other slot machines.

(3) The value of each winning combination that corresponds with the set from paragraph (2) which, whether by reason of skill or application of the element of chance or both, may deliver or entitle the person or persons playing the slot machine to a jackpot.

(4) A payout of merchandise or anything of value provided a cash equivalent award for the merchandise is offered. The value of the cash equivalent will contribute to the calculation of the theoretical payout percentage.

(5) A payout in the form of an annuity will contribute to the calculation of the theoretical payout percentage by dividing the initial or reset amount of the jackpot payout by the number of years over which the jackpot will be paid.

(6) The odds of any winning combination may not exceed 50 million to 1.

(b) The calculation of the theoretical payout percentage will not include:

(1) The amount of any progressive jackpot in excess of the initial or reset amount.

(2) A cash or noncash complimentary issued under § 465.8 (relating to complimentary services or items).

(c) A play offered by a slot machine may not have a theoretical payout percentage which is less than, when calculated to one hundredth of a percentage point, the theoretical payout percentage for any other play offered by that slot machine which is activated by a slot machine wager in a lesser amount than the slot machine wager required for that play. Notwithstanding the foregoing, the theoretical payout percentage of one or more particular plays may be less than the theoretical payout percentage of one or more plays which require a lesser wager provided that:

(1) The aggregate total of the decreases in the theoretical payout percentage for plays offered by the slot machine is not more than 1/2 of 1%.

(2) The theoretical payout percentage for every play offered by the slot machine is equal to or greater than the theoretical payout percentage for the play that requires the lowest possible wager that will activate the slot machine.

(d) The selection from the set of all possible combinations of symbols shall be made applying a pseudo random number generator. At a minimum, a pseudo random number generator must adhere to the following criteria:

(1) The random selection process must meet a 95% confidence interval.

(2) A random number generator must pass a standard chi-squared test for goodness of fit.

(3) Each possible slot machine combination which produces winning or losing slot machine outcomes must be available for random selection at the initiation of each play.

(4) A slot machine payout percentage that may be affected by reason of skill must meet the theoretical payout requirements of this subpart when evaluated by the Board using a method of play that will provide the greatest return to the player.

(5) Once a random selection process has occurred, the slot machine must:

(i) Display an accurate representation of the randomly selected outcome.

(ii) Not make a secondary decision which affects the result shown to the person playing the slot machine.

(e) A slot machine is prohibited from automatically altering any function of the slot machine based on internal computation of the hold percentage.

(f) The available winning combinations and applicable rules of play for a slot machine shall be available at all times the slot machine is idle to the patron playing the slot machine. The award schedule of available winning combinations may not include possible aggregate awards achievable from free plays. A slot machine that includes a strategy choice must provide mathematically sufficient information for a patron to use optimal skill. Information regarding a strategy choice need not be made available for any strategy decisions whenever the patron is not required, in addition to the initial wager, to make an additional wager and, when as a result of playing a strategy choice, the patron cannot lose any credits earned thus far during that game play.

(i) The meters required under subsection (g) must continuously and automatically increment in units equal to the denomination of the slot machine or, in the case of a slot machine configured for multidomination play, must display the required information in dollars and cents.

(j) A slot machine approved for use in a licensed facility must be equipped with the following noncumulative meters:

§ 461a.11. (Reserved).

§ 461a.12. Progressive slot machines.

(a) A progressive slot machine may stand alone or be linked with other progressive slot machines.

(b) Each slot machine that offers a progressive jackpot must have:

(1) A progressive meter, visible from the front of the slot machine, which may increase in value based upon wagers, that advises the player of the amount which can be won if the player receives the combination on the slot machine that awards the progressive jackpot.

(2) A slot machine paid progressive payout meter in accordance with § 461a.7(g) (relating to slot machine minimum design standards).

(3) A slot attendant paid progressive payout meter in accordance with § 461a.7(g).

(4) A cumulative progressive payout meter that continuously and automatically records the total value of progressive jackpots paid directly by the slot machine or by a slot attendant.

(5) A key and key switch or other reset mechanism to reset the progressive meter or meters.

(6) A key locking the compartment housing the progressive meter or meters or other means by which to preclude any unauthorized alterations to the progressive meters. The key or alternative security method must be different than the key or reset mechanism in paragraph (5).

(7) If the progressive controller is not secured in a slot machine, the progressive controller:

(i) Must be maintained in a secure area approved by the Bureau of Gaming Laboratory Operations.

(ii) Must be dual key controlled with one key controlled by the slot operations department and the other key controlled by a different designated department with no incompatible functions, as specified in the licensee's internal controls.

(iii) May not be accessed until the Bureau of Gaming Laboratory Operations is electronically notified.

(c) In addition to the requirements in subsection (b), a slot machine that is connected to a common progressive meter for the purpose of offering the same progressive jackpot on two or more slot machines must:

(1) Have the same probability of hitting the combination that will award the progressive jackpot as every other slot machine linked to the common progressive meter.

(2) Require that the same amount in wager be invested to entitle the player to a chance at winning the progressive jackpot and that each increase in wager increment the progressive meter by the same rate of progression as every other slot machine linked to the common progressive meter.

(d) Notwithstanding the provisions of subsection (c), two or more linked slot machines offering the same progressive jackpot may be of different denominations or have different wagers, or both, required to win the progressive jackpot, provided that:

(1) The probability of winning the progressive jackpot is directly proportional to the wager required to win that jackpot.

(2) Notice indicating the proportional probability of hitting the progressive jackpot on the linked progressive system is conspicuously displayed on each linked slot machine.

(e) A slot machine licensee seeking to utilize a linked slot machine shall submit for approval in accordance with § 461a.4 (relating to submission for testing and approval) the location and manner of installing any progressive meter display mechanism.

(f) A slot machine that offers a progressive jackpot may not be placed on the gaming floor until the slot machine licensee or, as applicable, the slot system operator, has submitted the following to the Bureau of Gaming Laboratory Operations for review and approval in accordance with § 461a.4:

(1) The initial and reset amounts at which the progressive meter or meters will be set.

(2) The proposed system for controlling the keys and applicable logical access controls to the slot machines.

(3) The proposed rate of progression for each progressive jackpot.

(4) The proposed limit for the progressive jackpot, if any.

(5) The calculated probability of winning each progressive jackpot. The probability may not exceed 50 million to 1. Notwithstanding the foregoing, this paragraph does not apply to a jackpot with a probability that may exceed 50 million to 1 during the game cycle due solely to the intervening occurrence of free play awards between the activation of a play and the award of the jackpot.

(g) A slot machine that offers either a new progressive jackpot or undergoes a modification or RAM clear of an existing progressive jackpot may not be made available for play by the public until the slot machine has been tested and certified by the Bureau of Gaming Laboratory Operations. For purposes of this subsection, a modification includes any change in the software, hardware, including controllers, and any associated equipment that relates to progressive functionality.

(h) Progressive jackpot meters may not be turned back to a lesser amount unless one of the following occurs:

(2) With written approval, the progressive jackpot has been transferred to another progressive slot machine or wide area progressive system in accordance with subsection (k)(4).

(3) The change is necessitated by a slot machine or meter malfunction. An explanation for the change shall be entered on the progressive slot summary required under this subpart and the Bureau of Gaming Laboratory Operations shall be notified of the resetting in writing.

(i) Once an amount appears on a progressive meter, the probability of hitting the combination that will award the progressive jackpot may not be decreased unless the progressive jackpot has been won by a patron, has been transferred to another progressive slot machine or wide area progressive system or has been removed in accordance with subsection (k).

(j) When a slot machine has a progressive meter with digital limitations on the meter, the slot machine licensee shall set a limit on the progressive jackpot not to exceed the display capability of the progressive meter.

(k) A slot machine licensee or, as applicable, a slot system operator, may limit, transfer or terminate a progressive jackpot offered on a gaming floor only under the following circumstances:

(1) A slot machine licensee may establish a payout limit for a progressive jackpot provided that the payout limit is greater than the then current payout amount on the progressive jackpot meter. The slot machine licensee shall provide notice to and receive written approval from the Bureau of Gaming Laboratory Operations prior to the imposition of a payout limit on a progressive meter or a modification thereto.

(2) A slot machine licensee may terminate a progressive jackpot concurrent with the winning of the progressive jackpot provided its slot machine program or progressive controller was configured prior to the winning of the progressive jackpot to establish a fixed reset amount with no progressive increment.

(3) A slot machine licensee may immediately and permanently remove one or more linked slot machines from a gaming floor, provided that:

(i) When the slot machine is part of a wide area progressive system offered at multiple licensed facilities, the slot machine licensee retains at least one linked slot machine offering the same progressive jackpot on its gaming floor.

(ii) When the progressive jackpot is only offered in a single licensed facility, at least two linked slot machines offering the same progressive jackpot remain on the gaming floor.

(4) A slot machine licensee may transfer a progressive jackpot amount on a stand alone slot machine or the common progressive jackpot on an entire link of slot machines with a common progressive meter, including a wide area progressive system, from a gaming floor provided the slot machine licensee receives written approval from the Bureau of Gaming Laboratory Operations prior to the transfer and the accrued amount minus the seed amount of the progressive jackpot is:

(i) Transferred in its entirety.

(ii) Transferred to one of the following:

(A) The progressive meter for a slot machine or wide area progressive system with the same or similar probability of winning the progressive jackpot, the same or lower wager requirement to be eligible to win the progressive jackpot, and the same type of progressive jackpot (cash, annuity, annuity/cash option or a combination/alternate jackpot).

(B) The progressive meters of two separate slot machines or wide area progressive systems, provided that each slot machine or wide area progressive system to which the jackpot is transferred individually satisfies the requirements of clause (A).

(iii) Notice of intent to transfer the progressive jackpot is conspicuously displayed on the front of each slot machine for at least 30 days.

(5) If a transfer cannot be made in accordance with subsection (k)(4) or with good cause shown, a slot machine licensee may remove progressive functionality, change the game theme or permanently remove a stand alone progressive slot machine, an entire link of slot machines with a common progressive jackpot or an entire wide area progressive system from a gaming floor, provided:

(i) Notice of intent to remove the progressive slot machines or wide area progressive systems is conspicuously displayed on the front of each slot machine for at least 30 days.

(ii) Prior to posting the notice of intent required under subsection (k)(5)(i), the slot machine licensee receives written approval from the Bureau of Gaming Laboratory Operations to remove the progressive slot machines or wide area progressive systems.

(l) Progressive slot machines and wide area progressive systems removed from the gaming floor in accordance with subsection (k)(5) may not be returned to the gaming floor for 90 days.

(m) The amount indicated on the progressive meter or meters and coin in meter on each slot machine governed by subsection (b) shall be recorded on a progressive slot summary report at least once every 7 calendar days and each report shall be signed by the preparer. If not prepared by the finance department, the progressive slot summary report shall be forwarded to the finance department by the end of the gaming day on which it is prepared. A representative of

the finance department shall be responsible for calculating the correct amount that should appear on a progressive meter. If an adjustment to the progressive meters is necessary, the adjustment shall be made by a member of the slot operations department as follows:

(1) Supporting documentation shall be maintained to explain any addition or reduction in the registered amount on the progressive meter. The documentation must include the date, asset number of the slot machine, the amount of the adjustment and the signatures of the finance department member requesting the adjustment and of the slot operations department member making the adjustment.

(2) The adjustment must be effectuated within 48 hours of the meter reading.

(n) Except as otherwise authorized by this section, a slot machine offering a progressive jackpot that is temporarily removed from the gaming floor shall be returned to active play or replaced on the gaming floor within 5 gaming days. The amount on the progressive meter or meters on the returned or replacement slot machine may not be less than the amount on the progressive meter or meters at the time of removal. This subsection does not apply to the temporary removal by a slot machine licensee, for a period not to exceed 30 days, of all linked slot machines that are part of a particular wide area progressive system, provided that the progressive jackpot offered by the temporarily removed slot machines remains available on slot machines that are part of the same wide area progressive system in another licensed facility.

(o) When a slot machine is located adjacent to a slot machine offering a progressive jackpot, the slot machine licensee shall conspicuously display a notice advising patrons that the slot machine is not participating in the progressive jackpot of the adjacent slot machine.

(j) A slot system operator may not commence operation and administration of a wide area progressive system under the terms of a slot system agreement until the agreement itself and the internal controls required under subsection (h) have been approved and the slot system operator has complied with any licensing requirements under subsection (i).

(k) When a slot system agreement involves payment to a licensed manufacturer, functioning as a slot system operator, of an interest, percentage or share of a slot machine's licensee's revenue, profits or earnings from the operation of a wide area progressive system, the Board will evaluate the slot system agreement to determine if the total amounts paid to the licensed manufacturer under the terms of the agreement are commercially reasonable for the operational and administrative services provided.

(l) Each party to a slot system agreement shall be liable for acts, omissions and violations of the act and this part related to its own individual duties and responsibilities under the slot system agreement, unless the slot system agreement specifically provides that the parties will be jointly and severally liable.

(m) The Executive Director may waive one or more of the technical requirements applicable to wide area progressive systems adopted by the Board upon a determination that the wide area progressive system as configured nonetheless meets the operational integrity requirements of the act and this part.

The objection will:

(1) Specify the nature of the objection and, when possible, an acceptable alternative.

I am aware that my signature below constitutes a revocation of my previous request for casino self-exclusion, and I authorize the Board to permit all slot machine licensees of the Commonwealth of Pennsylvania to reinstate my gaming privileges at licensed facilities or other locations approved by the Board to conduct gaming activity.”

(d) A person submitting a Request for Removal from Voluntary Self-Exclusion Form shall be required to present or submit a copy of that person's valid government-issued identification containing the person's signature and photograph when the form is submitted electronically or during the person's scheduled appointment, or if the person does not possess a valid government-issued identification, some other documentation to verify the identity of the person (for example, a utility or other bill in the person's name at the same address provided).

(e) Within 5 business days after the completed Request for Removal from Voluntary Self-Exclusion Form is accepted by Board staff, the OCPG will delete the name of the individual from the casino self-exclusion list. An individual who was removed from the voluntary casino self-exclusion list may not enter the gaming floor, areas off the gaming floor where contests or tournaments are conducted or engage in gaming related activities for 7 business days from the date Board staff accepts the complete Request for Removal from Voluntary Self-Exclusion Form.

(4) The petition shall be handled in accordance with the procedures for petitions found in Subpart H of the Board's regulations, including all confidentiality provisions.

(5) As the petitioner, the lifetime casino self-excluded individual filing the petition for removal from the casino self-exclusion list bears the burden of proof in showing that removal from the list would not be detrimental to the individual's physical or mental well-being and would not have a negative impact on gaming in the Commonwealth.

(6) If the Board:

(i) Grants the petition, it shall deliver to the individual by first class mail an Order approving the petition for removal from the casino self-exclusion list, and provide to the individual the contact information for OCPG for information on how to complete the removal process.

(ii) Denies the petition, it shall deliver to the individual by first class mail an Order denying the petition for removal from the casino self-exclusion list, which shall notify the individual that he or she shall remain on the casino self-exclusion list and include the reason for denial.

The petition must include information demonstrating that the individual satisfies the criteria for exclusion or ejection under section 1514 of the act or this chapter.

(c) In addition to filing the petition for exclusion, if exigent circumstances exist, the Office of Enforcement Counsel may file a request for a temporary emergency order in accordance with § 403a.7 (relating to temporary emergency orders) provided that:

Upon receipt of the petition, the Office of Enforcement Counsel may file an answer in accordance with § 493a.5 (relating to answers to complaints, petitions, motions and other filings requiring a response).

€ An excluded person who is barred from requesting a hearing concerning his removal from the exclusion list by the 5-year period of exclusion in subsection (a) may petition the Board for early consideration at any time. However, an excluded person may not, within the 5-year period of exclusion, file more than one petition for early consideration.

(d) A petition for early consideration must contain the information required under subsection (b). Upon receipt of the petition, the Office of Enforcement Counsel may file an answer in accordance with § 493a.5.

The face of the ace, king, queen, jack and 10 may contain an additional marking, approved in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment), which will permit a dealer, prior to exposing his hole card at the game of Blackjack, to determine if the value of the hole card gives the dealer a Blackjack.

(d) The backs of each card in a deck must be identical and no card may contain any marking, symbol or design that will enable a person to know the identity of any element printed on the face of the card or that will in any way differentiate the back of the card from any other card in the deck.

(e) The backs of all cards in a deck shall be designed to diminish, as far as possible, the ability of any individual to place concealed markings thereon.

Boxes that do not satisfy these criteria shall be inspected at this time to assure that the decks of cards contained therein conform to the requirements of this chapter and there is no evidence of tampering. Boxes satisfying these criteria, together with boxes having unbroken, intact and untampered seals shall then be placed for storage in a storage area, the location and physical characteristics of which shall be approved by the Bureau of Casino Compliance in accordance with § 601a.10(f) (relating to approval of table game layouts, signage and equipment). (9) When the preinspected and reshuffled cards are needed for play, each container of cards shall be delivered by a floorperson or above to an open gaming table. (10) The dealer at the gaming table shall then cut the cards in the manner prescribed by the rules governing the particular table game.

(v) A certificate holder may use preinspected and reshuffled decks or batches of decks obtained from a licensed manufacturer or supplier in the same manner as decks or batches of decks that are preinspected and reshuffled under subsection (u) if the licensed manufacturer or supplier has been approved to provide preinspected and reshuffled decks or batches of decks by the Board's Executive Director.

§ 621a.2. Pai Gow table; Pai Gow shaker; physical characteristics.

(a) Pai Gow shall be played at a table having betting positions for six players on one side of the table and a place for the dealer on the opposite side of the table.

(b) The layout for a Pai Gow table shall be submitted to the Bureau of Gaming Operations and approved in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment) and contain, at a minimum:

(1) The name or logo of the certificate holder.

(2) A separate betting area designated for the placement of the Pai Gow Wager for each player.

(3) A separate area, located to the left of the dealer, for the placement of four tiles which shall be referred to as the Dead Hand.

(4) If the certificate holder offers the optional Pair Fortunes Wager authorized under § 621a.5(e)(1) (relating to wagers):

(i) A separate betting area designated for the placement of the Pair Fortunes Wager for each player.

(ii) Inscriptions that advise patrons of the payout odds for the Pair Fortunes Wager. If the payout odds are not inscribed on the layout, a sign identifying the odds shall be posted at each Pai Gow table.

(5) If the certificate holder is offering a wager based on the value of the dice in the manual or player-activated Pai Gow shaker, each player's wagering position must have:

(i) A separate betting area designated for the placement of the Sum Wager, if offered by the certificate holder, authorized under § 621a.5(e)(2).

(ii) Six separate betting areas designated for the placement of the Match Wager, if offered by the certificate holder, authorized under § 621a.5(e)(3).

(iii) A separate betting area designated for the placement of the Beat It Wager, if offered by the certificate holder, authorized under § 621a.5(e)(4).

(iv) A player-activation button if player-activated Pai Gow is being offered by the certificate holder.

(c) Each Pai Gow table must have a drop box with a tip box attached on the same side of the gaming table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g).

(d) Pai Gow shall be played with a Pai Gow shaker, approved in accordance with § 601a.10(a), used to shake three dice before each hand of Pai Gow is dealt to determine the starting position for the dealing of the Pai Gow tiles. The Pai Gow shaker shall be the responsibility of the dealer and may not be left unattended at the table. The Pai Gow shaker must be designed and constructed to maintain the integrity of the game and:

(1) Be capable of housing three dice that when not being shaken must be maintained within the Pai Gow shaker. Dice that have been placed in a Pai Gow shaker for use in gaming may not remain on a table for more than 24 hours.

(2) Be designed to prevent the dice from being seen while being shaken.

(3) Have the name or logo of the certificate holder imprinted or impressed thereon.

(e) If a certificate holder elects to use a computerized random number generator as permitted under § 621a.6 (relating to procedures for dealing the tiles; settling of wagers based on value of dice), the random number generator shall be approved by the Bureau of Gaming Laboratory Operations in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use.

(f) Notwithstanding subsection (d), a certificate holder may utilize a player-activated Pai Gow shaker to determine the starting position for the dealing of the Pai Gow tiles provided that the shaker is submitted to the Bureau of Gaming Laboratory Operations for approval in accordance with § 461a.4 prior to its use. The player-activated Pai Gow shaker must:

(1) Have the capability of being sealed or locked to ensure the integrity of the three dice contained inside the shaker. Dice used inside the shaker must comply with § 603a.12(b) (relating to dice; physical characteristics) and if offering the Beat It Wager authorized under § 621a.5(e)(4)(i), one red and two blue dice must be used in the shaker.

(2) Shake the dice for at least 5 seconds to cause a random mixing of the dice.

§ 621a.3. Pai Gow tiles; ranking of hands, pairs and tiles; value of the hand.

(a) Each tile used in the game of Pai Gow must comply with the requirements in § 603a.18 (relating to Pai Gow tiles; physical characteristics) and contain the identifying spots listed in subsection (h).

(b) Tiles used in Pai Gow shall be changed at least every 12 hours.

(c) When comparing high hands or low hands to determine the higher ranking hand, the determination shall first be based upon the rank of any permissible pair of tiles which are in the hands. A hand with a permissible pair of tiles shall rank higher than a hand which does not contain a permissible pair. The permissible pairs of tiles and their rank, with the Supreme Pair being the highest or first ranking pair, are as follows:

<i>Ranking</i>	<i>Pairing</i>
	<i>Supreme Pair</i>
First	Six (2-4) and Three (1-2)
	<i>Matched Pairs</i>
Second	Twelve (6-6) and Twelve (6-6)
Third	Two (1-1) and Two (1-1)
Fourth	Eight (4-4) and Eight (4-4)
Fifth	Four (1-3) and Four (1-3)
Sixth	Ten (5-5) and Ten (5-5)
Seventh	Six (3-3) and Six (3-3)
Eighth	Four (2-2) and Four (2-2)
Ninth	Eleven (5-6) and Eleven (5-6)
Tenth	Ten (4-6) and Ten (4-6)
Eleventh	Seven (1-6) and Seven (1-6)
Twelfth	Six (1-5) and Six (1-5)
	<i>Mixed or Unmatched Pairs</i>
Thirteenth	Mixed Nines (3-6 and 4-5)
Fourteenth	Mixed Eights (3-5 and 2-6)
Fifteenth	Mixed Sevens (3-4 and 2-5)
Sixteenth	Mixed Fives (1-4 and 2-3)
	<i>Wongs</i>
Seventeenth	Twelve (6-6) and Nine (4-5) Twelve (6-6) and Nine (3-6)
Eighteenth	Two (1-1) and Nine (4-5) Two (1-1) and Nine (3-6)
	<i>Gongs</i>
Nineteenth	Twelve (6-6) and Eight (2-6) Twelve (6-6) and Eight (3-5) Twelve (6-6) and Eight (4-4)
Twentieth	Two (1-1) and Eight (2-6) Two (1-1) and Eight (3-5) Two (1-1) and Eight (4-4)

(d) When comparing two high hands or two low hands that are of identical permissible pair rank, the hand shall be considered a copy hand and the dealer or, if applicable, the bank shall win the hand.

(e) Except as provided in subsection (g), when comparing the rank of high hands or low hands which do not contain any of the pairs listed in subsection (c), the higher ranking hand shall be determined on the basis of the value of the hands. The value of a hand shall be a single digit

number from zero to nine and shall be determined by adding the total number of spots which are contained on the two tiles which form the hand. If the total of the spots is a two-digit number, the left digit of the number shall be discarded and the right digit shall constitute the value of the hand. Examples of this rule are as follows:

(1) A hand composed of a Two (1-1) and a Six (3-3) has a value of 8.

(2) A hand composed of an Eleven (5-6) and a Seven (1-6) has a numeric total of 18 but a value of 8 since the left digit in the number 18 is discarded.

(f) If the tiles which form the Supreme Pair are used separately, the numeric total of the 1-2 tile may be counted as a 3 or a 6 and the numeric total of the 2-4 tile may be counted as a 3 or a 6. When the 1-2 tile is counted as 6, its individual ranking under subsection (h) shall be fifteenth instead of seventeenth and when the 2-4 tile is counted as 3, its individual ranking shall be seventeenth instead of fifteenth.

(g) When comparing high hands or low hands which are of identical value, the hand with the highest ranking individual tile shall be considered the higher ranking hand. If, however, the numeric value of the tiles results in a zero-zero tie, both hands, regardless of the highest ranking tile, are equally bad and the dealer or, if applicable, the bank shall be considered the higher ranking hand.

(h) The individual ranking for each tile, from highest rank to lowest rank, is as follows:

<i>Ranking</i>	<i>Tile</i>	<i>Number of Tiles in Set</i>
First	Twelve (6-6)	2
Second	Two (1-1)	2
Third	Eight (4-4)	2
Fourth	Four (1-3)	2
Fifth	Ten (5-5)	2
Sixth	Six (3-3)	2
Seventh	Four (2-2)	2
Eighth	Eleven (5-6)	2
Ninth	Ten (4-6)	2
Tenth	Seven (1-6)	2
Eleventh	Six (1-5)	2
Twelfth	Nine (3-6)	1
Twelfth	Nine (4-5)	1
Thirteenth	Eight (2-6)	1
Thirteenth	Eight (3-5)	1
Fourteenth	Seven (2-5)	1
Fourteenth	Seven (3-4)	1
Fifteenth	Six (2-4)	1

Sixteenth	Five (1-4)	1
Sixteenth	Five (2-3)	1
Seventeenth	Three (1-2)	1

(i) If the highest ranking tile in each hand being compared is of identical rank after the application of subsection (h), the hand shall be considered a copy hand, and the hand of the dealer or, if applicable, the bank shall be considered the higher ranking hand.

§ 621a.4. Opening of the table for gaming; mixing procedures.

(a) After receiving one set of tiles at the table, the dealer shall sort and inspect the tiles and the floorperson assigned to the table shall verify the inspection. Nothing in this section precludes a certificate holder from cleaning the tiles prior to the inspection required herein. The tiles at the gaming table shall be inspected as follows:

(1) Each set of tiles shall be sorted into pairs to assure that the Supreme Pair and all 15 matched and unmatched pairs, as identified in § 621a.3 (relating to Pai Gow tiles; ranking of hands, pairs and tiles; value of the hand), are in the set.

(2) Each tile shall be placed side by side to determine that all tiles are the same size and shading.

(3) The back and sides of each tile shall be examined to assure that it is not flawed, scratched or marked in any way.

(i) If the dealer finds that certain tiles are unsuitable for use, a floorperson or above shall bring another set of tiles to the table from the reserve in the pit stand.

(ii) The unsuitable set of tiles shall be placed in a sealed envelope or container, identified by table number, date and time and signed by the dealer and floorperson or above.

(b) Following the inspection of the tiles and the verification by the floorperson assigned to the table, the tiles shall be turned face up, placed into 16 pairs and arranged according to rank starting with the Supreme Pair. The tiles shall be left in pairs for visual inspection by the first player to arrive at the table.

(c) After the first player arriving at the table is afforded an opportunity to visually inspect the tiles, the tiles shall be turned face down on the table and mixed thoroughly.

(d) The dealer shall mix the tiles with the heels of the hands. The dealer shall mix the tiles in a circular motion with one hand moving clockwise and the other hand moving counterclockwise. Each hand shall complete at least eight circular motions to provide a random mixing. The dealer shall then randomly pick up four tiles with each hand and place them side by side in stacks in front of the table inventory container, forming eight stacks of four tiles.

(e) If during the stacking process described in subsection (d), a tile is turned over and exposed to the players, the entire set of tiles shall be remixed.

(f) After each round of play has been completed, the dealer shall turn all of the tiles face down and mix the tiles in accordance with subsection (d).

(g) If there is no gaming activity at the Pai Gow table, the tiles shall be turned face up and placed into 16 pairs according to rank starting with the Supreme Pair. Once a player arrives at the table, the dealer shall follow the procedures in subsections (c) and (d).

§ 621a.5. Wagers.

(a) Wagers at Pai Gow shall be made by placing value chips or plaques on the appropriate areas of the Pai Gow layout. Verbal wagers accompanied by cash may not be accepted.

(b) Only players who are seated at the Pai Gow table may place a wager. Once a player has placed a wager and received tiles, that player shall remain seated until the completion of the round of play. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and treated as losing wagers.

(c) All wagers at Pai Gow shall be placed prior to the dealer announcing “no more bets” in accordance with the dealing procedures in § 621a.6 (relating to procedures for dealing the tiles; settling of wagers based on value of dice). Verbal wagers accompanied by cash may not be accepted. A wager may not be made, increased or withdrawn after the dealer has announced “no more bets.”

(d) To participate in a round of play and compete against the dealer's high and low hands, a player shall place a Pai Gow Wager.

(e) If specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), a certificate holder may offer to each player who placed a Pai Gow Wager in accordance with subsection (d) the option of placing the following additional wagers:

(1) A Pair Fortunes Wager which shall win if any of the four tiles dealt to a player contains a Gee Joon Pair, Heaven Pair, Identical Pair or Mixed Pair. The Pair Fortunes Wager does not have bearing on any of the player's other wagers.

(2) A Sum Wager, which shall be based on the value of the dice in the manual or player-activated Pai Gow Shaker and shall win depending on the payable selected by the certificate holder, if:

17. (i) The total of the three dice in the Pai Gow shaker is equal to an 8, 16 or
- (ii) The total of the three dice is equal to a 3, 8 or 9.
- (iii) At least two of the dice are matching.
- (iv) The three dice form a series, such as a 1, 2 and 3, or 3, 4 and 5.

(3) A Match Wager, which shall be based on the value of the dice in the manual or player-activated Pai Gow shaker and shall win if at least two of the dice in the Pai Gow shaker match the value selected by the player. For example, a player's Match Wager on the 1 shall win if two or three of the dice rolled is a 1.

(4) A Beat It Wager, which shall be based on the value of the dice in the manual or player-activated Pai Gow shaker and shall win depending on the payout table selected by the certificate holder in its Rules Submission, if:

(i) The red die in the Pai Gow shaker is equal in value to or greater than the sum of the two blue dice. For example, a player's Beat It Wager shall win if the red die is a 6 and the two blue dice are a 2 and a 1 for a total of 3.

(ii) Any single dice beats the sum of the two other dice by 1 to 4 points. For example, a player's Beat It Wager shall win if the dice rolled are a 5, a 1 and a 1 ($5 - (1 + 1) = 3$).

(f) Except as provided in § 621a.9(f) (relating to player bank; co-banking; selection of bank; procedures for dealing), a certificate holder may, if specified in its Rules Submission under § 601a.2, permit a player to wager on two adjacent betting areas at a Pai Gow table. If a certificate holder permits a player to wager on adjacent betting areas, the tiles dealt to each betting area shall be played separately. If the Pai Gow Wagers are not equal, the player shall rank and set the hand with the larger wager before ranking and setting the other hand. If the amounts wagered are equal, each hand shall be played separately in a counterclockwise rotation with the first hand being ranked and set before the player proceeds to rank and set the second hand. Once a hand has been ranked, set and placed face down on the layout, the hands may not be changed.

§ 621a.6. Procedures for dealing the tiles; settling of wagers based on value of dice.

(a) After the dealer has completed mixing and stacking the tiles, the dealer shall either:

(1) Announce “no more bets” and use a computerized random number generator that automatically selects and displays a number.

(2) Announce “no more bets” and shake the Pai Gow shaker at least three times to cause a random mixture of the dice. The dealer shall then remove the lid covering the Pai Gow shaker and place the uncovered Pai Gow shaker on the designated area of the table layout.

(3) Announce “no more bets” and instruct a player to activate the Pai Gow shaker by pressing an activation button at the player's wagering position.

(b) If the certificate holder is utilizing a manual or player-activated Pai Gow shaker as provided in subsection (a)(2) or (3) and is offering Sum, Match and Beat It Wagers, after the dice come to rest, the dealer shall announce the numeric value of each die and determine if the player has a winning Sum, Match or Beat It Wager as described in § 621a.5(e)(2)—(4) (relating to wagers). The dealer shall settle the wagers by collecting all losing wagers and paying out winning wagers in accordance with § 621a.11(c)—(e) (relating to payout odds; vigorish).

(c) After settling the player's Sum, Match and Beat It Wagers, if applicable, the dealer shall then use the total of the dice or the number displayed by the computerized random number generator to determine which player receives the first stack of tiles. To determine the starting position for dealing the tiles, the dealer shall count each betting position in order, regardless of whether there is a wager at the betting position, and the Dead Hand, beginning with the dealer as number one and continuing around the table in a counterclockwise manner, until the count matches the total of the three dice or the number displayed by the computerized random number generator. Examples are as follows:

(1) If the dice total 9, the dealer would receive the first stack of four tiles.

(2) If the dice total 15, the sixth wagering position would receive the first stack of four tiles.

(d) The dealer shall deal the first stack of four tiles, starting from the right side of the eight stacks, to the starting position as determined in subsection (c) and, moving counterclockwise around the table, deal all other positions including the Dead Hand and the dealer a stack of tiles, regardless of whether there is a wager at the position. The dealer shall place a marker on top of his stack of tiles immediately after they are dealt.

(e) After all the stacks of tiles have been dealt, the dealer shall, without exposing the tiles, collect any stacks dealt to a position where there is no wager and place the stacks with the Dead Hand on the layout to the left of the dealer in front of the table inventory container.

(f) If a manual Pai Gow shaker is utilized, once all tiles have been dealt and any tiles dealt to positions with no wagers have been collected, the dealer shall place the cover on the Pai Gow shaker and shake the shaker once. The Pai Gow shaker shall then be placed to the right of the dealer.

§ 621a.7. Alternative dealing procedures.

As an alternative to the procedure in § 621a.6 (relating to procedures for dealing the tiles; settling of wagers based on value of dice), the dealer or the player acting as the bank or co-bank may, if specified in the certificate holder's Rules Submission under § 601a.2 (relating to table games Rules Submissions), choose any of the following dealing styles:

(1) *House Way From the Left*. The dealer shall indicate the use of House Way From the Left by pushing forward the first stack of tiles on the dealer's left. The dealer shall deliver the stack pushed forward to the starting position. The remaining stacks of tiles shall be delivered from the dealer's left to right.

(2) *Cup Say (pick four) From the Right*. The dealer shall indicate the use of Cup Say From the Right by pushing forward the first two stacks of tiles on the dealer's right. The dealer shall deliver the top two tiles from each of the two stacks pushed forward to the starting position. The four remaining tiles pushed forward shall be delivered to the next position. The remaining stacks of tiles shall be delivered from the dealer's right to left in the same manner as the first two stacks.

(3) *Cup Say (pick four) From the Left.* The dealer shall indicate the use of Cup Say From the Left by pushing forward the first two stacks of tiles on the dealer's left. The dealer shall deliver the top two tiles from each of the two stacks pushed forward to the starting position. The four remaining tiles pushed forward shall be delivered to the next position. The remaining stacks of tiles shall be delivered from the dealer's left to right in the same manner as the first two stacks.

(4) *Jung Quat (take the heart).* The dealer shall indicate the use of Jung Quat by pushing forward the fourth stack of tiles from the dealer's right and the fourth stack of tiles from the dealer's left (the two center stacks of the eight). The dealer shall deliver the top two tiles from each of the two stacks pushed forward to the starting position. The four remaining tiles pushed forward shall be delivered to the next position. The remaining stacks shall be pushed together and the two new center stacks shall be pushed forward and delivered in the same manner as the first two stacks. This procedure shall be repeated until all eight stacks of tiles have been delivered.

(5) *Chee Yee (chop the ears).* The dealer shall indicate the use of Chee Yee by pushing forward the first stack of tiles on the dealer's right and the first stack of tiles on the dealer's left. To deliver the tiles, the dealer shall center the two stacks pushed forward in front of the remaining stacks. The dealer shall deliver the top two tiles from each of the two centered stacks to the starting position. The four remaining tiles from the two centered stacks shall be delivered to the next position. The dealer shall then center and deliver the first stack remaining on the dealer's right and the first stack remaining on the dealer's left in the same manner. This procedure shall be repeated until all eight stacks of tiles have been delivered.

(6) *Pin Say (slice four) From the Right.* The dealer shall indicate the use of Pin Say From the Right by removing the top tile of the first stack of tiles on the dealer's right and placing it diagonally across the top of the second, third and fourth stacks of tiles from the dealer's right. The dealer shall deliver the top tile from each of the first four stacks on the dealer's right to the starting position (the diagonal tile plus the three tiles it covers). The top tile from each of the first four stacks on the dealer's left shall be delivered to the next position. The top tile remaining on each of the first four stacks on the dealer's right shall be delivered to the third position and the top tile remaining on each of the first four stacks on the dealer's left shall be delivered to the fourth position. This procedure shall be repeated until four tiles have been delivered to all eight positions.

(7) *Pin Say (slice four) From the Left.* The dealer shall indicate the use of Pin Say From the Left by removing the top tile of the first stack of tiles on the dealer's left and placing it diagonally across the top of the second, third and fourth stacks of tiles from the dealer's left. The dealer shall deliver the top tile from each of the first four stacks on the dealer's left to the starting position (the diagonal tile plus the three tiles it covers). The top tile from each of the first four stacks on the dealer's right shall be delivered to the next position. The top tile remaining on each of the first four stacks on the dealer's left shall be delivered to the third position and the top tile remaining on each of the first four stacks on the dealer's right shall be delivered to the fourth position. This procedure shall be repeated until four tiles have been delivered to all eight positions.

(8) *Dragon Head and Phoenix Tail From the Right.* The dealer shall indicate the use of Dragon Head and Phoenix Tail From the Right by placing all four tiles in the first and second stacks from the dealer's right directly on top of the four tiles in the third and fourth stacks from the dealer's right and then pushing forward the top two tiles in each of the eight-tile stacks that are created (forming the dragon head). The dealer shall deliver the four tiles pushed forward to the starting position. The top tile from each of the four stacks of four tiles to the dealer's left (the phoenix tail) shall be delivered to the next position. The dealer shall deliver the top two tiles from each of the two stacks on the dealer's right to the third position and the top tile from each of the four stacks on the dealer's left to the fourth position. This procedure shall be repeated until four tiles have been delivered to all eight positions.

(9) *Dragon Head and Phoenix Tail From the Left.* The dealer shall indicate the use of Dragon Head and Phoenix Tail From the Left by placing all four tiles in the first and second stacks from the dealer's left directly on top of the four tiles in the third and fourth stacks from the dealer's left and then pushing forward the top two tiles in each of the eight-tile stacks that are created (forming the dragon head). The dealer shall deliver the four tiles pushed forward to the starting position. The top tile from each of the four stacks of four tiles to the dealer's right (the phoenix tail) shall be delivered to the next position. The dealer shall deliver the top two tiles from each of the two stacks on the dealer's left to the third position and the top tile from each of the four stacks on the dealer's right to the fourth position. This procedure shall be repeated until four tiles have been delivered to all eight positions.

§ 621a.8. Procedures for completion of each round of play; setting of hands; payment and collection of wagers; payout odds; vigorish.

(a) After the dealing of the tiles has been completed, each player shall set his hands by arranging the tiles into a high hand and low hand. After setting the hands the tiles shall be placed face down on the layout immediately behind that player's betting area and separated into two distinct hands.

(b) Each player at the table shall be responsible for setting his own hands and no other person except the dealer may touch the tiles of that player. If a player requests assistance in the setting of his hands, the dealer shall inform the requesting player of the manner in which the certificate holder requires the hands of the dealer to be set. Each player shall be required to keep the four tiles in full view of the dealer at all times. Once each player has set a high hand and low hand and placed the two hands face down on the layout, the player may not touch the tiles again.

(c) After all players have set their hands and placed the tiles on the table, the four tiles of the dealer shall be turned over and the dealer shall set his hands by arranging the tiles into a high and low hand. The high hand shall be placed on the layout face up in a vertical position and the low hand shall be placed on the layout face up perpendicular to the high hand.

(d) The dealer shall set his hands as follows:

(1) If the dealer has the Supreme Pair, it shall be played as the Supreme Pair.

(2) If possible, the dealer shall always play a pair, Wong or Gong as set forth in § 621a.3 (relating to Pai Gow tiles; ranking of hands, pairs and tiles; value of the hand).

(3) If the dealer does not have any of the combinations in paragraph (1) or (2), the dealer shall play any two tiles together which have a value equal to nine, eight or seven.

(4) If the dealer does not have any of the combinations in paragraph (1), (2) or (3), the dealer shall play the highest ranking tile with the lowest ranking tile.

(e) A player may surrender his wager after the hands of the dealer have been set. The player shall announce his intention to surrender prior to the dealer exposing either of the two hands of that player as provided in subsection (g). Once the player has announced his intention to surrender, the dealer shall immediately collect the Pai Gow Wager from that player and collect the four tiles dealt to that player and stack them face down on the right side of the table in front of the table inventory container without exposing the tiles to any other player at the table provided that if a player placed a Pair Fortunes Wager, the player's wager shall be placed on top of the player's tiles until the wager is settled in accordance with subsection (j).

(f) After the dealer has set a high and low hand and collected the wagers and tiles that are surrendered under subsection (e), the dealer shall reveal both hands of each player, beginning with the player farthest to the right of the dealer and continuing around the table in a counterclockwise direction. The dealer shall compare the high hand of the player to the high hand of the dealer and the low hand of the player to the low hand of the dealer and shall announce if the wager of that player wins, loses or is a tie.

(g) A wager shall lose and be immediately collected if the high hand of the player is identical in rank or lower in rank than the high hand of the dealer, and the low hand of the player is identical in rank or lower in rank than the low hand of the dealer, or has a value of zero.

(h) A wager shall tie and be returned to the player if:

(1) The high hand of the player is higher in rank than the high hand of the dealer, but the low hand of the player is identical in rank to the low hand of the dealer, lower in rank than the low hand of the dealer or has a value of zero.

(2) The high hand of the player is identical in rank to the high hand of the dealer or lower in rank than the high hand of the dealer, but the low hand of the player is higher in rank than the low hand of the dealer.

(i) A wager shall win if the high hand of the player is higher in rank than the high hand of the dealer and the low hand of the player is higher in rank than the low hand of the dealer. The dealer shall pay the winning Pai Gow Wager and collect a vigorish in accordance with § 621a.11(a) (relating to payout odds; vigorish).

(j) After settling the player's Pai Gow Wager, the dealer shall settle the player's Pair Fortunes Wagers, if applicable, by determining if the player's four tiles create a Gee Joon Pair,

Heaven Pair, Identical Pair or Mixed Pair. Irrespective of how the player's hand was set, if the player's hand:

(1) Contains a Gee Joon Pair, Heaven Pair, Identical Pair or Mixed Pair, the dealer shall pay the winning Pair Fortunes Wager in accordance with § 621a.11(b).

(2) Does not contain a pair, the dealer shall collect the losing Pair Fortune Wager.

(k) After settling the player's Pai Gow and Pair Fortunes Wagers, the dealer shall immediately collect the tiles of that player and place the tiles face up to the right of the dealer in front of the table inventory container.

(l) Tiles collected by the dealer shall be picked up in order and in a way so that they can be readily arranged to reconstruct each hand in the event of a question or dispute.

§ 621a.9. Player bank; co-banking; selection of bank; procedures for dealing.

(a) A certificate holder may, if specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), offer to all players at a Pai Gow table the opportunity to bank the game. If the certificate holder elects this option, the provisions of this section control for any round of play in which a player is the bank. The other provisions of this chapter apply to the extent that they do not conflict with the provisions of this section.

(b) A player may not be the bank at the start of the game. For the purposes of this section, the start of the game means the first round of play after the dealer is required to restack and mix the tiles in accordance with § 621a.4 (relating to opening of the table for gaming; mixing procedures).

(c) After the first round of play, each player at the table shall have the option to either be the bank or pass the bank to the next player. The dealer shall offer the bank to each player, starting with the player farthest to the dealer's right and continuing around the table in a counterclockwise manner, until a player accepts the bank. The dealer shall place a marker designating the bank in front of the player who accepts the bank. If the first player offered the bank accepts, the player seated to the right of the bank shall be offered the bank first on the next round of play. A player may not bank two consecutive rounds of play. If no player accepts the bank, the round of play shall proceed in accordance with the rules of play provided in this chapter.

(d) Before a player may bank a round of play, the dealer shall confirm that:

(1) The player placed a wager against the dealer during the last round of play in which there was no player banking the game.

(2) The player has sufficient value chips or plaques on the table to cover all of the Pai Gow Wagers placed by other players at the table for that round of play.

(e) A certificate holder may, if specified in its Rules Submission under § 601a.2, offer the bank the option of co-banking the round of play. If the certificate holder offers this option, it shall be made available to all players at the table. If the bank wishes to use this option and co-

bank 50% of the winning Pai Gow wagers, the bank must specifically request to co-bank with the dealer. The dealer shall place a marker designating the player co-banking that round of play. When the dealer is co-banking, the dealer shall be responsible for setting the hand of the bank in the manner as specified in the certificate holder's Rules Submission under § 601a.2. When co-banking is in effect, the dealer may not place a wager against the bank.

(f) If a player is the bank, the player may wager on only one betting area.

(g) Once the tiles have been mixed and formed into stacks as required under § 621a.4, the bank shall have the option to cut the tiles one time. If the bank does not wish to cut the tiles, there may not be a cut. Upon direction from the bank, the dealer may move the tiles in one of the following ways:

(1) One or more adjacent stacks of four tiles to the right or left end of the original eight stacks of tiles.

(2) Two or more adjacent stacks of four tiles, of which at least one stack is moved to one end and the other stacks are moved to the opposite end of the original eight stacks of tiles.

(h) Once the dealer has determined that a player may be the bank, as required under subsection (d), and the tiles have been mixed, stacked and, if applicable, cut, the dealer shall, unless co-banking is in effect, remove value chips from the table inventory container in an amount equal to the banker's last wager made against the dealer or in an amount as specified in the certificate holder's Rules Submission. This amount shall be the amount the dealer wagers against the bank. The bank may direct that the sum wagered by the dealer be a lesser amount or that the dealer place no wager during that round of play. Any amount wagered by the dealer shall be placed in front of the table inventory container. Immediately upon receipt of the four tiles dealt to the dealer under subsection (k), the dealer shall place his wager on top of these tiles, instead of the marker otherwise required under § 621a.6 (relating to procedures for dealing the tiles; settling of wagers based on value of dice), before dealing the remaining tiles. If co-banking is in effect, the dealer may not remove any value chips from the table inventory container under this subsection.

(i) Once the dealer has announced "no more bets," the bank may, by issuing a verbal instruction to the dealer, choose to have the dealer deliver the stacks using any one of the styles of delivery described in § 621a.7 (relating to alternative dealing procedures). If the bank does not choose a style of delivery, the dealer shall use the procedure in § 621a.6(d) to deliver the stacks. The bank shall then shake the Pai Gow shaker at least three times to cause a random mixture of the dice. Once the bank has completed shaking the Pai Gow shaker, the dealer shall remove the lid covering the Pai Gow shaker and place the uncovered Pai Gow shaker on the designated area of the table layout. The dealer shall then total the dice and announce the total. If the bank inadvertently removes the lid, the Pai Gow shaker shall be covered and reshaken by the bank.

(j) To determine the starting position for dealing the tiles, the dealer shall count each betting position, the dealer and the Dead Hand, in order, regardless of whether there is a wager at

the betting position, beginning with the bank as number one and continuing around the table in a counterclockwise manner until the count matches the total of the three dice.

(k) The dealer shall deal the first stack of four tiles, in accordance with the selected style of delivery, to the starting position as determined in subsection (j) and, moving counterclockwise around the table, deal all other positions including the Dead Hand and the dealer a stack of tiles, regardless of whether there is a wager at the position. The dealer shall place his wager or marker, as applicable, on top of his stack of tiles immediately after the tiles are dealt.

(l) After all the stacks of tiles have been dealt, the dealer shall, without exposing the tiles, collect any stacks dealt to a position where there is no wager and place the stacks with the Dead Hand on the layout to the left of the dealer in front of the table inventory container.

(m) Once all tiles have been dealt and any tiles dealt to positions with no wagers have been collected, the dealer shall place the cover on the Pai Gow shaker and shake the shaker once. The Pai Gow shaker shall then be placed to the right of the dealer.

(n) If the tiles dealt to the dealer have not been previously collected, after each player has set his two hands and placed them on the table layout, the two hands of the dealer shall then be set. Once the dealer has formed a high and low hand and placed the hands face up on the appropriate area of the table layout, the dealer shall expose the hands of the bank and determine if the hands of the dealer are higher in rank than the hands of the bank. If the dealer wins, the tiles of the dealer shall be stacked face up to the right of the table inventory container with the amount wagered by the dealer against the bank placed on top. If the dealer's hand is a tie with the banker's hand, the dealer shall return the amount wagered by the dealer against the bank to the table inventory container. If the dealer loses, the amount wagered by the dealer against the bank shall be moved to the center of the layout.

(o) If a player is banking the round of play, once the dealer has determined the outcome of the Pai Gow Wager of the dealer against the bank, if any, the dealer shall, starting with the player farthest to the dealer's right and continuing around the table in a counterclockwise manner, expose the hands of each player. The dealer shall compare the high and low hand of each player to the high and low hand of the bank and announce if the Pai Gow Wager shall win, lose or tie. Losing Pai Gow Wagers shall be immediately collected and placed in the center of the table. All winning Pai Gow Wagers, including the dealer's wager, shall be paid by the dealer with the value chips located in the center of the table. If this amount becomes exhausted before all winning Pai Gow Wagers have been paid, the dealer shall collect from the bank an amount equal to the remaining winning Pai Gow Wagers and place that amount in the center of the layout. The remaining winning Pai Gow Wagers shall be paid from the amount in the center of the layout. If, after collecting all losing Pai Gow Wagers and paying all winning Pai Gow Wagers, there is a surplus in the center of the table, this amount shall be charged a 5% vigorish in accordance with § 621a.11(a) (relating to payout odds; vigorish). Once the vigorish has been paid, the remaining amount shall be given to the bank.

(p) Immediately after a winning Pai Gow Wager of the dealer is paid, this amount and the dealer's original Pai Gow Wager shall be returned to the table inventory container.

(q) Each player who has a winning Pai Gow Wager against the bank shall pay a 5% vigorish on the amount won, in accordance with § 621a.11(a).

(r) If a player and the dealer are co-banking the round of play, once the dealer has set the co-bank hand under subsection (e), the dealer shall, starting with the player farthest to the dealer's right and continuing around the table in a counterclockwise manner, expose the hands of each player. The dealer shall compare the high and low hand of each player to the high and low hand of the bank and announce if the Pai Gow Wager shall win, lose or tie. Losing Pai Gow Wagers shall be immediately collected and placed in the center of the table. All winning Pai Gow Wagers shall be paid by the dealer with the value chips located in the center of the table. If this amount becomes exhausted before all winning Pai Gow Wagers have been paid, the dealer shall collect from the co-bank an amount equal to 1/2 of the remaining winning Pai Gow Wagers and place that amount in the center of the layout. The dealer shall remove an amount equal to 1/2 of the remaining winning Pai Gow Wagers from the table inventory container and place that amount in the center of the layout. The remaining winning Pai Gow Wagers shall be paid from the total amount in the center of the layout. If, after collecting all losing Pai Gow Wagers and paying all winning Pai Gow Wagers, there is a surplus in the center of the table, this amount will be counted and the dealer shall place 1/2 of this amount into the table inventory container. The dealer shall collect a 5% vigorish, in accordance with § 621a.11(a) on the remaining amount. Once the vigorish has been paid, the remaining amount shall then be given to the co-bank.

(s) After the Pai Gow Wager has been settled, the dealer shall settle the player's Pair Fortunes Wager in accordance with § 621a.8(j) (relating to procedures for completion of each round of play; setting of hands; payment and collection of wagers; payout odds; vigorish).

§ 621a.10. Irregularities; invalid roll of the dice.

(a) If all three dice in the Pai Gow shaker do not land flat on the bottom of the shaker, the dealer shall call a "no roll" and the dealer or player, if a player-activated shaker is used, shall reshake the dice.

(b) If the dealer uncovers the manual Pai Gow shaker and a die or dice fall out of the shaker, the dealer shall call a "no roll" and reshake the dice.

(c) If the dealer incorrectly totals the dice and deals the tiles to the wrong positions, all hands shall be void, all wagers shall be returned to the players and the dealer shall reshuffle the tiles.

(d) If the dealer exposes any of the tiles dealt to a player, the player may void the hand. The player shall make the decision to either play out the hand or to void the hand without looking at his unexposed tiles. If the player elects to void his hand, any wagers placed by the player shall be returned to the player.

(e) If a tile in the dealer's hand, the bank's hand, if applicable, the Dead Hand or any position where there is no wager, is exposed, all hands shall be void, all wagers shall be returned to the players and the tiles shall be reshuffled.

(f) If the dealer or the bank, if applicable, does not set his hands in the manner as specified in the certificate holder's Rules Submission under § 601a.2 (relating to table games Rules Submissions), the hands shall be reset in accordance with the certificate holder's Rules Submission and the round of play shall be completed.

§ 621a.11. Payout odds; vigorish.

(a) The certificate holder shall pay each winning Pai Gow Wager at odds of 1 to 1, except that the certificate holder shall extract a vigorish from the winning players in an amount equal to 5% of the amount won. When collecting the vigorish, the certificate holder may round off the vigorish to 25¢ or the next highest multiple of 25¢. A certificate holder shall collect the vigorish from a player at the time the winning payout is made.

(b) The certificate holder shall pay each winning Pair Fortunes Wager at the odds in the following payout table:

(1) In Craps, by a boxperson or stickperson.

(2) In Mini-Craps, by the dealer, stickperson or floorperson.

§ 623a.9. Point throw; settlement of wagers.

(a) When the dice come to rest from a valid throw, the Craps stickperson or the Mini-Craps dealer or stickperson shall at once call out the sum of the numbers on the uppermost or skyward sides of the two dice. Only one face on each die shall be considered uppermost or skyward.

(b) In the event either or both of the dice do not land flat on the table (for example, one edge of the die is resting cocked on a stack of chips), the side directly opposite the side that is resting on the chips or other object shall be considered uppermost or skyward. If more than one side of a die is resting on a stack of chips or other object, the roll shall be void and the dice shall be rethrown.

(c) In the event of a dispute as to which face is uppermost:

(1) In Craps, the boxperson shall have discretion to determine which face is uppermost or to order the throw be void and the dice be rethrown.

(2) In Mini-Craps, the floorperson shall have discretion to determine which face is uppermost or to order the throw be void and the dice be rethrown.

(d) In Craps, after calling the throw, the stickperson shall collect the dice and bring them to the center of the table between himself and the boxperson. All wagers decided by that throw shall then be settled, following which the stickperson shall pass the dice to the shooter for the next throw. When collecting the dice and passing them to the shooter, the stickperson shall use a stick designed for that purpose.

(e) In Mini-Craps, after calling the throw, the dealer or stickperson shall collect the dice and bring them to the center of the table. All wagers decided by that throw shall then be settled, following which the dealer or stickperson shall pass the dice to the shooter for the next throw. When collecting the dice and passing them to the shooter, the dealer or stickperson shall use a stick designed for that purpose.

§ 623a.10. Continuation of shooter; selection of new shooter.

(a) It shall be the option of the shooter, after any roll, either to pass the dice or remain the shooter except that:

(1) The shooter shall pass the dice upon throwing a loser 7.

(2) The Craps boxperson or the Mini-Craps dealer may order the shooter to pass the dice if the shooter unreasonably delays the game, repeatedly makes invalid rolls or violates either the act or this part.

(b) If a shooter, after making the come out point, elects not to place another Pass Bet or Don't Pass Bet, and other Come Bets or Don't Come Bets remain on the table, the Craps stickperson or the Mini-Craps dealer or stickperson shall offer the dice to the player immediately to the left of the previous shooter, as provided for in subsection (c). If there are no other players at the table, or if no other players at the table elect to make a Pass Bet or Don't Pass Bet to shoot the dice and continue the game, the previous shooter shall be allowed to shoot the dice without making a Pass Bet or Don't Pass Bet only for the purpose of effecting a decision on the remaining Come Bets or Don't Come Bets. The on/off marker shall be placed on the Don't Pass Line in the off position in front of the shooter to indicate that the shooter is rolling the dice only to effectuate a decision for the Come Bets or Don't Come Bets remaining on the layout. Once the remaining Come Bets or Don't Come Bets have been decided or a player wishes to place a Pass Bet or Don't Pass Bet, the game shall proceed in accordance with § 623a.8 (relating to throw of the dice; invalid roll of the dice).

(c) When a voluntary or compulsory relinquishment of the dice occurs by the shooter, the Craps stickperson or the Mini-Craps dealer or stickperson shall offer the complete set of five or more dice to the player immediately to the left of the previous shooter and, if he does not accept, to each of the other players in turn clockwise around the table.

(d) The first player to accept the dice when offered shall become the new shooter who shall select and retain two of the dice offered. The remaining dice of the set shall be returned to the dice cup which shall be placed immediately in front of the Craps stickperson or the Mini-Craps dealer or stickperson.

§ 623a.11. Additional procedures and rules for the Fire Bet.

(a) If a certificate holder elects to offer the Fire Bet in the game of Craps as permitted under § 623a.3 (relating to wagers), the following additional procedures shall be observed:

(1) Each player shall, prior to a new shooter's initial come out roll, place his Fire Bet on the numbered designated area for the placement of Fire Bets that is closest to his position at the Craps table.

(2) When there is a voluntary or compulsory surrender of the dice by a shooter under § 623a.10 (relating to continuation of shooter; selection of new shooter) prior to the throwing of a loser 7, any pending Fire Bet shall be settled upon the successor shooter throwing a loser 7.

(3) Once all Fire Bets are placed, the dealer shall bring in each Fire Bet in numerical order and place it on the corresponding number of the designated area in front of the boxperson, where the Fire Bets shall remain until they are either lost or paid.

(4) With each individual point made by a shooter, the dealer shall place a Fire Bet point marker inscribed with the total number of different unique points made by the shooter in the area of the table layout containing the number of the point (4, 5, 6, 8, 9 or 10) which was just made. Each Fire Bet point marker must be visually distinguishable from and have a diameter larger than any authorized value chip. Fire Bet point markers shall be maintained by the boxperson or dealers at the Craps table.

(5) Fire Bets shall be collected or paid, as applicable, upon a shooter throwing a loser 7.

(6) Once four different unique points are made, the surveillance department shall be notified for the purpose of confirming all Fire Bets and payouts.

(b) If a certificate holder elects to offer the Fire Bet in the game of Craps under § 623a.3, the following additional rules shall apply:

(1) The minimum wager shall be \$1 and the maximum wager shall be \$5 and all wagers shall be made in increments of \$1.

(2) When a shooter makes the same point total more than once, the total number of different unique points made for purposes of settling a Fire Bet do not increment.

(3) The four or more different unique points required to win a Fire Bet are not required to be made in any specific order or combination.

§ 623a.12. Additional procedures and rules for Bonus Craps.

If a certificate holder elects to offer Bonus Craps as permitted under § 623a.3 (relating to wagers), the following additional rules and procedures apply:

(1) Prior to a new shooter's initial come out roll, each player may place one or more of the permissible wagers described in § 623a.3(43).

(2) The dealer shall place each player's wagers in the corresponding designated area in front of the boxperson, where the wagers must remain until they are either collected or paid.

(3) With each point made by a shooter, the dealer shall place a marker button inscribed with the point value in the area of the table layout containing the point value of the throw (2, 3, 4, 5, 6, 8, 9, 10, 11 or 12) which was just made. Each button must be visually distinguishable from and have a diameter larger than an authorized value chip. Marker buttons shall be maintained by the boxperson or dealers at the Craps table.

(4) Once all numbers necessary for the wager have been thrown and marked on the layout with the marker buttons, the dealer will pay the winning wagers in accordance with § 623a.5(h) (relating to payout odds). For example, if a player placed an All Small Wager and an All Or Nothing At All Wager and all of the numbers 2 through 6 were thrown and marked before a 7 was thrown, the dealer shall pay the winning All Small Wager but leave the marker buttons on the layout until either all other numbers necessary for the All Or Nothing At All Wager are thrown or the shooter throws a 7.

(5) If a 7 is thrown at any time, including a 7 on the come out roll, the dealer shall collect all Bonus Craps wagers and remove all marker buttons from the Bonus Craps area of the layout.

(6) The numbers required to win are not required to be made in a specific order or combination.

(b) The dice that have been placed in a manual Sic Bo shaker may not be used for the play of the game for more than 24 hours. Dice that have been locked in an automated Sic Bo shaker and comply with the requirements of § 603a.12(c) (relating to dice; physical characteristics) may not be used for the play of the game for more than 1 month.

§ 625a.3. Wagers.

A player may place the following wagers in the game of Sic Bo:

(1) Three of a Kind which wins if the same number is showing on all three dice and the player selected that number to appear on all three dice.

(2) Two of a Kind which wins if the same number is showing on two of the three dice and the player selected that number to appear on two out of the three dice.

(3) Any Three of a Kind which wins if the numeric value on all three dice is the same and the player wagered that any of the numbers 1 through 6 would appear on all of the three dice.

(4) Total Value Bet which wins if the numeric total of all three dice equals the total of the number wagered.

(5) Two Dice Combination which wins when the player wagered that a combination of two specific but different numeric values would appear on at least two of the dice and the two numeric values chosen are showing.

(8) One of a Kind which wins if one or more of the three dice shows a numeric value equal to the number wagered.

§ 625a.4. Placement of wagers.

(a) Wagers at Sic Bo shall be made by placing value chips or plaques on the appropriate areas of the Sic Bo layout. Verbal wagers accompanied by cash may not be accepted at the game of Sic Bo.

(b) Each player shall be responsible for the correct positioning of his wagers on the Sic Bo layout regardless of whether the player is assisted by the dealer. Each player shall ensure that any instructions given to the dealer regarding the placement of wagers are correctly carried out.

(c) Each wager shall be settled in accordance with its position on the layout when the dice come to rest and the numeric value showing on each die has been entered into the electrical device and illuminated at the table.

§ 625a.5. Procedures for opening and dealing the game.

(a) Prior to opening the Sic Bo table for gaming activity, the floorperson assigned to the Sic Bo table shall inspect the following items to insure that each is in proper working order:

(1) The electrical device which causes the winning combinations on the Sic Bo table to be illuminated when the numeric value of each die has been entered by the dealer. At a minimum, the inspection shall be completed by entering three numeric values into the electrical device and verifying that all winning combinations are properly illuminated.

(2) The automated dice shaker, if one is in use. At a minimum, the inspection shall be completed by operating the device three times and verifying that the dice are being properly tossed.

(b) At the commencement of each round of play, the dealer shall either:

(1) Place the cover on the manual Sic Bo shaker and shake the Sic Bo shaker at least three times to cause a random mixture of the dice.

(2) Activate the automated dice shaker to cause a random mixture of the dice.

(c) Prior to revealing the dice in the Sic Bo shaker, the dealer shall announce “no more bets.”

(d) The dealer shall then remove the cover from the Sic Bo shaker, announce the numeric value of each die and enter the numeric value of each die into the electrical device on the table. The electrical device must illuminate the winning combinations on the Sic Bo layout.

(e) After the winning combinations have been illuminated, the dealer shall first collect all losing wagers and then pay off all winning wagers at the odds in § 625a.6 (relating to payout odds). A manual Sic Bo shaker shall remain uncovered until all winning wagers have been paid.

(f) After all losing wagers have been collected and all winning wagers have been paid, the dealer shall clear the previously illuminated winning combinations from the table.

(g) Notwithstanding the requirements in subsections (b) and (c), if the certificate holder is utilizing an automated Sic Bo shaker without an opaque cover or a player-activated Sic Bo shaker, all wagers shall be placed prior to the shaker being activated. After the dealer announces “no more bets,” the dealer, or a selected player if utilizing a player-activated shaker, shall then activate the automated dice shaker and complete the requirements in subsections (d)—(f).

§ 625a.6. Payout odds.

(a) The certificate holder shall pay out winning Sic Bo wagers at the odds in one of the following paytables selected by the certificate holder in its Rules Submission filed in accordance with § 601a.2 (relating to table games Rules Submissions):

(b) If the electrical device which causes the winning combinations to be illuminated when the numeric value of each die has been entered by the dealer or the area of the Sic Bo table which depicts all permissible wagers under § 625a.3 (relating to wagers) malfunctions after the manual Sic Bo shaker has been uncovered or the automated Sic Bo dice shaker has tossed the dice, the dealer shall, in the presence of a floorperson or above, collect losing wagers and pay winning wagers. Once the wagers on the layout have been settled, all gaming at the Sic Bo table shall cease until the electrical device which causes the winning combinations on the Sic Bo table to be illuminated when the numeric value of each die has been entered by the dealer has been fixed.

(c) If the automated Sic Bo shaker fails to operate or malfunctions when activated, the round of play shall be void and wagers placed shall be returned to the players.

§ 627a.2. Minibaccarat table physical characteristics.

(a) Minibaccarat shall be played on a table having numbered positions for no more than nine seated players on one side of the table and a place for the dealer on the opposite side of the table.

(b) The layout for a Minibaccarat table shall be submitted to the Bureau of Gaming Operations and approved in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment) and contain, at a minimum:

(8) Numbered areas that correspond to the seat numbers for the purpose of marking vigorish unless the dealer, in accordance with the option selected in the certificate holder's Rules Submission under § 601a.2 (relating to table games Rules Submissions), collects the vigorish from a player at the time the winning payout is made or the table is designated for play as an EZ Baccarat table in which vigorish is not collected.

(c) If marker buttons are used for the purpose of marking vigorish, the marker buttons shall be placed in the table inventory container or in a separate rack designed for the purpose of storing marker buttons. If a separate rack is used, the rack shall be placed in front of the table inventory container during gaming activity.

(d) Each Minibaccarat table must have a drop box and a tip box attached on the same side of the gaming table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g). The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(e) Each Minibaccarat table must have a discard rack securely attached to the top of the dealer's side of the table.

§ 627a.3. Cards; number of decks.

(a) Except as provided in subsection (b), Minibaccarat shall be played with six to eight decks of cards that are identical in appearance and two cover cards.

(b) If an automated card shuffling device is utilized, Minibaccarat shall be played with 12 to 16 decks of cards in accordance with the following requirements:

(1) The cards shall be separated into two batches with an equal number of decks included in each batch.

(2) The cards in each batch must be of the same design but the backs of the cards in one batch must be of a different color than the cards in the other batch.

(3) One batch of cards shall be shuffled and stored in the automated card shuffling device while the other batch is being used to play the game.

(4) Both batches of cards shall be continuously alternated in and out of play, with each batch being used for every other dealing shoe.

(5) The cards from only one batch shall be placed in the discard rack at any given time.

(c) The decks of cards opened for use at a Minibaccarat table shall be changed at least once every 24 hours.

§ 627a.4. Opening of the table for gaming.

(a) After receiving six or more decks of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, they shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player is afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked.

(d) If an automated card shuffling device is utilized and two batches of cards are received at the table, all the decks in one batch of cards shall be spread for inspection on the table separate from the decks in the other batch of cards. After the first player is afforded an opportunity to visually inspect the cards, each batch of cards shall separately be turned face down on the table and stacked.

(e) If the decks of cards received at the table are preinspected and reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

§ 627a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each dealing shoe of cards is dealt or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. If the cards have been manually shuffled, the dealer shall leave the entire stack of cards intermixed but not entirely squared off (leave them feathered) so that the floorperson can verify that the shuffle did not result in any uneven distribution of cards.

(b) After the cards have been shuffled and, when applicable, reshuffled, the dealer shall offer the stack of cards, with the backs facing away from the dealer, to the players to be cut. The dealer shall begin with the player seated in the highest number position at the table and, working clockwise around the table, offer the stack to each player until a player accepts the cut. If a player does not accept the cut, the dealer shall cut the cards.

(c) The cards shall be cut by placing a cover card in the stack at least ten cards in from the top or the bottom of the stack.

(d) Once the cover card has been inserted into the stack, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The dealer shall then insert the second cover card in a position at least 14 cards above the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before the cards have been placed in the dealing shoe, a floorperson or above may require the cards to be recut if the floorperson or above determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game. If a recut is required, the cards shall be recut by the next person entitled to cut the cards, as determined by subsection (b). The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(f) Prior to commencement of play, the dealer shall remove and expose the first card from the dealing shoe and place it, and an additional number of cards, drawn face down, equal to the face value of the first card drawn, in the discard rack. When determining the face value of the first card removed from the dealing shoe, a 10, jack, queen or king shall count as ten and an ace shall count as one.

(g) If there is no gaming activity at a Minibaccarat table which is open for gaming, the cards shall be removed from the dealing shoe and the discard rack, and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player is afforded an opportunity to visually inspect the cards:

(1) If there is no automated shuffling device in use, the cards shall be mixed thoroughly by a washing of the cards, stacked, then shuffled and cut in accordance with this section.

(2) If an automated shuffling device is in use, the cards shall be stacked and placed into the automated shuffling device to be shuffled. The batch of cards already in the shuffler shall then be removed. Unless a player requests otherwise, the batch of cards removed from the shuffler does not need to be spread for inspection and reshuffled prior to being dealt, if:

(i) The automated card shuffling device stores a single batch of shuffled cards inside the shuffler in a secure manner.

(ii) The shuffled cards have been secured, released and prepared for play in accordance with procedures submitted to the Bureau of Gaming Operations and approved in accordance with § 465a.2 (relating to internal control systems and audit protocols).

§ 627a.6. Value of cards; Point Count of hand.

(a) The value of the cards in each deck shall be as follows:

- (1) Any card from 2 to 9 shall have its face value.
- (2) Any 10, jack, queen or king shall have a value of zero.
- (3) Any ace shall have a value of one.

(b) The Point Count of a hand shall be a single digit number from 0 to 9 and determined by totaling the value of the cards in the hand. If the total of the cards in a hand is a two-digit number, the left digit of the number shall be discarded and the right digit shall constitute the Point Count of the hand. Examples of this rule are as follows:

- (1) A hand composed of an ace, 2 and 4 has a Point Count of 7.
- (2) A hand composed of an ace, 2 and 9 has a total of 12 but a Point Count of only 2 since the left digit of the number 12 is discarded.

§ 627a.7. Wagers.

(a) The following are permissible wagers in the game of Minibaccarat:

- (1) A wager on the Banker's Hand which shall:
 - (i) Win if the Banker's Hand has a Point Count higher than that of the Player's Hand unless EZ Baccarat is being played and the Point Counts of the Banker's Hand and the Player's Hand result in a Dragon 7.

(7) If offered by a certificate holder, a House Money Wager which shall:

(i) Win if the first two cards of either the Player's Hand or Banker's Hand, or both, are a pair. For purposes of the House Money Wager, a pair must be of same rank (two queens, for example), regardless of suit.

(ii) Lose if in the first two cards dealt to the player's hand and the banker's hand, neither the player's hand nor the banker's hand contains a pair.

(b) Wagers at Minibaccarat shall be made by placing value chips or plaques on the appropriate areas of the Minibaccarat layout. Verbal wagers accompanied by cash may be accepted provided that they are confirmed by the dealer and the cash is expeditiously converted into value chips or plaques.

§ 627a.8. Hands of player and banker; procedure for dealing initial two cards to each hand.

(1) The dealer shall remove cards from the dealing shoe with his left hand and place them face up on the appropriate area of the layout with his right hand. The first and third cards dealt shall constitute the first and second cards of the Player's Hand and placed on the area designated for the Player's Hand. The second and fourth cards dealt shall constitute the first and second cards of the Banker's Hand and placed on the area designated for the Banker's Hand.

(2) The dealer shall remove cards from the dealing shoe with his left hand and place them face down on the layout. The first and third cards dealt shall constitute the first and second cards of the Player's Hand and placed on the area designated for the Player's Hand. The second and fourth cards dealt shall constitute the first and second cards of the Banker's Hand and placed underneath the right corner of the dealing shoe until the Player's Hand is called as provided in § 627a.9 (relating to procedure for dealing a third card). The second and fourth cards shall then be turned face up and placed on the area designated for the Banker's Hand.

(d) Prior to dealing a third card to the Player's or Banker's Hand, the dealer shall settle all House Money Wagers as follows:

(1) If a player placed a House Money Wager, beginning from the dealer's right and moving counterclockwise around the table, the dealer shall collect all losing House Money Wagers and pay all winning wagers in accordance with § 627a.12(h) (relating to payout odds; vigorish) provided that, at a player's discretion, the player may add the winning House Money payout to the player's original wager on the Player's or Banker's Hand in accordance with the following:

(ii) A player may not touch the winning House Money payout. The dealer shall either hand the entire winning House Money payout to the player or place all or a portion thereof, as authorized by the certificate holder, on the area designated for the placement of the player's wager on the Player's or Banker's Hand.

(2) After settling the House Money Wagers, the game shall resume by dealing any third cards that are required to be dealt in accordance with § 627a.9.

§ 627a.9. Procedure for dealing a third card.

(a) After the dealer positions the cards in accordance with § 627a.8(c)(1) or (2) (relating to hands of player and banker; procedure for dealing initial two cards to each hand), the dealer shall announce the Point Count of the Player's Hand and the Banker's Hand.

(b) Following the announcement of the Point Counts of each hand, the dealer shall determine whether to deal a third card to each hand in accordance with § 627a.10 (relating to rules for determining whether a third card shall be dealt).

(c) After the dealer positions the cards in accordance with § 627a.8(c)(1) or (2), any third card required to be dealt shall first be dealt face up to the Player's Hand and then to the Banker's Hand.

(d) In no event may more than one additional card be dealt to either hand.

(e) If the cover card appears as the first card in the dealing shoe at the beginning of a round of play or appears during play, the cover card shall be removed and placed to the side and the hand will be completed. Upon completion of that hand, the dealer shall announce "last hand." At the completion of one more hand, the cards shall be reshuffled.

§ 627a.10. Rules for determining whether a third card shall be dealt.

(a) If either the Player's Hand or the Banker's Hand is a Natural, no more cards may be dealt to either hand.

(b) If the Point Count of the Player's Hand and the Banker's Hand is 0 to 7 on the first two cards, the Player's Hand shall:

(1) Draw (take a third card) if the Player's Hand has a Point Count of less than 6.

(2) Stay (not take a third card) if the Player's Hand has a Point Count of 6 or more.

(c) If the Point Count of the Player's Hand and the Banker's Hand is 0 to 7 on the first two cards, the Banker's Hand shall draw or stay in accordance with the following requirements:

(1) If the Player's Hand does not receive a third card, the Banker's Hand shall be dealt a third card if the Point Count of the Banker's Hand is 5 or less.

(2) If the Player's Hand is dealt a third card and:

(i) The Banker's Hand has a Point Count of less than 3, the Banker's Hand shall be dealt a third card.

(ii) The Banker's Hand has a Point Count of 7, the Banker's Hand may not be dealt a third card.

(iii) The Banker's Hand has a Point Count of 3, 4, 5 or 6, the Banker's Hand shall be dealt or not dealt a third card in accordance with Table 1 as follows:

Table 1

Value of the Third Card Drawn by Player's Hand

<i>Point Count of Banker's Hand After Two Cards</i>	<i>0</i>	<i>1</i>	<i>2</i>	<i>3</i>	<i>4</i>	<i>5</i>	<i>6</i>	<i>7</i>	<i>8</i>	<i>9</i>		
3					D	D	D	D	D	D	S	D
4				S	S	D	D	D	D	D	S	S
5				S	S	S	S	D	D	D	S	S
6				S	S	S	S	S	S	D	D	S

(d) In Table 1, the first vertical column labeled "Point Count of Banker's Hand After Two Cards" refers to the Point Count of the Banker's Hand after the first two cards have been dealt to the Banker's Hand.

(e) In Table 1, the first horizontal row at the top labeled "Value of the Third Card Drawn by Player's Hand" refers to the value of the third card drawn by the Player's Hand, not the Point Count of the Player's Hand.

(f) In Table 1, the letter "D" means that the Banker's Hand shall draw a third card and the letter "S" means that the Banker's Hand shall stay.

(g) To use Table 1, first find the Point Count of the Banker's Hand in the first vertical column and trace that horizontally across the table until it intersects the vertical column that corresponds to the value of the third card drawn by the Player's Hand. The symbol located where the intersection occurs determines whether the Banker's Hand shall draw a third card or stay. For example, if the Point Count of the Banker's Hand after two cards is 5 and the value of the third card drawn by the Player's Hand is 4, the table shows that the Banker's Hand shall draw a third card.

§ 627a.11. Announcement of result of round; payment and collection of wagers.

(a) After each hand has received all the cards to which it is entitled under §§ 627a.8, 627a.9 and 627a.10 (relating to hands of player and banker; procedure for dealing initial two cards to each hand; procedure for dealing a third card; and rules for determining whether a third card shall be dealt), the dealer shall announce the final Point Count of each hand indicating which hand has won the round. If two hands have equal Point Counts, the dealer shall announce "tie hand." If the table is designated for play as an EZ Baccarat table and the Point Counts of the Banker's Hand and the Player's Hand result in a Dragon 7 or a Panda 8, the dealer shall announce "Dragon 7" or "Panda 8."

(b) After the result of the round is announced, the dealer shall first collect each losing wager. After the losing wagers are collected, the dealer shall, starting at the highest numbered player position at which a winning wager is located, mark or collect the vigorish owed by that player,

unless the table is designated for play as an EZ Baccarat table in which vigorish is not collected. Immediately thereafter, the dealer shall pay that player's winning wager and then, proceeding in descending order to the next highest numbered player position at which a winning wager is located, repeat this procedure until the vigorish owed by each player is either marked or collected and each winning wager is paid.

(c) At the conclusion of a round of play, the dealer shall remove all cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

§ 627a.12. Payout odds; vigorish.

(a) A winning wager made on the Player's Hand shall be paid at odds of 1 to 1.

(b) A winning Tie Wager shall be paid at odds of at least 8 to 1.

(c) A winning wager made on the Banker's Hand shall be paid at odds of 1 to 1, except that the certificate holder shall extract a vigorish from the winning players in an amount equal to 5% of the amount won unless the certificate holder is offering EZ Baccarat in which vigorish is not collected. When collecting the vigorish, the certificate holder may round off the vigorish to 25¢ or the next highest multiple of 25¢.

(d) A dealer shall collect the vigorish from a player in accordance with one of the following procedures selected by the certificate holder in its Rules Submission under § 601a.2 (relating to table games Rules Submissions):

(1) At the time the winning payout is made.

(2) At a later time, provided that:

(i) The outstanding vigorish shall be collected prior to the reshuffling of the cards in a dealing shoe or when the player leaves the gaming table, whichever occurs first.

(ii) The amount of the vigorish shall be tracked by placing a coin or marker button, which contains the amount of the vigorish owed, in the rectangular space on the layout that is imprinted with the number of the player owing the vigorish.

(iii) The coin or marker button may not be removed from the layout until the vigorish owed is collected.

(e) If a certificate holder offers the Dragon Bonus Wager, in accordance with § 627a.7(a)(4) (relating to wagers), a vigorish may not be extracted on a winning Dragon Bonus Wager. Winning Dragon Bonus Wagers shall be paid out at the odds in one of the following paytables selected by the certificate holder in its Rules Submission filed in accordance with § 601a.2:

<i>Hand</i>	<i>Paytable A</i>	<i>Paytable B</i>	<i>Paytable C</i>
-------------	-------------------	-------------------	-------------------

Win by 9 points	30 to 1	20 to 1	30 to 1
Win by 8 points	10 to 1	8 to 1	10 to 1
Win by 7 points	6 to 1	7 to 1	4 to 1
Win by 6 points	4 to 1	4 to 1	4 to 1
Win by 5 points	2 to 1	3 to 1	2 to 1
Win by 4 points	1 to 1	1 to 1	2 to 1
Natural winner	1 to 1	1 to 1	1 to 1
Natural tie	Push	Push	Push

(f) A winning Dragon 7 Insurance Wager, as described in § 627a.7(a)(5), shall be paid at odds of 40 to 1.

(g) A winning Panda 8 Insurance Wager, as described in § 627a.7(a)(6), shall be paid at odds of 25 to 1.

(h) If a certificate holder offers the House Money Wager and the player elects to take the payout, the player shall be paid in accordance with the following payable:

<i>Hand</i>	<i>Odds</i>
Player and Banker Pair	15 to 1
Player or Banker Pair	3 to 1

§ 627a.13. Irregularities.

(a) Except as provided in subsection (b), a card drawn in error from the dealing shoe that is not disclosed shall be used as the first card of the next hand of play.

(b) A third card dealt to the Player’s Hand that is not disclosed, when a third card is not authorized under § 627a.10 (relating to rules for determining whether a third card shall be dealt), shall become the third card of the Banker’s Hand if the Banker’s Hand is required to draw under § 627a.10(c). If the Banker’s Hand is required to stay, the card dealt in error shall become the first card of the next hand of play.

(c) If a third card dealt to the Player’s Hand, when a third card is not authorized under § 627a.10, is disclosed at the time it is dealt or is found face up in the dealing shoe, the dealer shall use the disclosed card as the third card of the Banker’s Hand if the Banker’s Hand is required to draw under § 627a.10(c). If the Banker’s Hand is required to stay, the dealer shall, in accordance with one of the following procedures designated in the certificate holder’s Rules Submission under § 601a.2 (relating to table games Rules Submissions):

(1) Place the disclosed card and one additional card, drawn face down from the dealing shoe, into the discard rack without disclosing the additional card.

(2) Use the disclosed card as the first card of a simulated round of play in which wagers may not be accepted. The cards shall be dealt in accordance with this chapter and placed in the discard rack upon completion of the dealing procedures.

(d) Except as provided in subsection (c), if a card is disclosed at the time it is dealt or a card is found face up in the dealing shoe, the dealer shall use the disclosed card as the first card of a simulated round of play in which wagers may not be accepted. The cards shall be dealt in accordance with this chapter and placed in the discard rack upon completion of the dealing procedures.

(e) If there are insufficient cards remaining in the dealing shoe to complete a round of play, that round shall be void and all wagers shall be returned. A new round shall commence after the entire set of cards are reshuffled and placed in the dealing shoe.

§ 629a.2. Midibaccarat table physical characteristics.

(a) Midibaccarat shall be played on a table having numbered positions for no more than nine seated players on one side of the table and a place for the dealer on the opposite side of the table.

(b) The layout for a Midibaccarat table shall be submitted to the Bureau of Gaming Operations and approved in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment) and contain, at a minimum:

- (1) The name or logo of the certificate holder.
- (2) Separate areas designated for the placement of wagers on the Banker's Hand, Player's Hand and Tie Hand for each player.

(3) The payout odds for all permissible wagers offered by the certificate holder. If the payout odds are not inscribed on the layout, a sign identifying the payout odds shall be posted at each Midibaccarat table.

(4) An area designated for the placement of cards for the Player's Hand and Banker's Hand.

(5) If a certificate holder offers the Dragon Bonus Wager, authorized under § 629a.7(a)(4) (relating to wagers), separate areas designated for the placement of the Dragon Bonus Wager for each player.

(6) If a certificate holder offers EZ Baccarat in which vigorish is not collected:

(i) Separate areas designated for the placement of the Dragon 7 Insurance Wager, authorized under § 629a.7(a)(5) for each player.

(ii) Inscriptions that advise patrons that a wager on the Banker's Hand that results in a Dragon 7 shall push and be returned to the player. If the information is not inscribed on the layout, a sign containing the information shall be posted at each Midibaccarat table.

(iii) Separate areas designated for the placement of the Panda 8 Insurance Wager, authorized under § 629a.7(a)(6) for each player.

(7) If a certificate holder offers the House Money Wager, authorized under § 629a.7(a)(7), separate areas designated for the placement of the House Money Wager for each player.

(8) Numbered areas that correspond to the seat numbers for the purpose of marking vigorish unless the dealer, in accordance with the option selected in the certificate holder's Rules Submission under § 601a.2 (relating to table games Rules Submissions), collects the vigorish from a player at the time the winning payout is made or the table is designated for play as an EZ Baccarat table in which vigorish is not collected.

(c) If marker buttons are used for the purpose of marking vigorish, the marker buttons shall be placed in the table inventory container or in a separate rack designed for the purpose of storing marker buttons. If a separate rack is used, the rack shall be placed in front of the table inventory container during gaming activity.

(d) Each Midibaccarat table must have a drop box and a tip box attached on the same side of the gaming table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g). The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(e) Each Midibaccarat table must have a discard bucket on the dealer's side of the table.

§ 629a.3. Cards; number of decks.

(a) Midibaccarat shall be played with six to eight decks of cards that are identical in appearance and two cover cards.

(b) The decks of cards opened for use at a Midibaccarat table shall be changed after the play of each dealing shoe.

§ 629a.4. Opening of the table for gaming.

(a) After receiving six or more decks of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread out in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player is afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked.

(d) If the decks of cards received at the table are preinspected and reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(c) do not apply.

§ 629a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), the dealer shall shuffle the cards so that they are randomly intermixed. If the cards have been manually shuffled, the dealer shall leave the entire stack of cards intermixed but not entirely squared off (leave them feathered) so that the floorperson can verify that the shuffle did not result in any uneven distribution of cards.

(b) After the cards have been shuffled, the dealer shall offer the stack of cards, with the backs facing away from the dealer, to the players to be cut. The dealer shall begin with the player seated in the highest number position at the table and, working clockwise around the table, offer the stack to each player until a player accepts the cut. If a player does not accept the cut, the dealer shall cut the cards.

(c) The cards shall be cut by placing a cover card in the stack at least ten cards in from the top or the bottom of the stack.

(d) Once the cover card has been inserted into the stack, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The dealer shall then insert the second cover card in a position at least 14 cards above the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before the cards have been placed in the dealing shoe, a floorperson or above may require the cards to be recut if the floorperson or above determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game. If a recut is required, the cards shall be recut by the next person entitled to cut the cards, as determined by subsection (b). The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(f) Prior to commencement of play, the dealer shall remove and expose the first card from the dealing shoe and place it, and an additional number of cards, drawn face down, equal to the face value of the first card drawn, in the discard bucket. When determining the face value of the first card removed from the dealing shoe, a 10, jack, queen or king shall count as ten and an ace shall count as one.

§ 629a.6. Value of cards; Point Count of hand.

(a) The value of the cards in each deck shall be as follows:

- (1) Any card from 2 to 9 shall have its face value.
- (2) Any 10, jack, queen or king shall have a value of zero.
- (3) Any ace shall have a value of one.

(b) The Point Count of a hand shall be a single digit number from 0 to 9 and shall be determined by totaling the value of the cards in the hand. If the total of the cards in a hand is a two-digit number, the left digit of the number shall be discarded and the right digit shall constitute the Point Count of the hand. Examples of this rule are as follows:

- (1) A hand composed of an ace, 2 and 4 has a Point Count of 7.
- (2) A hand composed of an ace, 2 and 9 has a total of 12 but a Point Count of only 2 since the left digit of the number 12 is discarded.

(a) There shall be two hands dealt in the game of Midibaccarat, one of which shall be designated the Player's Hand and the other designated the Banker's Hand.

(b) Prior to dealing any cards, the dealer shall announce "no more bets."

(c) The dealer shall then deal an initial four cards from the dealing shoe. The first and third cards dealt shall be placed face down on the area designated for the Player's Hand and the second and fourth cards dealt shall be placed face down on the area designated for the Banker's Hand.

(1) After all four cards have been dealt, the dealer shall place the Banker's Hand underneath the right corner of the dealing shoe. The dealer shall then hand the two cards of the Player's Hand, face down, to the player with the highest wager on the Player's Hand. After viewing the Player's Hand, the player shall return the two cards, face up, to the dealer, who shall place the cards face up on the area designated for the Player's Hand and announce the Point Count of the Player's Hand.

(2) The dealer shall then hand the two cards of the Banker's Hand, face down, to the player with the highest wager on the Banker's Hand. After viewing the Banker's Hand, the player shall return the two cards, face up, to the dealer, who shall place the cards face up on the area designated for the Banker's Hand and announce the Point Count of the Banker's Hand.

(3) Prior to dealing a third card to the Player's or Banker's Hand, the dealer shall settle all House Money Wagers as follows:

(i) If a player placed a House Money Wager, after the initial two cards of the Player's Hand and Banker's Hand have been turned face up on the layout, beginning from the dealer's right and moving counterclockwise around the table, the dealer shall collect all losing House Money wagers and pay all winning wagers in accordance with § 629a.12(h) (relating to payout odds; vigorish) provided that, at a player's discretion, the player may add the winning House Money payout to the player's original wager on the Player's or Banker's Hand in accordance with the following:

(A) All of the winning House Money payout or, if specified in the certificate holder's Rules Submission filed in accordance with § 601a.2 (relating to table games Rules Submissions), only a specified portion of the winning House Money payout shall be added to the area designated for the placement of the player's original wager on the Player's or Banker's Hand. The player's original wager and the House Money payout which was added to the player's original wager shall then be settled based on the outcome of the player's wager on the Player's or Banker's Hand.

(B) A player may not touch the winning House Money payout. The dealer shall either hand the entire winning House Money payout to the player or place all or a portion thereof, as authorized by the certificate holder, on the area designated for the placement of the player's wager on the Player's or Banker's Hand.

(ii) After settling the House Money Wagers, the game shall resume by dealing any third cards that are required to be dealt.

(4) Any third card required to be dealt to the Player's Hand shall be placed face down on the area designated for the Player's Hand. The dealer shall then hand the card, face down, to the player who was handed and returned the Player's Hand. After viewing the card, the

player shall return the card, face up, to the dealer, who shall place the card face up on the area designated for the Player's Hand.

(5) Any third card required to be dealt to the Banker's Hand shall be placed face down on the area designated for the Banker's Hand. The dealer shall then hand the card, face down, to the player who was handed and returned the Banker's Hand. After viewing the card, the player shall return the card, face up, to the dealer, who shall place the card face up on the area designated for the Banker's Hand.

(6) If two or more players wager an equally high amount on the Player's Hand, the player making the wager who is closest to the dealer, moving counterclockwise around the table, shall be handed the Player's Hand and any third card required to be dealt. If two or more players wager an equally high amount on the Banker's Hand, the player making the wager who is closest to the dealer, moving counterclockwise around the table, shall be handed the Banker's Hand and any third card required to be dealt.

(d) The dealer or floorperson assigned to the table may require any player to relinquish the right to turn over the cards in accordance with subsection (c) if the player unreasonably delays the game. If the voluntary or compulsory relinquishment of that right occurs, the dealer shall offer it to the player immediately to the right of the previous player. If the player does not accept it or there is not a player in that position, the dealer shall offer it to each of the other players in turn, moving counterclockwise around the table for the remainder of that round of play. If no player accepts the cards, the dealer shall turn the cards over and place them on the designated areas of the layout.

§ 629a.9. Procedure for dealing a third card.

(a) After the dealer positions the cards in accordance with § 629a.8(c) (relating to hands of player and banker; procedure for dealing initial two cards to each hand), the dealer shall announce the Point Count of the Player's Hand and the Banker's Hand.

(b) Following the announcement of the Point Counts of each hand, the dealer shall determine whether to deal a third card to each hand in accordance with § 629a.10 (relating to rules for determining whether a third card shall be dealt). Any third cards required shall be dealt as provided in § 629a.8(c).

(c) In no event may more than one additional card be dealt to either hand.

(d) If the cover card appears as the first card in the dealing shoe at the beginning of a round of play or appears during play, the cover card shall be removed and placed to the side and the hand will be completed. Upon completion of that hand, the dealer shall announce "last hand." At the completion of one more hand, the cards shall be replaced with new decks of cards.

§ 629a.10. Rules for determining whether a third card shall be dealt.

(a) If either the Player's Hand or the Banker's Hand is a Natural, no more cards may be dealt to either hand.

(b) If the Point Count of the Player’s Hand and the Banker’s Hand is 0 to 7 on the first two cards, the Player’s Hand shall:

(1) Draw (take a third card) if the Player’s Hand has a Point Count of less than 6.

(2) Stay (not take a third card) if the Player’s Hand has a Point Count of 6 or more.

(c) If the Point Count of the Player’s Hand and the Banker’s Hand is 0 to 7 on the first two cards, the Banker’s Hand shall draw or stay in accordance with the following requirements:

(1) If the Player’s Hand does not receive a third card, the Banker’s Hand shall be dealt a third card if the Point Count of the Banker’s Hand is 5 or less.

(2) If the Player’s Hand is dealt a third card and:

(i) The Banker’s Hand has a Point Count of less than 3, the Banker’s Hand shall be dealt a third card.

(ii) The Banker’s Hand has a Point Count of 7, the Banker’s Hand may not be dealt a third card.

(iii) The Banker’s Hand has a Point Count of 3, 4, 5 or 6, the Banker’s Hand shall be dealt or not dealt a third card in accordance with Table 1 as follows:

Table 1

Value of the Third Card Drawn by Player’s Hand

<i>Point Count of Banker’s Hand After Two Cards</i>	0	1	2	3	4	5	6	7	8	9
3										
4										
5										
6										

(d) In Table 1, the first vertical column labeled “Point Count of Banker’s Hand After Two Cards” refers to the Point Count of the Banker’s Hand after the first two cards have been dealt to the Banker’s Hand.

(e) In Table 1, the first horizontal row at the top labeled “Value of the Third Card Drawn by Player’s Hand” refers to the value of the third card drawn by the Player’s Hand, not the Point Count of the Player’s Hand.

(f) In Table 1, the letter “D” means that the Banker’s Hand shall draw a third card and the letter “S” means that the Banker’s Hand shall stay.

(g) To use Table 1, first find the Point Count of the Banker's Hand in the first vertical column and trace that horizontally across the table until it intersects the vertical column that corresponds to the value of the third card drawn by the Player's Hand. The symbol located where the intersection occurs determines whether the Banker's Hand shall draw a third card or stay. For example, if the Point Count of the Banker's Hand after two cards is 5 and the value of the third card drawn by the Player's Hand is 4, the table shows that the Banker's Hand shall draw a third card.

§ 629a.11. Announcement of result of round; payment and collection of wagers.

(a) After each hand has received all the cards to which it is entitled under §§ 629a.8, 629a.9 and 629a.10 (relating to hands of player and banker; procedure for dealing initial two cards to each hand; procedure for dealing a third card; and rules for determining whether a third card shall be dealt), the dealer shall announce the final Point Count of each hand indicating which hand has won the round. If two hands have equal Point Counts, the dealer shall announce "tie hand." If the table is designated for play as an EZ Baccarat table and the Point Counts of the Banker's Hand and the Player's Hand result in a Dragon 7 or a Panda 8, the dealer shall announce "Dragon 7" or "Panda 8."

(b) After the result of the round is announced, the dealer shall first collect each losing wager. After the losing wagers are collected, the dealer shall, starting at the highest numbered player position at which a winning wager is located, mark or collect the vigorish owed by that player, unless the table is designated for play as an EZ Baccarat table in which vigorish is not collected. Immediately thereafter, the dealer shall pay that player's winning wager and then, proceeding in descending order to the next highest numbered player position at which a winning wager is located, repeat this procedure until the vigorish owed by each player is either marked or collected and each winning wager is paid.

(c) At the conclusion of a round of play, the dealer shall remove all cards from the table and place the cards in the discard bucket.

§ 629a.12. Payout odds; vigorish.

(a) A winning wager made on the Player's Hand shall be paid at odds of 1 to 1.

(b) A winning Tie Wager shall be paid at odds of at least 8 to 1.

(c) A winning wager made on the Banker's Hand shall be paid at odds of 1 to 1, except that the certificate holder shall extract a vigorish from the winning players in an amount equal to 5% of the amount won unless the certificate holder is offering EZ Baccarat in which vigorish is not collected. When collecting the vigorish, the certificate holder may round off the vigorish to 25¢ or the next highest multiple of 25¢.

(d) A dealer shall collect the vigorish from a player in accordance with one of the following procedures selected by the certificate holder in its Rules Submission under § 601a.2 (relating to table games Rules Submissions):

(1) At the time the winning payout is made.

(2) At a later time, provided that:

(i) The outstanding vigorish shall be collected prior to beginning play with a new dealing shoe of cards or when the player leaves the gaming table, whichever occurs first.

(ii) The amount of the vigorish shall be tracked by placing a coin or marker button, which contains the amount of the vigorish owed, in the rectangular space on the layout that is imprinted with the number of the player owing the vigorish.

(iii) The coin or marker button may not be removed from the layout until the vigorish owed is collected.

(e) If a certificate holder offers the Dragon Bonus Wager, in accordance with § 629a.7(a)(4) (relating to wagers), a vigorish may not be extracted on a winning Dragon Bonus Wager. Winning Dragon Bonus Wagers shall be paid out at the odds in one of the following paytables selected by the certificate holder in its Rules Submission filed in accordance with § 601a.2:

<i>Hand</i>	<i>Paytable A</i>	<i>Paytable B</i>	<i>Paytable C</i>
Win by 9 points	30 to 1	20 to 1	30 to 1
Win by 8 points	10 to 1	8 to 1	10 to 1
Win by 7 points	6 to 1	7 to 1	4 to 1
Win by 6 points	4 to 1	4 to 1	4 to 1
Win by 5 points	2 to 1	3 to 1	2 to 1
Win by 4 points	1 to 1	1 to 1	2 to 1
Natural winner	1 to 1	1 to 1	1 to 1
Natural tie	Push	Push	Push

(f) A winning Dragon 7 Insurance Wager, as described in § 629a.7(a)(5), shall be paid at odds of 40 to 1.

(g) A winning Panda 8 Insurance Wager, as described in § 629a.7(a)(6), shall be paid at odds of 25 to 1.

(h) If a certificate holder offers the House Money Wager and the player elects to take the payout, the player shall be paid in accordance with the following payable:

<i>Hand</i>	<i>Odds</i>
Player and Banker Pair	15 to 1
Player or Banker Pair	3 to 1

§ 629a.13. Irregularities.

(a) Except as provided in subsection (b), a card drawn in error from the dealing shoe that is not disclosed shall be used as the first card of the next hand of play.

(b) A third card dealt to the Player's Hand that is not disclosed, when a third card is not authorized under § 629a.10 (relating to rules for determining whether a third card shall be dealt), shall become the third card of the Banker's Hand if the Banker's Hand is required to draw under § 629a.10(c). If the Banker's Hand is required to stay, the card dealt in error shall become the first card of the next hand of play.

(c) If a third card dealt to the Player's Hand, when a third card is not authorized under § 629a.10, is disclosed at the time it is dealt or is found face up in the dealing shoe, the dealer shall use the disclosed card as the third card of the Banker's Hand if the Banker's Hand is required to draw under § 629a.10(c). If the Banker's Hand is required to stay, the dealer shall, in accordance with one of the following procedures designated in the certificate holder's Rules Submission under § 601a.2 (relating to table games Rules Submissions):

(1) Place the disclosed card and one additional card, drawn face down from the dealing shoe, into the discard bucket without disclosing the additional card.

(2) Use the disclosed card as the first card of a simulated round of play in which wagers may not be accepted. The cards shall be dealt in accordance with this chapter and placed in the discard bucket upon completion of the dealing procedures.

(d) Except as provided in subsection (c), if a card is disclosed at the time it is dealt or a card is found face up in the dealing shoe, the dealer shall use the disclosed card as the first card of a simulated round of play in which wagers may not be accepted. The cards shall be dealt in accordance with this chapter and shall be placed in the discard bucket upon completion of the dealing procedures.

(e) If there are insufficient cards remaining in the dealing shoe to complete a round of play, that round shall be void and all wagers shall be returned. A new round shall commence after the entire set of cards has been replaced and the new set of cards have been placed in the dealing shoe.

(a) Baccarat shall be played on a table having numbered positions for 10 to 14 seated players.

(b) The layout for a Baccarat table shall be submitted to the Bureau of Gaming Operations and approved in accordance with § 601a.10(a) (relating to approval of table layouts, signage and equipment) and contain, at a minimum:

(1) The name or logo of the certificate holder.

(4) An area designated for the placement of cards for the Player's Hand and Banker's Hand.

(5) If a certificate holder offers the Dragon Bonus Wager, authorized under § 631a.8(a)(4) (relating to wagers), separate areas designated for the placement of the Dragon Bonus Wager for each player.

(6) If a certificate holder offers EZ Baccarat:

(i) Separate areas designated for the placement of the Dragon 7 Insurance Wager, authorized under § 631a.8(a)(5) for each player.

(ii) Inscriptions that advise patrons that a wager on the Banker's Hand that results in a Dragon 7 shall push and be returned to the player. If the information is not inscribed on the layout, a sign containing the information must be posted at each Baccarat table.

(iii) Separate areas designated for the placement of the Panda 8 Insurance Wager, authorized under § 631a.8(a)(6), for each player.

(7) If a certificate holder offers the House Money Wager, authorized under § 631a.8(a)(7), separate areas designated for the placement of the House Money Wager for each player.

(8) Numbered areas that correspond to the seat numbers for the purpose of marking vigorish unless the dealer, in accordance with the option selected in the certificate holder's Rules Submission under § 601a.2 (relating to table games Rules Submissions), collects the vigorish from a player at the time the winning payout is made or the table is designated for play as an EZ Baccarat table in which vigorish is not collected.

(c) If marker buttons are used for the purpose of marking vigorish, the marker buttons shall be placed in the table inventory container or in a separate rack designed for the purpose of storing marker buttons. If a separate rack is used, the rack shall be placed in front of the table inventory container during gaming activity.

(d) Each Baccarat table must have a drop box and a tip box attached on the same side of the gaming table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g). The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game

equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(e) Each Baccarat table must have a discard bucket on dealer's side of the table.

§ 631a.3. Cards; number of decks.

(a) Baccarat shall be played with six to eight decks of cards that are identical in appearance and two cover cards.

(b) The decks of cards opened for use at a Baccarat table shall be changed after the play of each dealing shoe.

§ 631a.4. Opening of the table for gaming.

(a) After receiving six or more decks of cards at the table, the dealer calling the game shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread out in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player is afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked.

(d) If the decks of cards received at the table are preinspected and reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(c) do not apply.

§ 631a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), one or more of the dealers shall wash and stack the cards, after which each of the dealers shall shuffle the stack of cards independently.

(b) After shuffling the cards and, when applicable, reshuffling them, the dealer calling the game shall offer the stack of cards, with the backs facing away from the dealer, to the players to be cut. The dealer shall begin with the player seated in the highest number position at the table or, in the case of a reshuffle, the last curator and working clockwise around the table, offer the stack to each player until a player accepts the cut. If a player does not accept the cut, the dealer shall cut the cards.

(c) The cards shall be cut by placing a cover card in the stack at least ten cards in from the top or the bottom of the stack.

(d) Once the cover card has been inserted into the stack, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The dealer shall then insert the second cover card in a position at least 14 cards above the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before the cards have been placed in the dealing shoe, a floorperson or above may require the cards to be recut if the floorperson or above determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game. If a recut is required, the cards shall be recut by the next person entitled to cut the cards, as determined by subsection (b). The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(f) Prior to commencement of play, the dealer shall remove and expose the first card from the dealing shoe and place it, and an additional number of cards, drawn face down, equal to the face value of the first card drawn, in the discard bucket. When determining the face value of the first card removed from the dealing shoe, a 10, jack, queen or king shall count as ten and an ace shall count as one.

§ 631a.6. Value of cards; Point Count of hand.

(a) The value of the cards in each deck shall be as follows:

- (1) Any card from 2 to 9 shall have its face value.
- (2) Any 10, jack, queen or king shall have a value of zero.
- (3) Any ace shall have a value of one.

(b) The Point Count of a hand shall be a single digit number from 0 to 9 and determined by totaling the value of the cards in the hand. If the total value of the cards in a hand is a two-digit number, the left digit of the number shall be discarded and the right digit shall constitute the Point Count of the hand. Examples of this rule are as follows:

- (1) A hand composed of an ace, 2 and 4 has a Point Count of 7.
- (2) A hand composed of an ace, 2 and 9 has a total value of 12 but a Point Count of only 2 since the left digit in the number 12 is discarded.

§ 631a.7. Dealing shoe; selection of the player to deal cards.

(a) Cards used to play Baccarat shall be dealt from a manual dealing shoe specifically designed for that purpose.

(b) After the cards have been shuffled and placed in the dealing shoe, the dealer calling the game shall offer the dealing shoe to the player in seat number one at the table. If that player rejects the dealing shoe or if there is no one in seat number one, the dealer shall offer the dealing

shoe to each of the other players in turn, moving counterclockwise around the table, until one of the players accepts the dealing shoe.

(c) The player that accepts the dealing shoe shall be designated as the curator.

(d) Notwithstanding subsections (b) and (c), the dealer may act as the curator if either:

(1) A player who accepts the dealing shoe and any other player to whom the dealing shoe is relinquished under § 631a.14 (relating to continuation of curator as dealer; selection of a new curator) designates the dealer calling the game as the curator.

(2) No player to whom the dealing shoe is offered accepts the dealing shoe.

(4) Any third card required to be dealt to the Player's Hand shall be placed face down on the area designated for the Player's Hand. The dealer calling the game shall then hand the card, face down, to the player who was handed and returned the Player's Hand. After viewing the card, the player shall return the card, face up, to the dealer calling the game, who shall place the card face up on the area designated for the Player's Hand.

(5) Any third card required to be dealt to the Banker's Hand shall be placed face down on the area designated for the Banker's Hand. The dealer calling the game shall then hand the card, face down, to the player who was handed and returned the Banker's Hand. After viewing the card, the player shall return the card, face up, to the dealer calling the game, who shall place the card face up on the area designated for the Banker's Hand.

(6) If two or more players wager an equally high amount on the Player's Hand, the player making the wager who is closest to the dealer calling the game, moving counterclockwise around the table, shall be handed the Player's Hand and any third card required to be dealt. If two or more players wager an equally high amount on the Banker's Hand, the player making the wager who is closest to the dealer calling the game, moving counterclockwise around the table, shall be handed the Banker's Hand and any third card required to be dealt.

(7) In the event there are no wagers on the Player's Hand, the dealer calling the game shall turn the Player's Hand face up and any additional card required to be dealt. In the event there are no wagers on the Banker's Hand, the dealer calling the game shall turn the Banker's Hand face up and any additional card required to be dealt.

(e) After the initial two cards of the Player's Hand and Banker's Hand have been turned face up on the layout but prior to dealing a third card in accordance with subsections (c) and (d), the dealer shall settle all House Money Wagers as follows:

(1) If a player placed a House Money Wager, beginning from the dealer's right and moving counterclockwise around the table, the dealer shall collect all losing House Money wagers and pay all winning wagers in accordance with § 631a.13(h) (relating to payout odds; vigorish) provided that, at a player's discretion, the player may add the winning House Money payout to the player's original wager on the Player's or Banker's Hand in accordance with the following:

(i) All of the winning House Money payout or, if specified in the certificate holder's Rules Submission filed in accordance with § 601a.2, only a specified portion of the winning House Money payout shall be added to the area designated for the placement of the player's original wager on the Player's or Banker's Hand. The player's original wager and the House Money payout which was added to the player's original wager shall then be settled based on the outcome of the player's wager on the Player's or Banker's Hand.

(ii) A player may not touch the winning House Money payout. The dealer shall either hand the entire winning House Money payout to the player or place all or a portion thereof, as authorized by the certificate holder, on the area designated for the placement of the player's wager on the Player's or Banker's Hand.

(2) After settling the House Money Wagers, the game shall resume by dealing any third cards that are required to be dealt in accordance with subsection (c) or (d)(4).

(f) The dealer or floorperson assigned to the table may require any player to relinquish the right to turn over the cards in accordance with subsection (d) if the player unreasonably delays the game. If the voluntary or compulsory relinquishment of that right occurs, the dealer shall offer it to the player immediately to the right of the previous player. If the player does not accept it or there is not a player in that position, the dealer shall offer it to each of the other players in turn, moving counterclockwise around the table for the remainder of that round of play. If no player accepts the cards, the dealer shall turn the cards over and place them on the designated areas of the layout.

§ 631a.10. Procedure for dealing a third card.

(a) Except as provided in § 631a.9(d) (relating to hands of player and banker; procedure for dealing initial two cards to each hand), after the initial four cards have been dealt and the dealer calling the game places the cards face up in front of himself, the dealer calling the game shall announce the Point Count of the Player's Hand and the Banker's Hand.

(b) Following the announcement of the Point Counts of each hand, the dealer calling the game shall instruct the curator whether to deal a third card to either or both hands in accordance with § 631a.11 (relating to rules for determining whether a third card shall be dealt). Any third cards required shall be dealt as provided in § 631a.9(c) or (d).

(c) In no event may more than one additional card be dealt to either hand.

(d) If the cover card appears as the first card in the dealing shoe at the beginning of a round of play or appears during play, the cover card shall be removed and placed to the side and the hand will be completed. Upon completion of that hand, the dealer calling the game shall announce "last hand." At the completion of one more hand, the cards shall be replaced with new decks of cards.

§ 631a.11. Rules for determining whether a third card shall be dealt.

(a) If either the Player's Hand or the Banker's Hand is a Natural, no more cards may be dealt to either hand.

(b) If the Point Count of the Player's Hand and the Banker's Hand is 0 to 7 on the first two cards, the Player's Hand shall:

(1) Draw (take a third card) if the Player's Hand has a Point Count of less than 6.

(2) Stay (not take a third card) if the Player's Hand has a Point Count of 6 or more.

(c) If the Point Count of the Player's Hand and the Banker's Hand is 0 to 7 on the first two cards, the Banker's Hand shall draw or stay in accordance with the following requirements:

(1) If the Player's Hand does not receive a third card, the Banker's Hand shall be dealt a third card if the Point Count of the Banker's Hand is 5 or less.

(2) If the Player's Hand is dealt a third card and:

(i) The Banker's Hand has a Point Count of less than 3, the Banker's Hand shall be dealt a third card.

(ii) The Banker's Hand has a Point Count of 7, the Banker's Hand may not be dealt a third card.

(iii) The Banker's Hand has a Point Count of 3, 4, 5 or 6, the Banker's Hand shall be dealt or not dealt a third card in accordance with Table 1 as follows:

Table 1

Value of the Third Card Drawn by Player's Hand

<i>Point Count of Banker's Hand After Two Cards</i>	0	1	2	3	4	5	6	7	8	9
3				D	D	D	D	D	D	S
4	S	S	D	D	D	D	D	D	S	S
5	S	S	S	S	D	D	D	D	S	S
6	S	S	S	S	S	S	D	D	S	S

(d) In Table 1, the first vertical column labeled "Point Count of Banker's Hand After Two Cards" refers to the Point Count of the Banker's Hand after the first two cards have been dealt to the Banker's Hand.

(e) In Table 1, the first horizontal row at the top labeled "Value of the Third Card Drawn by Player's Hand" refers to the value of the third card drawn by the Player's Hand, not the Point Count of the Player's Hand.

(f) In Table 1, the letter "D" means that the Banker's Hand shall draw a third card and the letter "S" means that the Banker's Hand shall stay.

(g) To use Table 1, first find the Point Count of the Banker's Hand in the first vertical column and trace that horizontally across the table until it intersects the vertical column that corresponds to the value of the third card drawn by the Player's Hand. The symbol located where the intersection occurs determines whether the Banker's Hand shall draw a third card or stay. For example, if the Point Count of the Banker's Hand after two cards is 5 and the value of the third

card drawn by the Player's Hand is 4, the table shows that the Banker's Hand shall draw a third card.

§ 631a.12. Announcement of result of round; payment and collection of wagers.

(a) After each hand has received all the cards to which it is entitled under §§ 631a.9, 631a.10 and 631a.11 (relating to hands of player and banker; procedure for dealing initial two cards to each hand; procedure for dealing a third card; and rules for determining whether a third card shall be dealt), the dealer calling the game shall announce the final Point Count of each hand indicating which hand has won the round. If the two hands have equal Point Counts, the dealer shall announce "tie hand." If the table is designated for play as an EZ Baccarat table and the Point Counts of the Banker's Hand and the Player's Hand result in a Dragon 7 or a Panda 8, the dealer shall announce "Dragon 7" or "Panda 8."

(b) After the result of the round is announced, the dealer or dealers responsible for the wagers on the table shall first collect each losing wager. After the losing wagers are collected, the dealer or dealers responsible for the wagers on the table shall, starting at the highest numbered player position at which a winning wager is located, pay that player's winning wager and immediately thereafter mark or collect the vigorish owed by that player unless the table is designated for play as an EZ Baccarat table in which vigorish is not collected. The dealer shall then proceed in descending order to the next highest numbered player position at which a winning wager is located and repeat this procedure until each winning wager is paid and the vigorish owed by each player, if any, is either marked or collected.

(c) At the conclusion of a round of play, the dealer shall remove all cards from the table and place the cards in the discard bucket.

§ 631a.13. Payout odds; vigorish.

(a) A winning wager made on the Player's Hand shall be paid at odds of 1 to 1.

(b) A winning Tie Wager shall be paid at odds of at least 8 to 1.

(c) A winning wager made on the Banker's Hand shall be paid at odds of 1 to 1, except that the certificate holder shall extract a vigorish from the winning players in an amount equal to 5% of the amount won, unless the certificate holder is offering EZ Baccarat in which vigorish is not collected. When collecting the vigorish, the certificate holder may round off the vigorish to 25¢ or the next highest multiple of 25¢.

(d) A dealer shall collect the vigorish from a player in accordance with one of the following procedures selected by the certificate holder in its Rules Submission under § 601a.2 (relating to table games Rules Submissions):

(1) At the time the winning payout is made.

(2) At a later time, provided that:

(i) The outstanding vigorish shall be collected prior to beginning play with a new dealing shoe of cards or when the player leaves the gaming table, whichever occurs first.

(ii) The amount of the vigorish shall be tracked by placing a coin or marker button, which contains the amount of the vigorish owed, in the rectangular space on the layout that is imprinted with the number of the player owing the vigorish.

(iii) The coin or marker button may not be removed from the layout until the vigorish owed is collected.

(e) If a certificate holder offers the Dragon Bonus Wager, in accordance with § 631a.8(a)(4) (relating to wagers), a vigorish may not be extracted on a winning Dragon Bonus Wager. Winning Dragon Bonus Wagers shall be paid out at the odds in one of the following paytables selected by the certificate holder in its Rules Submission filed in accordance with § 601a.2:

<i>Hand</i>	<i>Paytable A</i>	<i>Paytable B</i>	<i>Paytable C</i>
Win by 9 points	30 to 1	20 to 1	30 to 1
Win by 8 points	10 to 1	8 to 1	10 to 1
Win by 7 points	6 to 1	7 to 1	4 to 1
Win by 6 points	4 to 1	4 to 1	4 to 1
Win by 5 points	2 to 1	3 to 1	2 to 1
Win by 4 points	1 to 1	1 to 1	2 to 1
Natural winner	1 to 1	1 to 1	1 to 1
Natural tie	Push	Push	Push

(f) A winning Dragon 7 Insurance Wager, as described in § 631a.8(a)(5), shall be paid out at odds of 40 to 1.

(g) A winning Panda 8 Insurance Wager, as described in § 631a.8(a)(6), shall be paid at odds of 25 to 1.

(h) If a certificate holder offers the House Money Wager and the player elects to take the payout, the player shall be paid in accordance with the following payable:

<i>Hand</i>	<i>Odds</i>
Player and Banker Pair	15 to 1
Player or Banker Pair	3 to 1

§ 631a.14. Continuation of curator as dealer; selection of a new curator.

(a) The curator, after any round of play, may either pass the dealing shoe or remain as curator except that:

(1) The curator shall pass the dealing shoe whenever the Banker's Hand loses.

(2) The dealer calling the game or a floorperson or above may order the curator to pass the dealing shoe if the curator unreasonably delays the game or repeatedly makes invalid deals.

(b) When a voluntary or compulsory relinquishment of the dealing shoe occurs, the dealer shall offer the dealing shoe to the player immediately to the right of the previous curator and, if that player does not accept the dealing shoe or there is no player in that position, the dealer shall offer the dealing shoe to each of the other players in turn, moving counterclockwise around the table. The first player to accept the dealing shoe when offered shall become the new curator.

§ 631a.15. Irregularities.

(a) Except as provided in subsection (b), a card drawn in error from the dealing shoe that is not disclosed shall be used as the first card of the next hand of play.

(b) A third card dealt to the Player's Hand that is not disclosed, when a third card is not authorized under § 631a.11 (relating to rules for determining whether a third card shall be dealt), shall become the third card of the Banker's Hand if the Banker's Hand is required to draw under § 631a.11(c). If the Banker's Hand is required to stay, the card dealt in error shall become the first card of the next hand of play.

(c) If a third card dealt to the Player's Hand, when a third card is not authorized under § 631a.11, is disclosed at the time it is dealt or is found face up in the dealing shoe, the dealer calling the game shall use the disclosed card as the third card of the Banker's Hand if the Banker's Hand is required to draw under § 631a.11(c). If the Banker's Hand is required to stay, the dealer calling the game shall, in accordance with one of the following procedures designated in the certificate holder's Rules Submission under § 601a.2 (relating to table games Rules Submissions):

(1) Place the disclosed card and one additional card, drawn face down from the dealing shoe, into the discard bucket without disclosing the additional card.

(2) Use the disclosed card as the first card of a simulated round of play in which wagers may not be accepted. The cards shall be dealt in accordance with the rules of this chapter and placed in the discard bucket upon completion of the dealing procedures.

(d) Except as provided in subsection (c), if a card is disclosed at the time it is dealt or a card is found face up in the dealing shoe, the dealer shall use the disclosed card as the first card of a simulated round of play in which wagers may not be accepted. The cards shall be dealt in accordance with this chapter and placed in the discard bucket upon completion of the dealing procedures.

(e) If there are insufficient cards remaining in the dealing shoe to complete a round of play, that round shall be void and all wagers shall be returned. A new round shall commence

after the entire set of cards has been replaced and the new set of cards have been placed in the dealing shoe.

(b) After the cards have been shuffled and stacked, the dealer shall offer the stack of cards to be cut, with the backs facing away from the dealer, to the player determined under subsection (c). If no player accepts the cut, the dealer shall cut the cards.

(c) The cut of the cards shall be offered to players in the following order:

(2) The player on whose betting area the cover card appeared during the last round of play.

(3) If the cover card appeared on the dealer's hand during the last round of play, the player at the farthest position to the right of the dealer. If this player refuses, the offer to cut the cards shall rotate to each player in a counterclockwise manner.

(4) If the reshuffle was initiated at the direction of the floorperson or above, the player at the farthest position to the right of the dealer. If this player refuses, the offer to cut the cards shall rotate to each player in a counterclockwise manner.

(d) The player or dealer making the cut shall place the cover card in the stack at least ten cards from the top or bottom of the stack. Once the cover card has been inserted, the dealer shall take all cards on top of the cover card and place them on the bottom of the stack. The dealer shall then insert the cover card in the stack at a position at least 1/4 of the way in from the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before the cards have been placed in the dealing shoe, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game. If a recut is required, the cards shall be recut either by the player who last cut the cards or by the next person entitled to cut the cards, as determined under subsection (c). The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(f) A reshuffle of the cards in the shoe shall take place after the cover card is reached in the shoe, as provided in § 633a.7(e) (relating to procedure for dealing the cards; completion of each round of play), except that a floorperson may determine that the cards should be reshuffled after any round of play.

(g) If there is no gaming activity at a Blackjack table which is open for gaming, the cards shall be removed from the dealing shoe and the discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards shall be:

(1) Mixed thoroughly by a washing of the cards, stacked, then shuffled and cut in accordance with this section, if there is no automated shuffling device in use.

(2) Stacked and placed into the automated shuffling device to be shuffled, if an automated shuffling device is in use. The batch of cards already in the shuffler shall then be removed. Unless a player requests otherwise, the batch of cards removed from the shuffler does not need to be spread for inspection and reshuffled prior to being dealt, if the automated card shuffling device stores a single batch of shuffled cards inside the shuffler in a secure manner.

(h) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (b)—(g) do not apply.

§ 633a.6. Wagers.

(a) Wagers at Blackjack shall be made by placing value chips, plaques or other Board-approved table game wagering instruments on the appropriate areas of the Blackjack layout. Verbal wagers accompanied by cash may be accepted provided that they are confirmed by the dealer and the cash is expeditiously converted into value chips or plaques.

(b) After the cards have been shuffled as required under § 633a.5 (relating to shuffle and cut of the cards), a certificate holder may prohibit any patron, whether seated at the gaming table or not, who does not make a wager on a given round of play from placing a wager on the next round of play and any subsequent round of play at that gaming table until either:

A player may not handle, remove or alter any wagers that have been made until a decision has been rendered and implemented with respect to that wager.

(d) To participate in a round of play and compete against the dealer's hand, a player shall place a Blackjack Wager.

(e) A certificate holder may, if specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), offer to each player who placed a Blackjack Wager in accordance with subsection (d) the option of placing the following additional wagers:

(1) A Lucky Ladies Twenty Point Bonus Wager that the player's initial two cards will have a total point count of 20.

(2) A Match-the-Dealer Wager that either of the player's initial two cards will match the rank of dealer's up card.

(9) A Three Card Poker Wager that the dealer's up card and the player's initial two cards will form a three-card Poker hand of a straight flush, three-of-a-kind, straight or a flush. For purposes of the Three Card Poker Wager, the rank of the cards shall be: ace, king, queen, jack, 10, 9, 8, 7, 6, 5, 4, 3 and 2. An ace may be used to complete a straight flush or a straight with a 2 and 3 but may not be combined with any other sequence of cards (for example: king, ace and 2).

(10) A Hit and Run Progressive Wager that the dealer will have Blackjack or a hand containing five or more cards.

(11) A Straight Jack Progressive Wager that the initial two cards dealt to the player will form at least a two-card straight.

(f) The certificate holder shall specify in its Rules Submission under § 601a.2 the number of adjacent boxes on which a player may place a Blackjack Wager in one round of play.

§ 633a.7. Procedure for dealing the cards; completion of each round of play.

(a) Except as provided in § 633a.12(b) (relating to Blackjack variations), all cards shall be dealt from a dealing shoe which must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures under § 633a.5 (relating to shuffle and cut of the cards) have been completed, the stacked cards shall be placed in the dealing shoe by the dealer or by an automated card shuffling device.

(b) Each card shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand. The dealer may deal cards to the two betting positions closest to the dealing shoe with the same hand.

(c) After each full batch of cards is placed in the shoe, the dealer shall remove the first card and place it in the discard rack. Each new dealer who comes to the table shall also remove one card and place it in the discard rack before dealing any cards to the players.

(d) If a double shoe is utilized, the following procedures shall be used in lieu of the procedures in subsection (c).

(1) Prior to commencement of each round of play, the dealer shall draw a determinate card from either side of the double shoe. The suit of that card shall determine from which side of the shoe that round of play will be dealt. The certificate holder shall designate that the suits of hearts and diamonds correspond to the color of the backs of the cards being dealt from one side of the shoe, and that the suits of spades and clubs correspond to the color of the backs of the cards being dealt from the other side of the shoe.

(2) A determinant card corresponding to the side of the shoe from which it was drawn shall become the player's first card. A determinant card that does not correspond to the side of the shoe from which it was dealt shall be placed in a segregated area of the dealing shoe.

(e) If the cover card appears as the first card in the dealing shoe at the beginning of a round of play or appears during play, the cover card shall be removed and placed to the side and the hand will be completed. The dealer shall then collect and reshuffle the cards as follows:

(1) When a single dealing shoe is used, the dealer shall remove the cards remaining in the shoe and place them in the discard rack to ensure that no cards are missing.

(2) When a double shoe is used, the dealer shall remove the cards remaining in the side of the shoe from which the cover card was drawn and the cards, if any, that were put in a separate segregated area for the discards from that side of the double shoe, after which the dealer shall place those cards face down in the discard rack in order to ensure that no cards are missing.

(3) Shuffle the cards so that they are randomly intermixed. If a double shoe is utilized, the shuffle of the cards shall be limited to the side of the shoe from which the cover card was drawn.

(f) At the commencement of each round of play, or immediately after the determinant card has been drawn and either removed or used as the player's first card, the dealer shall, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal the cards as follows:

(1) One card face up to each box on the layout in which a Blackjack Wager is contained.

(2) One card face up to the dealer.

(3) A second card face up to each box in which a wager is contained.

(4) A second card face down to the dealer.

(g) Immediately after the second card is dealt to each player and the dealer, but prior to any additional cards being dealt or before any card reader device is utilized, the dealer shall, starting with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, settle the player's optional wagers by collecting all losing wagers and paying all winning wagers as follows:

(1) If a player placed a Lucky Ladies Twenty Point Bonus Wager and the player's initial two cards have a total point count of 20, the dealer shall pay the winning Twenty Point Bonus Wager in accordance with § 633a.13(c) (relating to payout odds; payout limitation). If the first card to the dealer is a 10, jack, queen, king or ace and the player has two queens of hearts, that player's Twenty Point Bonus Wager shall be settled after all other Twenty Point Bonus Wagers as follows:

(i) If the dealer has determined that the hole card will not give the dealer a Blackjack, the player shall be paid before any other cards are dealt.

(ii) If the dealer has determined that the hole card will give the dealer a Blackjack, the player shall be paid when the player's Blackjack Wager is collected.

(2) If a player placed a Match-the-Dealer Wager and either of the player's initial two cards match the rank of the dealer's up card, the dealer shall pay the winning Match-the-Dealer Wager in accordance with § 633a.13(d). If both of the player's initial two cards match the rank of the dealer's up card, the player shall be paid for each matching card. Any card with a face value of 10 or a point value of 10 (a jack, queen or king) shall only match an identical card without regard to value.

(3) If a player placed an In Between Wager and the dealer's up card:

(i) Falls between the player's initial two cards, the player shall be paid according to the respective card spread. A one-card spread occurs when only one card falls between the player's initial two cards. For example, if a player is dealt a 7 and a 9, the player shall win with a one-card spread if the dealer's up card is an 8. The dealer shall pay the winning In Between Wager in accordance with § 633a.13(e).

(ii) And the player's initial two cards are all the same rank, the player has a Triple Match. The dealer shall pay the winning In Between Wager in accordance with § 633a.13(e).

(4) If a player placed a Royal Match 21 Wager and the player's initial two cards are a Suited Match or a Royal Match, the dealer shall pay the winning Royal Match 21 Wager in accordance with § 633a.13(f). If the player has a Royal Match and the dealer's up card is a king or a queen, that player's Royal Match 21 Wager shall be settled after the dealer's hole card is exposed but prior to settling the player's Blackjack Wager. If after exposing the hole card, the dealer also has a Royal Match, the player shall be paid a Crown Treasure Bonus, if offered by the certificate holder, in addition to the payout for the player's Royal Match.

(5) If a player placed a Bet the Set 21 Wager and the player's initial two cards are a pair of the same rank or a suited pair of the same rank, the dealer shall pay the winning Bet the Set 21 Wager in accordance with § 633a.13(g).

(6) If a player placed a King's Bounty Wager and the player's initial two cards have a total point count of 20, the dealer shall pay the winning King's Bounty Wager in accordance with § 633a.13(h). If the first card to the dealer is a 10, jack, queen, king or ace and

the player has two kings of spades, that player's King's Bounty Wager shall be settled after all other King's Bounty Wagers as follows:

(i) If the dealer has determined that the hole card will not give the dealer a Blackjack, the player shall be paid before any other cards are dealt.

(ii) If the dealer has determined that the hole card will give the dealer a Blackjack, the player shall be paid when the player's Blackjack Wager is collected.

(7) If a player placed a Super Match Wager at a Blackjack Switch table and the player's initial four cards are a pair, a three-of-a-kind, two pair or a four-of-a-kind, the dealer shall pay the winning Super Match Wager in accordance with § 633a.13(i).

(8) If a player placed a Three Card Poker Wager and the dealer's up card and the player's initial two cards form a three-card Poker hand of a straight flush, three-of-a-kind, straight or a flush, the dealer shall pay the winning Three Card Poker Wager in accordance with § 633a.13(k).

(9) If a player placed a Straight Jack Progressive Wager and the player's initial two cards do not form a two-card straight, the dealer shall collect the player's Straight Jack Progressive Wager.

(10) If a player placed a House Money Wager and the player's initial two cards do not form a two-card straight, a pair, a two-card straight flush or an ace-king suited, the dealer shall collect the player's House Money Wager. If a player has a winning hand:

(i) And the dealer's up card is an ace, king, queen, jack or 10, the dealer shall determine whether the hole card will give the dealer a Blackjack in accordance with subsection (h). If the dealer:

(A) Has a Blackjack, the dealer shall pay the winning House Money Wager in accordance with § 633a.13(n).

(B) Does not have a Blackjack, the dealer shall follow the requirements in subparagraph (ii).

(ii) And the dealer's up card is not an ace, king, queen, jack or 10, the dealer shall pay all winning wagers in accordance with § 633a.13(n) provided that, at a player's discretion, the player may add the winning House Money payout to the player's Blackjack Wager in accordance with the following:

(A) All of the winning House Money payout or, if specified in the certificate holder's Rules Submission filed in accordance with § 601a.2 (relating to table games Rules Submissions), only a specified portion of the winning House Money payout shall be added to the area designated for the placement of the player's Blackjack Wager.

(B) A player may not touch the winning House Money payout. The dealer shall either hand the entire winning House Money payout to the player or place all or a portion thereof, as authorized by the certificate holder, on the area designated for the placement of the player's Blackjack Wager. If a player has a Blackjack, the player may add the House Money payout to the Blackjack Wager.

(C) If the player adds the House Money payout to his Blackjack Wager, the House Money payout and the Blackjack Wager must be considered the entire Blackjack Wager. Thus, if the player elects to split in accordance with § 633a.11 (relating to splitting pairs) or doubles down in accordance with § 633a.10 (relating to Double Down Wager), the player shall match the entire Blackjack Wager.

(h) After settling the player's optional wagers in accordance with subsection (g), if the dealer's first card is an ace, king, queen, jack or 10, the dealer shall, after offering the Insurance Wager or even money in accordance with § 633a.8 (relating to Insurance Wager), determine whether the hole card will give the dealer a Blackjack. The dealer shall insert the hole card into the card reader device by moving the card face down on the layout without exposing it to anyone at the table, including the dealer. If the dealer has a Blackjack, additional cards may not be dealt and each player's Blackjack Wager and the Bad Beat, Hit and Run Progressive and Insurance Wagers, if applicable, shall be settled.

(i) After the procedures in subsection (h) have been completed, if necessary, the dealer shall start with the player farthest to the dealer's left and continue around the table in a clockwise direction and if the player:

(1) Has Blackjack and the dealer's up card:

(i) Is a 2, 3, 4, 5, 6, 7, 8 or 9, the dealer shall announce and pay the Blackjack and remove the player's cards.

(ii) Is an ace, king, queen, jack or 10 but the dealer's hole card will not give the dealer a Blackjack, the dealer shall announce the player's Blackjack and either:

(A) Immediately pay the player's Blackjack and remove the player's cards.

(B) Leave the player's cards on the table and not make a payment to the player. After all other cards are dealt to the players and the dealer reveals his hole card, the dealer shall pay the player's Blackjack and remove the player's cards.

(2) Does not have Blackjack, the player shall indicate whether he wishes to surrender, as permitted under § 633a.9 (relating to surrender), double down as permitted under § 633a.10, split pairs as permitted under § 633a.11, stand or draw additional cards.

(j) As each player indicates his decision, the dealer shall deal face upwards whatever additional cards are necessary to effectuate the player's decision.

(k) A player may elect to draw additional cards whenever his point count total is less than 21, except that:

(1) A player having Blackjack or a hard or soft total of 21 may not draw additional cards.

(2) A player electing to make a Double Down Wager may draw only one additional card.

(l) After the decisions of each player have been implemented and all additional cards have been dealt, the dealer shall turn the hole card face up. Any additional cards required to be dealt to the hand of the dealer, in accordance with subsection (m), shall be dealt face up. The dealer shall announce the dealer's total point count after each additional card is dealt.

(m) Except as provided in subsection (n), the dealer shall draw additional cards until he has a hard or soft total of 17, 18, 19, 20 or 21.

(n) A dealer shall draw no additional cards to his hand, regardless of the point count, if decisions have been made on all players' hands and the point count of the dealer's hand will not have an effect on the outcome of the round of play.

(o) After all additional cards have been dealt to the players and the dealer, the dealer shall, starting with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, settle the remaining optional wagers by collecting all losing wagers and paying all winning wagers as follows:

(1) If a player placed a Bad Beat Progressive Wager:

(i) A player shall win if the player's hand has a total point count of 20 and the dealer has Blackjack or the total point count of the dealer's hand is 21. If selected by the certificate holder in its Rules Submission under § 601a.2, a player may also win if the total point count of the player's hand is 20, irrespective of the total point count of the dealer's hand.

(ii) If a player has won the Bad Beat Progressive Wager or a Magic Card or Lucky Player Bonus, if offered by the certificate holder, the dealer shall:

(A) Verify that the hand is a winning hand.

(B) Have a floorperson or above verify any Bad Beat Progressive payout with odds of 100 for 1 or greater in accordance with approved internal control procedures submitted under § 465a.2 (relating to internal control systems and audit protocols).

(C) Credit the player's game account for the winning Bad Beat Progressive Wager or the Magic Card or Lucky Player Bonus in accordance with § 633a.13(j). If more than one player at the table has won a progressive payout that is 100% of the jackpot amount on the progressive meter, each player shall share the maximum amount proportionally to the amount of the player's respective Bad Beat Progressive Wager.

(2) If a player placed a Hit and Run Progressive Wager:

(i) A player shall win if the dealer has Blackjack or the dealer's hand has five or more cards inclusive of any card which would give the dealer's hand a total point count of greater than 21. For example, if the dealer's hand has a total point count of 14 with five cards drawn and the dealer draws an additional card resulting in a total point count of 23, the dealer's sixth card shall also count toward the Hit and Run Progressive payout.

(ii) If a player has won the Hit and Run Progressive Wager, the dealer shall:

(A) Verify that the hand is a winning hand.

(B) Have a floorperson or above verify any Hit and Run Progressive payout with odds of 200 for 1 or greater in accordance with approved internal control procedures submitted under § 465a.2.

(C) Pay the player the winning Hit and Run Progressive Wager in accordance with § 633a.13(1). If a player has won a progressive payout that is 100% of the jackpot amount on the progressive meter, the progressive payout may not be paid from the table inventory container. If a player has won a progressive payout that is not being paid from the table inventory container, the cards of the player must remain on the table until the necessary documentation has been completed. If more than one player at the table has won a progressive payout that is 100% of the jackpot amount on the progressive meter, each player shall share the maximum amount equally.

(3) If a player placed a Straight Jack Progressive Wager:

(i) A player shall win if the player's initial two cards were a two-card straight. Each additional card drawn by the player which does not break the sequence of the two-card straight shall result in a payout increase, provided that an ace, king shall be a two-card straight. For example, if the player's initial two cards are a 4 and a 5 and the player draws:

(A) A 6, the player has a three-card straight.

(B) A 3 then a 6, the player has a four-card straight.

(C) A 2 then a 3, the 2 breaks the sequence and the player has a two-card straight.

(D) A 6 then a 7, resulting in a hand with a total point count greater than 21, the last card drawn may not count toward the Straight Jack Progressive Payout. The player will receive a payout for only a three-card straight.

(ii) If a player has won the Straight Jack Progressive Wager, the dealer shall:

(A) Verify that the hand is a winning hand.

(B) Have a floorperson or above verify any Straight Jack Progressive Payout with odds of 100 for 1 or greater in accordance with approved internal control procedures submitted under § 465a.2.

(C) Pay the player the winning Straight Jack Progressive Wager in accordance with § 633a.13(m). If a player has won a progressive payout that is 10% or more of the jackpot amount on the progressive meter, the progressive payout may not be paid from the table inventory container. If a player has won a progressive payout that is not being paid from the table inventory container, the cards of the player must remain on the table until the necessary documentation has been completed. If more than one player at the table has won a progressive payout that is 100% of the jackpot amount on the progressive meter, each player shall share the maximum amount equally.

(p) A player shall win the Blackjack Wager and be paid in accordance with the payout odds in § 633a.13(a) if:

(1) The total point count of the player's hand is 21 or less and the total point count of the dealer's hand is in excess of 21.

(2) The total point count of the player's hand exceeds the total point count of the dealer's hand without exceeding 21.

(3) The player has a Blackjack and the dealer's hand has a total point count of 21 in more than two cards.

(q) A Blackjack Wager shall tie and be returned to the player if the total point count of the player's hand is the same as the dealer's. A player's Blackjack Wager shall be lost if the dealer has a Blackjack and the player's hand has a total point count of 21 in more than two cards.

(r) The dealer shall collect all losing wagers and pay off all winning wagers in accordance with one of the following procedures designated in the certificate holder's Rules Submission under § 601a.2:

(1) Collect all losing wagers and then pay off all winning wagers.

(2) Pay off all winning wagers and collect all losing wagers beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction. The dealer shall place any losing wagers directly into the table inventory and may not pay off any winning wagers by using value chips collected from a losing wager.

(s) After all wagers have been settled, the dealer shall remove all remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

(t) Except as provided in § 633a.12(b), players and spectators may not handle, remove or alter any cards used to play Blackjack.

§ 633a.8. Insurance Wager.

(a) If the first card dealt to the dealer is an ace, each player may make an Insurance Wager which shall win if the dealer's hole card is a king, queen, jack or 10.

(b) An Insurance Wager may be made by placing a value chip on the insurance line of the layout in an amount not more than 1/2 of the player's initial Blackjack Wager. A player may wager an amount in excess of 1/2 of the initial Blackjack Wager to the next unit that can be wagered in chips, when, because of the limitation of the value of chip denominations, half the initial Blackjack Wager cannot be bet. Insurance Wagers shall be placed prior to the dealer inserting his hole card into the card reader device.

(c) Winning Insurance Wagers shall be paid in accordance with the payout odds in § 633a.13(b) (relating to payout odds; payout limitation).

(d) Losing Insurance Wagers shall be collected by the dealer immediately after the dealer inserts his hole card into the card reader device and determines that he does not have a Blackjack and before he draws any additional cards.

(e) Notwithstanding the requirements of subsection (a)—(d), a certificate holder may, if selected in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), offer a player who has Blackjack the option to be paid even money on the Blackjack Wager instead of making an Insurance Wager. If the player elects to be paid even money, the dealer shall pay out the Blackjack Wager at odds of 1 to 1 and remove the player's cards.

§ 633a.9. Surrender.

(a) After the first two cards are dealt to the player, the player may elect to discontinue play on his hand for that round by surrendering 1/2 his wager. All decisions to surrender shall be made prior to the player indicating whether he wishes to double down as permitted under § 633a.10 (relating to Double Down Wager), split pairs as permitted under § 633a.11 (relating to splitting pairs), stand or draw. If the first card dealt to the dealer:

(1) Is not an ace or 10 value card, the dealer shall immediately collect 1/2 of the wager and return 1/2 to the player.

(2) Is an ace or 10 value card, the dealer will either:

(i) Place the player's wager on top of the player's cards. When the dealer's second card is revealed, the hand will be settled by immediately collecting the entire wager if the dealer has Blackjack or collecting 1/2 of the wager and returning 1/2 of the wager to the player if the dealer does not have Blackjack. The player's cards shall then be collected.

(ii) Immediately after utilizing the card reader device in accordance with § 633a.7(h) (relating to procedure for dealing the cards; completion of each round of play), the hand shall be settled by immediately collecting the entire wager if the dealer has Blackjack or collecting 1/2 of the wager and returning 1/2 of the wager to the player if the dealer does not have Blackjack. The player's cards shall then be collected.

(b) If the player has made an Insurance Wager and then elects to surrender, each wager will be settled separately in accordance with subsection (a) and § 633a.8 (relating to Insurance Wager).

§ 633a.10. Double Down Wager.

(a) Except when a player has a Blackjack, a player may elect to make a Double Down Wager, which may not exceed the amount of his original Blackjack Wager, on the first two cards dealt to him or the first two cards of any split pair. Only one additional card shall be dealt to the hand on which the player has elected to double down.

(b) If a dealer obtains Blackjack after a player makes a Double Down Wager, the dealer shall collect only the amount of the original Blackjack Wager of the player and may not collect the additional Double Down Wager.

(c) Upon a player's election to make a Double Down Wager, the dealer shall deal the one additional card face up or face down and place it sideways on the layout.

§ 633a.11. Splitting pairs.

(a) If the initial two cards dealt to a player are identical in value, the player may elect to split the hand into two separate hands provided that he makes a wager on the second hand formed in an amount equal to his original Blackjack Wager. For example, if a player has two 7s or a king and a 10, the player may elect to split the hand.

(b) When a player splits pairs, the dealer shall deal a card to and complete the player's decisions with respect to the first incomplete hand on the dealer's left before proceeding to deal any cards to the second hand.

(c) After a second card is dealt to each split pair hand, the player shall indicate his decision to stand, draw or double down with respect to that hand. A certificate holder shall specify in its Rules Submission required under § 601a.2 (relating to table games Rules Submissions) the number of additional times a patron may split pairs, including aces.

(d) If the dealer obtains Blackjack after a player splits pairs, the dealer shall collect only the amount of the original wager of the player and may not collect the additional amount wagered in splitting pairs.

§ 633a.12. Blackjack variations.

(a) A certificate holder may, if specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), offer Blackjack Switch in accordance with the following requirements:

(1) A player shall make two equal Blackjack Wagers by placing value chips on the two designated betting areas prior to the first card being dealt.

(2) In addition to the two equal Blackjack Wagers, a player may make an additional Super Match Wager in accordance with § 633a.6(e)(7) (relating to wagers).

(3) Two hands shall then be dealt to each player in accordance with the dealing procedures in § 633a.7 (relating to procedure for dealing the cards; completion of each round of play).

(4) As each player's point total is announced, the player shall indicate whether he wishes to switch the second card of each hand dealt. A player may also double down as permitted under § 633a.10 (relating to Double Down Wager), split pairs as permitted under § 633a.11 (relating to splitting pairs), stand or draw additional cards.

(5) The round of play shall then be completed in accordance with the dealing procedures in § 633a.7. However, if the dealer's hand:

(j) If the dealer inserts his hole card into a card reader device when the value of his first card is not an ace, king, queen, jack or 10, the dealer, after notification to a floorperson or above, shall:

(k) If a card reader device malfunctions, the dealer may not continue dealing the game of Blackjack at that table until the card reader device is repaired or replaced.

(l) If an automated card shuffling device is being used and the device jams, stops shuffling during a shuffle or fails to complete a shuffle cycle, the cards shall be reshuffled.

Once the cover card has been inserted, the dealer shall take all cards on top of the cover card and place them on the bottom of the stack. The dealer shall then insert the cover card in the stack at a position at least 1/4 of the way in from the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before the cards have been placed in the dealing shoe, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game. The batch of cards removed from the shuffler does not need to be spread for inspection and reshuffled prior to being dealt, unless a player requests otherwise.

(h) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (b)—(g) do not apply.

(d) If the cover card appears as the first card in the dealing shoe at the beginning of a round of play or appears during play, the cover card shall be removed and placed to the side and the hand shall be completed. The dealer shall then collect and reshuffle the cards in accordance with § 635a.5.

(3) A second card face up to each box in which a wager is contained.

(4) A second card face down to the dealer.

(f) Immediately after the second card is dealt to each player and the dealer, but prior to any additional cards being dealt or before a card reader device is utilized, the dealer shall, starting with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, settle all Match-the-Dealer Wagers by collecting all losing wagers and paying all winning wagers as follows:

(1) If either of the player's initial two cards match the rank of the dealer's up card, the dealer shall pay the winning Match-the-Dealer Wager in accordance with § 635a.12(e) (relating to payout odds). Any card with a point value of 10 (a jack, queen or king) must only match an identical card without regard to value.

(2) If both of the player's initial two cards match the rank of the dealer's up card, the player shall be paid for each matching card.

(g) After settling the player's optional wagers in accordance with subsection (f), if the dealer's first card is an ace, king, queen or a jack, the dealer shall, after offering the Insurance Wager in accordance with § 635a.8 (relating to Insurance Wager), determine whether the hole card will give the dealer a Blackjack. The dealer shall insert the hole card into the card reader device by moving the card face down on the layout without exposing it to anyone at the table, including the dealer. If the dealer has a Blackjack, no additional cards shall be dealt and each player's Spanish 21 and Insurance Wagers, if applicable, shall be settled.

(h) After the procedures in subsection (g) have been completed, if necessary, the dealer shall start with the player farthest to the dealer's left and continue around the table in a clockwise direction and if the player:

(1) Has Blackjack and the dealer's up card is:

(i) A 2, 3, 4, 5, 6, 7, 8 or 9, the dealer shall announce and pay the Blackjack and remove the player's cards.

(ii) An ace, king, queen or jack but the dealer's hole card will not give the dealer a Blackjack, the dealer shall announce the player's Blackjack but make no payment

nor remove any cards until all other cards are dealt to the players and the dealer reveals the hole card.

(2) Does not have Blackjack, the player shall indicate whether he wishes to surrender, as permitted under § 635a.9 (relating to surrender), double down as permitted under § 635a.10 (relating to Double Down Wager; rescue), split pairs as permitted under § 635a.11 (relating to splitting pairs), stand or draw additional cards.

(i) As each player indicates his decision, the dealer shall deal face upwards whatever additional cards are necessary to effectuate the player's decision.

(j) A player may elect to draw additional cards whenever his point count total is less than 21, except that the player:

(1) Having Blackjack or a hard or soft total of 21 may not draw additional cards.

(2) Electing to make a Double Down Wager may draw only one additional card.

(k) After the decisions of each player have been implemented and all additional cards have been dealt, the dealer shall turn the hold card face up. Any additional cards required to be dealt to the hand of the dealer, in accordance with subsection (l), shall be dealt face up. The dealer shall announce the dealer's total point count after each additional card is dealt.

(l) Except as provided in subsection (m), the dealer shall draw additional cards until he has a hard or soft total of 17, 18, 19, 20 or 21.

(m) A dealer may not draw additional cards to his hand, regardless of the point count, if decisions have been made on all players' hands and the point count of the dealer's hand will not have an effect on the outcome of the round of play.

(n) A player shall win the Blackjack Wager and be paid in accordance with the payout odds in § 635a.12(a)—(c) if:

(1) The total point count of the player's hand is 21 or less and the total point count of the dealer's hand is in excess of 21.

(2) The total point count of the player's hand exceeds the total point count of the dealer's hand without exceeding 21.

(3) The player has a Blackjack and the dealer's hand has a total point count of 21 in two or more cards.

(4) The total point count of the player's hand and the dealer's hand is 21 in more than two cards.

(o) Except as provided in subsection (n)(3) and (4), a Spanish 21 Wager shall tie and be returned to the player if the total point count of the player's hand is the same as the dealer's. A

player's Spanish 21 Wager shall be lost if the dealer has a Blackjack and the player's hand has a total point count of 21 in more than two cards.

(p) The dealer shall collect all losing wagers and pay off all winning wagers in accordance with one of the following procedures designated in the certificate holder's Rules Submission under § 601a.2 (relating to table games Rules Submissions):

(1) Collect all losing wagers and then pay off all winning wagers.

(2) Pay off all winning wagers and collect all losing wagers beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction. The dealer shall place any losing wagers directly into the table inventory and may not pay off any winning wagers by using value chips collected from a losing wager.

(q) After all wagers have been settled, the dealer shall remove all remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

(r) Players and spectators may not handle, remove or alter any cards used to play Spanish 21.

§ 635a.8. Insurance Wager.

(a) If the first card dealt to the dealer is an ace, each player may make an Insurance Wager which shall win if the dealer's hole card is a king, queen or jack.

(b) An Insurance Wager shall be made by placing a value chip on the insurance line of the layout in an amount not more than 1/2 the player's initial Spanish 21 Wager. A player may wager an amount in excess of 1/2 the initial Spanish 21 Wager to the next unit that can be wagered in chips when, because of the limitation of the value of chip denominations, half the initial Spanish 21 Wager cannot be bet. Insurance Wagers shall be placed prior to the dealer inserting his hole card into the card reader device.

(c) Winning Insurance Wagers shall be paid in accordance with the payout odds in § 635a.12(d) (relating to payout odds).

(d) Losing Insurance Wagers shall be collected by the dealer immediately after the dealer inserts his hole card into the card reader device and determines that he does not have a Blackjack and before he draws any additional cards.

§ 635a.9. Surrender.

(a) After the first two cards are dealt to the player, the player may elect to discontinue play on his hand for that round by surrendering 1/2 of his Spanish 21 Wager. All decisions to surrender shall be made prior to the player indicating whether he wishes to double down as permitted under § 635a.10 (relating to Double Down Wager; rescue), split pairs as permitted under § 635a.11 (relating to splitting pairs), stand or draw. If the first card dealt to the dealer is:

(1) Not an ace or 10 value card, the dealer shall immediately collect 1/2 of the wager and return 1/2 to the player.

(2) An ace or 10 value card, the dealer shall place the player's wager on top of the player's cards. When the dealer's second card is revealed, the hand shall be settled by immediately collecting the entire wager if the dealer has Blackjack or collecting 1/2 of the wager and returning 1/2 of the wager to the player if the dealer does not have Blackjack.

(b) If the player has made an Insurance Wager and then elects to surrender, each wager will be settled separately in accordance with subsection (a) and § 635a.8 (relating to Insurance Wager).

§ 635a.10. Double Down Wager; rescue.

(a) Except when a player has Blackjack, a player may elect to make a Double Down Wager, which may not exceed the amount of his original Spanish 21 Wager. A player may double down on two or more cards dealt to him or two or more cards of any split pair. Only one additional card shall be dealt to the hand on which the player has elected to double down. The one additional card shall be dealt face up and placed sideways on the layout.

(b) If a dealer obtains Blackjack after a player makes a Double Down Wager, the dealer shall collect only the amount of the original Spanish 21 Wager of the player and may not collect the additional Double Down Wager.

(c) A winning Double Down Wager shall be paid in accordance with § 635a.12(a) (relating to payout odds). The additional payouts in § 635a.12(b) and (c) are not applicable to winning Double Down Wagers.

(d) After the additional card required under subsection (a) has been dealt to the hand, a player may "rescue" (take back) the Double Down Wager and forfeit his original wager, as long as the additional card does not result in the hand having a total point count in excess of 21.

§ 635a.11. Splitting pairs.

(a) If the initial two cards dealt to a player are identical in value, the player may elect to split the hand into two separate hands provided that he makes a wager on the second hand formed in an amount equal to his original Spanish 21 Wager. For example, if a player has two 7s or a king and a jack, the player may elect to split the hand.

(b) When a player splits pairs, the dealer shall deal a card to and complete the player's decisions with respect to the first incomplete hand on the dealer's left before proceeding to deal any cards to the second hand.

(c) After a second card is dealt to a split pair hand, the player shall indicate his decision to stand, draw or double down with respect to that hand. A certificate holder shall specify in its Rules Submission under § 601a.2 (relating to table games Rules Submissions) the number of additional times a patron may split pairs, including aces.

(d) If the dealer obtains Blackjack after a player splits pairs, the dealer shall collect only the amount of the original wager of the player and may not collect the additional amount wagered in splitting pairs.

(e) The additional payouts provided in § 635a.12(b) and (c) (relating to payout odds) are not applicable to a winning wager on a split hand.

§ 635a.12. Payout odds.

(a) Except as provided in subsections (b) and (c), the certificate holder shall pay each winning Spanish 21 Wager at odds of 1 to 1 with the exception of Blackjack which shall be paid at odds of 3 to 2.

(b) Except when a player has made a Double Down Wager under § 635a.10 (relating to Double Down Wager; rescue), in which case all of the following wagers shall be paid at odds of 1 to 1, a certificate holder shall pay the following payout odds for winning Spanish 21 Wagers:

(1) Three cards consisting of 6, 7 and 8 of mixed suits shall be paid at odds of 3 to 2.

(2) Three cards consisting of 6, 7 and 8 of the same suit shall be paid at odds of 2 to 1, except that three cards consisting of the 6, 7 and 8 of spades shall be paid at odds of 3 to 1.

(3) Three cards consisting of three 7s of mixed suits shall be paid at odds of 3 to 2.

(4) Three cards consisting of three 7s of the same suit shall be paid at odds of 2 to 1, except that three cards consisting of three 7s of spades shall be paid at odds of 3 to 1.

(5) Five cards totaling 21 shall be paid at odds of 3 to 2.

(6) Six cards totaling 21 shall be paid at odds of 2 to 1.

(7) Seven or more cards totaling 21 shall be paid at odds of 3 to 1.

(c) In addition to the payouts under subsection (b)(4), a winning hand that consists of three 7s of the same suit, when the dealer's exposed card is also a 7 of any suit, shall be paid an additional fixed payout in accordance with the following requirements:

(1) If the player's original wager was \$5 or more but less than \$25, the player shall receive an additional payout of \$1,000.

(2) If the player's original wager was \$25 or more, the player shall receive an additional payout of \$5,000.

(3) All other players at the table who placed a wager during that round of play shall also be paid an additional fixed payout of \$50.

(4) The additional fixed payouts are not applicable if a Double Down Wager was made on a winning hand or the winning hand had been split under § 635a.11 (relating to splitting pairs).

(d) The certificate holder shall pay out winning Insurance Wagers at odds of 2 to 1.

(e) The certificate holder shall pay out winning Match-the-Dealer Wagers at the odds in the following paytables:

(1) If six decks of cards are being used:

<i>Hand</i>	<i>Payout</i>
Each matching card of the same suit	9 to 1
Each matching card of a different suit	4 to 1

(2) If eight decks of cards are being used:

<i>Hand</i>	<i>Payout</i>
Each matching card of the same suit	12 to 1
Each matching card of a different suit	3 to 1

§ 635a.13. Irregularities.

(a) A card found face up in the shoe may not be used in that round of play and shall be placed in the discard rack. If more than one card is found face up in the shoe during the dealing of the cards, the round of play shall be void and the cards shall be reshuffled.

(b) If a 10 card of any suit is found in the shoe, it may not be used in the game and shall be removed from the shoe and torn in half by a floorperson and placed in the box, envelope or container that the decks came from. If more than one 10 card is found in the shoe during the dealing of the cards, the round of play shall be void and the decks of cards shall be removed from play.

(c) A card drawn in error without its face being exposed shall be used as though it were the next card from the shoe.

(d) After the initial two cards have been dealt to each player and a card is drawn in error and exposed to the players, the card shall be dealt to the players or dealer as though it were the next card from the shoe. Any player refusing to accept the card may not have any additional cards dealt to him during the round. If the card is refused by the players and the dealer cannot use the card, the card shall be placed in the discard rack.

(e) If the dealer has 17 and accidentally draws a card for himself, the card shall be placed in the discard rack.

(f) If the dealer misses dealing his first or second card to himself, the dealer shall continue dealing the first two cards to each player and then deal the appropriate number of cards to himself.

(g) If there are insufficient cards remaining in the shoe to complete a round of play, all of the cards in the discard rack shall be shuffled and cut in accordance with § 635a.5 (relating to shuffle and cut of the cards). The first card shall be drawn face down and placed in the discard rack and the dealer shall complete the round of play.

(h) If no cards are dealt to the player's hand, the player's hand is dead and the player shall be included in the next deal. If only one card is dealt to the player's hand, at the player's option, the dealer shall deal the second card to the player after all other players have received a second card.

(i) If after receiving the first two cards, the dealer fails to deal an additional card to a player who has requested a card, then, at the player's option, the dealer shall either deal the additional card after all other players have received their additional cards but prior to the dealer revealing his hole card or call the player's hand dead and return the player's original Spanish 21 Wager.

(j) If the dealer inserts his hole card into a card reader device when the value of his first card is not an ace, king, queen or jack, the dealer, after notification to a floorperson or above, shall, if the particular card reader device in use:

(1) Provides any player with the opportunity to determine the value of the hole card, call all hands dead, collect the cards and return each player's wager.

(2) Does not provide any player with the opportunity to determine the value of the hole card, continue play.

(k) If a card reader device malfunctions, the dealer may not continue dealing the game of Spanish 21 at that table until the card reader device is repaired or replaced.

(l) If an automated card shuffling device is being used and the device jams, stops shuffling during a shuffle or fails to complete a shuffle cycle, the cards shall be reshuffled.

(m) If an automated card shuffling device or automated dealing shoe malfunctions and cannot be used, the device or shoe must be covered or have a sign indicating that it is out of order placed on the device or shoe before any other method of shuffling or dealing may be utilized at that table.

(e) If a certificate holder offers a Bad Beat or High Hand Jackpot payout at a designated Poker table, a transparent locked box or container must be attached on the same side of the table as the drop box and be used to hold the pot contributions that fund the Bad Beat or High Hand Jackpot payout.

§ 637a.3. Cards; number of decks.

(a) Poker shall be played with one deck of cards that are identical in appearance and one cover card. Two decks of cards with different color backs shall be maintained for use at each Poker table at all times. (b) If an automated card shuffling device is being used, one deck shall be shuffled and stored in the automated card shuffling device while the other deck is being used to play the game.

Upon completion of the shuffle, the dealer or device shall place the deck of cards in a single stack.

(d) If there is no gaming activity at the Poker table which is open for gaming, each deck of cards at the table shall be spread out on the table face up. § 637a.7. Poker overview; general dealing procedures for all types of Poker.

(a) Poker shall be conducted in a separate area of the licensed facility designated specifically for the operation of Poker as approved by the Board or the Board's Executive Director in accordance with § 467a.1 (relating to gaming floor plan).

(b) Poker shall be played with no less than two players. For all types of authorized Poker games in this chapter, the dealer may not participate in the playing or outcome of the game in any way except as otherwise authorized in this chapter.

(c) A player shall bet on the cards that the player holds in his hand. All bets by a player shall be placed by the dealer in the designated area of the table known as the pot. A player may be required to place an Ante or Blind Bet prior to the receipt of any cards. After each round of cards is dealt, a betting round shall be conducted. Each player shall decide whether to continue contending for the pot by calling or raising the bet of the other players.

(d) The object of Poker is for a player to win the pot either by making a bet that no other player elects to call or, depending on the type of Poker being played, by having the highest ranking high hand, the highest ranking low hand or both the highest ranking high and low hands in accordance with § 637a.6 (relating to Poker rankings). If two or more players are still in contention for a pot after all cards have been dealt and the final betting round has been completed, there shall be a showdown among those players to determine which player has the winning hand.

(e) The following procedures shall be utilized by the dealer when dealing the game of Poker:

(1) The dealer shall place the stacked deck of cards in either hand. After the dealer has chosen which hand in which to hold the cards, the dealer shall continue to use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept in front of the dealer at all times and as level with the Poker table as possible. If during a round of play the deck shall be set down to handle a transaction, the dealer shall place a marker button on top of the deck until the transaction has been completed.

(2) The dealer shall verbalize or physically indicate the action that is occurring at the Poker table with regard to the conduct of the game and instruct each player as to the player's various turns to act and options.

(3) All burn cards required under this chapter must be kept separate from the pile of discarded cards.

(4) The dealer shall either:

(i) Count the entire deck of cards at least once every 5 rounds of play to determine if 52 cards are present. The dealer may count the stub in the games of Hold 'Em Poker and Omaha Poker.

(ii) Utilize an automated card shuffling device, submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval), which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present.

(5) If a count of the deck or stub indicates that the number of cards in the deck is incorrect, the deck shall be removed from the table.

(6) At the completion of a round of play, the dealer shall award the pot to the winning player or players after a showdown or to the last remaining player if all other players have folded. Prior to pushing the pot to the winner and collecting the winning hand, the dealer shall:

(i) Collect the cards from all losing players. The losing hands shall be counted by the dealer to determine that the proper number of cards has been returned.

(ii) Award all side pots.

(iii) Collect the rake in accordance with § 637a.17 (relating to Poker revenue).

(iv) Collect, if applicable, any amount required to be contributed to a Bad Beat or High Hand Jackpot payout fund in accordance with §§ 637a.15 and 637a.16 (relating to Bad Beat payout; posting of rules; contributions; counting and displaying of payout amount; procedures for implementation; and High Hand Jackpot payout; posting of rules; contributions; counting and displaying of payout amount; procedures for implementation).

(1) A player may bet only with the table stakes that were already on the Poker table in front of the player when the round of play commenced.

(2) A player may add to his table stakes only between rounds of play and, except as provided in paragraph (6), may not remove any of his table stakes from the Poker table at any time during a round of play.

(3) Currency that is available for use by a player may be utilized in accordance with this section to initiate, call or raise a bet if the currency is expeditiously converted into value chips, tournament chips or plaques by the dealer.

(4) To participate in a round of play, a player shall be required to have an amount of currency, value chips, tournament chips or plaques available on the Poker table prior to the start of the round of play which is sufficient to make any Ante, Blind or Forced Bet required by the Poker game being played and at least one bet at the posted table minimum.

(5) A player who satisfies the requirements in paragraph (4) but depletes his funds on the Poker table prior to the completion of a round of play shall be deemed All-in as follows:

(i) An All-in player shall retain a financial interest in the outcome of the round of play, but eligible to win only the amount of the pot to which he contributed.

(ii) An All-in player shall continue to receive all cards to which he would normally be entitled.

(iii) Betting shall continue unimpeded among the other players by generating a separate side pot which only those players shall be eligible to win.

(6) If a player indicates an intent to temporarily leave a Poker table during a round of play, without relinquishing his seat at the table, a floorperson or above shall do either of the following:

(i) Determine the amount of the player's table stakes prior to the player's departure from the table and verify that the amount of the player's table stakes have not been changed upon the player's return to the table.

(ii) Maintain the player's table stakes on the table surface using a nontransparent cover until the player's return.

(c) A player's verbal statement of "fold," "check," "call" or "raise" or a player's announcement of a specific bet, which is within the rules of the Poker game being played and the minimum and maximum betting limits for the Poker table, shall be binding on the player if it is the player's turn to act.

(d) A player who announces a bet or raise of a certain amount but places a different amount of value chips, tournament chips or plaques in the pot shall be required to correct his bet or raise to the announced amount in accordance with the instructions of the dealer.

(e) A player shall be considered to have placed a bet if the player:

(1) Pushes value chips, tournament chips or plaques forward to indicate the intent of placing a bet.

(2) Places value chips, tournament chips or plaques at a sufficient distance from the player and towards the pot to make it obvious that the value chips, tournament chips or plaques are intended as a bet.

(3) Places currency into the pot to be exchanged for chips in accordance with subsection (b)(3).

(f) A player may not make a bet and thereafter attempt to increase the amount of the bet unless the player:

(1) Indicates at the time the bet is being made that the bet is not yet complete.

(2) Puts the proper amount of value chips, tournament chips or plaques into the pot to call a bet and also indicates his intention to raise.

(g) Subject to the posted table betting limits, a player who announces “raise” may continue to bet value chips, tournament chips or plaques until both of his hands come to rest in front of the pot.

(h) The dealer shall ensure that no player touches any of the value chips, tournament chips or plaques once they are placed into the pot.

(i) Unless a raise has been verbally announced by a player, the player who puts a single value chip or tournament chip into the pot that is larger than required is assumed to have only called the preceding bet and to be awaiting change from the dealer.

(j) Unless specifically posted to the contrary, a player may raise after the player has previously checked in a betting round.

(k) The certificate holder shall post a sign specifying any restrictions with regard to the maximum number of raises that may be permitted for any round of betting and the minimum and maximum bets in effect at each Poker table. If all players at a Poker table agree to increase the minimum bet at the table, the minimum bet posted at the table need not be followed. The certificate holder shall include in its Rules Submission under § 601a.2 (relating to table games Rules Submissions) any restrictions with regard to the maximum number of raises that may be permitted for any round of betting, provisions specifying the maximum amount that the minimum bet may be increased and how the dealer will determine that all of the players have agreed to the increased minimum bet amount.

(c) Starting with the first player to the dealer's left and continuing around the table in a clockwise manner, the dealer shall deal two rounds of cards face down and one round of cards face up to each player.

(d) After each player has been dealt three cards in accordance with subsection (c), the first betting round shall commence with one player making a Forced Bet. The amount of the Forced Bet shall be specified in the certificate holder's Rules Submission under § 601a.2 and posted at the Poker table. The player required to place the Forced Bet shall be determined by comparing the up card of each player. In the event that two or more up cards are of the same rank, the up cards shall then be ranked by suit with the highest to lowest ranked suits in the following order: spades, hearts, diamonds and clubs. The Forced Bet shall be made by the player with the:

(1) Lowest ranked up card for Seven-card Stud High Poker.

(e) Following the placement of the Forced Bet, each subsequent player, starting with the player to the left of player who placed the Forced Bet and continuing around the table in a clockwise manner, may fold, call or raise the bet. After the last player has responded to the most recent bet, the betting round shall be considered complete.

(1) For Seven-card Stud High, Seven-card Stud High-low Split or Seven-card Stud High-low Split Eight or Better Poker, the player with the highest ranking high hand showing shall be required to bet or check.

(2) For Seven-card Stud Low, the player with the highest ranking low hand showing shall be required to bet or check.

(3) If the highest ranking hand showing is held by two or more players, the player closest to the left of the dealer shall be required to bet or check.

(g) Following the initial bet or check required under subsection (f), each subsequent player, proceeding in a clockwise rotation, may fold, call, raise or, if the preceding players have not made a bet, check. Once a bet has been made, the next player in a clockwise rotation may fold, call or raise. After the last player has responded to the most recent bet, the betting round shall be considered complete.

(h) The dealer shall then deal two additional rounds of cards face up and one round of cards face down to each player who made or called the last bet. Prior to each round of cards being dealt, the dealer shall burn the top card of the deck. Notwithstanding the foregoing, if insufficient cards remain in the deck to give each remaining player either a sixth or seventh card, the top card of the deck shall be burned and a common card shall be dealt face up in the center of the table. If there is either one or no card remaining in the deck when a common card is to be dealt, the dealer shall shuffle the burn cards, burn a card and then deal the common card. The dealing of each round of cards or, if applicable, each common card under this subsection shall be followed by a betting round conducted in accordance with subsections (f) and (g).

(i) If more than one player remains in the round of play after the final betting round has been completed, a showdown shall be used to determine the winner of the pot. If a pot cannot be divided equally, the excess amount, which may not exceed \$1, shall be given to the player with the highest ranking high hand.

(ii) If a tie exists between two or more players for the highest ranking high hand, the high hand share of the pot shall be divided equally among the tied players. If the high hand share of the pot cannot be divided equally among the tied players, the excess, which may not exceed \$1, shall be given to the player with the highest ranking high card by suit.

(k) In Seven-card Stud High-low Split Poker and Seven-card Stud High-low Split Eight or Better Poker, the player may form two different hands of five cards each out of the player's seven available cards, enabling that player to contend for both the high hand and low hand share of the pot. A player may use the same five-card grouping to make a high hand and a low hand. For example:

§ 637a.21. Badugi Poker; procedures for dealing the cards; completion of each round of play.

(a) A certificate holder that offers Badugi Poker shall observe the procedures in this section.

(b) No more than nine players may participate in a Badugi Poker game. Each player who elects to participate in a round of play may be required to place an Ante bet. The rules governing the placement of an Ante bet and the amount of the Ante bet, if any, and the Kill or Half-kill option, if offered, must be specified in the certificate holder's Rules Submission under § 601a.2 (relating to table games Rules Submissions) and posted on a sign at each Poker table.

(c) A button shall be used to indicate the order in which the cards shall be dealt and the order in which players shall bet in accordance with following procedures:

(1) At commencement of play, the button shall be placed in front of either:

(i) The first player to the right of the dealer.

(ii) The player randomly determined by rank of a single card dealt.

(2) Thereafter, the button shall rotate around the table in a clockwise manner after each round of play.

(d) Before any cards are dealt, the player to the immediate left of the button shall initiate the first betting round by placing a Blind Bet. A certificate holder may require additional Blind Bets to be made immediately after the initial Blind Bet. The amount and number of all Blind Bets required must be specified in the certificate holder's Rules Submission under § 601a.2 and posted on a sign at the table.

(e) The player to the left of the player who placed a Blind Bet may place a Straddle Bet, if offered by the certificate holder. The rules governing the placement of a Straddle Bet and the amount of the Straddle Bet, if any, must be specified in the certificate holder's Rules Submission under § 601a.2 and posted on a sign at each Poker table. The option to raise also applies to a player who made a Blind Bet or Straddle Bet. After the last player has responded to the most recent bet, the betting round shall be considered complete.

(h) The dealer shall then burn the top card of the deck. Each player who has not folded, starting with the player to the immediate left of the button and continuing in a clockwise rotation, shall have the opportunity to draw new cards one player at a time. Each player may keep his original hand or discard as many cards as he chooses. Each discarded card shall be replaced by the dealer with a new card from the deck. If an insufficient number of cards remain in the deck for a player to draw new cards, the discarded cards, except the cards discarded by that player, shall be reshuffled and the new cards shall be dealt to the player. The first player to the left of the button who has not folded shall commence the next betting round and may bet or check. Each subsequent player may, in clockwise rotation, fold, call, raise or, if preceding players have not made a bet, make an opening bet or check. After the last player has responded to the most recent bet, the second betting round shall be considered complete.

The fourth and final betting round shall be commenced and completed in accordance with subsection (h).

(k) If more than one player remains in the round of play after the final betting round has been completed, a showdown shall be used to determine the winner of the pot based upon the following rankings in order from highest to lowest:

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 639a.5 (relating to shuffle and cut of the cards).

The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) If an automated card shuffling device is being used, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, and the device reveals that an incorrect number of cards are present, the deck shall be removed from the table.

(c) After the cards have been shuffled and stacked, the dealer shall:

(d) If a cut of the cards is required, the dealer shall place the cover card in the stack at least ten cards in from the top of the stack. Once the cover card has been inserted, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before any cards have been dealt, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game.

(f) If there is no gaming activity at a Caribbean Stud Poker table which is open for gaming, the cards shall be spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the procedures in § 639a.4(c) (relating to opening of the table for gaming) and this section shall be completed.

(g) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. (c) When comparing two hands that are of identical Poker hand rank under subsection (b), or that contain none of the hands listed in subsection (b), the hand that contains the highest ranking card under subsection (a), which is not contained in the other hand, shall be considered

the higher ranking hand. If the hands are of identical rank after the application of this subsection, the hands shall be considered a tie.

§ 639a.7. Wagers.

(a) Wagers at Caribbean Stud Poker shall be made by placing value chips, plaques or other Board-approved table game wagering instruments on the appropriate areas of the table layout. Verbal wagers accompanied by cash may not be accepted.

(b) Only players who are seated at the Caribbean Stud Poker table may wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and may be treated as losing wagers.

(c) All wagers, except the Bet Wager, shall be placed prior to the dealer announcing “no more bets” in accordance with the dealing procedure in § 639a.8, § 639a.9 or § 639a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe). Except as provided in § 639a.11(b) (relating to procedure for completion of each round of play), a wager may not be made, increased or withdrawn after the dealer has announced “no more bets.”

(d) The following wagers may be placed in the game of Caribbean Stud Poker:

(1) A player shall compete against the dealer's five-card Poker hand by placing an Ante Wager, then a Bet Wager, in accordance with § 639a.11(b).

(2) A certificate holder may, if specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), offer to each player at a Caribbean Stud Poker table the option to make an additional Progressive Payout Wager that the player will receive a Progressive Payout Hand. After placing an Ante Wager, a player may make the additional Progressive Payout Wager by placing a value chip onto the progressive wagering device designated for that player. Each player shall be responsible for verifying that the player's respective Progressive Payout Wager has been accepted.

(3) A certificate holder may, if specified in its Rules Submission under § 601a.2, offer to each player at a Caribbean Stud Poker table the option to make an additional Caribbean Stud Bonus Wager that the player's cards will form a five-card Poker hand with a rank of a pair of 10s or better. After placing an Ante Wager, a player may make the additional Caribbean Stud Bonus Wager by placing a value chip on the designated betting area prior to the dealer announcing “no more bets.”

(4) If specified in its Rules Submission under § 601a.2, a certificate holder may offer to each player at a Caribbean Stud Poker table the option to make an additional Five Card Hand Bonus Wager that the player's five-card Poker hand or the dealer's five-card Poker hand, or both, will contain a flush or better as defined in § 639a.6(b) (relating to Caribbean Stud Poker rankings). After placing an Ante Wager, a player may make the additional Five Card Hand Bonus Wager on the player's hand or the dealer's hand, or both, by using the electronic wagering

(e) The certificate holder shall specify in its Rules Submission under § 601a.2 the number of adjacent boxes on which a player may place a wager in one round of play.

§ 639a.8. Procedure for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 639a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe by the dealer or by the automated card shuffling device.

(b) Prior to dealing the cards, the dealer shall announce “no more bets” and, if the Progressive Payout Wager or the Five Card Hand Bonus Wager is being offered, use the progressive table game system or the electronic wagering system to prevent the placement of any additional Progressive Payout or Five Card Hand Bonus Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(c) Each card shall be removed from the dealing shoe with the hand of the dealer that is the closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand.

(d) The dealer shall, starting with the player farthest to the dealer’s left and continuing around the table in a clockwise manner, deal the cards as follows:

(1) One card face down to each player who placed an Ante Wager in accordance with § 639a.7(d)(1) (relating to wagers).

(5) A third, fourth and fifth card, in succession, face down to each player and the dealer directly on top of the preceding card.

(e) After five cards have been dealt to each player and the dealer, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (f), place the stub in the discard rack without exposing the cards.

(f) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(g) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(h) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player or the dealer has more or less than 5 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 639a.9. Procedures for dealing the cards from the hand.

(a) If the cards are dealt from the dealer's hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 639a.5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the stacked deck of cards in either hand. After the dealer has chosen the hand in which he will hold the cards, the dealer shall continue to use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing any cards, the dealer shall announce “no more bets” and, if the Progressive Payout Wager or the Five Card Hand Bonus Wager is being offered, use the progressive table game system or the electronic wagering system to prevent the placement of any additional Progressive Payout or Five Card Hand Bonus Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall, starting with the player farthest to the dealer’s left and continuing around the table in a clockwise manner, deal the cards as follows:

(1) One card face down to each player who has placed an Ante Wager in accordance with § 639a.7(d)(1) (relating to wagers).

(2) One card face up to an area designated for the placement of the dealer's hand.

(3) A second card face down to each player directly on top of that player's first card.

(4) A second card face down to the area designated for the placement of the dealer's hand to the right of the dealer's first card.

(5) A third, fourth and fifth card, in succession, face down to each player and the dealer directly on top of the preceding card.

(c) After five cards have been dealt to each player and the dealer, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player or the dealer has more or less than 5 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 639a.10. Procedures for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 639a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce "no more bets" and, if the Progressive Payout Wager or the Five Card Hand Bonus Wager is being offered, use the progressive table game system or the electronic wagering system to prevent the placement of any additional Progressive Payout or Five Card Hand Bonus Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall deliver the first stack of cards dispensed by the automated dealing shoe face down to the player farthest to the dealer's left who has placed an Ante Wager in accordance with § 639a.7(d)(1) (relating to wagers). As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other players who has placed an Ante Wager. The dealer shall then deliver a stack of five cards face down to the area designated for the placement of the dealer's cards and spread the cards face down on the layout so the top card of the stack is to the dealer's right and the bottom card is to the dealer's left. The dealer shall turn the bottom card of the stack (the card on the dealer's far left) face up and leave the other four cards in the stack face down on the area designated for the placement of the dealer's cards.

(c) After each stack of five cards has been dispensed and delivered in accordance with subsection (b), the dealer shall remove the stub from the automated dealing shoe and, except as provided in subsection (d), place the cards in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player or dealer has more or less than 5 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 639a.11. Procedure for completion of each round of play.

(a) After the dealing procedures required under § 639a.8, § 639a.9 or § 639a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards subject to the following limitations:

(1) Each player who wagers at Caribbean Stud Poker shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

(2) Each player shall keep the five cards in full view of the dealer at all times.

(3) After each player has made a decision regarding the Bet Wager as required under subsection (b), the player's cards shall be placed face down on the appropriate area of the layout and the player may not touch the cards again.

(b) After each player has examined his cards, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player if he wishes to make a Bet Wager in an amount equal to two times the amount of the player's Ante Wager or forfeit the Ante Wager and end his participation in the round of play. If a player has placed an Ante Wager and a Caribbean Stud Bonus Wager, a Progressive Payout Wager or a Five Card Hand Bonus Wager but does not make a Bet Wager, the player shall forfeit all wagers except the Five Card Hand Bonus Wager and does not forfeit the right to receive an Envy Bonus Payout, if applicable.

(c) After each player who has placed an Ante Wager has either placed a Bet Wager on the designated area of the layout or forfeited his wager and hand, the dealer shall collect all forfeited wagers and associated cards and place the cards in the discard rack. The dealer shall then reveal the dealer's four hole cards and place the cards so as to form the highest possible ranking five-card Poker hand. After the dealer's cards are turned face up, the dealer shall, beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, complete the following applicable procedures in succession for each player:

(1) The dealer shall turn the five cards of each player face up on the layout.

(2) The dealer shall examine the cards of the player and form the highest possible ranking five-card Poker hand for each player.

(3) If the dealer's highest ranking five-card Poker hand:

(i) Is lower than an ace-king, the dealer shall return each player's Bet Wager and pay out the player's Ante Wager made by the player in accordance with the payout odds in § 639a.12(a) and (b) (relating to payout odds; rate of progression).

(ii) Is an ace-king or better, and the player's highest ranking five-card Poker hand:

(A) Is ranked lower than the dealer's five-card Poker hand, the dealer shall immediately collect the Ante and Bet Wagers made by the player.

(B) Is ranked higher than the dealer's five-card Poker hand, the dealer shall pay the Ante and Bet Wagers made by the player in accordance with the payout odds in § 639a.12(a) and (b).

(C) Is equal in rank to the dealer's five-card hand, the dealer shall return the Ante and Bet Wagers made by the player.

(4) The dealer shall settle any Caribbean Stud Bonus Wager made by the player by determining whether the player's five-card Poker hand qualifies for a payout in accordance with § 639a.12(c). A winning Caribbean Stud Bonus Wager shall be paid irrespective of whether the player's five-card Poker hand outranks the dealer's hand.

(5) After settling a player's Ante, Bet and Caribbean Stud Bonus Wagers, the dealer shall then settle the Progressive Payout Wager, if offered by the certificate holder. A winning Progressive Payout Wager shall be paid irrespective of whether the player's five-card Poker hand outranks the dealer's hand. If a player has won a progressive payout, the dealer shall:

(i) Verify that the hand is a winning hand.

(ii) Verify that the appropriate light on the progressive table game system has been illuminated.

(iii) Have a floorperson or above validate the progressive payout in accordance with the certificate holder's approved internal control procedures.

(iv) Pay the winning Progressive Payout Wager in accordance with the payout odds in § 639a.12(d). If a player has won a progressive payout that is a percentage of the jackpot amount on the progressive meter, the progressive payout may not be paid from the table inventory container. If a player has won a progressive payout that is not being paid from the table inventory container, the cards of that player shall remain on the table until the necessary documentation has been completed.

(v) Pay any Envy Bonus won in accordance with § 639a.12(d)(6) if Paytable D in § 639a.12(d)(1) is selected by the certificate holder. Players making a Progressive Payout Wager shall receive an Envy Bonus when another player at the same Caribbean Stud Poker table is the holder of an Envy Bonus Qualifying Hand. Players are entitled to multiple Envy Bonuses if more than one other player is the holder of an Envy Bonus Qualifying Hand. A player is not entitled to an Envy Bonus for his own hand or the hand of the dealer.

(6) After settling a player's Ante, Bet and Caribbean Stud Bonus Wagers, the dealer shall settle the Five Card Hand Bonus Wager, if offered by the certificate holder, and any Magic Card or Lucky Bonus payouts. A winning Five Card Hand Bonus Wager shall be paid irrespective of whether the player's hand outranks the dealer's hand. If a player has won a Five Card Hand Bonus or any Magic Card or Lucky Bonus payout, the dealer shall:

(i) Verify that the hand is a winning hand.

(ii) Have a floorperson or above verify any Five Card Hand Bonus payout with odds of 500 for 1 or a payout that is a percentage of the jackpot amount on the progressive meter in accordance with approved internal control procedures submitted under § 465a.2 (relating to internal control systems and audit protocols).

(iii) Credit the player's game account for the winning Five Card Hand Bonus Wager or the Magic Card or Lucky Bonus payout in accordance with § 639a.12(e). If a player has won a Five Card Hand Bonus payout that is a percentage of the jackpot amount on the progressive meter, the payout may not be paid to the player's game account. If a player has won a payout that is not being paid to the player's game account, the winning hand must remain on the table until the necessary documentation has been completed.

(d) After all wagers of the player have been settled, the dealer shall remove all remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

(d) If a cut of the cards is required, the dealer shall place the cover card in the stack at least ten cards in from the top of the stack. Once the cover card has been inserted, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before any cards have been dealt, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game.

player arriving at the table is afforded an opportunity to visually inspect the cards, the procedures in § 641a.4(c) (relating to opening of the table for gaming) and this section shall be completed.

(g) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. (b) Only players who are seated at a Four Card Poker table may wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and may be treated as losing wagers.

Except as provided in § 641a.11(b) (relating to procedures for completion of each round of play), a wager may not be made, increased or withdrawn after the dealer has announced “no more bets.”

(d) The following wagers may be placed in the game of Four Card Poker:

(4) A certificate holder may, if specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), offer to each player at a Four Card Poker table the option to make an additional Four-Card Progressive Payout Wager that the player will receive a Four-Card Progressive Payout Hand. After placing an Ante Wager or an Aces Up Wager, or both, a player may make the additional Four-Card Progressive Payout Wager by placing a value chip onto the progressive wagering device designated for that player. Each player shall be responsible for verifying that the player's respective Four-Card Progressive Payout Wager has been accepted.

(5) If specified in its Rules Submission under § 601a.2, a certificate holder may offer to each player at a Four Card Poker table the option to make an additional Five-Card Progressive Payout Wager that the player will receive a Five-Card Progressive Payout Hand. After placing an Ante Wager or an Aces Up Wager, or both, a player may make the additional Bad Beat Bonus Wager by placing a value chip onto the designated area of the layout for that player. Winning wagers shall be paid out based on the rank of the losing hand.

§ 641a.8. Procedures for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 641a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe by the dealer or by an automated card shuffling device.

(b) Prior to dealing any cards, the dealer shall announce “no more bets” and, if the Progressive Payout Wager or the Five Card Hand Bonus Wager is being offered, use the progressive table game system or the electronic wagering system to prevent the placement of any additional Progressive Payout or Five Card Hand Bonus Wagers. If any Progressive Payout

Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(c) Each card shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand.

(d) After all wagers have been placed, if any player placed a Six Card Bonus Wager, the dealer shall deal one card, face down, to the area on the layout designated for the placement of the Six Card Bonus card. The dealer shall then, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal one card at a time to each player who has placed a wager in accordance with § 641a.7 (relating to wagers) and to the dealer until each player who placed a wager has five cards and the dealer has six cards. All cards dealt to the players and the first five cards dealt to the dealer shall be dealt face down. The dealer's sixth card shall be dealt face up. The dealer's fifth and sixth cards shall be dealt consecutively.

(e) After five cards have been dealt to each player and six cards to the dealer, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (f), place the stub in the discard rack without exposing the cards.

(f) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(g) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(h) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or less than 5 cards or the dealer has more or less than 6 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 641a.9. Procedures for dealing the cards from the hand.

(a) If the cards are dealt from the dealer's hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 641a.5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the stacked deck of cards in either hand.

After the dealer has chosen the hand in which to hold the cards, the dealer shall continue to use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing any cards, the dealer shall announce “no more bets” and, if the Progressive Payout Wager or the Five Card Hand Bonus Wager is being offered, use the progressive table game system or the electronic wagering system to prevent the placement of any additional Progressive Payout or Five Card Hand Bonus Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall deal each card by holding the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout. If any player placed a Six Card Bonus Wager, the dealer shall deal one card, face down, to the area on the layout designated for the placement of the Six Card Bonus card. The dealer shall then, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal one card at a time to each player who has placed a wager in accordance with § 641a.7 (relating to wagers) and to the dealer until each player who placed a wager has five cards and the dealer has six cards. All cards dealt to the players and the first five cards dealt to the dealer shall be dealt face down. The sixth card dealt to the dealer shall be dealt face up. The dealer's fifth and sixth cards shall be dealt consecutively.

(c) After five cards have been dealt to each player and six cards have been dealt to the dealer, the dealer shall, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or less than 5 cards or the dealer has more or less than 6 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 641a.10. Procedures for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 641a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce “no more bets” and, if the Progressive Payout Wager or the Five Card Hand Bonus Wager is being offered, use the progressive table game system or the electronic wagering system to prevent the placement of any additional Progressive Payout or Five Card Hand Bonus Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall deliver the first stack of cards dispensed by the automated dealing shoe face down to the player farthest to the dealer's left who has placed a wager in accordance with § 641a.7 (relating to wagers). As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other players who has placed a wager in accordance with § 641a.7. The dealer shall then deliver a stack of five cards face down to the area designated for the placement of the dealer's cards.

(c) The dealer shall then remove the next stack of five cards dispensed by the automated dealing shoe and turn the bottom card of the stack face up on the dealer's hand. If any player placed a Six Card Bonus Wager, the dealer shall then deal the next card in the stack face down on the area of the layout designated for the placement of the Six Card Bonus card. The dealer shall then place the remaining cards of that stack in the discard rack without exposing the cards. After the cards have been dispensed and delivered, the dealer shall remove the stub from the automated dealing shoe and, except as provided in subsection (d), place the remaining cards in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or less than 5 cards or the dealer has more or less than 6 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt,

all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(g) Notwithstanding the requirements in subsections (b) and (c), if a certificate holder is utilizing an automated dealing shoe that automatically reshuffles the cards, the dealer's six cards may be dispensed before the five cards are dispensed to each player.

§ 641a.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 641a.8, § 641a.9 or § 641a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards subject to the following limitations:

(1) Each player who wagers at Four Card Poker shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

(2) Each player shall keep his five cards in full view of the dealer at all times.

(b) After each player has examined his cards and placed the cards face down on the layout, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player who placed an Ante Wager if he wishes to make a Play Wager in an amount from one to three times the amount of the player's Ante Wager or forfeit the Ante Wager and end his participation in the round of play. If a player:

(1) Has placed an Ante Wager and an Aces Up or Six Card Bonus Wager but does not make a Play Wager, the player shall forfeit the Ante Wager but may not forfeit the Aces Up or Six Card Bonus Wager.

(2) Has placed an Ante Wager and a Four or Five-Card Progressive Payout Wager but does not make a Play Wager, the player shall forfeit both the Ante Wager and the Progressive Payout Wager but may not forfeit the eligibility to receive an Envy Bonus under § 641a.12(d) or (e) (relating to payout odds; Envy Bonus; rate of progression).

(c) After each player who has placed an Ante Wager has either placed a Play Wager on the designated area of the layout or forfeited his Ante Wager, the dealer shall collect all forfeited wagers and associated cards, if applicable, and place the cards in the discard rack. The dealer shall then reveal the dealer's cards and select the four cards that form the highest possible ranking Four Card Poker hand. After the dealer's cards are turned face up, the dealer shall, beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, complete the following applicable procedures in succession for each player:

(1) The dealer shall turn the five cards of each player face up on the layout.

(2) The dealer shall examine the cards of the player and select the four cards that form the highest possible ranking Poker hand for each player.

(3) If a player's highest ranking Four Card Poker hand is ranked:

(i) Lower than the dealer's Four Card Poker hand, the dealer shall immediately collect the Ante and Play Wagers made by the player.

(ii) Higher than or equal to the dealer's Four Card Poker hand, the dealer shall pay the Ante and Play Wagers and any Ante Bonus in accordance with the payout odds in § 641a.12(a) and (b).

(4) After settling a player's Ante and Play Wagers, the dealer shall settle any Aces Up Wagers by determining whether the player's Four Card Poker hand qualifies for a payout in accordance with § 641a.12(c). A winning Aces Up Wager shall be paid irrespective of whether the player's Four Card Poker hand outranks the dealer's hand.

(5) The dealer shall then settle the player's Four or Five-Card Progressive Payout Wager, if offered by the certificate holder. For the Five-Card Progressive Wager, the dealer shall form the highest ranking five-card Poker hand from the five cards dealt to each player. A winning Progressive Payout Wager shall be paid irrespective of whether the player's hand outranks the dealer's hand. If a player has won a progressive payout, the dealer shall:

(i) Verify that the hand is a winning hand.

(ii) Verify that the appropriate light on the progressive table game system has been illuminated.

(iii) Have a floorperson or above validate the progressive payout in accordance with the certificate holder's approved internal control procedures.

(iv) Pay the winning Four-Card Progressive Payout Wager in accordance with the payout odds in § 641a.12(d) or the winning Five-Card Progressive Payout Wager in accordance with the payout odds in § 641a.12(e). If a player has won a progressive payout that is a percentage of the jackpot amount on the progressive meter, the progressive payout may not be paid from the table inventory container. If a player has won a progressive payout that is not being paid from the table inventory container, the cards of that player must remain on the table until the necessary documentation has been completed.

(v) Pay any Envy Bonus as follows:

(A) A player making a Four-Card Progressive Payout Wager shall receive a Four-Card Envy Bonus when another player at the same Four Card Poker table is the holder of a Four-Card Envy Bonus Qualifying Hand. Players are entitled to multiple Four-Card Envy Bonuses if more than one other player is the holder of a Four-Card Envy Bonus Qualifying Hand. A player is not entitled to a Four-Card Envy Bonus for his own hand or the hand of the

dealer. Four-Card Envy Bonus payouts shall be made in accordance with the payouts in § 641a.12(d)(5).

(B) A player making a Five-Card Progressive Payout Wager shall receive a Five-Card Envy Bonus when another player at the same Four Card Poker table is the holder of a Five-Card Envy Bonus Qualifying Hand. Players are entitled to multiple Five-Card Envy Bonuses if more than one other player is the holder of a Five-Card Envy Bonus Qualifying Hand. A player is not entitled to a Five-Card Envy Bonus for his own hand or the hand of the dealer. Five-Card Envy Bonus payouts shall be made in accordance with the payouts in § 641a.12(e)(5).

(6) After settling any Aces Up Wagers, the dealer shall settle a player's Bad Beat Bonus Wager as follows:

(i) If the player's hand contains a two pair or better and the dealer's hand outranks the player's hand, as provided in § 641a.6(b) (relating to Four Card Poker rankings), the certificate holder shall pay the winning Bad Beat Bonus Wager in accordance with § 641a.12(f) based on the rank of the player's losing hand.

(ii) If the dealer's hand contains a two pair or better and the player's hand outranks the dealer's hand, as provided in § 641a.6(b), the certificate holder shall pay the winning Bad Beat Bonus Wager in accordance with § 641a.12(f) based on the rank of the dealer's losing hand.

(iii) If the player's hand and the dealer's hand tie, if the player's hand of two pair or better does not lose to the dealer's hand, or if the dealer's hand of two pair or better does not lose to the player's hand, the dealer shall collect the player's losing Bad Beat Bonus Wager.

(7) After settling a player's Aces Up Wagers, the dealer shall settle the Five Card Hand Bonus Wager, if offered by the certificate holder, and any Magic Card or Lucky Bonus payouts. The dealer shall form the highest ranking five-card Poker hand of the player and the dealer. For the dealer's hand, the dealer shall form the highest ranking five-card Poker hand from the first five cards dealt to the dealer. A winning Five Card Hand Bonus Wager shall be paid irrespective of whether the player's hand outranks the dealer's hand. If a player has won a Five Card Hand Bonus or any Magic Card or Lucky Bonus payout, the dealer shall:

(i) Verify that the hand is a winning hand.

(ii) Have a floorperson or above verify any Five Card Hand Bonus payout with odds of 500 for 1 or a payout that is a percentage of the jackpot amount on the progressive meter in accordance with approved internal control procedures submitted under § 465a.2 (relating to internal control systems and audit protocols).

(iii) Credit the player's game account for the winning Five Card Hand Bonus Wager or the Magic Card or Lucky Bonus payout in accordance with § 641a.12(g). If a player has won a Five Card Hand Bonus payout that is a percentage of the jackpot amount on the

progressive meter, the payout may not be paid to the player's game account. If a player has won a payout that is not being paid to the player's game account, the winning hand must remain on the table until the necessary documentation has been completed.

(8) The dealer shall then settle a player's Six Card Bonus Wager by revealing the Six Card Bonus card and combining it with the player's five cards to form the highest ranking Poker hand as provided with § 641a.6(e). If the player's hand:

(i) Does not contain a three-of-a-kind or better, the dealer shall collect the player's losing Six Card Bonus Wager.

(ii) Contains a three-of-a-kind or better, the dealer shall pay the winning Six Card Bonus Wager in accordance with § 641a.12(h).

(d) After all wagers of the player have been settled, the dealer shall remove all remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

§ 641a.12. Payout odds; Envy Bonus; rate of progression.

(a) A certificate holder shall pay each winning Ante Wager and Play Wager at odds of 1 to 1.

§ 643a.8. Procedure for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 643a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe by the dealer or by an automated card shuffling device.

(b) Prior to dealing any cards, the dealer shall announce “no more bets” and:

(1) If the Five Card Bonus Wager is being offered utilizing a table game system, use the table game system to prevent the placement of any additional Five Card Bonus Wager. If any Five Card Bonus Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Five Card Bonus Wagers accepted by the table game system. The dealer shall then place the value chips into the table inventory container.

(2) If the Progressive Payout Wager is being offered, use the progressive table game system to prevent the placement of any additional Progressive Payout Wagers. The dealer shall then collect any Progressive Payout Wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(3) If the Five Card Hand Bonus Wager is being offered, use the electronic wagering system to prevent the placement of additional Five Card Hand Bonus Wagers.

(c) Each card shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand.

(d) If any player placed a Six Card Bonus Wager, the dealer shall deal three cards, face down, to the area on the layout designated for the placement of the Six Card Bonus cards. The dealer shall then, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal the cards as follows:

(1) One card face down to each player who has placed the three required Let It Ride Poker Wagers in accordance with § 643a.7(d) (relating to wagers).

(5) A third card face down to each player who has placed the three required Let It Ride Poker Wagers in accordance with § 643a.7(d).

(e) After three cards have been dealt to each player and two cards have been dealt to the area designated for the placement of the community cards, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (f), place the stub in the discard rack without exposing the cards.

(f) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(g) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(h) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or less than 3 cards or the area designed for the placement of the community cards has more or less than 2 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 643a.9. Procedure for dealing the cards from the hand.

(a) If the cards are dealt from the dealer's hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 643a.5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the stacked deck of cards in either hand. After the dealer has chosen the hand in which he will hold the cards, the dealer shall continue to

use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing any cards, the dealer shall announce “no more bets” and:

(i) If the Five Card Bonus Wager is being offered utilizing a table game system, use the table game system to prevent the placement of any additional Five Card Bonus Wagers. If any Five Card Bonus Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Five Card Bonus Wagers accepted by the table game system. The dealer shall then place the value chips into the table inventory container.

(ii) If the Progressive Payout Wager is being offered, use the progressive table game system to prevent the placement of any additional Progressive Payout Wagers. The dealer shall then collect any Progressive Payout Wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(iii) If the Five Card Hand Bonus Wager is being offered, use the electronic wagering system to prevent the placement of additional Five Card Hand Bonus Wagers.

(b) The dealer shall deal each card by holding the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout. If any player placed a Six Card Bonus Wager, the dealer shall deal three cards, face down, to the area on the layout designated for the placement of the Six Card Bonus cards. The dealer shall then, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal the cards as follows:

(1) One card face down to each player who placed the three required Let It Ride Poker Wagers in accordance with § 643a.7(d) (relating to wagers).

(5) A third card face down to each player who placed the three required Let It Ride Poker Wagers in accordance with § 643a.7(d).

(c) After three cards have been dealt to each player and two cards have been dealt to the area designated for the placement of the community cards, the dealer shall, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or less than 3 cards or the area designated for the placement of the community cards has more or less than 2 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 643a.10. Procedure for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 643a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce “no more bets” and:

(i) If the Five Card Bonus Wager is being offered utilizing a table game system, use the table game system to prevent the placement of any additional Five Card Bonus Wagers. If any Five Card Bonus Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Five Card Bonus Wagers accepted by the table game system. The dealer shall then place the value chips into the table inventory container.

(ii) If the Progressive Payout Wager is being offered, use the progressive table game system to prevent the placement of any additional Progressive Payout Wagers. The dealer shall then place the value chips into the table inventory container.

(iii) If the Five Card Hand Bonus Wager is being offered, use the electronic wagering system to prevent the placement of any additional Five Card Hand Bonus Wagers.

(b) The dealer shall deliver the first stack of cards dispensed by the automated dealing shoe face down to the player farthest to the dealer's left who has placed the three required Let It Ride Poker Wagers in accordance with § 643a.7(d) (relating to wagers). As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other players who has placed the three required wagers in accordance with § 643a.7(d). The dealer shall then deliver a stack of three cards face down to the area designated for the placement of the community cards and spread the stack within the designated area so that the top card is to the dealer's right and the bottom card is to the dealer's left. The dealer shall then remove the card that is to his left and place that card in the discard rack without exposing the card. If any player placed a Six Card Bonus Wager, the dealer shall then remove the next stack of three cards dispensed by the automated dealing shoe and place the cards face down on the area of the layout designated for the placement of the Six Card Bonus cards.

(c) After each stack of three cards has been dispensed and delivered in accordance with subsection (b), the dealer shall remove the stub from the automated dealing shoe and, except as provided in subsection (d), place the cards in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or less than 3 cards or the area designed for the placement of the community cards has more or less than 2 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(g) Notwithstanding the requirements in subsections (b) and (c), if a certificate holder is utilizing an automated dealing shoe that automatically reshuffles the cards, the two community cards may be dispensed before the three cards are dispensed to each player.

§ 643a.11. Procedures for completion of each round of play.

If a player is the bank, when counting the betting positions to determine the starting position for dealing the cards, the bank, instead of the dealer, shall be considered number one.

(iv) After the dealing procedures required under § 645a.8, § 645a.9 or § 645a.10 have been completed, the dealer shall place the cover on the Pai Gow Poker shaker and shake the shaker once. The Pai Gow Poker shaker shall then be placed to the right of the dealer.

To determine the starting position, the dealer shall count each betting position in order, regardless of whether there is a wager at the betting position, beginning with the dealer as number one and continuing around the table in a counterclockwise manner until the count

matches the number displayed by the random number generator. If a player is the bank in accordance with § 645a.12, when counting the betting positions to determine the starting position for dealing the cards, the bank, instead of the dealer, shall be considered number one.

(j) After the starting position for a round of play has been determined, a certificate holder may mark that position with an additional cover card or similar object approved in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment).

A wager may not be made, increased or withdrawn after the dealer has announced “no more bets.”

(d) To participate in a round of play and compete against the dealer's high and low hands, a player shall place a Pai Gow Poker Wager.

(e) A certificate holder may, if specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), offer to each player who placed a Pai Gow Poker Wager, in accordance with subsection (d), the option of placing the following additional wagers:

(1) A Fortune Bonus Wager that the seven cards dealt to the player will form a seven-card Poker hand with a rank of a straight or better as described in § 645a.6(d) (relating to Pai Gow Poker rankings).

(2) An Emperor's Treasure Wager that the seven cards dealt to the player will form a seven-card Poker hand with a rank of a straight or better as described in § 645a.6(e).

(3) A Pai Gow Insurance Wager that the seven cards dealt to the player will form a seven-card Poker hand that does not contain a pair or better, as described in § 645a.6(b), but will contain a card ranked a nine-high or better.

(4) A Progressive Payout Wager that the seven cards dealt to the player will form a seven-card Poker hand with a rank of a full house or better as described in § 645a.6(f).

(5) If EZ Pai Gow Poker is being played, a certificate holder may offer the following additional wagers:

(i) The Queen's Dragon Wager that the dealer's hand will create a Queen's Dragon.

(ii) The Dynasty Bonus Wager that the seven cards dealt to the player will form a hand with a rank of a three-of-a-kind or better as described in § 645a.6(b) and (g).

(iii) The Protection Wager that the seven cards dealt to the player will form a hand that does not contain a pair or better, as described in § 645a.6(b), but contain a high card of a 9, 10, jack, queen, king or ace.

(iv) The Red/Black Wager that four or more of the cards in the player's hand will be of the player's chosen color.

(f) Except as provided in § 645a.12(f) (relating to player bank; co-banking; selection of bank; procedures for dealing), a certificate holder may, if specified in its Rules Submission under § 601a.2, permit a player to wager on two adjacent betting areas at a Pai Gow Poker table. If a certificate holder permits a player to wager on adjacent betting areas, the cards dealt to each betting area shall be played separately. If the two wagers are not equal, the player shall rank and set the hand with the larger wager before ranking and setting the other hand. If the amounts wagered are equal, each hand shall be played separately in a counterclockwise rotation with the first hand being ranked and set before the player proceeds to rank and set the second hand. Once a hand has been ranked, set and placed face down on the layout, the hands may not be changed.

§ 645a.8. Procedures for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 645a.5 (relating to shuffle and cut of the cards; procedures for determining the starting position for dealing cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe either by the dealer or by an automated card shuffling device.

(b) Prior to dealing any cards, the dealer shall announce “no more bets” and:

(1) If the Fortune Bonus Wager, Emperor's Treasure Wager or Dynasty Bonus Wager is being offered and a player makes a Qualifying Wager, the dealer shall place an Envy lammer next to that player's wager.

(2) If the Progressive Payout Wager is being offered, the dealer shall use the progressive table game system to prevent the placement of any additional Progressive Payout Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(c) The dealer shall determine the starting position for dealing the cards using one of the procedures authorized under § 645a.5(i).

(d) The dealer shall then deal the first card to the starting position as determined in subsection (c) and, continuing around the table in a clockwise manner, deal one card at a time to all other positions, regardless of whether there is a wager at the position, and the dealer, until each position and the dealer has seven cards. Each card dealt shall be removed from the dealing

shoe with the hand of the dealer that is closest to the dealing shoe and placed face down on the appropriate area of the layout with the opposite hand.

(e) After seven cards have been dealt to each position and the dealer, the dealer shall remove the stub from the manual dealing shoe and determine whether four cards are left by spreading them face down on the layout. The four cards that remain may not be exposed to anyone and shall be placed in the discard rack.

(f) If more or less than four cards remain, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player position or the dealer has more or less than seven cards), all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(g) If the dealer determines the cards were dealt properly, the dealer shall collect any stacks dealt to a position where there was no wager and place them in the discard rack without exposing the cards.

§ 645a.9. Procedures for dealing the cards from the hand.

(a) If the cards are dealt from the dealer's hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 645a.5 (relating to shuffle and cut of the cards; procedures for determining the starting position for dealing cards) have been completed, the dealer shall place the deck of cards in either hand. After the dealer has chosen the hand in which to hold the cards, the dealer shall continue to use that hand when holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing any cards, the dealer shall announce “no more bets” and:

(i) If the Fortune Bonus Wager, Emperor's Treasure Wager or Dynasty Bonus Wager is being offered and a player makes a Qualifying Wager, the dealer shall place an Envy lammer next to that player's wager.

(ii) If the Progressive Payout Wager is being offered, the dealer shall use the progressive table game system to prevent the placement of any additional Progressive Payout Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall deal each card by holding the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate

area of the layout. The dealer shall then determine the starting position for dealing the cards using one of the procedures authorized under § 645a.5(i).

(c) The dealer shall then deal the first card to the starting position as determined in subsection (b) and, continuing around the table in a clockwise manner, deal one card at a time to all other positions, regardless of whether there is a wager at the position, and the dealer, until each position and the dealer has seven cards.

(d) After seven cards have been dealt to each position and the dealer, the dealer shall determine whether four cards are left by spreading them face down on the layout. The four cards that remain may not be exposed to anyone and shall be placed in the discard rack.

(e) If more or less than four cards remain, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player position or the dealer has more or less than seven cards), all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(f) If the dealer determines the cards were dealt properly, the dealer shall collect any stacks dealt to a position where there was no wager and place them in the discard rack without exposing the cards.

§ 645a.10. Procedures for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures under § 645a.5 (relating to shuffle and cut of the cards; procedures for determining the starting position for dealing cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce “no more bets” and:

(i) If the Fortune Bonus Wager, Emperor's Treasure Wager or Dynasty Bonus Wager is being offered and a player makes a Qualifying Wager, the dealer shall place an Envy lammer next to that player's wager.

(ii) If the Progressive Payout Wager is being offered, the dealer shall use the progressive table game system to prevent the placement of any additional Progressive Payout Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall determine the starting position for delivering the stacks of cards using one of the procedures authorized under § 645a.5(i).

(c) After the starting position for delivering the cards has been determined, the dealer shall deliver the first stack of cards dispensed by the automated dealing shoe face down to that position. As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other positions, regardless of whether there is a wager at the position, and the dealer.

(d) After seven cards have been dispensed and delivered to each position and the dealer, the dealer shall remove the remaining cards from the shoe and determine whether four cards are left by spreading them face down on the layout. The four cards that remain may not be exposed to anyone and shall be placed in the discard rack.

(e) If more or less than four cards remain, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player position or the dealer has more or less than seven cards), all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(f) If the dealer determines the cards were dealt properly, the dealer shall collect any stacks dealt to a position where there was no wager and place them in the discard rack without exposing the cards.

§ 645a.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 645a.8, § 645a.9 or § 645a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards subject to the following limitations:

(1) Each player who wagers at a Pai Gow Poker table shall be responsible for setting his own hands and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player. If a player requests assistance in the setting of his hands, the dealer shall inform the player of the manner in which the certificate holder requires the hands of the dealer to be set in accordance with the certificate holder's Rules Submission under § 601a.2 (relating to table games Rules Submissions).

(2) Each player shall keep his seven cards in full view of the dealer at all times.

(3) Once each player has set a high and low hand and placed the two hands face down on the appropriate area of the layout, the player may not touch the cards again.

(b) Each player shall set his hands by arranging the cards into a high hand and a low hand. When setting the two hands, the five-card high hand must be equal to or higher in rank than the two-card low hand. For example, if the two-card hand contains a pair of sevens, the five-card hand must contain at least a pair of sevens and the three remaining cards.

(c) After all players have set their hands and placed the cards on the table, the seven cards of the dealer shall be turned over and the dealer shall set his hands by arranging the cards

into a high and low hand. The certificate holder shall specify in its Rules Submission under § 601a.2 the manner in which the hands of the dealer shall be set. The dealer shall then place the two hands face up on the appropriate area of the layout. If a player is acting as the bank in accordance with § 645a.12 (relating to player bank; co-banking; selection of bank; procedures for dealing), after all players have set their hands and placed the cards on the table, the bank shall turn over his seven cards and set the two hands by arranging the cards in a high and low hand on the appropriate area of the layout.

(d) Unless a player has placed an optional wager authorized under § 645a.7(e)(1)—(5) (relating to wagers), a player may surrender his wager after the hands of the dealer or the bank have been set. The player shall announce his intention to surrender prior to the dealer exposing either of the two hands of that player as provided in subsection (e). Once the player has announced his intention to surrender, the dealer shall immediately collect the Pai Gow Poker Wager from that player and collect the seven cards dealt to that player without exposing the cards to anyone at the table. If any Qualifying Wagers have been placed, the cards of the player shall remain on the table until collected in accordance with subsection (h). The dealer shall verify that seven cards were collected by counting them face down on the layout prior to placing them in the discard rack.

(e) After the dealer has set a high hand and a low hand, the dealer shall reveal both hands of each player, beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction. The dealer shall compare the high and low hand of each player to the high and low hand of the dealer and shall announce if the Pai Gow Poker Wager of that player wins, loses or is a tie.

(f) A Pai Gow Poker Wager will:

(1) Lose and will immediately be collected if:

(i) The high hand of the player is lower in rank than the high hand of the dealer and the low hand of the player is lower in rank than the low hand of the dealer.

(ii) The high hand of the player is identical in rank to the high hand of the dealer or the low hand of the player is identical in rank to the low hand of the dealer and the other hand of the player is identical in rank or lower in rank than the other hand of the dealer.

(iii) The high hand of the player was not set so as to rank equal to or higher than the low hand of that player.

(iv) The two hands of the player were not otherwise set correctly in accordance with this chapter.

(v) Notwithstanding subparagraphs (i)—(iv), if the table is designated for play as an EZ Pai Gow Poker table in which vigorish is not collected and if the dealer has a Queen's Dragon, the player's Pai Gow Poker Wager shall push and be returned to the player.

(2) Tie and will be returned to the player if:

(i) The high hand of the player is higher in rank than the high hand of the dealer, but the low hand of the player is identical in rank to the low hand of the dealer or lower in rank than the low hand of the dealer.

(ii) The high hand of the player is identical in rank to the high hand of the dealer or lower in rank than the high hand of the dealer, but the low hand of the player is higher in rank than the low hand of the dealer.

(iii) The dealer has a Queen's Dragon and the table is designated for play as an EZ Pai Gow Poker table in which vigorish is not collected.

(3) Win if the high hand of the player is higher in rank than the high hand of the dealer and the low hand of the player is higher in rank than the low hand of the dealer provided that if the table is designated for play as an EZ Pai Gow Poker table and the dealer has a Queen's Dragon, the player's Pai Gow Poker Wager shall push and be returned to the player. The dealer shall pay the winning Pai Gow Poker Wager in accordance with the payout odds in § 645a.13(a) (relating to payout odds; Envy Bonus; rate of progression; payout limitation).

(g) Except as provided in subsection (h), after settling the player's Pai Gow Poker Wager, the dealer shall place the cards of the player in the discard rack.

(h) After settling the player's Pai Gow Poker Wager, the dealer shall rearrange the seven cards of any player who placed an optional wager, in accordance with § 645a.7(e)(1)—(5), to form the highest ranking hand and be responsible for creating the hand for purposes of all optional wagers offered by the certificate holder. If any player at the table has placed a Qualifying Wager, the dealer shall rearrange the cards of all players regardless of whether the player placed a Fortune Bonus, Emperor's Treasure or Dynasty Bonus Wager. After rearranging the player's seven cards, the dealer shall:

(1) Settle the player's Fortune Bonus Wager as follows:

(i) If a player:

(A) Does not have a straight or higher, as described in § 645a.6(d) (relating to Pai Gow Poker rankings), the dealer shall collect the Fortune Bonus Wager and place the cards of the player in the discard rack.

(B) Has a straight or higher, the dealer shall pay the winning Fortune Bonus Wager in accordance with § 645a.13(b) and shall place the cards of the player in the discard rack. If the player has an Envy Bonus Qualifying Hand and any player at the table placed a Qualifying Wager, the dealer shall verbally acknowledge the Envy Bonus Qualifying Hand and leave the cards of the player face up on the table.

(C) Did not place a Fortune Bonus Wager but has an Envy Bonus Qualifying Hand, and another player at the table placed a Qualifying Wager, the dealer shall verbally acknowledge the Envy Bonus Qualifying Hand and leave the cards of the player face up on the table.

(ii) After all Fortune Bonus Wagers have been settled, if any player is the holder of an Envy Bonus Qualifying Hand, the dealer shall pay an Envy Bonus in accordance with § 645a.13(b) to each player who has an Envy lammer at the player's betting position. Players are entitled to multiple Envy Bonuses when another player at the same Pai Gow Poker table is the holder of an Envy Bonus Qualifying Hand. A player is not entitled to an Envy Bonus for his own hand or the hand of the dealer.

(iii) After all Envy Bonuses have been paid, the dealer shall collect all remaining cards and place them in the discard rack.

(2) Settle the player's Emperor's Treasure Wager as follows:

(i) If a player:

(A) Does not have a straight or higher as described in § 645a.6(e), the dealer shall collect the Emperor's Treasure Wager and place the cards of the player in the discard rack.

(B) Has a straight or higher, the dealer shall pay the winning Emperor's Treasure Wager in accordance with § 645a.13(c) and place the cards of the player in the discard rack. If the player has an Envy Bonus Qualifying Hand and any player at the table placed a Qualifying Wager, the dealer shall verbally acknowledge the Envy Bonus Qualifying Hand and leave the cards of the player face up on the table.

(C) Did not place an Emperor's Treasure Wager but has an Envy Bonus Qualifying Hand and another player at the table placed a Qualifying Wager, the dealer shall verbally acknowledge the Envy Bonus Qualifying Hand and leave the cards of the player face up on the table.

(ii) After all Emperor's Treasure Wagers have been settled, if any player is the holder of an Envy Bonus Qualifying Hand, the dealer shall pay an Envy Bonus in accordance with § 645a.13(c) to each player who has an Envy lammer at the player's betting position. Players are entitled to multiple Envy Bonuses when another player at the same Pai Gow Poker table is the holder of an Envy Bonus Qualifying Hand. A player is not entitled to an Envy Bonus for his own hand or the hand of the dealer.

(iii) After all Envy Bonuses have been paid, the dealer shall collect all remaining cards and place them in the discard rack.

(3) Settle the player's Pai Gow Insurance Wager. If a player:

(i) Has a pair or better as described in § 645a.6(b), the dealer shall collect the Pai Gow Insurance Wager and place the cards of the player in the discard rack.

(ii) Does not have a pair or better, but has a card ranked a nine-high or better, the dealer shall pay the winning Pai Gow Insurance Wager in accordance with § 645a.13(d). The dealer shall then place the cards of the player in the discard rack.

(4) Settle the player's Progressive Payout Wager. If a player:

(i) Does not have a full house or better, as described in § 645a.6(f), the dealer shall collect the Progressive Payout Wager and place the cards of the player in the discard rack.

(ii) Has a full house or better, the dealer shall:

(A) Verify that the hand is a winning hand.

(B) Verify that the appropriate light on the progressive table game system has been illuminated.

(C) Have a floorperson or above validate the progressive payout in accordance with the certificate holder's approved internal control procedures.

(D) Pay the winning Progressive Payout Wager in accordance with the payout odds in § 645a.13(e). If a player has won a progressive payout that is a percentage of the progressive meter, the progressive payout may not be paid from the table inventory container. If a player has won a progressive payout that is not being paid from the table inventory, the cards of that player shall remain on the table until the necessary documentation has been completed.

(5) Settle the player's Queen's Dragon Wager. If the dealer does not have Queen's Dragon, the dealer shall collect the Queen's Dragon Wager and place the cards of the player in the discard rack. If the dealer has a Queen's Dragon, the dealer shall pay the winning wager in accordance with § 645a.13(f).

(6) Settle the player's Dynasty Bonus Wager as follows:

(i) If a player:

(A) Does not have a three-of-a-kind or better as described in § 645a.6(b) and (g), the dealer shall collect the Dynasty Wager and place the cards of the player in the discard rack.

(B) Has a three-of-a-kind or better, the dealer shall pay the winning Dynasty Wager in accordance with § 645a.13(g). If the player has an Envy Bonus Qualifying Hand and any player at the table placed a Qualifying Wager, the dealer shall verbally acknowledge the Envy Bonus Qualifying Hand and leave the cards of the player face up on the table.

(C) Did not place a Dynasty Wager but has an Envy Bonus Qualifying Hand and another player at the table placed a Qualifying Wager, the dealer shall verbally acknowledge the Envy Bonus Qualifying Hand and leave the cards of the player face up on the table.

(ii) After all Dynasty Bonus Wagers have been settled, if any player is the holder of an Envy Bonus Qualifying Hand, the dealer shall pay an Envy Bonus in accordance with § 645a.13(g) to each player who has an Envy lammer at the player's betting position. Players are entitled to multiple Envy Bonuses when another player at the same Pai Gow Poker table is the holder of an Envy Bonus Qualifying Hand. A player is not entitled to an Envy Bonus for his own hand or the hand of the dealer.

(7) Settle the player's Protection Wager. If the player's hand does not contain a high card of a 9, 10, jack, queen, king or ace, or the hand contains a pair or better, as described in § 645a.6(b), the dealer shall collect the Protection Wager and place the cards of the player in the discard rack. If the player's hand does not contain a pair or better but contains a high card of a 9, 10, jack, queen, king or ace, the dealer shall pay the winning wager in accordance with § 645a.13(h).

(8) Settle the player's Red/Black Wager. If the player wagered on red and the player's hand does not contain four or more red cards, or if the player wagered on black and the player's hand does not contain four or more black cards, the dealer shall collect the Red/Black Wager and place the cards of the player in the discard rack. If a player's hand does contain four or more of the cards of the player's chosen color, the dealer shall pay the winning Red/Black Wager in accordance with § 645a.13(i).

(i) Notwithstanding the requirements in subsection (h), if the certificate holder offers more than one optional wager, the dealer shall settle all of the player's optional wagers before placing the player's cards in the discard rack.

(j) All cards removed from the table shall be placed in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

§ 645a.12. Player bank; co-banking; selection of bank; procedures for dealing.

(a) A certificate holder may, if specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), offer to all players at a Pai Gow Poker table the opportunity to bank the game. If the certificate holder elects this option, the provisions of this section control for any round of play in which a player is the bank. All other provisions of this chapter apply to the extent that they do not conflict with the provisions in this section.

(b) A player may not be the bank at the start of the game. For the purposes of this section, the start of the game means the first round of play after the dealer is required to shuffle the cards in accordance with § 645a.5 (relating to shuffle and cut of the cards; procedures for determining the starting position for dealing cards).

(c) After the first round of play, each player at the table shall have the option to either be the bank or pass the bank to the next player. The dealer shall offer the bank to each player, starting with the player farthest to the dealer's right and continuing around the table in a counterclockwise manner, until a player accepts the bank. The dealer shall place a marker designating the bank in front of the player who accepts the bank. If the first player offered the bank accepts, the player seated to the right of the bank shall be offered the bank first on the next

round of play. A player may not bank two consecutive rounds of play. If no player accepts the bank, the round of play shall proceed in accordance with the rules of play provided in this chapter.

(d) Before a player may bank a round of play, the dealer shall confirm that:

(1) The player placed a Pai Gow Poker Wager against the dealer during the last round of play in which there was no player banking the game.

(2) The player has sufficient value chips or plaques on the table to cover all of the Pai Gow Poker Wagers placed by other players at the table for that round of play.

(e) A certificate holder may, if specified in its Rules Submission under § 601a.2, offer the bank the option of co-banking the round of play. If the certificate holder offers this option, it shall be made available to all players at the table. If the bank wishes to use this option and co-bank 50% of the winning Pai Gow Poker Wagers, the bank must specifically request to co-bank with the dealer. The dealer shall place a marker designating the player co-banking that round of play. When the dealer is co-banking, the dealer shall be responsible for setting the hand of the bank in the manner as specified in the certificate holder's Rules Submission under § 601a.2. When co-banking is in effect, the dealer may not place a wager against the bank.

(f) If a player is the bank, the player may wager on only one betting area.

(g) Once the dealer has determined that a player may be the bank, as required under subsection (d), the dealer shall shuffle the cards in accordance with § 645a.5. The dealer shall then, unless co-banking is in effect, remove value chips from the table inventory container in an amount equal to the banker's last Pai Gow Poker Wager made against the dealer or in an amount as specified in the certificate holder's Rules Submission. This amount shall be the amount the dealer wagers against the bank. The bank may direct that the sum wagered by the dealer be a lesser amount or that the dealer place no wager during that round of play. Any amount wagered by the dealer shall be placed in front of the table inventory container.

(h) The dealer shall then determine the starting position for dealing the cards in accordance with § 645a.5(i) and deal the cards in accordance with § 645a.8, § 645a.9 or § 645a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe).

(i) If the dealer placed a wager against the bank, after each player has set his two hands and placed them on the table layout, the two hands of the dealer shall then be set. Once the dealer has formed a high and low hand and placed the hands face up on the appropriate area of the table layout, the dealer shall expose the hands of the bank and determine if the hands of the dealer are higher in rank than the hands of the bank. If the bank did not set his hands correctly, the dealer shall reset the bank's hands in accordance with the certificate holder's Rules Submission under § 601a.2. If the dealer wins, the cards of the dealer shall be stacked face up to the right of the table inventory container with the amount wagered by the dealer against the bank placed on top. If the dealer's hand is a tie with the bank's hand, the dealer shall return the amount wagered by the

dealer against the bank to the table inventory container. If the dealer loses, the amount wagered by the dealer against the bank shall be moved to the center of the layout.

(j) If a player is banking the round of play, once the dealer has determined the outcome of the Pai Gow Poker Wager of the dealer against the bank, if any, the dealer shall, starting with the player farthest to the dealer's right and continuing around the table in a counterclockwise manner, expose the hands of each player. The dealer shall compare the high and low hand of the player to the high and low hand of the bank and announce if the wager shall win, lose or tie. Losing wagers shall be immediately collected and placed in the center of the table. All winning Pai Gow Poker Wagers, including the dealer's wager, shall be paid by the dealer with the value chips located in the center of the table. If this amount becomes exhausted before all winning Pai Gow Poker Wagers have been paid, the dealer shall collect from the bank an amount equal to the remaining winning wagers and place that amount in the center of the layout. The remaining winning wagers shall be paid from the amount in the center of the layout. If, after collecting all losing wagers and paying all winning Pai Gow Poker Wagers, there is a surplus in the center of the table, this amount shall be charged a 5% vigorish in accordance with § 645a.13(a) (relating to payout odds; Envy Bonus; rate of progression; payout limitation). Once the vigorish has been paid, the remaining amount shall be given to the bank.

(k) Immediately after a winning Pai Gow Poker Wager of the dealer is paid, this amount and the dealer's original wager shall be returned to the table inventory container.

(l) If a player and the dealer are co-banking the round of play, once the dealer has set the co-bank's hand under subsection (e), the dealer shall, starting with the player farthest to the dealer's right and continuing around the table in a counterclockwise manner, expose the hands of each player. The dealer shall compare the high and low hand of the player to the high and low hand of the bank and announce if the wager shall win, lose or tie. Losing wagers shall be immediately collected and placed in the center of the table. All winning Pai Gow Poker Wagers shall be paid by the dealer with the value chips located in the center of the table. If this amount becomes exhausted before all winning Pai Gow Poker Wagers have been paid, the dealer shall collect from the bank an amount equal to 1/2 of the remaining winning wagers and place that amount in the center of the layout. The dealer shall remove an amount equal to 1/2 of the remaining winning wagers from the table inventory container and place that amount in the center of the layout. The remaining winning wagers shall be paid from the total amount in the center of the layout. If, after collecting all losing wagers and paying all winning Pai Gow Poker Wagers, there is a surplus in the center of the table, this amount will be counted and the dealer shall place 1/2 of this amount into the table inventory container. The dealer shall then place the value chips into the table inventory container.

(c) The dealer shall then deal each card by holding the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout.

(d) If any player placed a Six Card Bonus Wager, the dealer shall deal four cards, face down, to the area on the layout designated for the placement of the Six Card Bonus cards. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(g) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(h) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. The dealer shall then deliver a stack of two cards face down under a cover card to the area designated for the dealer’s cards.

(c) After each stack of two cards has been dispensed and delivered in accordance with subsection (b), the dealer shall remove the remaining cards from the automated dealing shoe. If any player placed a Six Card Bonus Wager, the dealer shall, in accordance with the procedures in § 647a.9(a)(2) (relating to procedure for dealing the cards from the hand), deal face down from his hand the top four cards of the stack to the area of the layout designated for the placement of the Six Card Bonus cards then deal the five community cards in accordance with § 647a.11(c), (e) and (f) (relating to procedure for completion of each round of play). (d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(g) Notwithstanding the requirements in subsections (b) and (c), if a certificate holder is utilizing an automated dealing shoe which automatically reshuffles the cards, the five community

(g) Once all remaining players have either placed a River Wager or checked, the dealer shall burn the next card face down. The dealer shall then deal the River card face up to the designated area for the community cards.

The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) If an automated card shuffling device is being used, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, and the device reveals that an incorrect number of cards are present, the deck shall be removed from the table.

(c) After the cards have been shuffled and stacked, the dealer shall:

The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before any cards have been dealt, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game.

(f) If there is no gaming activity at a Three Card Poker table which is open for gaming, the cards shall be removed from the dealing shoe and discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the procedures in § 649a.4(c) (relating to opening of the table for gaming) and this section shall be completed.

(g) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. Once the procedures required under § 649a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe by the dealer or by an automated card shuffling device.

(b) Prior to dealing any cards, the dealer shall announce “no more bets” and, if a Progressive Payout Wager or the Five Card Hand Bonus Wager is being offered, use the progressive table game system or the electronic wagering system to prevent the placement of any additional Progressive Payout or Five Card Hand Bonus Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of

Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(c) Each card shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand.

(f) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(g) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(h) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player or the dealer has more or less than 3 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

After the dealer has chosen the hand in which to hold the cards, the dealer shall continue to use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing any cards, the dealer shall announce “no more bets” and, if a Progressive Payout Wager or the Five Card Hand Bonus Wager is being offered, use the progressive table game system or the electronic wagering system to prevent the placement of any additional Progressive Payout or Five Card Hand Bonus Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall deal each card by holding the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout. The dealer shall, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal one card at a time to each player who has placed a wager in accordance with § 649a.7 (relating to wagers) and to the dealer until each player who placed a wager and the dealer have three cards. All cards shall be dealt face down. If a player has placed a Five Card Hand Bonus Wager or a Five-Card Progressive Payout Wager, the dealer shall deal an additional two community cards face down on the table to a dedicated area to the right of the dealer.

(c) After three cards have been dealt to each player and the dealer, the dealer shall, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player or the dealer has more or less than 3 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 649a.10. Procedures for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 649a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce “no more bets” and, if a Progressive Payout Wager or the Five Card Hand Bonus Wager is being offered, use the progressive table game system or the electronic wagering system to prevent the placement of any additional Progressive Payout or Five Card Hand Bonus Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall deliver the first stack of cards dispensed by the automated dealing shoe face down to the player farthest to the dealer's left who has placed a wager in accordance with § 649a.7 (relating to wagers). As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other players who has placed a wager in accordance with § 649a.7. The dealer shall then deliver a stack of three cards face down to the area designated for the placement of the dealer's cards.

(c) After each stack of three cards has been dispensed and delivered in accordance with subsection (b), the dealer shall remove the stub from the automated dealing shoe and, except as provided in subsection (d), place the cards in the discard rack without exposing the cards. If a player has placed a Five Card Hand Bonus Wager or a Five-Card Progressive Payout Wager, after removing the stub from the automated dealing shoe, the dealer shall deal an additional two community cards face down on the table to a dedicated area to the right of the dealer. Except as provided in subsection (d), the dealer shall then place the cards in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards is still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player or the dealer has more or less than 3 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 649a.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 649a.8, § 649a.9 or § 649a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards

from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards subject to the following limitations:

(1) Each player who wagers at Three Card Poker shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

(2) Each player shall keep his three cards in full view of the dealer at all times.

(b) After each player has examined his cards, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player who placed an Ante Wager if he wishes to make a Play Wager in an amount equal to the player's Ante Wager or forfeit the Ante Wager and end his participation in the round of play. If a player:

(1) Has placed an Ante Wager and a Pair Plus Wager but does not make a Play Wager, the player shall forfeit both the Ante Wager and the Pair Plus Wager.

(2) Has placed an Ante Wager and a Three or Five-Card Progressive Payout Wager but does not make a Play Wager, the player shall forfeit both the Ante Wager and the Progressive Payout Wager but may not forfeit the eligibility to receive an Envy Bonus under § 649a.12(e) or (h) (relating to payout odds; Envy Bonus; rate of progression).

(3) Has placed an Ante Wager, a Pair Plus Wager and a Six Card Bonus, Five Card Hand Bonus or a 5 of 6 Progressive Payout Wager, but does not make a Play Wager, the player shall forfeit both the Ante Wager and the Pair Plus Wager but does not forfeit the Six Card Bonus, Five Card Hand Bonus or 5 of 6 Progressive Payout Wager.

(c) After each player who has placed an Ante Wager has either placed a Play Wager on the designated area of the layout or forfeited his Ante Wager and hand, the dealer shall collect all forfeited wagers and associated cards, except for the cards of those players who placed a Six Card Bonus, Five Card Hand Bonus or a 5 of 6 Progressive Payout Wager, and place the cards in the discard rack. The dealer shall then reveal the dealer's cards and place the cards so as to form the highest possible ranking Three Card Poker hand. After the dealer's cards are turned face up, the dealer shall, beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, complete the following applicable procedures in succession for each player:

(1) The dealer shall turn the three cards of each player face up on the layout.

(2) The dealer shall examine the cards of the player and form the highest possible ranking Three Card Poker hand for each player.

(3) If the dealer's highest ranking Three Card Poker hand:

(i) Is lower than a queen high, the dealer shall pay each player's Ante Wager and return the player's Play Wager.

(ii) Is a queen high or better, and the player's highest ranking Three Card Poker hand is ranked:

(A) Lower than the dealer's Three Card Poker hand, the dealer shall immediately collect the Ante and Play Wagers made by the player.

(B) Higher than the dealer's Three Card Poker hand, the dealer shall pay the Ante and Play Wagers and any Ante Bonus in accordance with the payout odds in § 649a.12(a) and (b).

(C) Equally with the dealer's Three Card Poker hand, the dealer shall return the player's Ante and Play Wagers.

(4) After settling the player's Ante and Play Wagers, the dealer shall settle any Pair Plus Wagers by determining whether the player's Three Card Poker hand qualifies for a payout in accordance with § 649a.12(d). A winning Pair Plus Wager shall be paid irrespective of whether the player's Three Card Poker hand outranks the dealer's hand.

(5) The dealer shall then settle the Progressive Payout Wager, if offered by the certificate holder. A winning Progressive Payout Wager shall be paid irrespective of whether the player's hand outranks the dealer's hand. If a player has won a progressive payout, the dealer shall:

(i) Verify that the hand is a winning hand.

(ii) Verify that the appropriate light on the progressive table game system has been illuminated.

(iii) Have a floorperson or above validate the progressive payout in accordance with the certificate holder's approved internal control procedures.

(iv) Pay the winning Progressive Payout Wager in accordance with the payout odds in § 649a.12(e). If a player has won a progressive payout that is 100% of the jackpot amount on the progressive meter, the progressive payout may not be paid from the table inventory container. If a player has won a progressive payout that is not being paid from the table inventory container, the cards of that player must remain on the table until the necessary documentation has been completed.

(v) Pay any Envy Bonus won in accordance with § 649a.12(e). Players making a Progressive Payout Wager shall receive an Envy Bonus when another player at the same Three Card Poker table is the holder of an Envy Bonus Qualifying Hand. Players are entitled to multiple Envy Bonuses if more than one other player is the holder of an Envy Bonus Qualifying Hand. A player is not entitled to an Envy Bonus for his own hand or the hand of the dealer.

(6) The dealer shall then settle the Six Card Bonus Wager, if offered by the certificate holder. A winning Six Card Bonus Wager shall be paid irrespective of the outcome of

the player's Ante Wager or Pair Plus Wager. The dealer shall arrange the dealer's three cards and the player's three cards to form the highest ranking five-card Poker hand for each player. If a player has a three-of-a-kind or better, as described in § 649a.6(d) (relating to Three Card Poker rankings), the dealer shall pay the winning Six Card Bonus Wager in accordance with the payout odds in § 649a.12(f). Players are entitled to multiple Envy Bonuses if more than one player is the holder of a Five-Card Envy Bonus Qualifying Hand. A player is not entitled to a Five-Card Envy Bonus for his own hand.

(8) If the certificate holder offers the Five Card Hand Bonus Wager, after settling all other wagers, the dealer shall then settle the Five Card Hand Bonus Wager and any Magic Card or Lucky Bonus payouts. The dealer shall expose the two additional community cards dealt in accordance with §§ 649a.8(d), 649a.9(b) and 649a.10(c) and form the highest ranking five-card Poker hand of the player and the dealer from the player's or dealer's three cards and the two community cards. A winning Five Card Hand Bonus Wager shall be paid irrespective of whether the player's hand outranks the dealer's hand. If a player has won a Five Card Hand Bonus or any Magic Card or Lucky Bonus payout, the dealer shall:

(i) Verify that the hand is a winning hand.

(ii) Have a floorperson or above verify any Five Card Hand Bonus payout with odds of 500 for 1 or a payout that is a percentage of the jackpot amount on the progressive meter in accordance with approved internal control procedures submitted under § 465a.2 (relating to internal control systems and audit protocols).

(iii) Credit the player's game account for the winning Five Card Hand Bonus Wager or the Magic Card or Lucky Bonus payout in accordance with § 649a.12(i). If a player has won a Five Card Hand Bonus payout that is a percentage of the jackpot amount on the progressive meter, the payout may not be paid to the player's game account. If a player has won a payout that is not being paid to the player's game account, the winning hand must remain on the table until the necessary documentation has been completed.

(9) If the certificate holder offers the 5 of 6 Progressive Payout Wager, after settling all other wagers, the dealer shall combine the player's three cards and the dealer's three cards to form the highest ranking five-card Poker hand of the player. Players are entitled to multiple Envy Bonuses if more than one player is the holder of a 5 of 6 Envy Bonus Qualifying Hand. A player is not entitled to an Envy Bonus for his own hand.

The dealer shall then return the remaining 1/2 of the Initial Wager to the player. The dealer shall then proceed around the table in a clockwise direction, repeating the process for each player with a tie hand who selects this option.

(2) The player may place a War Wager in an amount equal to the player's Initial Wager, in accordance with subsection (e).

(h) Losing Initial, War and Tie Wagers shall be collected by the dealer and placed in the table inventory container. Winning War and Tie Wagers shall then be paid in accordance with the payout odds in § 651a.10(a)(2) and (3). (f) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(g) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(h) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall deal each card by holding the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout. If any player placed a Six Card Bonus Wager, the dealer shall deal four cards, face down, to the area on the layout designated for the placement of the Six Card Bonus cards. The dealer shall then, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal one card at a time to each player who placed the required wagers in accordance with § 653a.7(d)(1) (relating to wagers) and to the dealer, until each player who placed the required wagers, and the dealer have two cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

If any player placed a Six Card Bonus Wager, the dealer shall, in accordance with the procedures in § 653a.9(a)(2) and (b) (relating to procedure for dealing the cards from the hand), deal face down from his hand the top four cards of the stack to the area of the layout designated for the placement of the Six Card Bonus cards then deal the five community cards in accordance with § 653a.11 (relating to procedures for completion of each round of play). (1) Places a Play Wager, the wager shall be placed in the area designated for the Play Wager.

(2) Checks, the player shall remain in the game and defer his decision to place a Play Wager until after the Flop is dealt.

The dealer shall then select five cards from the dealer's two cards and the five community cards to form the highest ranking five-card Poker hand and announce the dealer's hand to the players.

(h) If the dealer's highest ranking five-card Poker hand:

(k) The dealer shall then settle the Progressive Payout Wager, if offered by the certificate holder. (l) The dealer shall settle the Five Card Hand Bonus Wager, if offered by the certificate holder, and any Magic Card or Lucky Bonus payouts. A winning Five Card Hand Bonus shall be paid irrespective of whether the player's hand outranks the dealer's hand and based on the rank of the player's or the dealer's two cards and the three-card Flop. (b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread out in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 655a.5 (relating to shuffle and cut of the cards).

The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) If an automated card shuffling device is being used, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, and the device reveals that an incorrect number of cards are present, the deck shall be removed from the table.

(c) After the cards have been shuffled and stacked, the dealer shall do the following:

(1) If the cards were shuffled using an automated card shuffling device, deal the cards in accordance with § 655a.8, § 655a.9 or § 655a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe).

(d) If a cut of the cards is required, the dealer shall place the cover card in the stack at least ten cards in from the top of the stack. Once the cover card has been inserted, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for the commencement of play.

(e) After the cards have been cut and before any cards have been dealt, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game.

(f) If there is no gaming activity at a Mississippi Stud table that is open for gaming, the cards shall be removed from the dealing shoe and the discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player is afforded an opportunity to visually inspect the cards, the procedures in § 655a.4(c) (relating to opening of the table for gaming) and this section shall be completed.

(g) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted and approved in accordance

with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (d)—(f) do not apply.

(b) Only players who are seated at the Mississippi Stud table may place a wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and may be treated as losing wagers.

(c) All Ante, Progressive Payout, Three Card Bonus, Five Card Hand Bonus and Six Card Bonus Wagers shall be placed prior to the dealer announcing “no more bets” in accordance with the dealing procedure in § 655a.8, § 655a.9 or § 655a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe). Except as provided in § 655a.11(b), (d) and (f) (relating to procedures for completion of each round of play), a wager

may not be made, increased or withdrawn after the dealer announces “no more bets” and begins dealing the cards.

(d) The following wagers may be placed in the game of Mississippi Stud:

(1) A player shall place an Ante Wager to participate in a round of play.

(2) In accordance with § 655a.11(b), (d) and (f), 3rd Street, 4th Street and 5th Street Wagers.

After placing an Ante Wager, a player may make an additional Progressive Payout Wager by placing a value chip into the progressive wagering device designated for that player. Each player shall be responsible for verifying that the player's respective Progressive Payout Wager has been accepted.

(4) A certificate holder may, if specified in its Rules Submission under § 601a.2, offer to each player at a Mississippi Stud table the option to make an additional Three Card Bonus Wager that the three community cards will form a three-card Poker hand of a pair or better as defined in § 655a.6(c) (relating to Mississippi Stud hand rankings).

(5) If specified in its Rules Submission under § 601a.2, a certificate holder may offer to each player at a Mississippi Stud table the option to make an additional Five Card Hand Bonus Wager that the player's five-card Poker hand will contain a flush or better as defined in § 655a.6(b). (a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 655a.5 (relating to shuffle and cut of the cards) have been completed, the

stacked deck of cards shall be placed in the dealing shoe either by the dealer or by the automated card shuffling device.

(b) Prior to dealing the cards, the dealer shall announce “no more bets” and, if the Progressive Payout Wager or the Five Card Hand Bonus Wager is being offered, use the progressive table game system or the electronic wagering system to prevent the placement of any additional Progressive Payout or Five Card Hand Bonus Wagers. The dealer shall then collect any Progressive Payout Wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(c) Each card shall be removed from the dealing shoe with the hand of the dealer that is the closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand.

(d) If any player placed a Six Card Bonus Wager, the dealer shall deal four cards, face down, to the area on the layout designated for the placement of the Six Card Bonus cards. The dealer shall then, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal the cards as follows:

(1) Two cards face down to each player who placed an Ante Wager in accordance with § 655a.7(d)(1) (relating to wagers).

(2) Three cards face down to the area designated for the placement of the community cards.

(e) After two cards have been dealt to each player and three cards have been dealt to the area designated for the community cards, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (f), place the stub in the discard rack without exposing the cards.

(f) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(g) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(h) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or less than 2 cards or the area designated for the placement of the community cards has more or less than 3 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 655a.9. Procedure for dealing the cards from the hand.

(a) If the cards are dealt from the dealer's hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 655a.5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the stacked deck of cards in either hand. After the dealer has chosen the hand in which he will hold the cards, the dealer shall continue to use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing the cards, the dealer shall announce “no more bets” and, if the Progressive Payout Wager or the Five Card Hand Bonus Wager is being offered, use the progressive table game system or the electronic wagering system to prevent the placement of any additional Progressive Payout or Five Card Hand Bonus Wagers. If any Progressive Payout Wagers have been made, the dealer shall then collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) If any player placed a Six Card Bonus Wager, the dealer shall deal four cards, face down, to the area on the layout designated for the placement of the Six Card Bonus cards. The dealer shall then, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal the cards as follows:

(1) Two cards face down to each player who placed an Ante Wager in accordance with § 655a.7(d)(1) (relating to wagers).

(2) Three cards face down to the area designated for the placement of the community cards.

(c) After two cards have been dealt to each player and three cards have been dealt to the area designated for the community cards, the dealer shall, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or less than 2 cards or the area designated for the placement of the community cards has more or less than 3 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 655a.10. Procedures for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 655a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the dealing shoe dispensing any stacks, the dealer shall announce “no more bets” and, if the Progressive Payout Wager or the Five Card Hand Bonus Wager is being offered, use the progressive table game system or the electronic wagering system to prevent the placement of any additional Progressive Payout or Five Card Hand Bonus Wagers. The dealer shall then collect any Progressive Payout Wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall deliver the first stack of cards dispensed by the automated dealing shoe face down to the player farthest to the dealer’s left who has placed an Ante Wager in accordance with § 655a.7(d)(1) (relating to wagers). As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other players who has placed an Ante Wager.

(c) After each stack of two cards has been dispensed and delivered in accordance with this section, the dealer shall remove the remaining cards from the automated dealing shoe. If any player placed a Six Card Bonus Wager, the dealer shall, in accordance with the procedures in § 655a.9(a)(2) (relating to procedure for dealing the cards from the hand), deal face down from his hand the top four cards of the stack to the area of the layout designated for the placement of the Six Card Bonus cards then deal the three community cards. Except as provided in subsection (d), after all three community cards have been dealt, the dealer shall place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device that counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine that the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or less than 2 cards or the area designated for the placement of the community cards has more or less than 3 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(g) Notwithstanding the requirements in subsections (b) and (c), if a certificate holder is utilizing an automated dealing shoe that automatically reshuffles the cards, the three community cards may be dispensed before the two cards are dispensed to each player.

(1) Each player who wagers at Mississippi Stud shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

(2) Each player shall keep his cards in full view of the dealer at all times.

(3) A player may not exchange or communicate information regarding his hand prior to the dealer revealing all of the community cards. Any violation shall result in a forfeiture of all wagers on that round by such person.

(b) After each player has examined his cards and replaced them face down on the layout, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player who placed an Ante Wager if he wishes to place a 3rd Street Wager in an amount equal to one, two or three times the amount of the player's Ante Wager or fold. If a player folds, the Ante Wager shall be immediately collected and placed in the table inventory container and the folded hand shall be collected and placed in the discard rack unless the player made a Progressive Payout, Three Card Bonus, Five Card Hand Bonus or Six Card Bonus Wager in which case the cards shall be left on the table until all optional wagers are resolved in accordance with subsection (i).

(c) Once all players have either placed a 3rd Street Wager or folded, the dealer shall turn over and reveal the first community card.

(d) Each player shall then either place a 4th Street Wager in an amount equal to one, two or three times the amount of the player's Ante Wager in the designed 4th Street betting area or fold. If a player folds, the Ante Wager and 3rd Street Wager shall be immediately collected and placed in the table inventory container and the folded hand shall be collected and placed in the discard rack unless the player made a Progressive Payout, Three Card Bonus, Five Card Hand

(e) Once all remaining players have either placed a 4th Street Wager or folded, the dealer shall turn over and reveal the second community card.

(f) Each player shall then either place a 5th Street Wager in an amount equal to one, two or three times the amount of the player's Ante Wager in the designed 5th Street betting area or fold. If a player folds, the Ante Wager and the 3rd Street and 4th Street Wagers shall be immediately collected and placed in the table inventory container and the folded hand shall be collected and placed in the discard rack unless the player made a Progressive Payout, Three Card Bonus, Five Card Hand Bonus or Six Card Bonus Wager in which case the cards shall be left on the table until all optional wagers are resolved in accordance with subsection (i).

(g) Once all remaining players have either placed a 5th Street Wager or folded, the dealer shall turn over and reveal the third community card.

(h) Beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, the dealer shall turn the player's two cards face up on the layout and combine them with the three community cards to form the highest ranking five-card Poker hand of that player. If the player's hand:

(1) Is a pair of 5s or lower, the dealer shall collect the player's losing Ante, 3rd Street, 4th Street and 5th Street Wagers.

If a player has won a Five Card Hand Bonus payout that is a percentage of the jackpot amount on the progressive meter, the payout may not be paid to the player's game account. If a player has won a payout that is not being paid to the player's game account, the winning hand must remain on the table until the necessary documentation has been completed.

(4) For the Six Card Bonus Wager, the dealer shall reveal the four additional Six Card Bonus cards and combine them with the player's two cards to form the highest ranking Poker hand as provided in § 655a.6(d). If the player's hand:

(b) Only players who are seated at a Crazy 4 Poker table may wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. (e) The certificate holder shall specify in its Rules Submission under § 601a.2 the number of adjacent boxes on which a player may place a wager in one round of play.

§ 657a.8. Procedure for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 657a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe by the dealer or by the automated card shuffling device.

(b) Prior to dealing the cards, the dealer shall announce “no more bets” and, if the Progressive Payout Wager or the Five Card Hand Bonus Wager is being offered, use the progressive table game system or the electronic wagering system to prevent the placement of any additional Progressive Payout or Five Card Hand Bonus Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of

Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(c) Each card shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed face down on the appropriate area of the layout with the opposite hand.

(d) After all wagers have been placed, if any player placed a Six Card Bonus Wager, the dealer shall deal one card, face down, to the area on the layout designated for the placement of the Six Card Bonus card. The dealer shall then, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal one card at a time to each player who placed the required wagers in accordance with § 657a.7(d)(1) (relating to wagers) and to the dealer until each player and the dealer have five cards.

(e) After five cards have been dealt to each player and the dealer, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (f), place the stub in the discard rack without exposing the cards.

(f) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(g) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(h) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player or the dealer has more or less than 5 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 657a.9. Procedure for dealing the cards from the hand.

(a) If the cards are dealt from the dealer's hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 657a.5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the stacked deck of cards in either hand. After the dealer has chosen the hand in which to hold the cards, the dealer shall continue to use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing any cards, the dealer shall announce “no more bets” and, if the Progressive Payout Wager or the Five Card Hand Bonus Wager is being offered, use the progressive table game system or the electronic wagering system to prevent the placement of any additional Progressive Payout or Five Card Hand Bonus Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall deal each card by holding the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout. If any player placed a Six Card Bonus Wager, the dealer shall deal one card, face down, to the area on the layout designated for the placement of the Six Card Bonus card. The dealer shall then, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal one card at a time to each player who placed the required wagers in accordance with § 657a.7(d)(1) (relating to wagers) and to the dealer until each player and the dealer have five cards.

(c) After five cards have been dealt to each player and the dealer, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player or the dealer has more or less than 5 cards), but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 657a.10. Procedures for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 657a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce “no more bets” and, if the Progressive Payout Wager or the Five Card Hand Bonus Wager is being offered, use the progressive table game system or the electronic wagering system to prevent the placement of any additional Progressive Payout or Five Card Hand Bonus Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall deliver the first stack of cards dispensed by the automated dealing shoe face down to the player farthest to the dealer's left who has placed a wager in accordance with § 657a.7(d)(1) (relating to wagers). As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other players who has placed a wager in accordance with § 657a.7(d)(1). The dealer shall then deliver a stack of five cards face down to the area designated for the placement of the dealer's cards. If any player placed a Six Card Bonus Wager, the dealer shall then remove the next stack of five cards dispensed by the automated dealing shoe and deal the top card of the stack face down to the area of the layout designated for the placement of the Six Card Bonus card then place the remaining cards of the stack in the discard rack without exposing the cards.

(c) After each stack of five cards has been dispensed and delivered in accordance with subsection (b), the dealer shall remove the stub from the automated dealing shoe and, except as provided in subsection (d), place the cards in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards is still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player or the dealer has more or less than 5 cards), but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 657a.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 657a.8, § 657a.9 or § 657a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards, subject to the following limitations:

(2) Each player shall keep his five cards in full view of the dealer at all times.

(b) After each player has examined his cards, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player who placed Ante and Super Bonus Wagers if he wishes to forfeit the Ante and Super Bonus Wagers and end his participation in the round of play or make a Play Wager in an amount equal to the player's Ante Wager. A player who has a pair of aces or better may place a Play Wager in an amount up to three times the player's Ante Wager. If a player:

(1) Has placed Ante, Super Bonus and Queens Up Wagers but does not make a Play Wager, the player shall forfeit all three wagers.

(2) Has placed Ante, Super Bonus and Four or Five-Card Progressive Payout Wagers but does not make a Play Wager, the player shall forfeit all three wagers but may not forfeit the eligibility to receive an Envy Bonus under § 657a.12(d)(5) or (e)(5) (relating to payout odds; Envy Bonus; rate of progression).

(3) Has placed Ante, Super Bonus and Six Card Bonus Wagers but does not make a Play Wager, the player shall forfeit the Ante and Super Bonus Wagers but not forfeit the Six Card Bonus Wager and the player's cards shall remain on the layout until the optional wager is settled in accordance with subsection (g).

(c) After each player who has placed Ante and Super Bonus Wagers has either placed a Play Wager on the designated area of the layout or forfeited his wagers and hand, the dealer shall collect all forfeited wagers and associated cards and place the cards in the discard rack. The dealer shall then reveal the dealer's cards and place the cards so as to form the highest possible ranking four-card Poker hand. After the dealer's cards are turned face up, the dealer shall, beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, complete the following applicable procedures in succession for each player:

(1) The dealer shall turn the five cards of each player face up on the layout.

(2) The dealer shall examine the cards of the player and form the highest possible ranking four-card Poker hand for each player.

(3) If the dealer's highest ranking four-card Poker hand:

(d) After settling the player's Ante, Play and Super Bonus Wagers, the dealer shall settle a Queens Up Wager by determining whether the player's four-card Poker hand qualifies for a payout in accordance with § 657a.12(c). A winning Queens Up Wager shall be paid irrespective of whether the player's four-card Poker hand outranks the dealer's hand.

(e) After settling a player's Ante, Play, Super Bonus and Queens Up Wagers, the dealer shall then settle the Four-Card or Five-Card Progressive Payout Wager, if offered by the certificate holder. For the Five-Card Progressive Payout Wager, the dealer shall form the highest ranking five-card Poker hand from the five cards dealt to each player. A winning Progressive Payout Wager shall be paid irrespective of whether the player's hand outranks the dealer's hand. If a player has won a progressive payout, the dealer shall:

(g) After the Play, Ante, Queens Up and Super Bonus Wagers have been settled, the dealer shall settle the player's Six Card Bonus Wager. The dealer shall reveal the Six Card Bonus card and combine it with the player's five cards to form the highest ranking Poker hand in accordance with § 657a.6(e) (relating to Crazy 4 Poker rankings). (b) If the deck of cards used by the certificate holder contains two jokers, the dealer and a floorperson shall ensure that only one joker is utilized and that the other joker is torn in half and placed in the box, envelope or container that the deck came from. After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence and include the one joker.

(c) After the first player is afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, they shall be shuffled in accordance with § 659a.5 (relating to shuffle and cut of the cards; procedures for determining the starting position for dealing cards).

(d) If an automated card shuffling device is utilized and two decks of cards are received at the table, each deck of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c).

(e) If the decks of cards received at the table are preinspected and reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

Upon completion of the shuffle, the dealer or device shall place the deck of cards in a single stack provided, however, that the certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) After the cards have been shuffled and stacked, the dealer shall:

(1) If the cards were shuffled using an automated card shuffling device, determine the starting position in accordance with subsection (g), then deal the cards in accordance with § 659a.8, § 659a.9 or § 659a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe).

(2) If the cards were shuffled manually or were reshuffled, cut the cards in accordance with subsection (c).

(c) If a cut of the cards is required, the dealer shall place the cover card in the stack at least ten cards in from the top of the stack. Once the cover card has been inserted, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play. The dealer shall then determine the starting position in accordance with subsection (g), and deal the cards in accordance with § 659a.8, § 659a.9 or § 659a.10.

(d) After the cards have been cut and before any cards have been dealt, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game.

(e) If there is no gaming activity at a Fortune Asia Poker table which is open for gaming, the cards shall be removed from the dealing shoe and discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the procedures in § 659a.4(c) (relating to opening of the table for gaming) and this section shall be completed.

(f) A certificate holder may utilize a dealing shoe or other device designed to automatically reshuffle the cards provided that the device is submitted and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (c)—(e) do not apply.

(g) To determine the starting position for the dealing of cards, the certificate holder shall use one of the following:

(1) A shaker in accordance with the following procedures:

(i) The dealer shall shake the shaker at least three times to cause a random mixture of the dice.

(ii) The dealer shall then remove the lid covering the dice and place the uncovered shaker on the designated area of the table layout. The dealer shall then total the dice and announce the total.

(iii) To determine the starting position, the dealer shall count each betting position in order, regardless of whether there is a wager at the betting position, beginning with the dealer as number one and continuing around the table in a counterclockwise manner, until the count matches the total of the three dice.

(iv) After the dealing procedures required under § 659a.8, § 659a.9 or § 659a.10 have been completed, the dealer shall place the cover on the shaker and shake the shaker once. The shaker shall then be placed to the right of the dealer.

(c) All wagers at Fortune Asia Poker shall be placed prior to the dealer announcing “no more bets” in accordance with the dealing procedures in § 659a.8, § 659a.9 or § 659a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe).

If the amounts wagered are equal, each hand shall be played separately in a counterclockwise rotation with the first hand being ranked and set before the player proceeds to rank and set the second hand. Once a hand has been ranked, set and placed face down on the layout, the hands may not be changed.

§ 659a.8. Procedures for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance. Once the procedures required under § 659a.5 (relating to shuffle and cut of the cards; procedures for determining the starting position for dealing cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe either by the dealer or by an automated card shuffling device.

(b) Prior to dealing any cards, the dealer shall announce “no more bets” and:

(1) If the Fortune Bonus Wager is being offered and a player makes a Qualifying Wager, the dealer shall place an Envy lammer next to that player's wager.

(2) If the Progressive Payout Wager is being offered, the dealer shall use the progressive table game system to prevent the placement of any additional Progressive Payout Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers

and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(c) The dealer shall determine the starting position for dealing the cards using one of the procedures authorized under § 659a.5(g). The dealer shall then deal the first card to the starting position as determined in § 659a.5(g) and, continuing around the table in a clockwise manner, deal one card at a time to all other positions, regardless of whether there is a wager at the position, and the dealer, until each position and the dealer has seven cards. Each card dealt shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed face down on the appropriate area of the layout with the opposite hand.

(d) After seven cards have been dealt to each position and the dealer, the dealer shall remove the stub from the manual dealing shoe and determine whether four cards are left by spreading them face down on the layout. The four cards that remain may not be exposed to anyone and shall be placed in the discard rack.

(e) If more or less than four cards remain, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player position or the dealer has more or less than seven cards), all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(f) If the dealer determines the cards were dealt properly, the dealer shall collect any stacks dealt to a position where there was no wager and place them in the discard rack without exposing the cards.

§ 659a.9. Procedures for dealing the cards from the hand.

(a) If the cards are dealt from the dealer's hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 659a.5 (relating to shuffle and cut of the cards; procedures for determining the starting position for dealing cards) have been completed, the dealer shall place the deck of cards in either hand. After the dealer has chosen the hand in which to hold the cards, the dealer shall continue to use that hand when holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing any cards, the dealer shall announce “no more bets” and:

(i) If the Fortune Bonus Wager is being offered and a player makes a Qualifying Wager, the dealer shall place an Envy lammer next to that player's wager.

(ii) If the Progressive Payout Wager is being offered, the dealer shall use the progressive table game system to prevent the placement of any additional Progressive Payout Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall determine the starting position for dealing the cards using one of the procedures authorized under § 659a.5(g). The dealer shall then deal the first card to the starting position as determined in § 659a.5(g) and, continuing around the table in a clockwise manner, deal one card at a time to all other positions, regardless of whether there is a wager at the position, and the dealer, until each position and the dealer has seven cards.

(c) After seven cards have been dealt to each position and the dealer, the dealer shall determine whether four cards are left by spreading them face down on the layout. The four cards that remain may not be exposed to anyone and shall be placed in the discard rack.

(d) If more or less than four cards remain, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player position or the dealer has more or less than seven cards), all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(e) If the dealer determines the cards were dealt properly, the dealer shall collect any stacks dealt to a position where there was no wager and place them in the discard rack without exposing the cards.

§ 659a.10. Procedures for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, after the procedures under § 659a.5 (relating to shuffle and cut of the cards; procedures for determining the starting position for dealing cards) have been completed, the cards shall be placed in the automated dealing shoe. Prior to the shoe dispensing any stacks of cards, the dealer shall announce “no more bets” and:

(1) If the Fortune Bonus Wager is being offered and a player makes a Qualifying Wager, the dealer shall place an Envy lammer next to that player's wager.

(2) If the Progressive Payout Wager is being offered, the dealer shall use the progressive table game system to prevent the placement of any additional Progressive Payout Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall determine the starting position for delivering the stacks of cards using one of the procedures under § 659a.5(g). After the starting position for delivering the cards has been determined in accordance with § 659a.5(g), the dealer shall deliver the first stack of

cards dispensed by the automated dealing shoe face down to that position. As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other positions, regardless of whether there is a wager at the position, and the dealer.

(c) After seven cards have been dispensed and delivered to each position and the dealer, the dealer shall remove the remaining cards from the shoe and determine whether four cards are left by spreading them face down on the layout. The four cards that remain may not be exposed to anyone and shall be placed in the discard rack.

(d) If more or less than four cards remain, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player position or the dealer has more or less than seven cards), all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(e) If the dealer determines the cards were dealt properly, the dealer shall collect any stacks dealt to a position where there was no wager and place them in the discard rack without exposing the cards.

§ 659a.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 659a.8, § 659a.9 or § 659a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards subject to the following limitations:

(1) Each player who wagers at a Fortune Asia Poker table shall be responsible for setting his own hands and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player. If a player requests assistance in the setting of his hands, the dealer shall inform the player of the manner in which the certificate holder requires the hands of the dealer to be set in accordance with the certificate holder's Rules Submission under § 601a.2 (relating to table games Rules Submissions).

(2) Each player shall keep his seven cards in full view of the dealer at all times.

(3) Once each player has set his three hands and placed them face down on the appropriate area of the layout, the player may not touch the cards again.

(b) Each player shall set his hands by arranging the cards into a high hand, a medium hand and a low hand. When setting the three hands, the four-card high hand must be higher in rank than the two-card medium hand and the medium hand must be higher in rank than the one-card low hand. For example, if the two-card medium hand contains a pair of sevens, the four-card high hand must contain at least a pair of sevens and the two remaining cards.

(c) After all players have set their hands and placed the cards on the table, the seven cards of the dealer shall be turned over and the dealer shall set his hands by arranging the cards

into a high hand, medium hand and low hand. The certificate holder shall specify in its Rules Submission under § 601a.2 the manner in which the hands of the dealer shall be set. The dealer shall then place the three hands face up on the appropriate area of the layout.

(d) Unless a player has placed an optional wager in accordance with § 659a.7(e) (relating to wagers), a player may surrender his wager after the hands of the dealer have been set. The player shall announce his intention to surrender prior to the dealer exposing any of the three hands of that player as provided in subsection (e). Once the player has announced his intention to surrender, the dealer shall immediately collect the Fortune Asia Poker Wager from that player and collect the seven cards dealt to that player without exposing the cards to anyone at the table. If any Qualifying Wagers have been placed, the cards of the player must remain on the table until collected in accordance with subsection (h). The dealer shall verify that seven cards were collected by counting them face down on the layout prior to placing them in the discard rack.

(e) After the dealer has set a high hand, medium hand and a low hand, the dealer shall reveal all three hands of each player, beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction. The dealer shall compare the high, medium and low hand of each player to the high, medium and low hand of the dealer and shall announce if the Fortune Asia Poker Wager of that player wins or loses.

(f) A Fortune Asia Poker Wager will:

(1) Lose and will immediately be collected if:

(i) Any two of the player's three hands are identical or lower in rank than the dealer's corresponding hands.

(ii) Any one of the player's three hands is identical in rank to the corresponding hand of the dealer and one of the player's remaining hands is lower in rank than the dealer's corresponding hand.

(iii) The high hand of the player was not set so as to rank higher than the medium hand of that player.

(iv) The medium hand of the player was not set so as to rank higher than the low hand of that player.

(v) The three hands of the player were not otherwise set correctly in accordance with this chapter.

(2) Win if any two of the player's three hands are higher in rank than the dealer's corresponding hands. The dealer shall pay the winning Fortune Asia Poker Wager in accordance with the payout odds in § 659a.12(a) (relating to payout odds).

(g) Except as provide in subsection (h), after settling the player's Fortune Asia Poker Wager, the dealer shall place the cards of the player in the discard rack.

(h) If a player placed a Fortune Bonus, Insurance or Progressive Payout Wager, after settling the player's Fortune Asia Poker Wager, the dealer shall rearrange the seven cards of any player and form the highest ranking hand and shall be responsible for creating the hand. If any player at the table placed a Qualifying Wager, the dealer shall rearrange the cards of all players regardless of whether the player placed a Fortune Bonus Wager. After rearranging the player's seven cards, the dealer shall settle the player's Fortune Bonus, Insurance or Progressive Payout Wagers as follows:

(1) For the player's Fortune Bonus Wager:

(i) If a player:

(A) Does not have a straight or higher, as described in § 659a.6(d) (relating to Fortune Asia Poker rankings) or three pair or higher, depending on the payout table selected by the certificate holder, the dealer shall collect the Fortune Bonus Wager and place the cards of the player in the discard rack.

(B) Has a straight or higher, or three pair or higher, depending on the payout table selected by the certificate holder, the dealer shall pay the winning Fortune Bonus Wager in accordance with § 659a.12(b) and place the cards of the player in the discard rack. If the player has an Envy Bonus Qualifying Hand and any player at the table placed a Qualifying Wager, the dealer shall verbally acknowledge the Envy Bonus Qualifying Hand and leave the cards of the player face up on the table.

(C) Did not place a Fortune Bonus Wager but has an Envy Bonus Qualifying Hand, and another player at the table placed a Qualifying Wager, the dealer shall verbally acknowledge the Envy Bonus Qualifying Hand and leave the cards of the player face up on the table.

(ii) After all Fortune Bonus Wagers have been settled, if any player is the holder of an Envy Bonus Qualifying Hand, the dealer shall pay an Envy Bonus in accordance with § 659a.12(b) to each player who has an Envy lammer at the player's betting position. Players are entitled to multiple Envy Bonuses when another player at the same Fortune Asia Poker table is the holder of an Envy Bonus Qualifying Hand. A player is not entitled to an Envy Bonus for his own hand or the hand of the dealer.

(2) For the player's Insurance Wager, if a player:

(i) Has a pair or better, the dealer shall collect the player's Insurance Wager and place the cards of the player in the discard rack.

(ii) Does not have a pair or better, but has a card ranked a 9-high or better, the dealer shall pay the winning Insurance Wager in accordance with § 659a.12(c). The dealer shall then place the cards of the player in the discard rack.

(3) For the player's Progressive Payout Wager, if a player:

(i) Does not have a full house or better, as described in § 659a.6(e), the dealer shall collect the Progressive Payout Wager and place the cards of the player in the discard rack.

(ii) Has a full house or better, the dealer shall:

(A) Verify that the hand is a winning hand.

(B) Verify that the appropriate light on the progressive table game system has been illuminated.

(C) Have a floorperson or above validate the progressive payout in accordance with the certificate holder's approved internal control procedures.

(D) Pay the winning Progressive Payout Wager in accordance with the payout odds in § 659a.12(d). If a player has won a progressive payout that is a percentage of the progressive meter, the progressive payout may not be paid from the table inventory container. If a player has won a progressive payout that is not being paid from the table inventory, the cards of that player shall remain on the table until the necessary documentation has been completed.

(i) Notwithstanding the card collection requirements in subsection (h), if the certificate holder offers more than one optional wager, the dealer shall settle all of the player's optional wagers before placing the player's cards in the discard rack.

(j) All cards removed from the table shall be placed in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

§ 659a.12. Payout odds.

(a) A certificate holder shall pay each winning Fortune Asia Poker Wager at odds of 1 to 1.

(b) The layout for a Three Dice Football table shall be submitted to the Bureau of Gaming Operations and approved in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment) and contain, at a minimum:

(c) Each Three Dice Football table must have a drop box and tip box attached to the table in locations approved by the Bureau of Casino Compliance in accordance with § 601a.10(g).

§ 661a.3. Wagers.

(a) Wagers shall be made by placing value chips, plaques or other Board-approved wagering instruments on the appropriate areas of the layout. Verbal wagers accompanied by cash may not be accepted.

(b) The following full game wagers are authorized in Three Dice Football:

(1) A Touchdown Wager which shall win if a touchdown or Trips TD is scored.

(2) A Defense Wager which shall win if a touchdown or Trips TD is not scored.

(3) An Extra Point Wager which shall win if a touchdown or Trips TD is made and on the extra point roll either:

(i) One or more of the three dice shows a 1.

(ii) Any triple, other than three 1s, is rolled.

(4) A Quick Strike TD Wager which shall win if a touchdown or Trips TD is scored in 4 downs or fewer.

(vi) Six plays.

(c) The full game wagers authorized in subsection (b) shall be placed prior to the start of each new game and may not be increased or withdrawn after the first throw of the dice.

(d) The following single play wagers are authorized in Three Dice Football:

(1) A Trips TD Wager which shall win if a Trips TD is scored.

(2) A Penalty Wager which shall win if a penalty or turnover occurs.

(3) A Turnover Wager which shall win if a turnover occurs. A turnover on downs does not qualify.

(4) A Cover Three Wager which shall win if a Trips TD is scored or a penalty or turnover occurs.

(5) A No Gain Wager which shall win if zero yards are gained or if a penalty or turnover occurs.

(6) A Big Play Wager which shall win if 7 yards or more are gained or if a Trips TD is scored.

(7) An Over Four Yards Wager which shall win if 5 yards or more are gained or if a Trips TD is scored.

(8) An Under Four Yards Wager which shall win if 3 yards or less are gained or if a penalty or turnover occurs. A Trips TD does not qualify.

(e) The single play wagers authorized in subsection (d) may be placed at any time during the game prior to the Quarterback's throw of the dice. Single play wagers shall be settled after each throw of the dice.

§ 661a.4. Dice; physical characteristics, retention and selection.

(a) The physical characteristics of the dice used in Three Dice Football must comply with the requirements of § 603a.12(a) (relating to dice; physical characteristics) except a set of four green and two red dice must be present at the table during gaming. Control of the dice at the table is the responsibility of the stickperson. The stickperson shall retain all dice, except those in active play, in a dice cup at the table.

(b) At the commencement of play, the stickperson shall offer the set of dice to the player immediately to the left of the stickperson. If that player rejects the dice, the stickperson shall offer the dice to each of the other players in turn clockwise around the table until one of the players accepts the dice.

(c) The first player to accept the dice when offered shall become the Quarterback who selects and retains two of the green dice and one red die offered. The remaining dice of the set shall be returned to the dice cup which shall be placed immediately in front of the stickperson.

(d) A set of dice used at a Three Dice Football table shall be changed at least once every 24 hours. A new set of dice shall be used when a Three Dice Football table is reopened for gaming, if a die goes off the table during play and is lost or if the dice show signs of tampering or alteration or are otherwise marked, chipped, scratched or no longer suitable for play.

§ 661a.5. Throw of the dice; invalid roll of the dice.

(a) After selecting the Offensive and Defensive Dice, the Quarterback shall throw the three selected dice so that they leave the Quarterback's hand simultaneously and in a manner which causes the dice to strike the end of the table farthest from the Quarterback.

(b) A roll of the dice shall be invalid if any of the dice go off the table or if one die comes to rest on top of the other.

(c) The stickperson shall have the authority to invalidate a roll of the dice by calling "no roll" for any of the following reasons:

(1) The dice do not leave the Quarterback's hand simultaneously.

(2) Any of the dice fail to strike the end of the table farthest from the Quarterback.

(3) Any of the dice come to rest on the chips constituting the bank of chips located in front of the stickperson.

(4) Any of the dice come to rest in the dice cup in front of the stickperson or on one of the rails surrounding the table.

(5) The use of a cheating, crooked or fixed device or technique in the roll of the dice.

(6) The stickperson considers the throw to be improper.

(d) A throw of the dice which results in the dice coming into contact with any chips or plaques on the table, other than the bank of chips located in front of the stickperson, is not a cause for a call of "no roll."

(e) When the dice come to rest from a valid throw, the stickperson shall at once call out the numbers on the uppermost or skyward sides of the three dice. Only one face on each die shall be considered uppermost or skyward.

(f) In the event any of the dice do not land flat on the table (for example, one edge of the die is resting cocked on a stack of chips), the side directly opposite the side that is resting on the chips or other object shall be considered uppermost or skyward. If more than one side of a die is resting on a stack of chips or other object, the roll shall be void and the dice shall be rethrown.

(g) In the event of a dispute as to which face is uppermost, the stickperson has discretion to determine which face is uppermost or to order the throw be void and the dice be rethrown.

(h) After calling the throw, the stickperson shall collect the dice and bring them to the center of the table. All wagers decided by that throw shall then be settled. The stickperson shall then pass the dice to the Quarterback for the next throw. When collecting the dice and passing them to the Quarterback, the stickperson shall use a stick designed for that purpose.

§ 661a.6. Rules of the game; settlement of wagers.

(a) Immediately prior to the commencement of each round of play, the dealer shall place the Down Puck on the area of the table layout designated for the 1st Down. The Yard Marker shall be placed on the football field in the 20 yard line circle. The Game Length Puck shall be placed on the area of the table layout designated for Play 1.

(b) Prior to the first throw of the dice, each player shall place a wager authorized under § 661a.3(b) or (d) (relating to wagers). Prior to each subsequent roll of the dice, a player may place any single play wager authorized under § 661a.3(d).

(c) Each roll of the dice shall determine the result of each down as follows:

(1) If the total of the Offensive Dice is greater than the value of the Defensive Die, a gain of yards has occurred. The dealer shall subtract the value of the Defensive Die from the total of the Offensive Dice and move the Yard Marker down the field toward the end zone the total number of yards earned during that down. For example, if the total of the Offensive Dice is 10 and the value of the Defensive Die is 2, the dealer shall move the Yard Marker toward the end zone 8 yards from its previous position on the field. The dealer shall then place the Down Puck on the next down and the Game Length Puck to the next play.

(2) If the total of the Offensive Dice is less than the value of the Defensive Die, a penalty has occurred which shall result in the loss of only 1 yard and the loss of the current down. The dealer shall move the Yard Marker back 1 yard from its previous position on the field, place the Down Puck on the next down and the Game Length Puck to the next play.

(3) If the total of the Offensive Dice is equal to the value of the Defensive Die, a gain or penalty has not occurred. The dealer shall place the Down Puck on the next down and the Game Length Puck to the next play.

(4) If the Quarterback rolls a turnover, the dealer shall announce the turnover and end the game.

(5) If the Quarterback rolls a Trips TD, the dealer shall move the Yard Marker to the end zone and end the game.

(d) After each down, the dealer shall settle all single play wagers placed in accordance with § 661a.3(d). The value of the dice determines the outcome of single play wagers, not the actual yards moved on the field. The dealer shall then announce the number of downs and the distance to the end zone.

(e) The Quarterback shall have three downs to either score a touchdown, Trips TD or earn a 1st & Goal. A 1st & Goal is earned by reaching the 10 yard line. If after three downs:

(1) The Quarterback has not scored a touchdown, Trips TD or earned a 1st & Goal, the game ends.

(2) The Quarterback has earned a 1st & Goal, the Quarterback has three more downs to score a touchdown or a Trips TD.

(f) If the Quarterback:

(1) Scores a touchdown or a Trips TD, the dealer shall first collect all Defense Wagers then settle all single play wagers, placed in accordance with § 661a.3(d), and all full game wagers, placed in accordance with § 661a.3(b), with the exception of the Touchdown and Extra Point Wagers. If any player at the table has placed an Extra Point Wager, the Quarterback shall then throw an extra point roll. The dealer shall then pay out winning Touchdown Wagers and settle the Extra Point Wagers.

(2) Does not score a touchdown or a Trips TD, the dealer shall first collect all Touchdown and Extra Point Wagers and pay out winning Defense Wagers. The dealer shall then settle all single play wagers, placed in accordance with § 661a.3(d), and the remaining full game wagers placed in accordance with § 661a.3(b).

(g) All winning wagers shall be paid in accordance with § 661a.8 (relating to payout odds).

§ 661a.7. Continuation of Quarterback; selection of new Quarterback.

(a) If a game ends in a touchdown or Trips TD, the Quarterback shall retain the dice. If the game ends with defense winning, the stickperson shall offer the dice to the player to the immediate left of the previous Quarterback. If the player does not accept the dice, the stickperson shall offer the dice to each of the other players in turn clockwise around the table.

(b) The first player to accept the dice when offered shall become the new Quarterback who shall select and retain two of the green dice and one of the red die offered. The remaining dice of the set shall be returned to the dice cup which shall be placed immediately in front of the stickperson.

§ 661a.8. Payout odds.

§ 663a.1. Definitions.

The following words and terms, when used in this chapter, have the following meanings, unless the context clearly indicates otherwise:

High hand—The three-card hand that is formed from the five cards dealt so as to have a point value higher than the two-card low hand.

Low hand—The two-card hand that is formed from the five cards dealt so as to have a point value lower than the three-card high hand.

Setting the hands—The process of forming a high hand and low hand from the five cards dealt.

§ 663a.2. Five Card Hi-Lo table; physical characteristics.

(a) Five Card Hi-Lo shall be played at a table having betting positions for no more than six players on one side of the table and a place for the dealer on the opposite side of the table.

(b) The layout for a Five Card Hi-Lo table shall be submitted to the Bureau of Gaming Operations and approved in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment) and contain, at a minimum:

- (1) The name or logo of the certificate holder.

(2) A separate betting area designated for the placement of the Ante Wager for each player.

(3) A separate betting area designated for the placement of the Play Wager for each player.

(4) Two separate areas designated for the placement of the high and low hands of each player.

(5) If the certificate holder offers the optional Tie Wager authorized under § 663a.7(e)(1) (relating to wagers), a separate area designated for the placement of the Tie Wager for each player.

(6) If the certificate holder offers the optional Poker Bonus Wager authorized under § 663a.7(e)(2), a separate area designated for the placement of the Poker Bonus Wager for each player.

(7) Inscriptions that advise patrons of the payout odds or amounts for all permissible wagers offered by the certificate holder. If the payout odds or amounts are not inscribed on the layout, a sign identifying the payout odds or amounts for all permissible wagers shall be posted at each Five Card Hi-Lo table.

(c) Each Five Card Hi-Lo table must have a drop box and a tip box attached on the same side of the gaming table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g). The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(d) Each Five Card Hi-Lo table must have a discard rack securely attached to the top of the dealer's side of the table.

§ 663a.3. Cards; number of decks.

(a) Except as provided in subsection (b), Five Card Hi-Lo shall be played with one deck of cards that are identical in appearance and one cover card.

(b) If an automated card shuffling device is utilized, Five Card Hi-Lo may be played with two decks of cards in accordance with the following requirements:

(1) The cards in each deck must be of the same design. The backs of the cards in one deck must be of a different color than the cards in the other deck.

(2) One deck of cards shall be shuffled and stored in the automated card shuffling device while the other deck is being used to play the game.

(3) Both decks of cards shall be continuously alternated in and out of play, with each deck being used for every other round of play.

(4) The cards from only one deck shall be placed in the discard rack at any given time.

(c) The decks of cards used in Five Card Hi-Lo shall be changed at least every:

(1) Four hours if the cards are dealt by hand.

(2) Eight hours if the cards are dealt from a manual or automated dealing shoe.

§ 663a.4. Opening of the table for gaming.

(a) After receiving one or more decks of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player is afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 663a.5 (relating to shuffle and cut of the cards).

(d) If an automated card shuffling device is utilized and two decks of cards are received at the table, each deck of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c).

(e) If the decks of cards received at the table are preinspected and preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

§ 663a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each round of play has been completed or when directed by the floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or device shall place the deck of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) If an automated card shuffling device is being used, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present,

and the device reveals that an incorrect number of cards are present, the deck shall be removed from the table.

(c) After the cards have been shuffled and stacked, the dealer shall:

(1) If the cards were shuffled using an automated card shuffling device, deal the cards in accordance with § 663a.8, § 663a.9 or § 663a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe).

(2) If the cards were shuffled manually, cut the cards in accordance with the procedures in subsection (d).

(d) If a cut of the cards is required, the dealer shall place the cover card in the stack at least ten cards in from the top of the stack. Once the cover card has been inserted, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before the cards have been dealt, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game.

(f) If there is no gaming activity at a Five Card Hi-Lo table which is open for gaming, the cards shall be removed from the dealing shoe and discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the procedures in § 663a.4(c) (relating to opening of the table for gaming) and this section shall be completed.

(g) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards, provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval), prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (b)—(f) do not apply.

§ 663a.6. Five Card Hi-Lo rankings.

(a) Each card dealt must have a point value. The point value of all nonface cards is their denomination. Jacks, queens and kings have a point value of 10. Aces have a point value of 11 if played in the high hand and a point value of 1 if played in the low hand.

(b) If the certificate holder offers the Poker Bonus Wager, authorized under § 663a.7(e) (relating to wagers), the winning five-card Poker hands must be:

(1) A royal flush, which is a hand consisting of an ace, king, queen, jack and 10 of the same suit.

(2) A straight flush, which is a hand, other than a royal flush, consisting of five cards of the same suit in consecutive ranking. An ace may be used to complete a straight flush formed with a 2, 3, 4 and 5 but may not be combined with any other sequence of cards (for example: queen, king, ace, 2 and 3).

(3) A four-of-a-kind, which is a hand consisting of four cards of the same rank regardless of suit.

(4) A full house, which is a hand consisting of a three-of-a-kind and a pair.

(5) A flush, which is a hand consisting of five cards of the same suit, not in consecutive order.

(6) A straight, which is a hand consisting of five cards of consecutive rank, regardless of suit. An ace may be used to complete a straight formed with a king, queen, jack and 10 or a 2, 3, 4 and 5 but may not be combined with any other sequence of cards (for example: queen, king, ace, 2 and 3).

(7) A three-of-a-kind, which is a hand consisting of three cards of the same rank, regardless of suit.

(8) Two pairs, which is a hand consisting of two pairs.

(9) One pair of 6s, 7s or better, depending on the payable selected by the certificate holder in its Rules Submission filed in accordance with § 601a.2 (relating to table games Rules Submissions), which is a hand consisting of two cards of the same rank.

§ 663a.7. Wagers.

(a) Wagers at Five Card Hi-Lo shall be made by placing value chips, plaques or other Board-approved wagering instruments, as defined in § 603a.10 (relating to permissible wagering; exchange and redemption of gaming chips and plaques), on the appropriate areas of the Five Card Hi-Lo layout. Verbal wagers accompanied by cash may not be accepted.

(b) Only players who are seated at a Five Card Hi-Lo table may wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and may be treated as losing wagers.

(c) All wagers at Five Card Hi-Lo shall be placed prior to the dealer announcing “no more bets” in accordance with the dealing procedures in § 663a.8, § 663a.9 or § 663a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe). A wager may not be made, increased or withdrawn after the dealer has announced “no more bets.”

(d) To participate in a round of play and compete against the dealer's high and low hands, a player shall place an Ante Wager.

(e) A certificate holder may, if specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), offer to each player who placed an Ante Wager, in accordance with subsection (d), the option of placing the following additional wagers:

(1) A Tie Wager that the total point value of either the high hand or the low hand of the player, or both, will tie the high or low hand of the dealer.

(2) A Poker Bonus Wager that the five cards dealt to the player will form a five-card Poker hand with a rank of a pair of 6s or better or a pair of 7s or better, as described in § 663a.6(b) (relating to Five Card Hi-Lo rankings), depending on the pay table selected by the certificate holder.

(f) A certificate holder may, if specified in its Rules Submission under § 601a.2, permit a player to wager on two adjacent betting areas at a Five Card Hi-Lo table. If a certificate holder permits a player to wager on adjacent betting areas, the cards dealt to each betting area shall be played separately. If the two wagers are not equal, the player shall rank and set the hand with the larger wager before ranking and setting the other hand. If the amounts wagered are equal, each hand shall be played separately in a counterclockwise rotation with the first hand being ranked and set before the player proceeds to rank and set the second hand. Once a hand has been ranked, set and placed face down on the layout, the hands may not be changed.

§ 663a.8. Procedures for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 663a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe either by the dealer or by an automated card shuffling device.

(b) Prior to dealing any cards, the dealer shall announce “no more bets.”

(c) Each card shall be removed from the dealing shoe with the hand of the dealer that is the closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand.

(d) The dealer shall, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal one card at a time to each player who placed an Ante Wager in accordance with § 663a.7(d) (relating to wagers) and to the dealer until each player and the dealer have five cards.

(e) After five cards have been dealt to each player and the dealer, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (f), place the stub in the discard rack without exposing the cards.

(f) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(g) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(h) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player or the dealer has more or less than 5 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 663a.9. Procedures for dealing the cards from the hand.

(a) If the cards are dealt from the dealer's hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 663a.5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the stacked deck of cards in either hand. After the dealer has chosen the hand in which to hold the cards, the dealer shall continue to use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing any cards, the dealer shall announce “no more bets.”

(b) The dealer shall deal each card by holding the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout. The dealer shall, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal one card at a time to each player who placed an Ante Wager in accordance with § 663a.7(d) (relating to wagers) and to the dealer until each player and the dealer have five cards.

(c) After five cards have been dealt to each player and the dealer, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player or the dealer has more or less than 5 cards), but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 663a.10. Procedures for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 663a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce “no more bets.”

(b) The dealer shall deliver the first stack of cards dispensed by the automated dealing shoe face down to the player farthest to the dealer's left who has placed an Ante Wager in accordance with § 663a.7(d) (relating to wagers). As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other players who has placed an Ante Wager. The dealer shall then deliver a stack of five cards face down to the area designated for the placement of the dealer's cards.

(c) After each stack of five cards has been dispensed and delivered in accordance with subsection (b), the dealer shall remove the stub from the automated dealing shoe and, except as provided in subsection (d), place the cards in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards is still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player or the dealer has more or less than 5 cards), but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void,

all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 663a.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 663a.8, § 663a.9 or § 663a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards subject to the following limitations:

(1) Each player who wagers at a Five Card Hi-Lo table shall be responsible for setting his own hands and a person other than the dealer and the player to whom the cards were dealt may not touch the cards of that player.

(2) Each player shall keep his five cards in full view of the dealer at all times.

(3) Once each player has set a high and low hand and placed the two hands face down on the appropriate area of the layout, the player may not touch the cards again.

(b) After each player has examined his cards, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player who placed an Ante Wager if he wishes to forfeit the Ante Wager and end his participation in the round of play or make a Play Wager in an amount equal to the player's Ante Wager. If a player:

(1) Has placed an Ante Wager and a Tie Wager but does not make a Play Wager, the player shall forfeit both wagers.

(2) Has placed an Ante Wager and a Poker Bonus Wager but does not make a Play Wager, the player shall forfeit the Ante Wager but does not forfeit the Poker Bonus Wager.

(c) After each player who has placed an Ante Wager has either placed a Play Wager on the designated area of the layout or forfeited his wagers and hand, the dealer shall collect all forfeited wagers and associated cards and place the cards in the discard rack. If a player has placed a Poker Bonus Wager but did not place a Play Wager, the dealer shall leave the player's cards and the Poker Bonus Wager on the table until the wager is resolved in accordance with subsection (j).

(d) Each player who placed a Play Wager shall then set his hands by arranging the cards into a high hand and a low hand. When setting the two hands, the player shall add the point value of the cards placing the three higher value cards in the high hand and the two lower value cards in the low hand, provided that a player may place up to one ace in his low hand. For example, if a player is dealt an ace, jack, 10, 9 and 2, the high hand may contain the jack, 10 and 9 for a total point value of 29 and the two-card low hand would contain the ace and 2 for a total point value of 3.

(e) After all players have set their hands and placed the cards on the table, the five cards of the dealer shall be turned over and the dealer shall set his hands by arranging the cards into a

high and low hand, provided that aces shall be placed in the dealer's high hand unless the dealer was dealt four aces. The dealer shall then place the two hands face up on the appropriate area of the layout.

(f) After the dealer has set a high hand and a low hand, the dealer shall reveal both hands of each player, beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction. The dealer shall compare the total point value of the high and low hand of each player to the high and low hand of the dealer and shall announce if the Ante and Play Wagers of that player win, lose or are a tie.

(g) Ante and Play Wagers must:

(1) Win if the high hand of the player is higher in point value than the high hand of the dealer and the low hand of the player is lower in point value than the low hand of the dealer. The dealer shall pay the winning Ante and Play Wagers in accordance with the payout odds in § 663a.12(a) (relating to payout odds).

(2) Lose and will immediately be collected if the high hand of the player ties or is lower in point value than the high hand of the dealer and the low hand of the player ties or is higher in point value than the low hand of the dealer.

(3) Tie and will be returned to the player if:

(i) The high hand of the player is higher in point value than the high hand of the dealer, but the low hand of the player is identical in point value or higher in point value than the low hand of the dealer.

(ii) The high hand of the player is identical in total point value to the high hand of the dealer or lower in total point value than the high hand of the dealer, but the low hand of the player is lower in total point value than the low hand of the dealer.

(h) A player may also qualify for an additional Ante Bonus Payout, regardless of the outcome of the player's Ante and Play Wagers in subsection (g), if a player has three or more aces in the player's hand. Ante Bonus Payouts shall be paid in accordance with § 663a.12(b).

(i) Except as provided in subsection (j), after settling the player's Ante and Play Wagers, the dealer shall place the cards of the player in the discard rack.

(j) After settling the player's Ante and Play Wagers, the dealer shall settle the player's optional wagers as follows:

(1) If a player placed a Tie Wager in accordance with § 663a.7(e)(1) (relating to wagers), the dealer shall:

(i) Pay winning Tie Wagers in accordance with § 663a.12(c) if the high hand or low hand, or both, of the player is identical in point value with the high hand, low hand, or both, of the dealer.

(ii) Collect all losing Tie Wagers if neither the high hand nor the low hand of the player is identical in point value with the high hand or low hand of the dealer.

(2) If a player placed a Poker Bonus Wager in accordance with § 663a.7(e)(2), the dealer shall rearrange the five cards of the player to form the highest ranking Poker hand in accordance with § 663a.6(b) (relating to Five Card Hi-Lo rankings). After rearranging the player's five cards, the dealer shall settle the player's Poker Bonus Wager as follows:

(i) If a player has a pair of 6s or better or a pair of 7s or better, depending on the payable selected by the certificate holder, the dealer shall pay the winning Poker Bonus Wager in accordance with § 663a.12(d).

(ii) If a player does not have a pair of 6s or better or a pair of 7s or better, depending on the payable selected by the certificate holder, the dealer shall collect the Poker Bonus Wager.

(k) If a player has placed more than one optional wager, the dealer shall settle all of the player's optional wagers before placing the player's cards in the discard rack.

(l) All cards removed from the table shall be placed in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

§ 663a.12. Payout odds.

(a) A certificate holder shall pay each winning Ante and Play Wager at odds of 1 to 1.

(b) The certificate holder shall pay an Ante Bonus Payout based on the amount of the player's Ante Wager at the odds in one of the following paytables selected by the certificate holder in its Rules Submission filed in accordance with § 601a.2 (relating to table games Rules Submissions):

<i>Hand</i>	<i>Paytable A Paytable B</i>

§ 663a.13. Irregularities.

(a) A card that is found face up in the shoe or the deck while the cards are being dealt may not be used in that round of play and shall be placed in the discard rack. If more than one card is found face up in the shoe or the deck during the dealing of the cards, all hands shall be void, all wagers shall be returned to the players and the cards shall be reshuffled.

(b) A card drawn in error without its face being exposed shall be used as though it were the next card from the shoe or the deck.

(c) If any player or the dealer is dealt an incorrect number of cards, all hands shall be void, all wagers shall be returned to the players and the cards shall be reshuffled.

(f) If an automated card shuffling device or automated dealing shoe malfunctions and cannot be used, the automated card shuffling device or automated dealing shoe shall be covered or have a sign indicating that the automated card shuffling device or automated dealing shoe is out of order placed on the device before any other method of shuffling or dealing may be utilized at that table.

(c) Each Double Attack Blackjack table must have a drop box and a tip box attached on the same side of the table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g). The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(d) Each Double Attack Blackjack table must have a card reader device attached to the top of the dealer's side of the table. The floorperson assigned to the Double Attack Blackjack table shall inspect the card reader device at the beginning of each gaming day to ensure that there has been no tampering with the device and that it is in proper working order.

(e) Each Double Attack Blackjack table must have a discard rack securely attached to the top of the dealer's side of the table. The height of each discard rack must either:

(1) Equal the height of the cards, stacked one on top of the other, in the total number of decks that are to be used in the dealing shoe at that table.

(2) Be taller than the height of the total number of decks being used if the discard rack has a distinct and clearly visible mark on its side to show the exact height for a stack of

cards equal to the total number of cards in the number of decks to be used in the dealing shoe at that table.

§ 665a.3. Cards; number of decks; value of cards.

(a) Except as provided in subsection (b), Double Attack Blackjack shall be played with an eight-deck batch of cards that are identical in appearance and at least one cover card. The decks shall consist of 48 cards, with the 10 of each suit removed from each deck during the inspection required under § 665a.4 (relating to opening of the table for gaming) or as provided in § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use).

(b) If an automated card shuffling device is utilized, other than a continuous shuffler, Double Attack Blackjack shall be played with two batches of cards in accordance with the following requirements:

(2) The cards in each batch must be of the same design but the backs of the cards in one batch must be of a different color than the cards in the other batch.

(3) One batch of cards shall be shuffled and stored in the automated card shuffling device while the other batch is being used to play the game.

(4) Both batches of cards shall be continuously alternated in and out of play, with each batch being used for every other dealing shoe.

(5) The cards from only one batch shall be placed in the discard rack at any given time.

(c) The decks of cards opened for use at a Double Attack Blackjack table shall be changed at least once every 24 hours.

(d) The value of the cards shall be as follows:

(1) Any card from 2 to 9 shall have its face value.

(2) Any jack, queen or king shall have a value of 10.

(3) An ace shall have a value of 11 unless that value would give a player or the dealer a score in excess of 21, in which case the ace shall have a value of 1.

§ 665a.4. Opening of the table for gaming.

(a) After receiving the decks of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) If the decks contain the 10 of any suit, the dealer and a floorperson shall ensure that these cards are removed from the decks, torn in half and placed in the box, envelope or container that the decks came from.

(c) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(d) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 665a.5 (relating to shuffle and cut of the cards).

(e) If an automated shuffling device is utilized, other than a continuous shuffler, all the decks in one batch of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c) separate from the decks in the other batch of cards.

(f) If the decks of cards received at the table are preinspected and reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a) and (c)—(e) do not apply.

§ 665a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each shoe of cards is dealt or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or device shall place the decks of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) After the cards have been shuffled and stacked, the dealer shall offer the stack of cards to be cut, with the backs facing away from the dealer, to the player determined under subsection (c). If no player accepts the cut, the dealer shall cut the cards.

(c) The cut of the cards shall be offered to players in the following order:

(1) The first player arriving at the table, if the game is just beginning.

(2) The player on whose betting area the cover card appeared during the last round of play.

(3) If the cover card appeared on the dealer's hand during the last round of play, the player at the farthest position to the right of the dealer. If this player refuses, the offer to cut the cards shall rotate to each player in a counterclockwise manner.

(4) If the reshuffle was initiated at the direction of the floorperson or above, the player at the farthest position to the right of the dealer. If this player refuses, the offer to cut the cards shall rotate to each player in a counterclockwise manner.

(d) The player or dealer making the cut shall place the cover card in the stack at least ten cards from the top or bottom of the stack. Once the cover card has been inserted, the dealer shall take all cards on top of the cover card and place them on the bottom of the stack. The dealer shall then insert the cover card in the stack at a position at least 1/4 of the way in from the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before the cards have been placed in the dealing shoe, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game. If a recut is required, the cards shall be recut either by the player who last cut the cards or by the next person entitled to cut the cards, as determined under subsection (c). The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(f) A reshuffle of the cards in the shoe shall take place after the cover card is reached in the shoe, as provided in § 665a.7(d) (relating to procedure for dealing the cards; completion of each round of play), except that a floorperson may determine that the cards should be reshuffled after any round of play.

(g) If there is no gaming activity at a Double Attack Blackjack table which is open for gaming, the cards shall be removed from the dealing shoe and the discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the procedures in § 665a.4(d) (relating to opening of the table for gaming) and this section shall be completed.

(h) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (b)—(g) do not apply.

§ 665a.6. Wagers.

(a) Wagers at Double Attack Blackjack shall be made by placing value chips, plaques or other Board-approved table game wagering instruments on the appropriate areas of the Double Attack Blackjack layout. Verbal wagers accompanied by cash may be accepted provided that they are confirmed by the dealer and the cash is expeditiously converted into value chips or plaques.

(b) After the cards have been shuffled as required under § 665a.5 (relating to shuffle and cut of the cards), a certificate holder may prohibit any patron, whether seated at the gaming table

or not, who does not make a wager on a given round of play from placing a wager on the next round of play and any subsequent round of play at that gaming table until either:

- (1) The certificate holder chooses to permit the player to begin wagering again.
- (2) A reshuffle of the cards has occurred.

(c) A player may not handle, remove or alter any wagers that have been made until a decision has been rendered and implemented with respect to that wager.

(d) To participate in a round of play, a player shall place a Bet Wager.

(e) A player who has placed a Bet Wager may then place a Double Attack Wager as provided in § 665a.7(e) (relating to procedure for dealing the cards; completion of each round of play), in an amount equal to or less than the player's Bet Wager.

(f) If specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), a certificate holder may offer to each player who placed a Bet Wager in accordance with subsection (d) the option of placing an additional Bust It Wager, in an amount equal to or less than the player's Bet Wager.

(g) The certificate holder shall specify in its Rules Submission under § 601a.2 the number of adjacent boxes on which a player may place a Bet Wager in one round of play.

§ 665a.7. Procedure for dealing the cards; completion of each round of play.

(a) All cards shall be dealt from a dealing shoe which must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures under § 665a.5 (relating to shuffle and cut of the cards) have been completed, the dealer or automated card shuffling device shall place the stacked cards in the dealing shoe.

(b) Each card shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand. The dealer may deal cards to the two betting positions closest to the dealing shoe with the same hand.

(c) After each full batch of cards is placed in the shoe, the dealer shall remove the first card and place it in the discard rack. Each new dealer who comes to the table shall also remove one card and place it in the discard rack before dealing any cards to the players.

(d) If the cover card appears as the first card in the dealing shoe at the beginning of a round of play or appears during play, the cover card shall be removed and placed to the side and the hand will be completed. The dealer shall then collect and reshuffle the cards in accordance with § 665a.5.

(e) At the commencement of each round of play and after all players have been afforded the opportunity to make a Bet and Bust It Wager, one card shall be dealt face up to the dealer. After examining the dealer's up card, a player who placed a Bet Wager may place an optional Double Attack Wager in accordance with § 665a.6(e) (relating to wagers).

(f) After all players have been afforded an opportunity to place a Double Attack Wager, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, the dealer shall deal the cards as follows:

(1) One card face up to each box on the layout in which a Bet Wager is contained.

(2) A second card face up to each box on the layout in which a Bet Wager is contained.

(3) A second card face down to the dealer.

(g) Immediately after the second card is dealt to each player and the dealer, if the dealer's first card is an ace, the dealer shall offer the Insurance Wager in accordance with § 665a.8 (relating to Insurance Wager). If the dealer's first card is an ace, king, queen or jack, the dealer shall then determine whether the hole card will give the dealer a Blackjack. The dealer shall insert the hole card into the card reader device by moving the card face down on the layout without exposing it to anyone at the table, including the dealer. If the dealer has a Blackjack, additional cards may not be dealt and each player's Bet, Double Attack, Bust It and Insurance Wagers, if applicable, shall be settled in accordance with this section and § 665a.8.

(h) After the procedures in subsection (g) have been completed, if necessary, the dealer shall start with the player farthest to the dealer's left and continue around the table in a clockwise direction and if the player:

(1) Has Blackjack, the dealer shall announce and pay the Bet and Double Attack Wagers in accordance with subsection (o) and remove the player's cards. If a player also placed a Bust It Wager, the wager shall remain on the layout until subsection (m) is completed.

(2) Does not have Blackjack, the player shall indicate whether he wishes to surrender, as permitted under § 665a.9 (relating to surrender), double down as permitted under § 665a.10 (relating to Double Down Wager), split pairs as permitted under § 665a.11 (relating to splitting pairs), stand or draw additional cards.

(i) As each player indicates his decision, the dealer shall deal face upwards whatever additional cards are necessary to effectuate the player's decision.

(j) A player may elect to draw additional cards whenever his point count total is less than 21, except that:

(1) A player having Blackjack or a hard or soft total of 21 may not draw additional cards.

(2) A player electing to make a Double Down Wager may draw only one additional card.

(k) Prior to the dealer exposing his hole card, if player has less than 21 after drawing additional cards, the player may surrender in accordance with § 665a.9.

(l) After the decisions of each player have been implemented and all additional cards have been dealt, the dealer shall turn the hole card face up.

(m) If the first two cards of the dealer's hand:

(1) Equal a total point count of 17 or higher, the dealer shall collect all losing Bust It Wagers before settling the player's Bet or Double Attack Wagers in accordance with subsection (o).

(2) Equal a total point count of less than 17, the dealer shall draw an additional card. If the dealer's three card hand has a total point count:

(i) In excess of 21, the dealer shall pay the winning Bust It Wager in accordance with § 665a.12(c) (relating to payout odds). The payout shall be based on the value of the third card drawn, except that if all three of the dealer's cards are an 8 of the same color or suit, a player shall receive an increased payout based on the three 8s instead of the payout based on the value of the third card drawn.

(ii) Of 21 or less, the dealer shall collect all losing Bust It Wagers.

(n) After settling the player's Bust It Wager, if applicable, if the dealer's first three cards equal a total point count of less than 17, the dealer shall draw additional cards until he has a hard or soft total of 17, 18, 19, 20 or 21.

(o) After all additional cards have been dealt to the players and the dealer, the dealer shall, starting with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, settle the remaining wagers by collecting all losing wagers and paying all winning wagers as follows:

(1) A Bet Wager shall:

(i) Win and be paid in accordance with § 665a.12(a) if:

(A) The total point count of the player's hand is 21 or less and the total point count of the dealer's hand is in excess of 21.

(B) The total point count of the player's hand exceeds the total point count of the dealer's hand without exceeding 21.

(C) The player has a Blackjack and the dealer's hand has a total point count of 21 in more than two cards.

(ii) Lose and be collected if:

(A) The dealer has a Blackjack and the player does not have a Blackjack.

(B) The total point count of the dealer's hand is 21 or less and the total point count of the player's hand is in excess of 21.

(C) The total point count of the dealer's hand exceeds the total point count of the player's hand without exceeding 21.

(iii) Tie and be returned to the player if the total point count of the player's hand is the same as the dealer's or if both the player and dealer have Blackjack.

(2) A Double Attack Wager shall win, lose or tie in accordance with subsection (o)(1) except that the Double Attack Wager shall be returned to the player if the dealer has a Blackjack and the player does not have a Blackjack.

(p) The dealer shall pay all winning wagers and collect all losing wagers beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction. The dealer shall place any losing wagers directly into the table inventory and may not pay off any winning wagers by using value chips collected from a losing wager.

(q) After all wagers have been settled, the dealer shall remove all remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

(r) Players and spectators may not handle, remove or alter any cards used to play Double Attack Blackjack.

§ 665a.8. Insurance Wager.

(a) If the first card dealt to the dealer is an ace, each player may make an Insurance Wager which shall win if the dealer's hole card is a king, queen or jack.

(b) An Insurance Wager may be made by placing a value chip on the insurance line of the layout in an amount not more than 1/2 of the player's Bet Wager. A player may wager an amount in excess of 1/2 of the initial Bet Wager to the next unit that can be wagered in chips, when, because of the limitation of the value of chip denominations, half the initial wager cannot be bet. Insurance Wagers shall be placed prior to the dealer inserting his hole card into the card reader device.

(c) Winning Insurance Wagers shall be paid in accordance with the payout odds in § 665a.12(b) (relating to payout odds).

(d) Losing Insurance Wagers shall be collected by the dealer immediately after the dealer inserts his hole card into the card reader device and determines that he does not have a Blackjack and before he draws any additional cards.

§ 665a.9. Surrender.

(a) After the first two cards are dealt to the player, the player may elect to discontinue play on his hand for that round by surrendering. A player may also elect to surrender after additional cards are dealt to the player, after a hand is split as permitted under § 665a.11 (relating to splitting pairs) and after doubling down as permitted under § 665a.10 (relating to Double Down Wager). A player may not elect to surrender after deciding to stand.

(b) If the player elects to surrender and the first card dealt to the dealer:

(1) Is not an ace, king, queen or jack, the dealer shall immediately collect the cards of the player and 1/2 of the Bet Wager and Double Attack Wager, if applicable, and return the other 1/2 to the player.

(2) Is an ace, king, queen or jack, the dealer shall determine whether the hole card will give the dealer a Blackjack. The dealer shall insert the hole card into the card reader device in accordance with § 665a.7(g) (relating to procedure for dealing the cards; completion of each round of play). If the dealer:

(i) Has a Blackjack, the dealer shall collect the entire Bet Wager and the Bust It Wager, if applicable, and return the Double Attack Wager, if applicable, to the player.

(ii) Does not have a Blackjack, the dealer shall immediately collect the cards of the player and 1/2 of the Bet Wager and Double Attack Wager, if applicable, and return the other 1/2 to the player.

(c) If the player has made a Bust It Wager and then elects to surrender, the Bust It Wager must remain on the layout until settled in accordance with § 665a.7(m).

(d) If the player has made an Insurance Wager and then elects to surrender, each wager will be settled separately in accordance with subsection (b) and § 665a.8 (relating to Insurance Wager).

§ 665a.10. Double Down Wager.

(a) Except when a player has a Blackjack, a player may elect to make a Double Down Wager, which may not exceed the amount of his original Bet and Double Attack Wagers, on two or more cards dealt to that player, including any hands resulting from a split pair, provided that only one additional card shall be dealt to the hand on which the player has elected to double down.

(b) If a dealer obtains Blackjack after a player makes a Double Down Wager, the dealer shall collect only the amount of the original Bet Wager of the player and shall return the Double Down and Double Attack Wagers.

(c) Upon a player's election to make a Double Down Wager, the dealer shall deal the one additional card face up and place it sideways on the layout.

§ 665a.11. Splitting pairs.

(a) If the initial two cards dealt to a player are identical in value, the player may elect to split the hand into two separate hands provided that he makes a wager on the second hand formed in an amount equal to his original Bet and Double Attack Wagers. For example, if a player has two 7s or a king and a queen, the player may elect to split the hand.

(b) When a player splits pairs, the dealer shall deal a card to and complete the player's decisions with respect to the first incomplete hand on the dealer's left before proceeding to deal any cards to the second hand.

(c) After a second card is dealt to each split pair hand, the player shall indicate his decision to stand, draw or double down with respect to that hand. A player may split pairs again if the second card dealt to an incomplete hand is identical in value to the split pair. A player may split pairs a maximum of three times for a total of four hands.

(d) If the dealer obtains Blackjack after a player splits pairs, the dealer shall collect only the amount of the original Bet Wager of the player and return the Double Attack Wager and the additional amount wagered in splitting pairs.

(e) If a player elects to split a pair of aces, each ace shall receive only one card. Aces may not be split more than once and may not be resplit.

§ 665a.12. Payout odds.

(a) The certificate holder shall pay out each winning Bet and Double Attack Wager at odds of 1 to 1.

(b) The certificate holder shall pay out winning Insurance Wagers at odds of 5 to 2.

(c) The certificate holder shall pay out winning Bust It Wagers at the odds in the following payable:

<i>Hand</i>	<i>Payout</i>
8, 8, 8 of the same suit	200 to 1
8, 8, 8 of the same color	50 to 1
Third card drawn:	
Is a 6	15 to 1

Is a 7	10 to 1
Is an 8	8 to 1
Is a 9	6 to 1
Is a king, queen or jack	3 to 1

§ 665a.13. Irregularities.

(a) A card found face up in the shoe may not be used in that round of play and shall be placed in the discard rack.

(b) A card drawn in error without its face being exposed shall be used as though it were the next card from the shoe.

(c) After the initial two cards have been dealt to each player and the dealer and a card is drawn in error and exposed to the players, the card shall be dealt to the players or dealer as though it were the next card from the shoe. Any player refusing to accept the card may not have any additional cards dealt to him during the round. If the card is refused by the players and the dealer cannot use the card, the card shall be placed in the discard rack.

(d) If the dealer has 17 and accidentally draws a card for himself, the card shall be placed in the discard rack.

(e) If there are insufficient cards remaining in the shoe to complete a round of play, all of the cards in the discard rack shall be shuffled and cut according to the procedures in § 665a.5 (relating to shuffle and cut of the cards). The first card shall be drawn face down and placed in the discard rack and the dealer shall complete the round of play.

(f) If no cards are dealt to a player's hand, the hand is dead and the player shall be included in the next deal. If only one card is dealt to a player's hand, at the player's option, the dealer shall deal the second card to the player after all other players have received a second card.

(g) If after receiving the first two cards, the dealer fails to deal an additional card to a player who has requested a card, then, at the player's option, the dealer shall either deal the additional card after all other players have received their additional cards but prior to the dealer revealing his hole card or call the player's hand dead and return the player's Bet and Double Attack Blackjack Wagers.

(h) If the dealer inserts his hole card into a card reader device when the value of his first card is not an ace, king, queen or jack, the dealer, after notification to a floorperson or above, shall:

(1) If the particular card reader device in use provides any player with the opportunity to determine the value of the hole card, call all hands dead, collect the cards and return each player's wager.

(2) If the particular card reader device in use does not provide any player with the opportunity to determine the value of the hole card, continue play.

(i) If a card reader device malfunctions, the dealer may not continue dealing the game of Double Attack Blackjack at that table until the card reader device is repaired or replaced.

(j) If an automated card shuffling device is being used and the device jams, stops shuffling during a shuffle or fails to complete a shuffle cycle, the cards shall be reshuffled.

(k) If an automated shuffling device malfunctions and cannot be used, the device must be covered or have a sign indicating that it is out of order placed on the device before any other method of shuffling may be utilized at that table.

(a) Props & Hops shall be played with two dice that comply with § 603a.12(b) (relating to dice; physical characteristics) and the receipt and inspection requirements in § 603a.13 (relating to dice; receipt, storage, inspection and removal from use).

(b) Props & Hops shall be played with a dice shaker, approved in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment), which shall be used to shake the two dice to arrive at the winning combinations. The dice shaker shall be designed and constructed to maintain the integrity of the game and must:

(1) Be capable of housing two dice that when not being shaken must be maintained in the shaker. Dice that have been placed in a dice shaker for use in gaming may not remain on a table for more than 24 hours.

(2) Be designed to prevent the dice from being seen while being shaken.

(3) Have the name or logo of the certificate holder imprinted or impressed thereon.

(c) The dice shaker shall be the responsibility of the dealer and may not be left unattended while at the table.

(d) A shaker and two dice shall be presented at the Props & Hops table for gaming. The floorperson, in the presence of the dealer, shall place the dice in the shaker. Prior to the commencement of play at the table and after each round of play, the dealer shall shake the covered shaker.

(e) After all players have placed their wagers, the dealer shall announce “no more bets.” If any players placed a Six Eight Shake Wager, beginning with the player to the dealer's right, and continuing counterclockwise around the table, the dealer shall place the player's wager in the first designated Six Eight Shake circle on the dealer's right located at the top of the table layout. After all Six Eight Shake Wagers have been placed in the designated circles, the dealer shall then place a red lammer button on each two-dice combination of 6 and 8 (1-5, 2-4, 3-3, 2-6, 3-5 and 4-4).

(f) The dealer shall then offer the covered dice shaker to the player farthest to the dealer's left. The player shall shake the covered shaker at least three times to cause a random mixture of the dice. Once the player has shaken the dice, the player shall return the covered shaker to the layout. If the player shaking the dice removes the lid, the shaker shall be recovered and shaken again.

(g) The dealer shall then remove the lid and place the uncovered shaker in the designated circle on the table layout. The shaker shall remain uncovered in the designated area until all wagers have been settled. If the dealer uncovers the shaker and a die falls out of the shaker, the dealer shall call a “no roll.” The dice shall then be shaken again in accordance with subsection (f).

(h) The dealer shall then announce the numbers on the uppermost or skyward sides of the two dice and place a pointer marker on the corresponding area of the layout. If one die comes to rest on top of the other or if the dice do not land flat on the bottom of the shaker after being tossed, the dealer shall call a “no roll.” The dice shall be shaken again in accordance with subsection (f).

(i) After a valid roll, the dealer shall then collect all losing wagers before paying out winning wagers in accordance with § 668a.4 (relating to payout odds) provided that if any player placed a Six Eight Shake Wager and if the number rolled corresponds to one of the boxes on the table layout that contains a lammer button, the dealer shall remove the lammer button and place it in the Six Eight Shake circle on the table layout furthest to the dealer's right. Each time one of the preselected numbers containing a lammer is rolled, the lammer will be collected and placed on the Six Eight Shake circle next to the previous lammer. If there is a wager in the Six Eight Shake circle, the lammer shall be placed on top of the wager. If all six combinations of dice are thrown and all six lammer buttons are placed on the designated Six Eight Shake circles before a 7 is thrown, the dealer shall pay each winning Six Eight Shake Wager in accordance with § 668a.4.

(j) After all losing wagers have been collected and all winning wagers have been paid, the dealer shall cover and shake the shaker.

(k) The same player who shook the dice shall continue to shake the dice during each subsequent round of play until the player shakes a 7. Once the total of the dice is a 7, the dice shaker will be passed to the next player to the left at the next round of play.

If the information is not inscribed on the layout, a sign that sets forth the required information must be posted at each Raise It Up Stud Poker table.

(c) If a certificate holder offers the Progressive Payout Wager, in accordance with § 669a.7(d)(4), the Raise It Up Stud Poker table must have a progressive table game system, in accordance with § 605a.7 (relating to progressive table games), for the placement of Progressive Payout Wagers. (2) A device that controls or monitors the placement of Progressive Payout Wagers at the gaming table including a mechanism, such as a lock-out button, that prevents the recognition of a Progressive Payout Wager that a player attempts to place after the dealer has announced “no more bets.”

(d) Each Raise It Up Stud Poker table must have a drop box and a tip box attached on the same side of the gaming table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g). (e) Each Raise It Up Stud Poker table must have a discard rack securely attached to the top of the dealer's side of the table.

§ 669a.3. Cards; number of decks.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread out in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 669a.5 (relating to shuffle and cut of the cards).

(d) If an automated card shuffling device is utilized and two decks of cards are received at the table, each deck of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c).

(e) If the decks of cards received at the table are preinspected and reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

§ 669a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each round of play has been completed or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or automated card shuffling device shall place the deck of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) If an automated card shuffling device is being used, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, and the device reveals that an incorrect number of cards are present, the deck shall be removed from the table.

(c) After the cards have been shuffled and stacked, the dealer shall:

(1) If the cards were shuffled using an automated card shuffling device, deal the cards in accordance with § 669a.8, § 669a.9 or § 669a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe).

(2) If the cards were shuffled manually or were pre-shuffled, cut the cards in accordance with subsection (d).

(d) If a cut of the cards is required, the dealer shall place the cover card in the stack at least ten cards in from the top of the stack. Once the cover card has been inserted, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for the commencement of play.

(e) After the cards have been cut and before any cards have been dealt, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game.

(f) If there is no gaming activity at a Raise It Up Stud Poker table that is open for gaming, the cards shall be removed from the dealing shoe and the discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player is afforded an opportunity to visually inspect the cards, the procedures in § 669a.4(c) (relating to opening of the table for gaming) and this section shall be completed.

(g) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted and approved in accordance

(b) Only players who are seated at the Raise It Up Stud Poker table may place a wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and may be treated as losing wagers.

(c) All Ante, Blind, Pair Plus, Progressive Payout and Six Card Bonus Wagers shall be placed prior to the dealer announcing “no more bets” in accordance with the dealing procedure in § 669a.8, § 669a.9 or § 669a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe). Except as provided in § 669a.11(b), (d) and (f) (relating to procedures for completion of each round of play), a wager may not be made, increased or withdrawn after the dealer announces “no more bets” and begins dealing the cards.

(d) The following wagers may be placed in the game of Raise It Up Stud Poker:

(1) To participate in a round of play, a player shall place an Ante Wager and a Blind Wager, equal to the player's Ante Wager, that the three cards dealt to the player and the three community cards will form a pair of 10s or better as described in § 669a.6(b) (relating to Raise It Up Stud Poker hand rankings).

(2) In accordance with § 669a.11(b), (d) and (f), a Play Wager that the three cards dealt to the player and the three community cards will form a pair of 10s or better as described in § 669a.6(b).

(3) A Pair Plus Wager that the three cards dealt to the player will form a pair or better as described in § 669a.6(c).

(4) If specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), a certificate holder may offer to each player at a Raise It Up Stud Poker table the option to make an additional Progressive Payout Wager that the three cards dealt to the player will form a pair or better as described in § 669a.6(c). After placing Ante and Blind Wagers, a player may make an additional Progressive Payout Wager by placing a value chip into the progressive wagering device designated for that player. Each player shall be responsible for verifying that the player's respective Progressive Payout Wager has been accepted.

(5) If specified in its Rules Submission under § 601a.2, a certificate holder may offer to each player at a Raise It Up Stud Poker table the option to make an additional Six Card Bonus Wager that the three cards dealt to the player and the three community cards will form a three-of-a-kind or better as described in § 669a.6(b).

(e) A player may not wager on more than one player position at a Raise It Up Stud Poker table.

§ 669a.8. Procedure for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 669a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe either by the dealer or by the automated card shuffling device.

(b) Prior to dealing the cards, the dealer shall announce “no more bets” and, if the Progressive Payout Wager is being offered, use the progressive table game system to prevent the placement of additional Progressive Payout Wagers. The dealer shall then collect any Progressive Payout Wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(c) Each card shall be removed from the dealing shoe with the hand of the dealer that is the closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand.

(d) The dealer shall, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal the cards, face down, as follows:

(1) Deal one card at a time to each player who placed Ante and Blind Wagers in accordance with § 669a.7(d)(1) (relating to wagers) until each player who placed a wager has three cards.

(2) Three cards to the area designated for the placement of the community cards.

(e) After three cards have been dealt to each player and three cards have been dealt to the area designated for the community cards, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (f), place the stub in the discard rack without exposing the cards.

(f) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(g) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(h) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or less than 3 cards or the area designated for the placement of the community cards has more or less than 3 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 669a.9. Procedure for dealing the cards from the hand.

(a) If the cards are dealt from the dealer's hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 669a.5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the stacked deck of cards in either hand. After the dealer has chosen the hand in which he will hold the cards, the dealer shall continue to use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing the cards, the dealer shall announce “no more bets” and, if the Progressive Payout Wager is being offered, use the progressive table game system to prevent the placement of additional Progressive Payout Wagers. If any Progressive Payout Wagers have been made, the dealer shall then collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal the cards, face down, as follows:

(1) Deal one card at a time to each player who placed Ante and Blind Wagers in accordance with § 669a.7(d)(1) (relating to wagers) until each player who placed a wager has three cards.

(2) Three cards to the area designated for the placement of the community cards.

(c) After three cards have been dealt to each player and three cards have been dealt to the area designated for the community cards, the dealer shall, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or less than 3 cards or the area designated for the placement of the community cards has more or less than 3 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 669a.10. Procedures for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 669a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the dealing shoe dispensing any stacks, the dealer shall announce “no more bets” and, if the Progressive Payout Wager is being offered, use the progressive table game system to prevent the placement of additional Progressive Payout Wagers. The dealer shall then collect any Progressive Payout Wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall deliver the first stack of three cards dispensed by the automated dealing shoe face down to the player farthest to the dealer's left who has placed Ante and Blind Wagers in accordance with § 669a.7(d)(1) (relating to wagers). As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other players who has placed Ante and Blind Wagers. The dealer shall then deliver a stack of three cards face down to the area designated for the placement of the three community cards.

(c) After each stack of three cards has been dispensed and delivered in accordance with subsection (b), the dealer shall remove the stub from the automated dealing shoe and, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device that counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine that the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or less than 3 cards or the area designated for the placement of the community cards has more or less than 3 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 669a.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 669a.8, § 669a.9 or § 669a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards, subject to the following limitations:

(1) Each player who wagers at Raise It Up Stud Poker shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

(2) Each player shall keep his cards in full view of the dealer at all times.

(3) A player may not exchange or communicate information regarding his hand prior to the dealer revealing all of the community cards. A violation shall result in a forfeiture of all wagers on that round by that person.

(b) After each player has examined his cards and replaced them face down on the layout, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player who placed an Ante Wager if he wishes to check or place a Play Wager in an amount equal to one, two or three times the amount of the player's Ante Wager.

(c) Once all players have either checked or placed a Play Wager, the dealer shall turn over and reveal the first community card and place it in the 4th Street box on the layout.

(d) Each player shall then either check or place a Play Wager in an amount equal to one or two times the amount of the player's Ante Wager.

(e) Once all remaining players have either checked or placed a Play Wager, the dealer shall turn over and reveal the second community card and place it in the 5th Street box on the layout.

(f) Each player shall then either place a Play Wager in an amount equal to the amount of the player's Ante Wager or fold. If a player folds, the Ante and Blind Wagers shall be immediately collected and placed in the table inventory container and the folded hand shall be collected and placed in the discard rack unless the player made a Progressive Payout or Six Card Bonus Wager in which case the cards shall be left on the table until the Six Card Bonus Wager and any Envy Bonus is settled in accordance with subsection (i).

(g) If a player has placed a Progressive Payout or Six Card Bonus Wager but does not make a Play Wager, the player shall forfeit the right to receive a Progressive Payout but does not forfeit the eligibility to receive an Envy Bonus under § 669a.12(e)(5) (relating to payout odds; Envy Bonus; rate of progression) or a Six Card Bonus payout under § 669a.12(f).

(h) Once all remaining players have either placed a Play Wager or folded, the dealer shall turn over and reveal the third community card and place it in the 6th Street box on the layout.

(i) Beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, the dealer shall turn over and reveal the player's three cards and complete the following applicable procedures in succession for each player:

(1) If a player placed a Pair Plus Wager, the dealer shall form the highest possible ranking three-card hand. If the player's three cards form a pair or better, as described in § 669a.6(c) (relating to Raise It Up Stud Poker hand rankings), the dealer shall pay each winning Pairs Plus Wager in accordance with the payout odds in § 669a.12(a).

(2) The dealer shall form the highest possible ranking five-card hand from the player's three cards and the three community cards. If a player's highest ranking five-card hand:

(i) Does not contain a pair of 10s or better, as described in § 669a.6(b), the dealer shall collect the player's Ante, Blind and Play Wagers.

(ii) Contains a pair of 10s or better, as described in § 669a.6(b), the dealer shall pay each player's winning Ante, Play and Blind Wagers in accordance with § 669a.12(b)—(d).

(3) After settling the player's Pair Plus, Ante, Play and Blind Wagers, the dealer shall settle the Progressive Payout or Six Card Bonus Wager, if offered by the certificate holder, as follows:

(i) If a player placed a Progressive Payout Wager and the player's three cards contain a straight or better, the dealer shall:

(A) Verify that the hand is a winning hand.

(B) Verify that the appropriate light on the progressive table game system has been illuminated.

(C) Have a floorperson or above validate the progressive payout in accordance with the certificate holder's approved internal control procedures.

(D) Pay the winning Progressive Payout Wager in accordance with § 669a.12(e)(1). If a player has won a progressive payout that is 100% of the jackpot amount on the progressive meter, the progressive payout may not be paid from the table inventory container. If a player has won a progressive payout that is not being paid from the table

inventory container, the cards of that player shall remain on the table until the necessary documentation has been completed.

(E) Pay any Envy Bonus won in accordance with § 669a.12(e)(5).

Players making a Progressive Payout Wager shall receive an Envy Bonus when another player at the same Raise It Up Stud Poker table is the holder of an Envy Bonus Qualifying Hand. Players are entitled to multiple Envy Bonuses if more than one player is the holder of an Envy Bonus Qualifying Hand. A player is not entitled to an Envy Bonus for his own hand.

(ii) If a player has placed a Six Card Bonus Wager and the player's three cards and the three community cards form a three-of-a-kind or better, the dealer shall pay the winning Six Card Bonus Wager in accordance with § 669a.12(f).

(j) After all wagers have been settled, the dealer shall remove all remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

(b) If the deck of cards used by the certificate holder contains two jokers, the dealer and a floorperson shall ensure that only one joker is utilized and that the other joker is torn in half and placed in the box, envelope or container that the deck came from. After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence and include the one joker.

(c) After the first player is afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Upon completion of the shuffle, the dealer or device shall place the deck of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) After the cards have been shuffled and stacked, the dealer shall:

(1) If the cards were shuffled using an automated card shuffling device, determine the starting position in accordance with subsection (i), then deal the cards in accordance with § 670a.8, § 670a.9 or § 670a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe).

Once the second cover card has been inserted, the dealer shall take the second cover card and all the cards on top of the second cover card and place them on the bottom of the stack. The dealer shall then remove the first cover card

and place it on the bottom of the stack. The dealer shall remove one of the cover cards and either place it in the discard rack or use it as an additional cover card to be inserted four cards from the bottom of the deck. The dealer shall then determine the starting position in accordance with subsection (i) and deal the cards in accordance with § 670a.8, § 670a.9 or § 670a.10.

(f) After the cards have been cut and before the cards have been dealt, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game. If a recut is required, the cards shall be recut either by the player who last cut the cards, or by the next person entitled to cut the cards, as determined under subsection (d).

(g) If there is no gaming activity at a Six-Card Fortune Pai Gow Poker table which is open for gaming, the cards shall be removed from the dealing shoe and discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. Unless a player requests otherwise, the deck of cards removed from the shuffler does not need to be spread for inspection and reshuffled prior to being dealt, if the automated card shuffling device stores a single deck of shuffled cards inside the shuffler in a secure manner.

(h) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (b)—(g) do not apply.

(i) To determine the starting position for the dealing of cards, the certificate holder shall use one of the following:

(1) A Pai Gow Poker shaker in accordance with the following procedures:

(i) The dealer shall shake the Pai Gow Poker shaker at least three times to cause a random mixture of the dice.

(ii) The dealer shall then remove the lid covering the Pai Gow Poker shaker and place the uncovered shaker on the designated area of the table layout. The dealer shall then total the dice and announce the total.

(iii) To determine the starting position, the dealer shall count each betting position in order, regardless of whether there is a wager at the betting position, beginning with

the dealer as number one and continuing around the table in a counterclockwise manner, until the count matches the total of the three dice.

(iv) After the dealing procedures required under § 670a.8, § 670a.9 or § 670a.10 have been completed, the dealer shall place the cover on the Pai Gow Poker shaker and shake the shaker once. The Pai Gow Poker shaker shall then be placed to the right of the dealer.

§ 670a.7. Wagers.

(a) Wagers at Six-Card Fortune Pai Gow Poker shall be made by placing value chips, plaques or other Board-approved wagering instruments on the appropriate areas of the Six-Card Fortune Pai Gow Poker layout. Verbal wagers accompanied by cash may not be accepted.

(b) Only players who are seated at a Six-Card Fortune Pai Gow Poker table may wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and may be treated as losing wagers.

(c) Except the Double Down Wager, all wagers at Six-Card Fortune Pai Gow Poker shall be placed prior to the dealer announcing "no more bets" in accordance with the dealing procedures in § 670a.8, § 670a.9 or § 670a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe). Except the Double Down Wager, a wager may not be made, increased or withdrawn after the dealer has announced "no more bets."

(d) To participate in a round of play and compete against the dealer's high and low hands, a player shall place a Six-Card Fortune Pai Gow Poker Wager.

(e) If specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), a certificate holder may offer to each player who placed a Six-Card Fortune Pai

Gow Poker Wager, in accordance with subsection (d), the option of placing the following additional wagers:

(1) A Double Down Wager equal to the Six-Card Fortune Pai Gow Poker Wager that both the player's high and low hands will beat the dealer's high and low hands.

(2) A Fortune Bonus Wager that the six cards dealt to the player will form a five-card Poker hand with a rank of a three-of-a-kind or better as described in § 670a.6(b) (relating to Six-Card Fortune Pai Gow Poker rankings).

(3) An Insurance Wager that the six cards dealt to the player will form a five-card Poker hand with a rank of a king-high or less.

(f) If specified in its Rules Submission under § 601a.2, a certificate holder may permit a player to wager on two adjacent betting areas at a Six-Card Fortune Pai Gow Poker table. If a certificate holder permits a player to wager on adjacent betting areas, the cards dealt to each betting area shall be played separately. If the two wagers are not equal, the player shall rank and set the hand with the larger wager before ranking and setting the other hand. If the amounts wagered are equal, each hand shall be played separately in a counterclockwise rotation with the first hand being ranked and set before the player proceeds to rank and set the second hand. Once a hand has been ranked, set and placed face down on the layout, the hands may not be changed.

§ 670a.8. Procedures for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 670a.5 (relating to shuffle and cut of the cards; procedures for determining the starting position for dealing cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe either by the dealer or by an automated card shuffling device.

(b) Prior to dealing any cards, the dealer shall announce “no more bets” and:

(1) If the Fortune Bonus Wager is being offered and a player makes a Qualifying Fortune Bonus Wager, the dealer shall place an Envy lammer next to that player's wager.

(2) If the Progressive Payout Wager is being offered, the dealer shall use the progressive table game system to prevent the placement of any additional Progressive Payout Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(c) The dealer shall determine the starting position for dealing the cards using one of the procedures authorized under § 670a.5(i).

(d) The dealer shall then deal the first card to the starting position as determined in subsection (c) and, continuing around the table in a clockwise manner, deal one card at a time to all other positions, regardless of whether there is a wager at the position, and the dealer, until each position and the dealer has six cards. Each card dealt shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed face down on the appropriate area of the layout with the opposite hand.

(e) After 6 cards have been dealt to each position and the dealer, the dealer shall remove the stub from the manual dealing shoe and determine whether 11 cards are left by spreading them face down on the layout. The cards that remain may not be exposed to anyone and shall be placed in the discard rack.

(f) If more or less than 11 cards remain, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player position or the dealer has more or less than six cards), all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(g) If the dealer determines the cards were dealt properly, the dealer shall collect any stacks dealt to a position where there was no wager and place them in the discard rack without exposing the cards.

§ 670a.9. Procedures for dealing the cards from the hand.

(a) If the cards are dealt from the dealer's hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 670a.5 (relating to shuffle and cut of the cards; procedures for determining the starting position for dealing cards) have been completed, the dealer shall place the deck of cards in either hand. After the dealer has chosen the hand in which to hold the cards, the dealer shall continue to use that hand when holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing any cards, the dealer shall announce “no more bets” and:

(i) If the Fortune Bonus Wager is being offered and a player makes a Qualifying Fortune Bonus Wager, the dealer shall place an Envy lammer next to that player's wager.

(ii) If the Progressive Payout Wager is being offered, the dealer shall use the progressive table game system to prevent the placement of any additional Progressive Payout

Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall deal each card by holding the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout. The dealer shall then determine the starting position for dealing the cards using one of the procedures authorized under § 670a.5(i).

(c) The dealer shall then deal the first card to the starting position as determined in subsection (b) and, continuing around the table in a clockwise manner, deal one card at a time to all other positions, regardless of whether there is a wager at the position, and the dealer, until each position and the dealer has six cards.

(d) After 6 cards have been dealt to each position and the dealer, the dealer shall determine whether 11 cards are left by spreading them face down on the layout. The 11 cards that remain may not be exposed to anyone and shall be placed in the discard rack.

(e) If more or less than 11 cards remain, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player position or the dealer has more or less than six cards), all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(f) If the dealer determines the cards were dealt properly, the dealer shall collect any stacks dealt to a position where there was no wager and place them in the discard rack without exposing the cards.

§ 670a.10. Procedures for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures under § 670a.5 (relating to shuffle and cut of the cards; procedures for determining the starting position for dealing cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce “no more bets” and:

(i) If the Fortune Bonus Wager is being offered and a player makes a Qualifying Fortune Bonus Wager, the dealer shall place an Envy lammer next to that player's wager.

(ii) If the Progressive Payout Wager is being offered, the dealer shall use the progressive table game system to prevent the placement of any additional Progressive Payout

Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall determine the starting position for delivering the stacks of cards using one of the procedures authorized under § 670a.5(i).

(c) After the starting position for delivering the cards has been determined, the dealer shall deliver the first stack of cards dispensed by the automated dealing shoe face down to that position. As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other positions, regardless of whether there is a wager at the position, and the dealer.

(d) After 6 cards have been dispensed and delivered to each position and the dealer, the dealer shall remove the remaining cards from the shoe and determine whether 11 cards are left by spreading them face down on the layout. The 11 cards that remain may not be exposed to anyone and shall be placed in the discard rack.

(e) If more or less than 11 cards remain, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player position or the dealer has more or less than six cards), all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(f) If the dealer determines the cards were dealt properly, the dealer shall collect any stacks dealt to a position where there was no wager and place them in the discard rack without exposing the cards.

§ 670a.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 670a.8, § 670a.9 or § 670a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards subject to the following limitations:

(1) Each player who wagers at a Six-Card Fortune Pai Gow Poker table shall be responsible for setting his own hands and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player. If a player requests assistance in the setting of his hands, the dealer shall inform the player of the manner in which the certificate holder requires the hands to be set.

(2) Each player shall keep his six cards in full view of the dealer at all times.

(3) Once each player has set a high and low hand and placed the two hands face down on the appropriate area of the layout, the player may not touch the cards again.

(b) Each player shall set his hands by arranging the cards into a high hand and a low hand. When setting the two hands, the five-card high hand must be equal to or higher in rank than the one-card low hand.

(c) After all players have examined their cards, the dealer shall offer each player the option to place an additional Double Down Wager equal to the player's Six-Card Fortune Pai Gow Poker Wager.

(d) After all players have set their hands and placed the cards on the table, the six cards of the dealer shall be turned over and the dealer shall arrange his cards into a high and low hand in accordance with the following requirements:

(1) The dealer may not break any sets as described in § 670a.6(b) (relating to Six-Card Fortune Pai Gow Poker rankings) to play a higher card in the dealer's low hand. Once the dealer has played the set, the dealer shall use the highest-ranking card in his low hand. Notwithstanding the following requirements:

(i) If the dealer has two three-of-a-kinds in his hand, the dealer shall play the lower ranking set as the three-of-a-kind and the higher one as a pair to play the higher card in the low hand.

(ii) If the dealer has three pairs, the dealer shall play the two lower ranking pairs as the high hand and the highest ranking card of the third pair as the low hand.

(2) If the dealer has a Six-Card Fortune straight, Six-Card Fortune flush or a Six-Card Fortune straight flush, the dealer shall play the lowest possible straight, flush or straight flush and place the highest ranking card in the low hand.

(3) If the dealer has both a straight and a flush, the dealer shall set the flush as the dealer's high hand.

(4) If the dealer has both a straight and a straight flush, the dealer shall set the straight flush as the dealer's high hand.

(5) If the dealer has both a Six-Card Fortune flush and a straight flush, the dealer shall play the straight flush as the high hand and the remaining card as the dealer's low hand.

(6) If the dealer does not have pairs, straights or flushes, the dealer shall play the highest ranking card, in accordance with § 670a.6(a), in the dealer's high hand, the second highest ranking card as the dealer's low hand and the remaining four cards in the dealer's high hand.

(e) After the dealer has set a high hand and a low hand, the dealer shall reveal both hands of each player, beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction. The dealer shall compare the high and low hand of each player to the high and low hand of the dealer and shall announce if the Six-Card Fortune Pai Gow Poker Wager of that player wins, loses or is a tie.

(f) A Six-Card Fortune Pai Gow Poker Wager shall:

(1) Lose and will immediately be collected if:

The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(d) Each Lunar Poker table must have a discard rack securely attached to the top of the dealer's side of the table.

§ 671a.3. Cards; number of decks.

(a) Except as provided in subsection (b), Lunar Poker shall be played with one deck of cards that are identical in appearance and one cover card.

(b) If an automated card shuffling device is utilized, Lunar Poker may be played with two decks of cards in accordance with the following requirements:

(1) The cards in each deck must be of the same design. The backs of the cards in one deck must be of a different color than the cards included in the other deck.

(2) One deck of cards shall be shuffled and stored in the automated card shuffling device while the other deck is being used to play the game.

(3) Both decks are continuously alternated in and out of play, with each deck being used for every other round of play.

(4) The cards from only one deck are placed in the discard rack at any given time.

(c) The decks of cards used in Lunar Poker shall be changed at least every:

(1) Four hours if the cards are dealt by hand.

(2) Eight hours if the cards are dealt from a manual or automated dealing shoe.

§ 671a.4. Opening of the table for gaming.

(a) After receiving one or more decks of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 671a.5 (relating to shuffle and cut of the cards).

(d) If an automated card shuffling device is utilized and two decks of cards are received at the table, each deck of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c).

(e) If the decks of cards received at the table are preinspected and reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

§ 671a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each round of play has been completed or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or automated shuffling device shall place the deck of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) If an automated card shuffling device is being used, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, and the device reveals that an incorrect number of cards are present, the deck shall be removed from the table.

(c) After the cards have been shuffled and stacked, the dealer shall:

(1) If the cards were shuffled using an automated card shuffling device, deal the cards in accordance with § 671a.8, § 671a.9 or § 671a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe).

(2) If the cards were shuffled manually or were reshuffled, cut the cards in accordance with the procedures in subsection (d).

(d) If a cut of the cards is required, the dealer shall place the cover card in the stack at least ten cards in from the top of the stack. Once the cover card has been inserted, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before any cards have been dealt, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game.

(f) If there is no gaming activity at a Lunar Poker table which is open for gaming, the cards shall be removed from the dealing shoe and discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the procedures in § 671a.4(c) (relating to opening of the table for gaming) and this section shall be completed.

(g) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (d)—(f) do not apply.

(a) The rank of the cards used in Lunar Poker, in order of highest to lowest rank, shall be: ace, king, queen, jack, 10, 9, 8, 7, 6, 5, 4, 3 and 2. § 671a.7. Wagers.

(a) Wagers at Lunar Poker shall be made by placing value chips, plaques or other Board-approved wagering instruments on the appropriate areas of the table layout. Verbal wagers accompanied by cash may not be accepted.

(b) Only players who are seated at a Lunar Poker table may wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and may be treated as losing wagers.

(c) The following wagers may be placed in the game of Lunar Poker:

(1) A player shall compete against the dealer's five-card Poker hand by placing both an Ante Wager, then a Bet Wager in accordance with § 671a.11(b) or (d) (relating to procedures for completion of each round of play).

(2) In addition to the Ante and Bet Wagers, a player shall place a Super Wager on the player's hand equal to or greater than the player's Ante Wager to compete against a posted payable.

(3) If specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), a certificate holder may offer to each player at a Lunar Poker table the option to make an additional Super Wager on the dealer's hand and any other player's hand. After placing an Ante Wager, a player may make the additional Super Wager by placing a value chip on the designated betting area prior to the dealer announcing "no more bets." The additional Super Wager on the dealer or other player's hand may be made in any amount equal to or greater than the table minimum and is not required to be equal to or greater than the player's Ante Wager.

(d) The Ante and Super Wagers shall be placed prior to the dealer announcing "no more bets" in accordance with the dealing procedures in § 671a.8, § 671a.9 or § 671a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe). Except as provided in § 671a.11(b) and (d), a wager may not be made, increased or withdrawn after the dealer has announced "no more bets."

(e) A player may not wager on more than one player position at a Lunar Poker table.

§ 671a.8. Procedure for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 671a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe by the dealer or by the automated card shuffling device.

(b) The dealer shall announce "no more bets" and begin dealing the cards. Each card shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed face down on the appropriate area of the layout with the opposite hand.

(c) Starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, the dealer shall deal one card at a time face down to each player who placed an Ante Wager and to the dealer until each player and the dealer have five cards. The last card of the dealer shall be turned face up on the layout.

§ 671a.9. Procedure for dealing the cards from the hand.

(a) If the cards are dealt from the dealer's hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 671a.5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the stacked deck of cards in either hand. After the dealer has chosen the hand in which to hold the cards, the dealer shall continue to use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing any cards, the dealer shall announce “no more bets.”

(b) The dealer shall deal each card by holding the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout. The dealer shall, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal one card at a time to each player who placed an Ante Wager and to the dealer until each player and the dealer have five cards. The last card of the dealer shall be turned face up on the layout.

§ 671a.10. Procedures for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 671a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce “no more bets.”

(b) The dealer shall deliver the first stack of cards dispensed by the automated dealing shoe face down to the player farthest to the dealer's left who has placed an Ante Wager. As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other players who has placed an Ante Wager. The dealer shall then deliver a stack of five cards face down to the dealer. The last card of the dealer shall be turned face up on the layout.

§ 671a.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 671a.8, § 671a.9 or § 671a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards, subject to the following limitations:

(1) Each player who wagers at Lunar Poker shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

(2) Each player shall keep his five cards in full view of the dealer at all times.

(3) After the dealer announces “all decisions are locked in” a player may not amend his decision to fold or increase, decrease or place any Bet Wager or Options fee except as provided in subsection (d).

(b) After five cards have been dealt to each player, the player shall examine his cards. If any player's hand is eligible for a Super Wager or an instant payout, the player shall declare the winning hand and place his cards face down in the player's betting area on the layout. Each player shall then elect to:

(1) Fold.

(2) Place a Bet Wager equal to twice the amount of the player's Ante Wager provided that if any player's hand contains a royal flush or a straight flush and is eligible for the instant payout, the player shall not place a Bet Wager.

(3) Place an Options fee, equal to the player's Ante Wager, to buy a sixth card or draw and exchange between two and five of the player's cards.

(c) After all players have made a decision to either fold or place a Bet Wager or Options fee, the dealer shall announce “all decisions are locked in.” Once the dealer has announced “all decisions are locked in” a player may not change his decision. Prior to any additional cards being dealt, the dealer shall, beginning with the player to the dealer's left and continuing clockwise around the table:

(1) If the player did not declare a winning Super Wager, collect the player's losing Super Wager. If any other player placed a Super Wager on that player's hand, the dealer shall collect the player's losing Super Wager first then collect any other player's Super Wager who placed a Super Wager on that player's hand.

(2) If the player declared a winning Super Wager, the dealer shall verify the winning hand and pay the player's winning Super Wager in accordance with § 671a.12(b) (relating to payout odds). If any other player placed a Super Wager on that player's hand, the dealer shall pay out the winning player's hand first then any other player who also placed a Super Wager on that player's hand in accordance with § 671a.12(b).

(3) If any player is eligible for an instant payout, after verifying the player's hand, the dealer shall pay the player's winning Ante Wager in accordance with § 671a.12(a) and place the player's cards in the discard rack.

(4) For any player who did not make a Bet Wager or Options fee and folded, the dealer shall collect the player's Ante Wager and place the player's cards in the discard rack.

(d) Once all player Super Wagers and instant payouts have been settled and any player's cards who folded have been collected, beginning with the player to the dealer's left and moving clockwise around the table, for any player who placed an Options fee equal to the player's Ante Wager:

(1) The dealer shall collect the Options fee and:

(i) If the player elects to buy the sixth card, the dealer shall deal one additional card.

(ii) If the player elects to exchange cards, the player shall discard between two and five cards, which will thereafter be replaced by the dealer with the same number of cards from the deck.

(2) After dealing the additional cards, the player shall create the best possible five-card Poker hand.

(3) The dealer shall then ask the player if the player would like to fold and forfeit the player's Ante Wager or place a Bet Wager equal to twice the amount of the player's Ante Wager.

(4) If the player does not make a Bet Wager and forfeits his Ante Wager, the dealer shall collect the Ante Wager and place the player's cards in the discard rack.

(e) After all players have either folded or placed a Bet Wager, the dealer shall reveal the dealer's cards and form the highest ranking five-card Poker hand. The dealer shall then settle any Super Wagers placed on the dealer's hand. Beginning with the first player to the dealer's left who placed a Super Wager on the dealer's hand and continuing clockwise around the table, if the dealer's hand:

(1) Is not eligible for a Super Wager payout, the dealer shall collect each player's losing Super Wager placed on the dealer's hand.

(2) Is eligible for a Super Wager payout, the dealer shall pay the player's winning Super Wager in accordance with § 671a.12(b).

(f) After settling the Super Wager placed on the dealer's hand, if the dealer's hand:

(1) Does not qualify with an ace-king or better, as provided in § 671a.6(b) (relating to Lunar Poker rankings), the dealer shall return the player's Bet Wager, pay the player's Ante Wager in accordance with § 671a.12(c) and place the player's cards in the discard rack.

(2) Qualifies with an ace-king or better, as provided in § 671a.6(b), starting with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, the dealer shall turn the cards of each player who placed a Bet Wager face up on the layout and form the highest ranking five-card Poker hand. If the dealer's highest ranking five-card Poker hand is:

(i) Higher in rank than the player's five-card Poker hand, as provided in § 671a.6(b), the dealer shall collect the player's Ante and Bet Wagers and place the player's cards in the discard rack.

(ii) Lower in rank than the player's five-card Poker hand, as provided in § 671a.6(b), the dealer shall return the player's Ante Wager and pay the winning Bet Wager in accordance with § 671a.12(d). If a player's winning hand also contains a second Poker combination, where at least one card in the second combination was not included in the winning combination, the dealer shall pay a second winning Bet Wager in accordance with § 671a.12(d) for the second Poker combination even if the second combination does not beat the dealer's hand. For example, if a player's winning hand contained two aces, a king, 8 and 9, the player would be paid out for the pair of aces that beat the dealer's hand but would also be paid out for the ace-king. If a player purchased a sixth card, all six cards may be considered for purposes of the second payout.

(iii) Equal in rank with the player's hand, as provided in § 671a.6(b), the dealer shall return the player's Ante and Bet Wagers.

(g) After all wagers have been settled, the dealer shall remove any remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

(h) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the cards at least once after every 5 rounds of play to determine if the correct number of cards is still present in the deck. The dealer shall determine the number of cards by counting the cards face down on the layout. If the count indicates:

(1) That 52 cards are in the deck, the dealer shall place the cards in the discard rack.

(2) That 52 cards are not in the deck, the entire deck of cards shall be removed from the table.

§ 671a.12. Payout odds.

(a) The certificate holder shall pay an instant payout on a player's Ante Wager in accordance with one of the following paytables, selected by the certificate holder in its Rules Submission filed in accordance with § 601a.2 (relating to table games Rules Submissions):

Hand	Paytable A	Paytable B	Paytable C

(d) A winning Bet Wager shall be paid at the following odds:

Hand	Payout

§ 671a.13. Irregularities.

(a) A card that is found face up in the shoe or the deck while the cards are being dealt may not be used in that round of play and shall be placed in the discard rack. If more than one card is found face up in the shoe or the deck during the dealing of the cards, all hands shall be void, all wagers shall be returned to the players and the cards shall be reshuffled.

(b) A card drawn in error without its face being exposed shall be used as though it were the next card from the shoe or the deck.

(c) If any player or the dealer is dealt an incorrect number of cards, all hands shall be void, all wagers shall be returned to the players and the cards shall be reshuffled.

(d) If any of the dealer's cards that are dealt face down on the layout are inadvertently exposed prior to each player having either folded or placed a Bet Wager as provided under § 671a.11 (relating to procedures for completion of each round of play), all hands shall be void, all wagers shall be returned to the players and the cards shall be reshuffled.

(g) If an automated card shuffling device or automated dealing shoe malfunctions and cannot be used, the automated card shuffling device or automated dealing shoe shall be covered or have a sign indicating that the automated card shuffling device or automated dealing shoe is out of order placed on the device before any other method of shuffling or dealing may be utilized at that table.

(1) Equal the height of the cards, stacked one on top of the other, in the total number of decks that are to be used in the dealing shoe at that table.

(2) Be taller than the height of the total number of decks being used if the discard rack has a distinct and clearly visible mark on its side to show the exact height for a stack of cards equal to the total number of cards in the number of decks to be used in the dealing shoe at that table.

§ 672a.3. Cards; number of decks; value of cards.

(a) Except as provided in subsection (b), Free Bet Blackjack shall be played with six or eight deck shoes of cards that are identical in appearance and at least one cover card.

(b) If an automated card shuffling device is utilized, other than a continuous shuffler, Free Bet Blackjack shall be played with at least two shoes of cards in accordance with the following requirements:

(1) The cards shall be separated into two batches with an equal number of decks included in each batch.

(2) The cards in each batch must be of the same design but the backs of the cards in one batch must be of a different color than the cards in the other batch.

(3) One batch of cards shall be shuffled and stored in the automated card shuffling device while the other batch is being used to play the game.

(4) Both batches of cards shall be continuously alternated in and out of play, with each batch being used for every other dealing shoe.

(5) The cards from only one batch shall be placed in the discard rack at any given time.

(c) The decks of cards opened for use at a Free Bet Blackjack table shall be changed at least once every 24 hours.

(d) The value of the cards shall be as follows:

(1) Any card from 2 to 10 shall have its face value.

(2) Any jack, queen or king shall have a value of 10.

(3) An ace shall have a value of 11 unless that value would give a player or the dealer a score in excess of 21, in which case the ace shall have a value of 1.

§ 672a.4. Opening of the table for gaming.

(a) After receiving one or more decks of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 672a.5 (relating to shuffle and cut of the cards).

(d) If an automated shuffling device is utilized, other than a continuous shuffler, all the decks in one batch of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c) separate from the decks in the other batch of cards.

(e) If the decks of cards received at the table are preinspected and reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

§ 672a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each shoe of cards is dealt or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or device shall place the decks of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) After the cards have been shuffled and stacked, the dealer shall offer the stack of cards to be cut, with the backs facing away from the dealer, to the player determined under subsection (c). If no player accepts the cut, the dealer shall cut the cards.

(c) The cut of the cards shall be offered to players in the following order:

(1) The first player arriving at the table, if the game is just beginning.

(2) The player on whose betting area the cover card appeared during the last round of play.

(3) If the cover card appeared on the dealer's hand during the last round of play, the player at the farthest position to the right of the dealer. If this player refuses, the offer to cut the cards shall rotate to each player in a counterclockwise manner.

(4) If the reshuffle was initiated at the direction of the floorperson or above, the player at the farthest position to the right of the dealer. If this player refuses, the offer to cut the cards shall rotate to each player in a counterclockwise manner.

(d) The player or dealer making the cut shall place the cover card in the stack at least ten cards from the top or bottom of the stack. Once the cover card has been inserted, the dealer shall take all cards on top of the cover card and place them on the bottom of the stack. The dealer shall then insert the cover card in the stack at a position at least 1/4 of the way in from the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before the cards have been placed in the dealing shoe, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game. If a recut is required, the cards shall be recut either by the player who last cut the cards or by the next person entitled to cut the cards, as determined under subsection (c). The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(f) A reshuffle of the cards in the shoe shall take place after the cover card is reached in the shoe, as provided in § 672a.7(d) (relating to procedure for dealing the cards; completion of each round of play), except that a floorperson may determine that the cards should be reshuffled after any round of play.

(g) If there is no gaming activity at a Free Bet Blackjack table which is open for gaming, the cards shall be removed from the dealing shoe and the discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the cards shall be:

(1) Mixed thoroughly by a washing of the cards, stacked, then shuffled and cut in accordance with this section if there is no automated shuffling device in use.

(2) Stacked and placed into the automated shuffling device to be shuffled if an automated shuffling device is in use. The batch of cards already in the shuffler shall then be removed. Unless a player requests otherwise, the batch of cards removed from the shuffler does not need to be spread for inspection and reshuffled prior to being dealt provided that the automated card shuffling device stores a single batch of shuffled cards inside the shuffler in a secure manner.

(h) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (b)—(g) do not apply.

§ 672a.6. Wagers.

(a) Wagers at Free Bet Blackjack shall be made by placing value chips, plaques or other Board-approved table game wagering instruments on the appropriate areas of the Free Bet Blackjack layout.

(b) After the cards have been shuffled as required under § 672a.5 (relating to shuffle and cut of the cards), a certificate holder may prohibit any patron, whether seated at the gaming table or not, who does not make a wager on a given round of play from placing a wager on the next round of play and any subsequent round of play at that gaming table until either:

- (1) The certificate holder chooses to permit the player to begin wagering again.
- (2) A reshuffle of the cards has occurred.

(c) All wagers, except an Insurance Wager under § 672a.8 (relating to Insurance Wager), a wager to double down under § 672a.9 (relating to double down) or a wager on split pairs under § 672a.10 (relating to splitting pairs), shall be placed prior to the first card being dealt for each round of play. A player may not handle, remove or alter any wagers that have been made until a decision has been rendered and implemented with respect to that wager.

(d) A player shall place a Blackjack Wager to participate in a round of play and compete against the dealer's hand.

(e) If specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), a certificate holder may offer to each player who placed a Blackjack Wager in accordance with subsection (d), the option of placing a Push 22 Wager which shall win if the dealer's hand has a total point count of 22.

(f) The certificate holder shall specify in its Rules Submission under § 601a.2 the number of adjacent boxes on which a player may place a Blackjack Wager in one round of play.

§ 672a.7. Procedure for dealing the cards; completion of each round of play.

(a) All cards shall be dealt from a dealing shoe which must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures under § 672a.5 (relating to shuffle and cut of the cards) have been completed, the stacked cards shall be placed in the dealing shoe by the dealer or by an automated card shuffling device.

(b) Each card shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand. The dealer may deal cards to the two betting positions closest to the dealing shoe with the same hand.

(c) After each full batch of cards is placed in the shoe, the dealer shall remove the first card and place it in the discard rack. Each new dealer who comes to the table shall also remove one card and place it in the discard rack before dealing any cards to the players.

(d) If the cover card appears as the first card in the dealing shoe at the beginning of a round of play or appears during play, the cover card shall be removed and placed to the side and the hand will be completed. The dealer shall then:

(1) Collect and reshuffle the cards by removing the cards remaining in the shoe and placing them in the discard rack to ensure that no cards are missing.

(2) Shuffle the cards so that they are randomly intermixed.

(e) After all Blackjack and optional Push 22 Wagers have been placed, the dealer shall, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal the cards as follows:

(1) One card face up to each box on the layout in which a Blackjack Wager is contained.

(2) One card face up to the dealer.

(3) A second card face up to each box in which a wager is contained.

(4) A second card face down to the dealer.

(f) Immediately after the second card is dealt to each player and the dealer, if the dealer's first card is an ace, the dealer shall offer the Insurance Wager or even money in accordance with § 672a.8 (relating to Insurance Wager).

(g) If the dealer's first card is an ace or a 10 value card, after the procedures in subsection (f) have been completed, if applicable, the dealer shall determine whether the hole card will give the dealer a Blackjack. The dealer shall insert the hole card into the card reader device by moving the card face down on the layout without exposing it to anyone at the table, including the dealer. If the dealer has a Blackjack, additional cards may not be dealt and if a player:

(1) Has a Blackjack, the dealer shall return the player's Blackjack Wager, collect the player's Push 22 Wager and pay out any Insurance Wager, if applicable.

(2) Does not have a Blackjack, the dealer shall collect the player's Blackjack and Push 22 Wagers and pay out any Insurance Wager, if applicable.

(h) If the dealer's up card was not an ace or 10 value card or if the dealer's hole card did not give the dealer Blackjack, the dealer shall start with the player farthest to the dealer's left and continue around the table in a clockwise direction and if the player:

(1) Has Blackjack, the dealer shall announce and pay the Blackjack in accordance with § 672a.11(a) (relating to payout odds) and remove the player's cards. If a player also placed a Push 22 Wager, the dealer shall tuck the player's cards under the player's Push 22 Wager until it is resolved in accordance with subsection (n).

(2) Does not have Blackjack, the player shall indicate whether he wishes to double down as permitted under § 672a.9 (relating to double down), split pairs as permitted under § 672a.10 (relating to splitting pairs), stand or draw additional cards. Players may not surrender in Free Bet Blackjack.

(i) As each player indicates his decision, the dealer shall deal face upwards whatever additional cards are necessary to effectuate the player's decision.

(j) A player may elect to draw additional cards whenever his point count total is less than 21, except that:

(1) A player having a hard or soft total of 21 may not draw additional cards.

(2) A player electing to double down in accordance with § 672a.9 may draw only one additional card.

(k) After the decisions of each player have been implemented and all additional cards have been dealt, the dealer shall turn the hole card face up.

(l) Except as provided in subsection (m), the dealer shall draw additional cards until he has a hard or soft total of 17, 18, 19, 20 or 21. Any additional cards required to be dealt to the hand of the dealer shall be dealt face up. The dealer shall announce the dealer's total point count after each additional card is dealt.

(m) If there are no Push 22 Wagers on the table, a dealer may not draw additional cards to his hand, regardless of the point count, if decisions have been made on all players' hands and the point count of the dealer's hand will not have an effect on the outcome of the round of play. If there are Push 22 Wagers still on the table and all player's hands are in excess of 21 or have Blackjack, the dealer shall draw additional cards to settle the Push 22 Wagers.

(n) After all additional cards have been drawn, if the total point count of the dealer's hand:

(1) Is a 22, the dealer shall return all remaining player's Blackjack Wagers, collect any Free Bet lammers, as provided in § 672a.9 and § 672a.10, and pay out any Push 22 Wagers in accordance with § 672a.11(c).

(2) Is not a 22, the dealer shall collect any Push 22 Wagers and settle the player's Blackjack Wagers and Free Bet lammers in accordance with subsections (o)—(q).

(o) A player shall win and be paid in accordance with § 672a.11(a) for the Blackjack Wager and an equivalent amount for each Free Bet lammer, if applicable, if:

(1) The total point count of the player's hand is 21 or less and the total point count of the dealer's hand is in excess of 21 provided that if the total point count of the dealer's hand is 22, the Blackjack Wager shall be returned to the player and any Free Bet lammers shall be collected.

(2) The total point count of the player's hand exceeds the total point count of the dealer's hand without exceeding 21.

(p) A Blackjack Wager shall tie and be returned to the player and any Free Bet lammers collected if the total point count of the player's hand is the same as the total point count of the dealer's hand.

(q) A player's Blackjack Wager shall lose and any Free Bet lammers shall be collected if:

(1) The total point count of the dealer's hand is 21 or less and the total point count of the player's hand is in excess of 21.

(2) The total point count of the dealer's hand exceeds the total point count of the player's hand without exceeding 21.

(r) The dealer shall collect all losing wagers and pay off all winning wagers in accordance with one of the following procedures designated in the certificate holder's Rules Submission under § 601a.2 (relating to table games Rules Submissions):

(1) Collect all losing wagers beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction and then pay off all winning wagers.

(2) Collect each player's losing wagers and pay off each player's winning wagers beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction. The dealer shall place any losing wagers directly into the table inventory and may not pay off any player's winning wagers by using value chips collected from a losing wager.

(s) After all wagers have been settled, the dealer shall remove any remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

(t) Players and spectators may not handle, remove or alter any cards used to play Free Bet Blackjack.

§ 672a.8. Insurance Wager.

(a) If the first card dealt to the dealer is an ace, each player may make an Insurance Wager which shall win if the dealer's hole card is a king, queen, jack or 10.

(b) An Insurance Wager may be made by placing a value chip on the insurance line of the layout in an amount not more than 1/2 of the player's initial Blackjack Wager. A player may wager an amount in excess of 1/2 of the initial Blackjack Wager to the next unit that can be wagered in chips when, because of the limitation of the value of chip denominations, 1/2 the initial Blackjack Wager cannot be bet. Insurance Wagers shall be placed prior to the dealer inserting his hole card into the card reader device.

(c) Winning Insurance Wagers shall be paid in accordance with the payout odds in § 672a.11(b) (relating to payout odds).

(d) Losing Insurance Wagers shall be collected by the dealer immediately after the dealer inserts his hole card into the card reader device and determines that he does not have a Blackjack and before he draws any additional cards.

(e) Notwithstanding the requirements of subsections (a)—(d), if selected in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), a certificate holder may offer a player who has Blackjack the option to be paid even money on the Blackjack Wager instead of making an Insurance Wager. If the player elects to be paid even money, the dealer shall pay out the Blackjack Wager at odds of 1 to 1 and remove the player's cards provided that if the player also placed a Push 22 Wager, the dealer shall tuck the player's cards under the player's Push 22 Wager until it is resolved in accordance with § 672a.7(n) (relating to procedure for dealing the cards; completion of each round of play).

§ 672a.9. Double down.

(a) Except when a player has a Blackjack, a player may elect to double down on the first two cards dealt to him or on the first two cards of any split pair. If the total point count of the player's two cards:

(1) Is a hard 9, 10 or 11, the player may double down without placing an additional wager. If a player is doubling down without placing an additional wager, the dealer shall place a Free Bet lammer next to the player's original Blackjack Wager.

(2) Is not a hard 9, 10 or 11, the player may place an additional wager next to the player's original Blackjack Wager which may not exceed the amount of the player's original Blackjack Wager.

(b) If a player elects to double down after splitting pairs, as provided in § 672a.10 (relating to splitting pairs), the player may double down on split pairs as provided in subsection (a).

(c) Upon a player's election to double down, the dealer shall deal one additional card face up and place it sideways on the layout.

(d) The dealer shall then complete the procedure in § 672a.7(i)—(s) (relating to procedure for dealing the cards; completion of each round of play).

§ 672a.10. Splitting pairs.

(a) If the initial two cards dealt to a player are identical in value, the player may elect to split the hand into two separate hands. For example, if a player has two 7s or a king and a 10, the player may elect to split the hand.

(b) If a player elects to split pairs and the player has:

(1) A pair of 10 value cards (10, jack, queen or king), the player shall place an amount equal to the original Blackjack Wager for the split pair.

(2) Any pair other than 10 value cards, the player may split pairs without placing an additional wager. If a player is splitting pairs without placing an additional wager:

(i) The dealer shall place a Free Bet lammer next to the player's original Blackjack Wager.

(ii) The original Blackjack Wager shall move with the first split hand and the Free Bet lammer shall be the wager for the second split hand.

(c) When a player splits pairs, the dealer shall deal a card to and complete the player's decisions with respect to the first incomplete hand on the dealer's left before proceeding to deal any cards to the second hand. If the first split hand busts and if the player's hand:

(1) Does not contain any Free Bet lammers, the dealer shall collect the losing Blackjack Wager and place the player's cards in the discard rack.

(2) Contains a Free Bet lammer, the player's cards shall be tucked under the original Blackjack Wager until the hand is settled or until the split hand or hands bust as well.

(d) After a second card is dealt to each split pair, the player shall indicate his decision to stand, draw, double down or resplit with respect that hand. A player may resplit any additional pairs, in accordance with subsection (b), for a total of up to four hands.

§ 672a.11. Payout odds.

(a) The certificate holder shall pay each winning Blackjack Wager and any Free Bet lammers at odds of 1 to 1 with the exception of player Blackjack which shall be paid at odds of 3 to 2.

(b) The certificate holder shall pay out winning Insurance Wagers at odds of 2 to 1.

(c) The certificate holder shall pay out winning Push 22 Wagers based on the dealer's hand at the odds in one of the following paytables selected by the certificate holder in its Rules Submission filed in accordance with § 601a.2 (relating to table games Rules Submissions):

Hand	Paytable A	Paytable B
Same suit 22	50 to 1	50 to 1
Same color 22	20 to 1	20 to 1
Other 22	8 to 1	7 to 1

§ 672a.12. Irregularities.

(a) A card found face up in the shoe may not be used in that round of play and shall be placed in the discard rack or in a segregated area of the double shoe.

(b) A card drawn in error without its face being exposed shall be used as though it were the next card from the shoe.

(c) After the initial two cards have been dealt to each player and a card is drawn in error and exposed to the players, the card shall be dealt to the players or dealer as though it were the next card from the shoe. Any player refusing to accept the card may not have any additional cards dealt to him during the round. If the card is refused by the players and the dealer cannot use the card, the card shall be placed in the discard rack.

(d) If the dealer has 17 and accidentally draws a card for himself, the card shall be placed in the discard rack.

(e) If the dealer misses dealing his first or second card to himself, the dealer shall continue dealing the first two cards to each player and then deal the appropriate number of cards to himself.

(f) If there are insufficient cards remaining in the shoe to complete a round of play, all of the cards in the discard rack shall be shuffled and cut according to the procedures in § 672a.5 (relating to shuffle and cut of the cards). The first card shall be drawn face down and placed in the discard rack and the dealer shall complete the round of play.

(g) If no cards are dealt to a player's hand, the hand is dead and the player shall be included in the next deal. If only one card is dealt to a player's hand, at the player's option, the dealer shall deal the second card to the player after all other players have received a second card.

(h) If after receiving the first two cards the dealer fails to deal an additional card to a player who has requested a card, then, at the player's option, the dealer shall either deal the additional card after all other players have received their additional cards but prior to the dealer revealing his hole card or call the player's hand dead and return the player's original Blackjack Wager.

(i) If the dealer inserts his hole card into a card reader device when the value of his first card is not an ace, king, queen, jack or 10, the dealer, after notification to a floorperson or above, shall continue play.

(j) If a card reader device malfunctions, the dealer may not continue dealing the game of Blackjack at that table until the card reader device is repaired or replaced.

(k) If an automated card shuffling device is being used and the device jams, stops shuffling during a shuffle or fails to complete a shuffle cycle, the cards shall be reshuffled.

(l) If an automated shuffling device malfunctions and cannot be used, the device must be covered or have a sign indicating that it is out of order placed on the device before any other method of shuffling may be utilized at that table.

If the payout odds or amounts are not inscribed on the layout, a sign identifying the payout odds or amounts for all permissible wagers shall be posted at each Double Back Jack table.

(c) Each Double Back Jack table must have a drop box and a tip box attached on the same side of the table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g). The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(d) Each Double Back Jack table must have a card reader device attached to the top of the dealer's side of the table. The floorperson assigned to the Double Back Jack table shall inspect the card reader device at the beginning of each gaming day to ensure that there has been no tampering with the device and that it is in proper working order.

cards equal to the total number of cards in the number of decks to be used in the dealing shoe at that table.

§ 673a.3. Cards; number of decks; value of cards.

(a) Except as provided in subsections (b) and (c), Double Back Jack shall be played with at least one deck of cards that are identical in appearance and at least one cover card.

(b) If an automated card shuffling device is utilized, other than a continuous shuffler, Double Back Jack shall be played with at least two decks of cards in accordance with the following requirements:

(1) The cards shall be separated into two batches with an equal number of decks included in each batch.

(2) The cards in each batch must be of the same design but the backs of the cards in one batch must be of a different color than the cards in the other batch.

(3) One batch of cards shall be shuffled and stored in the automated card shuffling device while the other batch is being used to play the game.

(4) Both batches of cards shall be continuously alternated in and out of play, with each batch being used for every other dealing shoe.

(5) The cards from only one batch shall be placed in the discard rack at any given time.

(c) The decks of cards opened for use at a Double Back Jack table shall be changed at least once every 24 hours.

(1) Any card from 2 to 10 shall have its face value.

(2) Any jack, queen or king shall have a value of 10.

(3) An ace shall have a value of 11 unless that value would give a player or the dealer a score in excess of 21, in which case the ace shall have a value of 1.

§ 673a.4. Opening of the table for gaming.

(a) After receiving one or more decks of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 673a.5 (relating to shuffle and cut of the cards).

(d) If an automated shuffling device is utilized, other than a continuous shuffler, all the decks in one batch of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c) separate from the decks in the other batch of cards.

(e) If the decks of cards received at the table are preinspected and reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

§ 673a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each shoe of cards is dealt or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or device shall place the decks of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) After the cards have been shuffled and stacked, the dealer shall offer the stack of cards to be cut, with the backs facing away from the dealer, to the player determined under subsection (c). If no player accepts the cut, the dealer shall cut the cards.

(c) The cut of the cards shall be offered to players in the following order:

(1) The first player arriving at the table, if the game is just beginning.

(2) The player on whose betting area the cover card appeared during the last round of play.

(3) If the cover card appeared on the dealer's hand during the last round of play, the player at the farthest position to the right of the dealer. If this player refuses, the offer to cut the cards shall rotate to each player in a counterclockwise manner.

(4) If the reshuffle was initiated at the direction of the floorperson or above, the player at the farthest position to the right of the dealer. If this player refuses, the offer to cut the cards shall rotate to each player in a counterclockwise manner.

(d) The player or dealer making the cut shall place the cover card in the stack at least ten cards from the top or bottom of the stack. Once the cover card has been inserted, the dealer shall take all cards on top of the cover card and place them on the bottom of the stack. The dealer shall then insert the cover card in the stack at a position at least 1/4 of the way in from the bottom of

the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before the cards have been placed in the dealing shoe, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game. If a recut is required, the cards shall be recut either by the player who last cut the cards or by the next person entitled to cut the cards, as determined under subsection (c). The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(f) A reshuffle of the cards in the shoe shall take place after the cover card is reached in the shoe, as provided in § 673a.7(d) (relating to procedure for dealing the cards; completion of each round of play), except that a floorperson may determine that the cards should be reshuffled after any round of play.

(g) If there is no gaming activity at a Double Back Jack table which is open for gaming, the cards shall be removed from the dealing shoe and the discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the cards shall be:

(1) Mixed thoroughly by a washing of the cards, stacked, then shuffled and cut in accordance with this section, if there is no automated shuffling device in use.

(2) Stacked and placed into the automated shuffling device to be shuffled, if an automated shuffling device is in use. The batch of cards already in the shuffler shall then be removed. Unless a player requests otherwise, the batch of cards removed from the shuffler does not need to be spread for inspection and reshuffled prior to being dealt if the automated card shuffling device stores a single batch of shuffled cards inside the shuffler in a secure manner.

(h) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (b)—(g) do not apply.

§ 673a.6. Wagers.

(a) Wagers at Double Back Jack shall be made by placing value chips, plaques or other Board-approved table game wagering instruments on the appropriate areas of the Double Back Jack layout.

(b) After the cards have been shuffled as required under § 673a.5 (relating to shuffle and cut of the cards), a certificate holder may prohibit any patron, whether seated at the gaming table or not, who does not make a wager on a given round of play from placing a wager on the next round of play and any subsequent round of play at that gaming table until either:

(1) The certificate holder chooses to permit the player to begin wagering again.

(2) A reshuffle of the cards has occurred.

(c) All wagers, except a Second Chance Wager under § 673a.7(1) (relating to procedure for dealing the cards; completion of each round of play), an Insurance Wager under § 673a.8 (relating to Insurance Wager), a wager to double down under § 673a.10 (relating to double down) or a wager on split pairs under § 673a.11 (relating to splitting pairs), shall be placed prior to the first card being dealt for each round of play. A player may not handle, remove or alter any wagers that have been made until a decision has been rendered and implemented with respect to that wager.

(d) To participate in a round of play and compete against the dealer's hand, a player shall place a Blackjack Wager.

(e) The certificate holder shall specify in its Rules Submission under § 601a.2 (relating to table games Rules Submissions) the number of adjacent boxes on which a player may place a Blackjack Wager in one round of play.

§ 673a.7. Procedure for dealing the cards; completion of each round of play.

(a) All cards shall be dealt from a dealing shoe which must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures under § 673a.5 (relating to shuffle and cut of the cards) have been completed, the stacked cards shall be placed in the dealing shoe by the dealer or by an automated card shuffling device.

(b) Each card shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand. The dealer may deal cards to the two betting positions closest to the dealing shoe with the same hand.

(c) After each full batch of cards is placed in the shoe, the dealer shall remove the first card and place it in the discard rack. Each new dealer who comes to the table shall also remove one card and place it in the discard rack before dealing any cards to the players.

(d) If the cover card appears as the first card in the dealing shoe at the beginning of a round of play or appears during play, the cover card shall be removed and placed to the side and the hand will be completed. The dealer shall then:

(1) Collect and reshuffle the cards by removing the cards remaining in the shoe and placing them in the discard rack to ensure that no cards are missing.

(2) Shuffle the cards so that they are randomly intermixed.

(e) After all Blackjack Wagers have been placed, the dealer shall, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal the cards as follows:

(1) One card face up to each box on the layout in which a Blackjack Wager is contained.

(2) One card face up to the dealer.

(3) A second card face up to each box in which a wager is contained.

(4) A second card face down to the dealer.

(f) Immediately after the second card is dealt to each player and the dealer, but prior to any additional cards being dealt or before any card reader device is utilized, if any player has a Blackjack, the dealer shall settle the player's Blackjack Wager. Starting with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, the dealer shall pay the winning Blackjack Wager in accordance with § 673a.12(a) (relating to payout odds) and place the player's cards in the discard rack.

(g) After paying out any winning Blackjack Wagers in accordance with subsection (f), if the dealer's first card is an ace, the dealer shall offer the Insurance Wager in accordance with § 673a.8 (relating to Insurance Wager).

(h) If the dealer's first card is an ace, king, queen, jack or 10, after all Insurance Wagers have been placed, if applicable, the dealer shall determine whether the hole card will give the dealer a Blackjack. The dealer shall insert the hole card into the card reader device by moving the card face down on the layout without exposing it to anyone at the table, including the dealer. If the dealer has a Blackjack, additional cards may not be dealt and each player's Blackjack Wager will be collected.

(i) If the dealer's up card was not an ace or 10 value card or if the dealer's hole card did not give the dealer Blackjack, the dealer shall start with the player farthest to the dealer's left and continue around the table in a clockwise direction and each player shall indicate whether he wishes to surrender, as permitted under § 673a.9 (relating to surrender), double down as permitted under § 673a.10 (relating to double down), split pairs as permitted under § 673a.11 (relating to splitting pairs), stand or draw additional cards.

(j) As each player indicates his decision, the dealer shall deal face upwards whatever additional cards are necessary to effectuate the player's decision.

(k) A player may elect to draw additional cards whenever his point count total is less than 21, except that:

(1) A player having a hard or soft total of 21 may not draw additional cards.

(2) A player electing to double down may draw only one additional card.

(l) After drawing additional cards in accordance with subsection (k), if the player's hand is greater than 21, the dealer shall ask if the player would like to place a Second Chance Wager to draw one additional card, the value of which will be subtracted from the player's hand. To draw an additional card, the player shall place a Second Chance Wager equal to the amount of the player's current Blackjack Wager. The dealer shall deal one additional card face up and place it sideways on the layout. The value of the second chance card shall be subtracted from the total value of the player's hand. For example, if a player elects to place a Second Chance Wager when the player's hand has a total value of 25 after all additional cards are dealt in accordance with subsection (k), and the player receives a second chance card with a value of 5, the 5 shall be subtracted from the player's hand making the total value of the player's hand a 20. For purposes of the Second Chance Wager, an additional ace drawn is counted as a 1. After drawing the additional second chance card, if the player's hand has a total value:

(1) Greater than 21, the dealer shall collect the player's Blackjack and Second Chance Wagers and place the player's cards in the discard rack.

(2) Of 21, the dealer shall pay the player's winning Second Chance Wager in accordance with § 673a.12(b), return the player's Blackjack Wager and place the player's cards in the discard rack.

(3) Less than 21, the round of play shall continue in accordance with subsection (n).

(m) If a player did not place a Second Chance Wager, after all additional cards have been dealt, if any player's hand has a total value of 21, the dealer shall pay the player's winning Blackjack Wager in accordance with § 673a.12(a) and place the player's cards in the discard rack.

(n) After settling any player's hand who had a total value of 21, the dealer shall turn the dealer's hole card face up.

(o) Except as provided in subsection (p), the dealer shall draw additional cards until he has a hard or soft total of 17, 18, 19, 20 or 21. Any additional cards required to be dealt to the hand of the dealer shall be dealt face up. The dealer shall announce the dealer's total point count after each additional card is dealt.

(p) A dealer shall draw no additional cards to his hand, regardless of the point count, if decisions have been made on all players' hands and the point count of the dealer's hand will not have an effect on the outcome of the round of play.

(q) After all additional cards have been dealt to the dealer, if the total point count of the dealer's hand:

(1) Is 22, the dealer shall return all remaining player's Blackjack Wagers and Second Chance Wagers, if applicable.

(2) Is 21 or less, the dealer shall, starting with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, settle the remaining player's hands in accordance with subsections (r) and (s).

(r) In comparing the total point count of the dealer's hand versus the total point count of the player's hand, a player's hand shall:

(1) Win if:

(i) The total point count of the player's hand is less than 21 and the total point count of the dealer's hand is in excess of 21.

(ii) The total point count of the player's hand exceeds the total point count of the dealer's hand without exceeding 21.

(2) Tie if the total point count of the player's hand is the same as the total point count of the dealer's hand.

(3) Lose if:

(i) The total point count of the dealer's hand is 21 or less and the total point count of the player's hand is in excess of 21.

(ii) The total point count of the dealer's hand exceeds the total point count of the player's hand without exceeding 21.

(s) If a player's hand:

(1) Is a winning hand, in accordance with subsection (r), and the player:

(i) Placed a Second Chance Wager, the dealer shall return the player's Blackjack Wager and pay out the winning Second Chance Wager in accordance with § 673a.12(b).

(ii) Did not place a Second Chance Wager, the dealer shall pay out the winning Blackjack Wager in accordance with § 673a.12(a).

(2) Ties with the dealer's hand, the dealer shall return the player's Blackjack Wager and Second Chance Wager, if applicable.

(3) Loses against the dealer's hand, the dealer shall collect the player's Blackjack Wager and Second Chance Wager, if applicable.

(t) The dealer shall collect all losing wagers and pay off all winning wagers in accordance with one of the following procedures designated in the certificate holder's Rules Submission under § 601a.2 (relating to table games Rules Submissions):

(1) Collect all losing wagers beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction and then pay off all winning wagers.

(2) Collect each player's losing wagers and pay off each player's winning wagers beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction. The dealer shall place any losing wagers directly into the table inventory and may not pay off any player's winning wagers by using value chips collected from a losing wager.

(u) After all wagers have been settled, the dealer shall remove any remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

(v) Players and spectators may not handle, remove or alter any cards used to play Double Back Jack.

§ 673a.8. Insurance Wager.

(a) If the first card dealt to the dealer is an ace, each player may make an Insurance Wager which shall win if the dealer's hole card is a king, queen, jack or 10.

(b) An Insurance Wager may be made by placing a value chip on the insurance line of the layout in an amount not more than 1/2 of the player's initial Blackjack Wager. A player may wager an amount in excess of 1/2 of the initial Blackjack Wager to the next unit that can be wagered in chips, when, because of the limitation of the value of chip denominations, half the initial Blackjack Wager cannot be bet. Insurance Wagers shall be placed prior to the dealer inserting his hole card into the card reader device.

(c) Winning Insurance Wagers shall be paid in accordance with the payout odds in § 673a.12(c) (relating to payout odds).

(d) Losing Insurance Wagers shall be collected by the dealer immediately after the dealer inserts his hole card into the card reader device and determines that he does not have a Blackjack and before he draws any additional cards.

§ 673a.9. Surrender.

(a) After the first two cards are dealt to the player, the player may elect to discontinue play on his hand for that round by surrendering 1/2 of his wager. All decisions to surrender shall be made prior to the player indicating whether he wishes to double down as permitted under § 673a.10 (relating to double down), split pairs as permitted under § 673a.11 (relating to splitting pairs), stand or draw. If the first card dealt to the dealer:

(1) Is not an ace or 10 value card, the dealer shall immediately collect 1/2 of the wager and return 1/2 to the player.

(2) Is an ace or 10 value card, the dealer will place the player's wager on top of the player's cards. After the Insurance Wager is offered and the card reader device is utilized, the hand will be settled by immediately collecting the entire wager if the dealer has Blackjack or collecting 1/2 of the wager and returning 1/2 of the wager to the player if the dealer does not have Blackjack.

(b) If the player has made an Insurance Wager and then elects to surrender, each wager will be settled separately in accordance with subsection (a) and § 673a.8 (relating to Insurance Wager).

§ 673a.10. Double down.

(a) Except when a player has a Blackjack, a player may elect to double down on the first two cards dealt to him or the first two cards of any split pair. To double down, the player shall place an additional wager next to the player's original Blackjack Wager which may not exceed the amount of the player's original Blackjack Wager. Only one additional card shall be dealt to the hand on which the player has elected to double down.

(b) Upon a player's election to double down, the dealer shall deal the one additional card face up and place it sideways on the layout.

(c) A player may double down after splitting pairs as provided in § 673a.11 (relating to splitting pairs).

§ 673a.11. Splitting pairs.

(a) If the initial two cards dealt to a player are identical in value, the player may elect to split the hand into a maximum of two separate hands provided that he makes a wager on the second hand formed in an amount equal to his original Blackjack Wager. For example, if a player has two 7s or a king and a 10, the player may elect to split the hand.

(b) When a player splits pairs, the dealer shall deal a card to and complete the player's decisions with respect to the first incomplete hand on the dealer's left before proceeding to deal any cards to the second hand. If a player's hand contains an ace and a 10 value card after the player's hand is split and an additional card is dealt, the player shall be paid out for a 21 not a Blackjack.

(c) After a second card is dealt to each split pair hand, the player shall indicate his decision to stand, draw or double down with respect that hand.

§ 673a.12. Payout odds.

(a) The certificate holder shall pay each winning Blackjack Wager at odds of 1 to 1 with the exception of a player Blackjack which shall be paid at odds of 2 to 1.

(b) The certificate holder shall pay out winning Second Chance Wagers at odds of 1 to 1.

(c) The certificate holder shall pay out winning Insurance Wagers at odds of 2 to 1.

§ 673a.13. Irregularities.

(a) A card found face up in the shoe may not be used in that round of play and shall be placed in the discard rack or in a segregated area of the double shoe.

(b) A card drawn in error without its face being exposed shall be used as though it were the next card from the shoe.

(c) After the initial two cards have been dealt to each player and a card is drawn in error and exposed to the players, the card shall be dealt to the players or dealer as though it were the next card from the shoe. Any player refusing to accept the card may not have any additional cards dealt to him during the round. If the card is refused by the players and the dealer cannot use the card, the card shall be placed in the discard rack.

(d) If the dealer has 17 and accidentally draws a card for himself, the card shall be placed in the discard rack.

(e) If the dealer misses dealing his first or second card to himself, the dealer shall continue dealing the first two cards to each player and then deal the appropriate number of cards to himself.

(f) If there are insufficient cards remaining in the shoe to complete a round of play, all of the cards in the discard rack shall be shuffled and cut according to the procedures in § 673a.5 (relating to shuffle and cut of the cards). The first card shall be drawn face down and placed in the discard rack and the dealer shall complete the round of play.

(g) If no cards are dealt to a player's hand, the hand is dead and the player shall be included in the next deal. If only one card is dealt to a player's hand, at the player's option, the dealer shall deal the second card to the player after all other players have received a second card.

(h) If after receiving the first two cards, the dealer fails to deal an additional card to a player who has requested a card, then, at the player's option, the dealer shall either deal the additional card after all other players have received their additional cards but prior to the dealer revealing his hole card or call the player's hand dead and return the player's original Blackjack Wager.

(i) If the dealer inserts his hole card into a card reader device when the value of his first card is not an ace, king, queen, jack or 10, the dealer, after notification to a floorperson or above, shall continue play.

(j) If a card reader device malfunctions, the dealer may not continue dealing the game of Blackjack at that table until the card reader device is repaired or replaced.

(k) If an automated card shuffling device is being used and the device jams, stops shuffling during a shuffle or fails to complete a shuffle cycle, the cards shall be reshuffled.

(1) If an automated shuffling device malfunctions and cannot be used, the device must be covered or have a sign indicating that it is out of order placed on the device before any other method of shuffling may be utilized at that table.

§ 674a.1. Definitions.

Community cards—Cards which are used by all players to form a five-card Poker hand.

Down Hand—A five-card Poker hand formed for each player by combining the two cards dealt to the player and the three community cards on the vertical line of the cross.

§ 674a.2. Criss-Cross Poker table physical characteristics.

(a) Criss-Cross Poker shall be played at a table having betting positions for no more than six players on one side of the table and a place for the dealer on the opposite side of the table.

(b) The layout for a Criss-Cross Poker table shall be submitted to the Bureau of Gaming Operations in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment) and contain:

(1) The name or logo of the certificate holder.

(2) Five separate betting areas for each player designated for the placement of the Ante Across and Ante Down Wagers required under § 674a.7(d) (relating to wagers) and the

Across, Down and Middle Bets as provided in § 674a.11(b), (d) and (f) (relating to procedures for completion of each round of play).

(3) Five separate areas designated for the placement of the five community cards. The area for the community cards must form a cross with one box furthest from the table inventory container, three boxes in the center row and one box directly in front of the table inventory container.

(4) If the certificate holder offers the optional Five Card Bonus Wager authorized under § 674a.7(e), a separate area designated for the placement of the Five Card Bonus Wager for each player.

(5) Inscriptions that advise patrons of the payout odds or amounts for all permissible wagers offered by the certificate holder. If payout odds or amounts are not inscribed on the layout, a sign identifying the payout odds or amounts for all permissible wagers shall be posted at each Criss-Cross Poker table.

(6) If the certificate holder establishes a payout limit per player per round of play as authorized under § 674a.12(d) (relating to payout odds), inscriptions that advise patrons of the payout limit. If the limit is not inscribed on the layout, a sign identifying the payout limit shall be posted at each Criss-Cross Poker table.

(c) Each Criss-Cross Poker table must have a drop box and a tip box attached on the same side of the table as, but on opposite sides of, the dealer as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g). The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(d) Each Criss-Cross Poker table must have a discard rack securely attached to the top of the dealer's side of the table.

§ 674a.3. Cards; number of decks.

(a) Except as provided in subsection (b), Criss-Cross Poker shall be played with one deck of cards that are identical in appearance and one cover card.

(b) If an automated card shuffling device is utilized, Criss-Cross Poker may be played with two decks of cards in accordance with the following requirements:

(1) The cards in each deck must be of the same design. The backs of the cards in one deck must be of a different color than the cards included in the other deck.

(2) One deck of cards shall be shuffled and stored in the automated card shuffling device while the other deck is being used to play the game.

(3) Both decks of cards shall be continuously alternated in and out of play, with each deck being used for every other round of play.

(4) The cards from only one deck shall be placed in the discard rack at any given time.

(c) The decks of cards used in Criss-Cross Poker shall be changed at least every:

(1) Four hours if the cards are dealt by hand.

(2) Eight hours if the cards are dealt from a manual or automated dealing shoe.

§ 674a.4. Opening of the table for gaming.

(a) After receiving one or more decks of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 674a.5 (relating to shuffle and cut of the cards).

(d) If an automated card shuffling device is utilized and two decks of cards are received at the table, each deck of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c).

(e) If the decks of cards received at the table are preinspected and preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

§ 674a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each round of play has been completed or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or automated shuffling device shall place the deck of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) If an automated card shuffling device is being used, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present,

and the device reveals that an incorrect number of cards are present, the deck shall be removed from the table.

(c) After the cards have been shuffled and stacked, the dealer shall:

(1) If the cards were shuffled using an automated card shuffling device, deal the cards in accordance with § 674a.8, § 674a.9 or § 674a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedure for dealing the cards from an automated dealing shoe).

(2) If the cards were shuffled manually or were reshuffled, cut the cards in accordance with the procedures in subsection (d).

(d) If a cut of the cards is required, the dealer shall place the cover card in the stack at least ten cards in from the top of the stack. Once the cover card has been inserted, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before the cards have been dealt, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game.

(f) If there is no gaming activity at a Criss-Cross Poker table which is open for gaming, the cards shall be removed from the dealing shoe and discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the procedures in § 674a.4(c) (relating to opening of the table for gaming) and this section shall be completed.

(g) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (d)—(f) do not apply.

§ 674a.6. Criss-Cross Poker rankings.

(a) The rank of the cards used in Criss-Cross Poker shall be: ace, king, queen, jack, 10, 9, 8, 7, 6, 5, 4, 3 and 2. Notwithstanding the foregoing, an ace may be used to complete a straight flush or a straight formed with a 2, 3, 4 and 5 but may not be combined with any other sequence of cards (for example, queen, king, ace, 2 and 3). All suits shall be equal in rank.

(b) The permissible Poker hands in the game of Criss-Cross Poker, in order of highest to lowest rank, shall be:

(1) A royal flush, which is a hand consisting of an ace, king, queen, jack and 10 of the same suit.

(2) A straight flush, which is a hand consisting of five cards of the same suit in consecutive ranking, other than a royal flush.

(3) A four-of-a-kind, which is a hand consisting of four cards of the same rank.

(4) A full house, which is a hand consisting of a three-of-a-kind and a pair.

(5) A flush, which is a hand consisting of five cards of the same suit, not in consecutive order.

(6) A straight, which is a hand consisting of five cards of consecutive rank of different suits.

(7) A three-of-a-kind, which is a hand consisting of three cards of the same rank.

(8) Two pairs, which is a hand consisting of two pairs.

(9) A pair, which is a hand consisting of two cards of the same rank.

§ 674a.7. Wagers.

(a) Wagers at Criss-Cross Poker shall be made by placing value chips, plaques or other Board-approved table game wagering instruments on the appropriate areas of the table layout. Verbal wagers accompanied by cash may not be accepted.

(b) Only players who are seated at a Criss-Cross Poker table may wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and may be treated as losing wagers.

(c) All Ante Across and Ante Down Wagers shall be placed prior to the dealer announcing “no more bets” in accordance with the dealing procedures in § 674a.8, § 674a.9 or § 674a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedure for dealing the cards from an automated dealing shoe). Except as provided in § 674a.11(b), (d) and (f) (relating to procedures for completion of each round of play), a wager may not be made after the dealer has announced “no more bets.”

(d) To participate in a round of play, a player shall place two equal but separate Ante Wagers designated as Ante Across and Ante Down.

(e) If specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), a certificate holder may offer to each player at a Criss-Cross Poker table the option to make an additional Five Card Bonus Wager that the five community cards will form a hand with a rank of a pair of 6s or better. After placing the Ante Wagers required under subsection (d), a player may make an additional Five Card Bonus Wager by placing a value chip onto the designated betting area for that player. A Five Card Bonus Wager will not have a bearing on any other wagers made by the player.

(f) Across, Down and Middle Bets shall be made in accordance with § 674a.11(b), (d) and (f).

(g) The certificate holder shall specify in its Rules Submission under § 601a.2 the number of adjacent boxes on which a player may place a wager in one round of play.

§ 674a.8. Procedure for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 674a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe by the dealer or by an automated card shuffling device.

(b) Prior to dealing any cards, the dealer shall announce “no more bets.”

(c) Each card shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand.

(d) The dealer shall deal five community cards face down to form a cross with one card in the box furthest from the dealer, three cards in the second row and one card in the box closest to the dealer. After dealing the five community cards, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, the dealer shall deal one card at a time, face down to each player who has placed the two required Ante Wagers in accordance with § 674a.7(d) (relating to wagers) until each player has two cards.

(e) After five cards have been dealt to the area designated for the placement of the community cards and two cards have been dealt to each player, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (f), place the stub in the discard rack without exposing the cards.

(f) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(g) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(h) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or less than 2 cards or the area designed for the placement of the community cards has more or less than 5 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be

returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 674a.9. Procedure for dealing the cards from the hand.

(a) If the cards are dealt from the dealer's hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 674a.5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the stacked deck of cards in either hand. After the dealer has chosen the hand in which he will hold the cards, the dealer shall continue to use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing any cards, the dealer shall announce “no more bets.”

(b) The dealer shall deal each card by holding the deck of cards in the chosen hand and use the other hand to remove the top card of the deck. The dealer shall deal five community cards face down to form a cross with one card in the box furthest from the dealer, three cards in the second row and one card in the box closest to the dealer. After dealing the five community cards, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, the dealer shall deal one card at a time, face down to each player who has placed the two required Ante Wagers in accordance with § 674a.7(d) (relating to wagers) until each player has two cards.

(c) After five cards have been dealt to the area designated for the placement of the community cards and two cards have been dealt to each player, the dealer shall, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or less than 2 cards or the area designed for the placement of the community cards has more or less than 5 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 674a.10. Procedure for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 674a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce “no more bets.”

(b) The dealer shall deliver the first stack of five cards dispensed by the automated dealing shoe face down to the area designated for the placement of the community cards. The dealer shall spread the stack within the designated area to form a cross with one card placed in the box furthest from the dealer, three cards in the second row and one card in the box closest to the dealer. After dealing the five community cards, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, the dealer shall deliver a stack of two cards face down to each of the players who has placed the two required Ante Wagers in accordance with § 674a.7(d) (relating to wagers).

(c) After each stack of cards has been dispensed and delivered in accordance with subsection (b), the dealer shall remove the stub from the automated dealing shoe and, except as provided in subsection (d), place the cards in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player has more or less than 2 cards or the area designed for the placement of the community cards has more or less than 5 cards) but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 674a.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 674a.8, § 674a.9 or § 674a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedure for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards subject to the following limitations:

(1) Each player who wagers at Criss-Cross Poker shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

(2) Each player shall keep his two cards in full view of the dealer at all times.

(b) After each player has examined his cards, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player if he wishes to place an Across Bet in an amount equal to one to three times the total amount of the player's Ante Across Wager. If a player does not place an Across Bet, the player's Ante Across and Ante Down Wagers shall be collected and the player's cards placed in the discard rack provided that if a player also placed a Five Card Bonus Wager, the player's Five Card Bonus Wager shall remain on the table until resolved in accordance with subsection (h)(5).

(c) After each player has made a decision regarding the Across Bet and any forfeited hands have been collected, the dealer shall then turn the two outside community cards in the horizontal row face up on the layout.

(d) After the first two community cards are exposed, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player if he wishes to place a Down Bet in an amount equal to one to three times the total amount of the player's Ante Down Wager. If a player does not place a Down Bet, the player's Ante Across Wager, Ante Down Wager and Across Bet shall be collected and the player's cards placed in the discard rack provided that if a player also placed a Five Card Bonus Wager, the player's Five Card Bonus Wager shall remain on the table until resolved in accordance with subsection (h)(5).

(e) The dealer shall then turn the two outside community cards in the vertical row face up leaving only the middle community card face down on the layout.

(f) After the third and fourth community cards are exposed, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player if he wishes to place a Middle Bet in an amount equal to one to three times the amount of the player's Ante Across or Ante Down Wager. If a player does not place a Middle Bet, the player's Ante Across Wager, Ante Down Wager, Across Bet and Down Bet shall be collected and the player's cards placed in the discard rack provided that if a player also placed a Five Card Bonus Wager, the player's Five Card Bonus Wager shall remain on the table until resolved in accordance with subsection (h)(5). After all remaining players have placed a Middle Bet, each player shall place his cards face down on the appropriate area of the layout.

(g) The dealer shall then turn the middle community card face up on the layout. After all five community cards are turned face up, the dealer shall, beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, turn the two cards of the player face up on the layout. The player's two cards and the three community cards in the horizontal line shall form the player's five-card Across Hand while the player's two cards and the three community cards in the vertical line shall form the player's five-card Down Hand.

(h) The dealer shall settle all wagers of that player by collecting losing wagers and paying winning wagers as follows:

(1) If a player's Across Hand:

(i) Is less than a pair of 6s, the dealer shall collect the losing Ante Across and Across Bet Wagers.

(ii) Is a pair of 6s or better, as described in § 674a.6(b) (relating to Criss-Cross Poker rankings), the dealer shall return or pay out the winning Ante Across wager in accordance with § 674a.12(a) (relating to payout odds) and the Across Bet in accordance with § 674a.12(b).

(2) If a player's Down Hand:

(i) Is less than a pair of 6s, the dealer shall collect the losing Ante Down and Down Bet wagers.

(ii) Is a pair of 6s or better, as described in § 674a.6(b), the dealer shall return or pay out the winning Ante Down Wager in accordance with § 674a.12(a) and the Down Bet in accordance with § 674a.12(b).

(3) If neither of a player's Down or Across Hands contains a pair of 6s or better, the dealer shall collect the losing Middle Bet Wager.

(4) If either of a player's Down or Across Hands contains a pair of 6s or better, as described in § 674a.6(b), the dealer shall pay out the Middle Bet Wager in accordance with § 674a.12(b). The payout shall be based on the higher ranking Across Hand or Down Hand.

(5) After settling the player's other wagers, the dealer shall settle the player's Five Card Bonus Wager, if applicable. If the five community cards form a five-card Poker hand of a pair of 6s or better, as described in § 674a.6(b), the dealer shall pay the winning Five Card Bonus Wager in accordance with § 674a.12(c).

(i) After all wagers of the player have been settled, the dealer shall remove the player's cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

§ 674a.12. Payout odds.

(a) Winning Ante Across and Ante Down Wagers shall be paid at the following odds:

Hand	Payout
Pair of jacks or better	1 to 1
Pair of 6s through 10s	Push

(b) Winning Across, Down and Middle Bet Wagers shall be paid at the following odds:

Hand	Payout

Straight flush	100 to 1
Four-of-a-kind	40 to 1
Full house	12 to 1

Three-of-a-kind	3 to 1
Two pair	2 to 1
Pair of jacks, queens, kings or aces	1 to 1

(c) If a certificate holder offers the Five Card Bonus Wager, winning Five Card Bonus Wagers shall be paid out at the following odds:

Hand	Payout
Royal flush	250 to 1
Straight flush	100 to 1
Four-of-a-kind	40 to 1
Full house	15 to 1
Flush	10 to 1
Straight	6 to 1
Three-of-a-kind	4 to 1
Two pair	3 to 1
Pair of 6s or better	1 to 1

(d) Notwithstanding the payout odds in subsections (a) and (b), if specified in its Rules Submission form filed in accordance with § 601a.2 (relating to table game Rules Submissions), the certificate holder may establish an aggregate payout limit per player per round of play which may not be less than \$50,000 or the maximum amount that one patron could win per round when betting the minimum wager, whichever is greater. Any maximum payout limit established by the certificate holder must apply only to payouts of Ante Across, Ante Down, Across Bet, Down Bet and Middle Bet Wagers under subsections (a) and (b) but does not apply to payouts for Five Card Bonus Wagers in subsection (c).

§ 674a.13. Irregularities.

(a) A card that is found face up in the shoe or the deck while the cards are being dealt may not be used in that round of play and shall be placed in the discard rack. If more than one

card is found face up in the shoe or the deck during the dealing of the cards, all hands shall be void, all wagers shall be returned to the players and the cards shall be reshuffled.

(b) A card drawn in error without its face being exposed shall be used as though it were the next card from the shoe or the deck.

(c) If any player or the area designated for the placement of the community cards is dealt an incorrect number of cards, all hands shall be void, all wagers shall be returned to the players and the cards shall be reshuffled.

(d) If any of the community cards are inadvertently exposed prior to the dealer revealing the community cards in accordance with § 674a.11(c), (e) and (g) (relating to procedures for completion of each round of play), all hands shall be void, all wagers shall be returned to the players and the cards shall be reshuffled.

(e) If an automated card shuffling device is being used and the device jams, stops shuffling during a shuffle or fails to complete a shuffle cycle, the cards shall be reshuffled.

(f) If an automated dealing shoe is being used and the device jams, stops dealing cards or fails to deal all cards during a round of play, the round of play shall be void, all wagers shall be returned to the players and the cards shall be removed from the device and reshuffled with any cards already dealt.

(g) If an automated card shuffling device or automated dealing shoe malfunctions and cannot be used, the automated card shuffling device or automated dealing shoe shall be covered or have a sign indicating that the automated card shuffling device or automated dealing shoe is out of order placed on the device before any other method of shuffling or dealing may be utilized at that table.

§ 675a.1. High Roll Dice table; physical characteristics.

(a) High Roll Dice shall be played at a table having betting positions for up to six players on one side of the table and a place for the dealer on the opposite side of the table.

(b) The layout for a High Roll Dice table shall be submitted to the Bureau of Gaming Operations and approved in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment) and contain, at a minimum:

(1) The name or logo of the certificate holder.

(2) At each betting position:

(i) For the Like Kind Boulevard Wagers, seven circles containing the numbers two of a kind through eight of a kind.

(ii) For the Millionaire Row Wagers, two circles containing the numbers nine of a kind and ten of a kind and the inscription "First Roll Side Bet."

(iii) For the Pip Street Wagers, a depiction of six dice displaying a value of one through six with the two-spot die farthest to the player's left and the one-spot die farthest to the player's right.

(iv) An inscription advising players that all Pip Street and Like Kind Boulevard Wagers and the purchase of an Extra Roll must be of equal value.

(v) An extra-roll sensor for the placement of an Extra Roll purchased by the player.

(3) The payout odds, in accordance with § 675a.5 (relating to payout odds), for all permissible wagers offered by the certificate holder. If the payout odds are not on the layout, a sign identifying the payout odds shall be posted at each High Roll Dice table.

(4) A throw box set into the surface of the High Roll Dice table. The throw box layout must contain an area for the placement of dice labeled “Ace” through “Six” with the “Ace” box farthest to the left of the dealer and the “Two” box farthest to the right of the dealer.

(5) A throw box set into the surface of the High Roll Dice table. The throw box layout must contain an area for the placement of dice labeled “Ace” through “Six” with the “Ace” box farthest to the left of the dealer and the “Two” box farthest to the right of the dealer.

(c) The High Roll Dice table must have an electronic system for the placement of an Extra Roll purchased by the player. The electronic system must include:

(1) A wagering device at each betting position that acknowledges or accepts the placement of the Extra Roll purchased by the player.

(2) A device that controls or monitors the placement of an Extra Roll purchased at the gaming table, including a mechanism, such as a lock-out button, that prevents the recognition of an Extra Roll that a player attempts to purchase after the dealer has announced “no more bets.”

(d) Each High Roll Dice table must have a drop box with a tip box attached on the same side of the gaming table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g).

§ 675a.2. Wagers; die ranking.

(a) All wagers and the purchase of an extra roll shall be made before the dice are shaken by the dealer.

(b) Wagers and the purchase of an extra roll shall be made by placing value chips or plaques on the appropriate areas of the layout. Verbal wagers and the purchase of an extra roll accompanied by cash may not be accepted.

(c) Only players who are seated at a High Roll Dice table may place a wager at the game. Once a player has placed a wager, that player shall remain seated until the completion of the round of play.

(d) For High Roll Dice, a die with a value of 1, or ace, is the highest in rank followed by a 6, 5, 4 and 3, with a 2 being the lowest value die.

(e) The following wagers are authorized in High Roll Dice:

(1) To participate in a round of play, each player shall place a Pip Street Wager on any or all of the depictions of six dice contained at the top of the player's wagering area. For purposes of the Pip Street Wager, the player is wagering on which die face will occur the greatest number of times in the first roll. For example, if a dealer throws:

(i) Three 6s and four 4s, the 4s occurred the most during the first roll.

(ii) Three 6s and three 1s, the 1s occurred the most as an ace has a higher value than a 6 for purposes of High Roll Dice.

(2) After placing a Pip Street Wager, a player may place a Like Kind Boulevard Wager equal to the player's Pip Street Wager on any or all of the numbered circles two through eight. For purposes of the Like Kind Wager, the player is wagering on how many of the most matching dice will be rolled on the first roll. For example, if a dealer throws:

(i) Three 6s and four 1s, the result would be four matching dice, or a four-of-a-kind.

(ii) Five 2s and three 1s, the result would be five matching dice, or a five-of-a-kind.

(3) If a player placed a Like Kind Boulevard Wager, the player may also purchase an extra roll by placing an amount equal to the player's Like Kind Boulevard Wager on the extra-roll sensor. The purchase of an Extra Roll will entitle the player to an additional throw of nonmatching dice. For example, if a dealer threw two 6s and four 1s on the first throw and two additional 1s on the second roll, there would be a total of six matching dice, or a six-of-a-kind.

(4) A player may place a Millionaire Row Wager on either or both of the numbered nine or ten circles. For purposes of the Millionaire Row Wager, the player is wagering that all nine or ten dice will match on the first roll. The Millionaire Row Wager may not be more than \$1.

§ 675a.3. Dice; shaker.

(a) High Roll Dice shall be played with ten 19 mm dice. Dice used in the play of the game shall comply with § 603a.12(a)(2)—(10) and (d) (relating to dice; physical characteristics) and the receipt and inspection requirements in § 603a.13 (relating to dice; receipt, storage, inspection and removal from use).

(b) High Roll Dice shall be played with a dice shaker, approved in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment), which shall be used to shake the ten dice to arrive at the winning combinations. The dice shaker shall be designed and constructed to maintain the integrity of the game and must:

(1) Be capable of effectively shaking ten dice. Dice that have been placed in a dice shaker for use in gaming may not remain on a table for more than 24 hours.

(2) Have the name or logo of the certificate holder imprinted or impressed thereon.

(c) The dice shaker is the responsibility of the dealer and may not be left unattended while at the table.

(d) A shaker and ten dice shall be present at the High Roll Dice table for gaming.

§ 675a.4. Procedure for completion of each round of play.

(a) After all players have placed their wagers, the dealer shall announce “no more bets” and if any player placed an Extra Roll Wager use the electronic device to prevent the placement of additional Extra Roll Wagers. If any Extra Roll Wagers have been made, the dealer shall collect the wagers and place them in the table inventory container.

(b) The dealer shall cover and shake the shaker containing the dice at least three times to cause a random mixture of the dice. The dealer shall then simultaneously throw the dice into the throw box. A roll of the dice shall be invalid if any of the dice go off the table or if one die comes to rest on top of the other.

(c) In the event any of the dice do not land flat on the table (for example, one edge of the die is resting cocked on a stack of chips), the side directly opposite the side that is resting on the chips or other object shall be considered uppermost or skyward. If more than one side of a die is resting on a stack of chips or other object, the roll shall be void and the dice shall be placed back in the throw cup, shaken and rethrown.

(d) When the dice come to rest from a valid throw, the dealer shall call out which die of the highest value occurs the most.

(e) After the first roll, the dealer shall announce to the players the matching dice of the highest value. After announcing the winning combination, the dealer shall move all matching dice of the highest value into the corresponding box on the throw box layout. For example, if there were four 5s, three 6s and two 1s and one 4, the dealer shall move the four 5s into the box on the throw layout labeled “Five.” To move the dice to the designated area on the throw box layout, the dealer shall leave the dice exposed and may not cover the dice or impede surveillance's ability to view the dice at any time the dice are on the throw box layout.

(f) The dealer shall then settle each player's first roll wagers as follows:

(1) The dealer shall collect the player's losing Pip Street Wagers and pay out all winning Pip Street Wagers in accordance with § 675a.5(a) (relating to payout odds). For example, if a player placed a Pip Street Wager on the 5 die and the 2 die and the dealer threw four 5s, three 6s and two 1s and one 4, the dealer shall collect the losing Pip Street Wager placed on the 2 die and pay out the winning Pip Street Wager placed on the 5 die.

(2) For the Like Kind Wager, if a player:

(i) Did not purchase an Extra Roll, the dealer shall collect the player's losing Like Kind Boulevard Wagers and pay out any Like Kind Boulevard Wagers in accordance with § 675a.5(b). For example, if the dealer threw four 5s, three 6s and two 1s and one 4, the dealer shall collect all Like Kind Wagers that were not placed on the four-of-a-kind circle and pay out any winning wagers that were placed on the four-of-a-kind circle.

(ii) Also purchased an Extra Roll, the dealer shall pay out any winning Like Kind Boulevard Wagers in accordance with § 675a.5(b) and collect a player's losing Like Kind Boulevard Wagers that have no possibility of winning with an extra roll. For example, if a player wagered on the three-of-a-kind, a four-of-a-kind and a five-of-a-kind and a four-of-a-kind was thrown on the first throw, the dealer shall pay the winning four-of-a-kind, collect the Like Kind Wager placed on the three-of-a-kind and leave the player's wager on the five-of-a-kind on the table layout until it is resolved in accordance with subsection (g).

(3) The dealer shall then settle the player's Millionaire Row Wagers by collecting any losing wagers and paying out any winning wagers in accordance with § 675a.5(c). For example, if nine matching dice were thrown on the first throw, the dealer shall collect all Millionaire Row Wagers that were not placed on the nine-of-a-kind and pay out any winning Millionaire Row Wagers that were placed on the nine-of-a-kind circle.

(g) If any player purchased an Extra Roll, the dealer shall then collect all dice except those of the highest value that were placed on a designated number on the throw box layout and place them in the shaker. For example, if the dealer threw three 6s, three 4s, two 2s and two 1s in the first throw, the three 6s would be placed on the "Six" in the throw box layout. The dealer would collect the three 4s, two 2s and the two 1s, place them in the shaker, shake and throw the remaining dice in accordance with subsections (b) and (c).

(h) When the dice come to rest from a valid throw, the dealer shall call out the number of additional dice that match the highest number of matched dice thrown in the first throw. For example, if after the first throw three 6s were placed on the "Six" in the throw box layout and on the second throw an additional two 6s were thrown, the extra roll would result in a total of a five-of-a-kind. The dealer shall collect any losing Like Kind Boulevard Wager and pay out any winning Like Kind Boulevard Wagers on the Extra Roll in accordance with § 675a.5(d), provided that if a player was paid out on a winning Like Kind Wager after the first roll, the player may not be paid out on the second roll for the same number. For example, if a player placed a winning Like Kind Wager on the four-of-a-kind and if no additional matching dice were thrown on the second roll, the player may not be paid out for the four-of-a-kind for the Extra Roll.

§ 675a.5. Payout odds.

(a) The certificate holder shall pay out winning Pip Street Wagers at the following odds:

Die Value with Most Matches Payout Odds

Two	6 to 1

§ 675a.6. High Roll Dice variation.

(a) If selected in its Rules Submission, a certificate holder may offer a variation of High Roll Dice in which only six dice instead of ten dice are used in the play of the game.

(b) The High Roll Dice table must comply with the requirements in § 675a.1(a), (b) and (d) (relating to High Roll Dice table; physical characteristics) provided that each betting position on the layout contains:

(1) For Like Kind Boulevard Wagers, five circles with the numbers two of a kind through six of a kind and one circle for no matches.

(2) For Pip Street Wagers, a depiction of six dice displaying a value of one through six with the two-spot die farthest to the player's left and the one-spot die farthest to the player's right.

(3) An inscription advising players that all wagers must be of equal value.

(d) Wagers shall be made in accordance with § 675a.2(a)—(c) and (e)(1). Instead of the optional wagers in § 675a.2(e)(2)—(4), after placing a Pip Street Wager, a player may place a Like Kind Boulevard Wager equal to the player's Pip Street Wager on any or all of the numbered circles two through six or the circle marked no match. For purposes of the Like Kind Wager, the player is wagering on how many of the most matching dice will be rolled on the first roll. For example, if a dealer throws:

(1) Two 6s and four 1s, the result would be four matching dice, or a four-of-a-kind.

(2) All numbers 1—6, the result would be a no match.

(e) High Roll Dice shall be played with six 19 mm dice. Dice used in the play of the game shall comply with § 603a.12(a)(2)—(10) and (d) (relating to dice; physical characteristics) and the receipt and inspection requirements in § 603a.13 (relating to dice; receipt, storage, inspection and removal from use).

(f) High Roll Dice shall be played with a dice shaker that complies with the requirements in § 675a.3(c) and (d) (relating to dice; shaker).

(g) After all players have placed their wagers, the dealer shall announce “no more bets” and complete the dealing procedures in § 675a.4(b) and (c) (relating to procedure for completion of each round of play).

(h) After the roll, the dealer shall call out which die of the highest value occurs the most then the matching dice of the highest value. After announcing the winning combination, the dealer shall move all matching dice of the highest value into the corresponding box on the throw box layout. For example, if there were three 5s, two 6s and one 4, the dealer shall move the three 5s into the box on the throw layout labeled “five.” To move the dice to the designated area on the throw box layout, the dealer shall leave the dice exposed and may not cover the dice or impede surveillance's ability to view the dice at any time the dice are on the throw box layout.

(i) The dealer shall collect any losing Pip Street and Like Kind Boulevard Wagers and pay out any winning wagers in accordance with subsections (j) and (k).

(j) The certificate holder shall pay out winning Pip Street Wagers at the following odds:

Die Value with Most Matches Payout Odds

§ 676a.2. Go Fore It table physical characteristics.

(a) Go Fore It shall be played at a table having betting positions for no more than six players on one side of the table and a place for the dealer on the opposite side of the table.

(b) The layout for Go Fore It shall be submitted to the Bureau of Gaming Operations and approved in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment) and contain, at a minimum:

(1) The name or logo of the certificate holder.

(2) Separate betting areas designated for the placement of the Skins, Gopher, Front 9 and Back 9 Wagers for each player.

(3) Inscriptions that advise patrons of the payout odds for all permissible wagers offered by the certificate holder. If the payout odds are not inscribed on the layout, a sign identifying the payout odds for all permissible wagers shall be posted at each Go Fore It table.

(4) An inscription indicating that the Skins Wager will be lost if the dealer's hand and the player's hand ties. If the information is not inscribed on the layout, a sign which sets forth the required information shall be posted at each Go Fore It table.

(c) Each Go Fore It table must have a drop box and a tip box attached on the same side of the table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g). The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(d) Each Go Fore It table must have a discard rack securely attached to the top of the dealer's side of the table.

§ 676a.3. Cards; number of decks.

(a) Except as provided in subsection (b), Go Fore It shall be played with one deck of cards that are identical in appearance and one cover card.

(b) If an automated card shuffling device is utilized, Go Fore It may be played with two decks of cards in accordance with the following requirements:

(1) The cards in each deck must be of the same design. The backs of the cards in one deck must be of a different color than the cards included in the other deck.

(2) One deck of cards shall be shuffled and stored in the automated card shuffling device while the other deck is being used to play the game.

(3) Both decks of cards shall be continuously alternated in and out of play, with each deck being used for every other round of play.

(4) The cards from only one deck shall be placed in the discard rack at any given time.

(c) The decks of cards used in Go Fore It shall be changed at least every:

(1) Four hours if the cards are dealt by hand.

(2) Eight hours if the cards are dealt from a manual or automated dealing shoe.

§ 676a.4. Opening of the table for gaming.

(a) After receiving one deck or two decks of cards at the table, the dealer shall inspect the cards for defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 676a.5 (relating to shuffle and cut of the cards).

(d) If an automated card shuffling device is utilized and two decks of cards are received at the table, each deck of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c).

(e) If the decks of cards received at the table are preinspected and reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

§ 676a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each round of play has been completed or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or automated shuffling device shall place the deck of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) If an automated card shuffling device is being used, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, and the device reveals that an incorrect number of cards are present, the deck shall be removed from the table.

(c) After the cards have been shuffled and stacked, the dealer shall:

(1) If the cards were shuffled using an automated card shuffling device, deal or deliver the cards in accordance with § 676a.8, § 676a.9 or § 676a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe).

(2) If the cards were shuffled manually, cut the cards in accordance with subsection (d).

(d) If a cut of the cards is required, the dealer shall place the cover card in the stack at least ten cards in from the top of the stack. Once the cover card has been inserted, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before any cards have been dealt, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game.

(f) If there is no gaming activity at a Go Fore It table which is open for gaming, the cards shall be spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the procedures in § 676a.4(c) (relating to opening of the table for gaming) and this section shall be completed.

(g) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (d)—(f) do not apply.

§ 676a.6. Go Fore It rankings.

The point value assigned to the cards used in Go Fore It shall be:

Card	Point Value
Ace	1
Jack, queen, king	10
2 through 10	Face value

§ 676a.7. Wagers.

(a) Wagers at Go Fore It shall be made by placing value chips or plaques on the appropriate areas of the table layout. Verbal wagers accompanied by cash may not be accepted.

(b) Only players who are seated at a Go Fore It table may wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and may be treated as losing wagers.

(c) All wagers, except the Back 9 Wager, shall be placed prior to the dealer announcing “no more bets” in accordance with the dealing procedure in § 676a.8, § 676a.9 or § 676a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe). Except as provided in § 676a.11(b) (relating to procedures for completion of each round of play), a wager may not be made, increased or withdrawn after the dealer has announced “no more bets.”

(d) The following wagers may be placed in the game of Go Fore It:

(1) A Front 9 Wager, which is required to participate in a round of play.

(2) A Back 9 Wager equal to the player's Front 9 Wager which is required to continue in the round of play after the player views his first to cards.

(3) An optional Skins Wager to compete against the total point count of the dealer's hand.

(4) A Gopher Wager that at least one of the player's four cards will contain an ace.

(e) A player may not wager on more than one player position at a Go Fore It table.

§ 676a.8. Procedure for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 676a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe by the dealer or by the automated card shuffling device.

(b) Prior to dealing the cards, the dealer shall announce “no more bets” and starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal one card at a time to each player who placed the required Front 9 Wager in accordance with § 676a.7(d)(1) (relating to wagers) until each player who placed the required Front 9 Wager and the dealer has four cards. The first two cards dealt to the player shall be placed in front of the player. The second two cards dealt to the player shall be dealt behind the front two cards and shall be the player's hole cards. Each card shall be removed from the dealing shoe with the hand

of the dealer that is the closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand.

(c) After two stacks of two cards have been dealt to each player and four cards to the dealer, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 676a.9. Procedure for dealing the cards from the hand.

(a) If the cards are dealt from the dealer's hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 676a.5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the stacked deck of cards in either hand. After the dealer has chosen the hand in which he will hold the cards, the dealer shall continue to use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(b) Prior to dealing the cards, the dealer shall announce “no more bets” and starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal one card at a time to each player who placed the required Front 9 Wager in accordance with § 676a.7(d)(1) (relating to wagers) until each player who placed the required Front 9 Wager and the dealer has four cards. The first two cards dealt to the player shall be placed in front of the player. The second two cards dealt to the player shall be dealt behind the front two cards and shall be the player's hole cards.

(c) After two stacks of two cards have been dealt to each player and four cards to the dealer, except as provided in subsection (d), the dealer shall remove the stub from the manual dealing shoe and place the stub in the discard rack without exposing the cards.

(d) If the automated card shuffling device does not count the number of cards in the deck after the completion of each shuffle and indicate whether 52 cards are present, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 676a.10. Procedures for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 676a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the dealer delivering any stacks of cards dispensed by the automated dealing shoe, the dealer shall announce “no more bets.”

(b) The dealer shall deliver the first stack of four cards dispensed by the automated dealing shoe face down to the player farthest to the dealer's left who has placed the required Front 9 Wager in accordance with § 676a.7(d)(1) (relating to wagers). The dealer shall then move the top two cards and place them face down behind the player's front two cards. The top two cards shall be the player's hole cards. Moving clockwise around the table, as the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall repeat the dealing procedure outlined above to each of the other players who has placed a Front 9 Wager in accordance with § 676a.7(d)(1). The dealer shall then deliver a stack of four cards face down as the dealer's hand.

(c) After each stack of four cards has been dispensed and delivered in accordance with subsection (b), the dealer shall remove the remaining cards from the automated dealing shoe and, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If the automated card shuffling device does not count the number of cards in the deck after the completion of each shuffle and indicate whether 52 cards are present, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 676a.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 676a.8, § 676a.9 or § 676a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine the player's closest two cards subject to the following limitations:

(1) Each player who wagers at a Go Fore It table shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

(2) Each player shall keep his cards in full view of the dealer at all times.

(b) After each player has examined his first two cards, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table ask each player if he wishes to make a Back 9 Wager in an amount equal to the player's Front 9 Wager or fold and forfeit the player's Front 9 Wager.

(c) After each player who placed a Front 9 Wager has either placed a Back 9 Wager on the designated area of the layout or forfeited his Front 9 Wager, the dealer shall collect all forfeited Front 9 Wagers and if the player:

(1) Did not place a Skins or Gopher Wager, collect the player's cards and place them face down in the discard rack.

(2) Placed a Gopher or Skins Wager, the dealer shall collect the player's four cards and place them face down under the player's Skins or Gopher Wagers until settled in accordance with subsection (d).

(d) The dealer shall then reveal the dealer's four cards and place them face up on the layout. After the dealer's cards are turned face up, the dealer shall, beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, complete the following applicable procedures in succession for each player:

(1) The dealer shall turn the four cards of each player who placed a Back 9, Skins or Gopher Wager face up on the layout.

(2) The dealer shall add together the point value of all four of the player's cards.

(3) For all players who placed Front 9 and Back 9 Wagers, if the total point value of all four cards:

(i) Is equal to or less than par, the player shall be paid out on a winning Front 9 Wager in accordance with § 676a.12(a) (relating to payout odds) and a winning Back 9 Wager in accordance with § 676a.12(b).

(ii) Is greater than par, the dealer shall collect the player's losing Front 9 and Back 9 Wagers.

(4) For all players who placed a Skins Wager, if the total point value of the player's hand:

(i) Is equal to or greater than the total point value of the dealer's hand, the dealer shall collect the player's losing Skins Wager.

(ii) Is less than the total point value of the dealer's hand, the dealer shall pay the winning Skins Wager in accordance with § 676a.12(c).

(5) For all players who placed a Gopher wager, if the player's four cards:

(i) Does not contain at least one ace, the dealer shall collect the player's losing Gopher Wager.

(ii) Contains at least one ace, the dealer shall pay the player's winning Gopher Wager in accordance with § 676a.12(d).

(e) After all wagers of the player have been settled, the dealer shall remove all remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

§ 676a.12. Payout odds.

(a) A certificate holder shall pay winning Front 9 Wagers at odds of 1 to 1.

(b) A certificate holder shall pay winning Back 9 Wagers in accordance with the following odds:

(c) A certificate holder shall pay winning Skins Wagers at odds of 1 to 1.

(d) A certificate holder shall pay winning Gopher Wagers at the odds in one of the following paytables selected by the certificate holder in its Rules Submission filed in accordance with § 601a.2 (relating to table games Rules Submissions):

§ 676a.13. Irregularities.

(a) A card that is found face up in the shoe or the deck while the cards are being dealt may not be used in that round of play and shall be placed in the discard rack. If more than one card is found face up in the shoe or the deck during the dealing of the cards, all hands shall be void, all wagers shall be returned to the players and the cards shall be reshuffled.

(b) A card drawn in error without its face being exposed shall be used as though it were the next card from the shoe or the deck.

(c) If any player or the dealer is dealt an incorrect number of cards, all hands shall be void, all wagers shall be returned to the players and the cards shall be reshuffled.

(d) If any of the dealer's cards or the player's hole cards are inadvertently exposed prior to each player having either folded or placed a Back 9 Wager as provided under § 676a.11 (relating to procedures for completion of each round of play), all hands shall be void, all wagers shall be returned to the players and the cards shall be reshuffled.

(e) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(f) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 677a.9. Procedure for dealing the cards from the hand.

(a) If the cards are dealt from the dealer's hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(b) Prior to dealing any cards and after all Ante, Odds, Trips Plus and Pocket Bonus Wagers have been placed, the dealer shall announce “no more bets.” The dealer shall then deal each card by holding the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout. (d) If an automated card shuffling device that counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards

§ 677a.10. Procedure for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 677a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the dealer delivering any stacks of cards dispensed from the automated dealing shoe, the dealer shall announce “no more bets.”

(b) The dealer shall then deliver the first stack of two cards dispensed by the automated dealing shoe face down to the player farthest to the dealer's left who has placed Ante and Odds Wagers in accordance with § 677a.7(d)(1) (relating to wagers). As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack of two cards face down to each of the other players who has placed Ante and Odds Wagers. The dealer shall then deliver a stack of two cards face down to the area designated for the dealer's cards.

(c) After each stack of two cards has been dispensed and delivered in accordance with subsection (b), the dealer shall remove the remaining cards from the automated dealing shoe and, following the procedures in § 677a.9(a)(2) (relating to procedure for dealing the cards from the hand), deal from his hand the five community cards in accordance with § 677a.11(c) and (e) (relating to procedure for completion of each round of play). After all five community cards have been dealt, the dealer shall, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(g) Notwithstanding the requirements in subsections (b) and (c), if a certificate holder is utilizing an automated dealing shoe which automatically reshuffles the cards, the five community

cards may be dispensed before the two cards are dispensed to each player and to the dealer. The community cards shall then be revealed in accordance with § 677a.11(c), (e) and (f).

§ 677a.11. Procedure for completion of each round of play.

(g) Once all remaining players have either placed a Raise Wager or folded, the dealer shall turn his two cards face up on the layout. The dealer shall then select five cards using the dealer's two cards and the five community cards to form the highest ranking five-card Poker hand. After the dealer's cards are turned face up, the dealer shall, beginning with the player

(f) Notwithstanding the payout odds in subsections (a) and (b), if specified in its Rules Submission form filed in accordance with § 601a.2, the certificate holder may establish an

aggregate payout limit per player per round of play which may not be less than \$50,000 or the maximum amount that one patron could win per round when betting the minimum wager, whichever is greater. (b) A card drawn in error without its face being exposed shall be used as though it were the next card from the shoe or the deck.

(c) If any player, the dealer or the area designated for the placement of the community cards is dealt an incorrect number of cards, all hands shall be void, all wagers shall be returned to the players and the cards shall be reshuffled.

(d) If either of the cards dealt to the dealer in World Poker Tour Heads-Up Hold 'Em is inadvertently exposed prior to each player having either folded or placed a Raise Wager as provided for under § 677a.11 (relating to procedure for completion of each round of play), all hands shall be void and all Ante, Odds and Raise Wagers shall be returned to the players and the cards shall be reshuffled. Notwithstanding the foregoing, if a player has placed a Pocket Bonus or Trips Plus Wager, the wager shall be settled in accordance with the payout odds in § 677a.12(d) and (e).

(g) If an automated card shuffling device or automated dealing shoe malfunctions and cannot be used, the automated card shuffling device or automated dealing shoe must be covered or have a sign indicating that the automated card shuffling device or automated dealing shoe is out of order placed on the device before any other method of shuffling or dealing may be utilized at that table.

(A) A two-card, three-card or four-card flush, a player may place a Raise Wager equal to the player's Ante Wager.

(B) A five-card flush, a player may place a Raise Wager up to two times the amount of the player's Ante Wager.

(C) A six-card or seven-card flush, a player may place a Raise Wager up to three times the amount of the player's Ante Wager.

(c) If a certificate holder offers the Progressive Jackpot Wager in accordance with § 678a.7(d)(4), the High Card Flush table must have a progressive table game system, in accordance with § 605a.7 (relating to progressive table games), for the placement of the Progressive Jackpot Wagers. If the certificate holder is offering the Progressive Jackpot Wager on multiple linked tables or games in the same licensed facility, the progressive table game system must comply with the requirements in § 605a.8 (relating to linked progressive table games). The progressive table game system must include:

(1) A wagering device at each betting position that acknowledges or accepts the placement of the Progressive Jackpot Wager.

(d) Each High Card Flush table must have a drop box and a tip box attached on the same side of the table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g). The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(e) Each High Card Flush table must have a discard rack securely attached to the top of the dealer's side of the table.

§ 678a.3. Cards; number of decks.

(a) Except as provided in subsection (b), High Card Flush shall be played with one deck of cards that are identical in appearance and two cover cards.

(b) If an automated card shuffling device is utilized, High Card Flush may be played with two decks of cards in accordance with the following requirements:

(1) The cards in each deck must be of the same design. The backs of the cards in one deck must be of a different color than the cards included in the other deck.

(2) One deck of cards shall be shuffled and stored in the automated card shuffling device while the other deck is being used to play the game.

(3) Both decks of cards shall be continuously alternated in and out of play, with each deck being used for every other round of play.

(4) The cards from only one deck shall be placed in the discard rack at any given time.

(c) The decks of cards used in High Card Flush shall be changed at least every:

(1) Four hours if the cards are dealt by hand.

(2) Eight hours if the cards are dealt from a manual or automated dealing shoe.

§ 678a.4. Opening of the table for gaming.

(a) After receiving one or more decks of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread out in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 678a.5 (relating to shuffle and cut of the cards).

(d) If an automated card shuffling device is utilized and two decks of cards are received at the table, each deck of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c).

(e) If the decks of cards received at the table are preinspected and preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

§ 678a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each round of play has been completed or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or automated shuffling device shall place the deck of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) If an automated card shuffling device that counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present is being used, and the device reveals that an incorrect number of cards are present, the deck shall be removed from the table.

(c) After the cards have been shuffled and stacked, the dealer shall:

(1) If the cards were shuffled using an automated card shuffling device, deal the cards in accordance with § 678a.8, § 678a.9 or § 678a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedure for dealing the cards from an automated dealing shoe).

(2) If the cards were shuffled manually or were preshuffled, cut the cards in accordance with subsection (d).

(d) If a cut of the cards is required, the dealer shall place the cover card in the stack at least ten cards in from the top of the stack. Once the cover card has been inserted, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before any cards have been dealt, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game.

(f) If there is no gaming activity at a High Card Flush table which is open for gaming, the cards shall be spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the procedures in § 678a.4(c) (relating to opening of the table for gaming) and this section shall be completed.

(g) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (d)—(f) do not apply.

§ 678a.6. High Card Flush rankings.

(a) The rank of the cards used in High Card Flush, in order of highest to lowest rank, shall be: ace, king, queen, jack, 10, 9, 8, 7, 6, 5, 4, 3 and 2. All suits shall be equal in rank.

(b) For purposes of the Ante, Raise and Flush Bonus Wagers, the permissible hands at the game of High Card Flush, in order of highest to lowest rank, shall be:

(1) A seven-card flush, which is a hand consisting of seven cards of the same suit in any order.

(2) A six-card flush, which is a hand consisting of six cards of the same suit in any order.

(3) A five-card flush, which is a hand consisting of five cards of the same suit in any order.

(4) A four-card flush, which is a hand consisting of four cards of the same suit in any order.

(5) A three-card flush, which is a hand consisting of three cards of the same suit in any order.

(6) A two-card flush, which is a hand consisting of two cards of the same suit in any order.

(c) When comparing two hands that are of identical rank under subsection (b), or that contain none of the hands in subsection (b), the hand that contains the highest ranking card under subsection (a), which is not contained in the other hand, shall be considered the higher ranking hand. If the hands are of identical rank after the application of this subsection, the hands shall be considered a tie.

(d) For purposes of the optional Straight Flush Bonus and the Progressive Jackpot Wagers, the permissible hands shall be:

(1) A seven-card straight flush, which is a hand consisting of seven cards of the same suit in consecutive rank.

(2) A six-card straight flush, which is a hand consisting of six cards of the same suit in consecutive rank.

(3) A five-card straight flush, which is a hand consisting of five cards of the same suit in consecutive rank.

(4) A four-card straight flush, which is a hand consisting of four cards of the same suit in consecutive rank.

(5) A three-card straight flush, if included in the payout table selected by the certificate holder, which is a hand consisting of three cards of the same suit in consecutive rank.

§ 678a.7. Wagers.

(a) Wagers at High Card Flush shall be made by placing value chips, plaques or other Board-approved table game wagering instruments on the appropriate areas of the table layout. Verbal wagers accompanied by cash may not be accepted.

(b) Only players who are seated at the High Card Flush table may place a wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and may be treated as losing wagers.

(c) All Ante, Flush Bonus, Straight Flush Bonus and Progressive Jackpot Wagers shall be placed prior to the dealer announcing “no more bets” in accordance with the dealing procedure in § 678a.8, § 678a.9 or § 678a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedure for dealing the cards from an automated dealing shoe). Except as provided in § 678a.11(b) (relating to procedure for completion of each round of play), a wager may not be made, increased or withdrawn after the dealer has announced “no more bets.”

(d) The following wagers may be placed in the game of High Card Flush:

(1) A player shall compete against the dealer's seven-card hand by placing an Ante Wager then a Raise Wager in accordance with § 678a.11(b).

(2) If specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), a certificate holder may offer to each player at a High Card Flush table the option to make an additional Flush Bonus Wager that the player's seven cards will form a four-card flush or higher as described in § 678a.6(b) (relating to High Card Flush rankings). A Flush Bonus Wager does not have a bearing on any other wager made by the player.

(3) If specified in its Rules Submission under § 601a.2, a certificate holder may offer to each player at a High Card Flush table the option to make an additional Straight Flush Bonus Wager that the player's seven cards will form a three-card straight flush or higher as described in § 678a.6(d). A Straight Flush Bonus Wager does not have a bearing on any other wager made by the player.

(4) If specified in its Rules Submission under § 601a.2, certificate holder may offer to each player at a High Card Flush table the option to make an additional Progressive Jackpot Wager that the player's seven cards will form a three-card straight flush or a four-card straight flush or higher, depending on the payout table selected by the certificate holder. After placing the Ante Wager, a player may make the additional Progressive Jackpot Wager by placing a value chip onto the progressive wagering device designated for that player. Each player shall be responsible for verifying that the player's respective Progressive Payout Wager has been accepted.

(e) The certificate holder shall specify in its Rules Submission under § 601a.2 the number of adjacent boxes on which a player may place a wager in one round of play.

§ 678a.8. Procedure for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 678a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe either by the dealer or by the automated card shuffling device.

(b) Prior to dealing the cards and after all Ante Wagers and optional wagers have been placed, the dealer shall announce “no more bets” and, if the Progressive Jackpot Wager is being offered, use the progressive table game system to prevent the placement of additional Progressive Jackpot Wagers. If Progressive Jackpot Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Jackpot Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(c) Each card shall be removed from the dealing shoe with the hand of the dealer that is the closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand.

(d) The dealer shall, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal one card at a time, face down, to each player who placed an Ante Wager in accordance with § 678a.7(d)(1) (relating to wagers) and to the dealer, under a cover card, until each player who placed an Ante Wager and the dealer have seven cards.

(e) After seven cards have been dealt to each player and to the area designated for the placement of the dealer's hand, the dealer shall remove the stub from the manual dealing shoe

and, except as provided in subsection (f), place the stub in the discard rack without exposing the cards.

(f) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(g) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(h) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 678a.9. Procedure for dealing the cards from the hand.

(a) If the cards are dealt from the dealer's hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 678a.5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the stacked deck of cards in either hand. After the dealer has chosen the hand in which he will hold the cards, the dealer shall continue to use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(b) The dealer shall announce “no more bets” and, if the Progressive Jackpot Wager is being offered, use the progressive table game system to prevent the placement of any additional Progressive Jackpot Wagers. If any Progressive Jackpot Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Jackpot Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container. The dealer shall then deal each card by holding the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout. The dealer shall, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal one card at a time to each player who placed an Ante Wager in accordance with § 678a.7(d)(1) (relating to wagers) and to the dealer, under a cover card, until each player who placed an Ante Wager and the dealer have seven cards.

(c) After seven cards have been dealt to each player and to the area designated for the placement of the dealer's hand, the dealer shall, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 678a.10. Procedure for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 678a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce “no more bets” and, if the Progressive Jackpot Wager is being offered, use the progressive table game system to prevent the placement of additional Progressive Jackpot Wagers. If Progressive Jackpot Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Jackpot Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall deliver the first stack of seven cards dispensed by the automated dealing shoe face down to the player farthest to the dealer's left who has placed an Ante Wager in accordance with § 678a.7(d)(1) (relating to wagers). As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack of seven cards face down to each of the other players who has placed an Ante Wager. The dealer shall then deliver a stack of seven cards face down under a cover card to the area designated for the dealer's cards.

(c) After each stack of seven cards has been dispensed and delivered in accordance with subsection (b), the dealer shall remove the remaining cards from the automated dealing shoe and, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 678a.11. Procedure for completion of each round of play.

(a) After the dealing procedures required under § 678a.8, § 678a.9 or § 678a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedure for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards subject to the following limitations:

(1) Each player who wagers at High Card Flush shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

(2) Each player shall keep his cards in full view of the dealer at all times.

(b) After each player has examined his cards, beginning with the player farthest to the dealer's left and moving clockwise around the table, the dealer shall ask each player if he wishes to fold or place a Raise Wager. If a player has:

(1) A two-card, three-card or four-card flush, the player may place a Raise Wager equal to the player's Ante Wager.

(2) A five-card flush, a player may place a Raise Wager up to two times the amount of the player's Ante Wager.

(3) A six-card or seven-card flush, a player may place a Raise Wager up to three times the amount of the player's Ante Wager.

(c) If a player:

(1) Places a Raise Wager, the wager shall be placed in the area designated for the Raise Wager.

(2) Folds, the player's Ante Wager shall be collected by the dealer and placed in the table inventory container. If the player:

(i) Has also placed a Flush Bonus, Straight Flush Bonus or Progressive Jackpot Wager, the dealer shall place the cards of the player face down underneath the optional wagers pending their resolution at the conclusion of the round of play.

(ii) Has not placed a Flush Bonus, Straight Flush Bonus or Progressive Jackpot Wager, the dealer shall immediately collect the player's cards and place them in the discard rack.

(d) After each player has either placed a Raise Wager or folded, the dealer shall turn his seven cards face up on the layout. The dealer shall then form the highest ranking flush. If the dealer's hand:

(1) Does not contain at least a three-card flush, nine high, beginning with the player farthest to the dealer's right who has placed a Raise Wager and continuing around the table in a counterclockwise direction, the dealer shall pay each player's winning Ante Wager in accordance with § 678a.12(a) (relating to payout odds; payout limitation) and return the player's Raise Wager. If a player:

(i) Also placed a Flush Bonus, Straight Flush Bonus or Progressive Jackpot Wager, beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, the dealer shall turn the cards of each player face up on the layout and form the highest ranking flush. The dealer shall then settle the player's Flush Bonus, Straight Flush Bonus or Progressive Jackpot Wager in accordance with subsection (e).

(ii) Did not place a Flush Bonus, Straight Flush Bonus or Progressive Jackpot Wager, the dealer shall collect the player's cards and place them in the discard rack.

(2) Contains at least a three-card flush, nine high, beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, the dealer shall then complete the following applicable procedures in succession for each player:

(i) The dealer shall turn the cards of each player face up on the layout and form the highest ranking flush.

(ii) The dealer shall then compare the rank of the dealer's hand to the rank of the player's hand. If the player's hand:

(A) Is higher in rank than the dealer's hand, the player's Ante and Raise Wagers shall be paid out at the odds in § 678a.12(a).

(B) Is equal in rank to the dealer's hand, the player's Ante and Raise Wagers shall push and be returned to the player.

(C) Is lower in rank to the dealer's hand, the player's Ante and Raise Wagers shall lose and be collected.

(e) After settling the player's Ante and Raise Wagers, the dealer shall settle the player's Flush Bonus, Straight Flush Bonus and Progressive Jackpot Wagers as follows:

(1) For the Flush Bonus Wager, if a player's hand:

(i) Contains a three-card flush or less, the dealer shall collect the player's losing Flush Bonus Wager.

(ii) Contains a four-card flush or better as provided in § 678a.6(b) (relating to High Card Flush rankings), the dealer shall pay the winning Flush Bonus Wager in accordance with § 678a.12(b).

(2) For the Straight Flush Bonus Wager, after settling the player's Ante, Raise and Flush Bonus Wagers, if applicable, the dealer shall configure the player's cards so as to form the highest ranking straight flush as provided in § 678a.6(d). If a player's hand:

(i) Contains a two-card straight flush or less, the dealer shall collect the player's losing Straight Flush Bonus Wager.

(ii) Contains a three-card straight flush or higher, as provided in § 678a.6(d), the dealer shall pay the winning Straight Flush Bonus Wager in accordance with § 678a.12(c).

(3) For the Progressive Jackpot Wager, after configuring the player's cards so as to form the highest ranking straight flush, if the player has a three-card straight flush or a four-card straight flush, depending on the payable selected by the certificate holder, or higher and has won a progressive payout, the dealer shall:

If a player has won a progressive payout that is not being paid from the table inventory container, the cards of that player must remain on the table until the necessary documentation has been completed.

(f) After all wagers of the player have been settled, the dealer shall remove all remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

Notwithstanding the forgoing, any Flush Bonus, Straight Flush Bonus and Progressive Jackpot Wagers shall be settled in accordance with § 678a.11(e).

§ 679a.2. Three Card Prime table physical characteristics.

(a) Three Card Prime shall be played at a table having betting positions for no more than six players on one side of the table and a place for the dealer on the opposite side of the table.

(b) The layout for a Three Card Prime table shall be submitted to the Bureau of Gaming Operations in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment) and contain, at a minimum:

(1) The name or logo of the certificate holder.

(2) Two separate betting areas designated for the placement of Ante and Play Wagers for each player.

(3) If the certificate holder offers the optional Prime Wager authorized under § 679a.7(d)(2) (relating to wagers), the Pair Bonus Wager authorized under § 679a.7(d)(3) or the All-Six Bonus Wager authorized under § 679a.7(d)(4), a separate area designated for the placement of each of the wagers for each player.

(4) Inscriptions that advise patrons of the payout odds for all permissible wagers offered by the certificate holder and the phrase “Dealer Qualifies with a Queen or Ante Pushes and Play Wins” and “Player wins ties.” If payout odds are not inscribed on the layout, a sign indicating the payout odds for all permissible wagers shall be posted at each Three Card Prime table.

(5) If the certificate holder establishes a payout limit per player, per round of play, as authorized under § 679a.12(h) (relating to payout odds; Bad Beat Bonus), inscriptions that advise patrons of the payout limit. If the payout limit is not inscribed on the layout, a sign identifying the payout limit shall be posted at each Three Card Prime table.

(c) Each Three Card Prime table must have a drop box and a tip box attached on the same side of the table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g). The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(d) Each Three Card Prime table must have a discard rack securely attached to the top of the dealer's side of the table.

§ 679a.3. Cards; number of decks.

(a) Except as provided in subsection (b), Three Card Prime shall be played with one deck of cards that are identical in appearance and one cover card.

(b) If an automated card shuffling device is utilized, Three Card Prime may be played with two decks of cards in accordance with the following requirements:

(1) The cards in each deck must be of the same design. The backs of the cards in one deck must be of a different color than the cards included in the other deck.

(2) One deck of cards shall be shuffled and stored in the automated card shuffling device while the other deck is being used to play the game.

(3) Both decks are continuously alternated in and out of play, with each deck being used for every other round of play.

(4) The cards from only one deck are placed in the discard rack at any given time.

(c) The decks of cards used in Three Card Prime shall be changed at least every:

(1) Four hours if the cards are dealt by hand.

(2) Eight hours if the cards are dealt from a manual or automated dealing shoe.

§ 679a.4. Opening of the table for gaming.

(a) After receiving one or more decks of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 679a.5 (relating to shuffle and cut of the cards).

(d) If an automated card shuffling device is utilized and two decks of cards are received at the table, each deck of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c).

(e) If the decks of cards received at the table are preinspected and reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

§ 679a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each round of play has been completed or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or automated shuffling device shall place the deck of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) If an automated card shuffling device is being used, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, and the device reveals that an incorrect number of cards are present, the deck shall be removed from the table.

(c) After the cards have been shuffled and stacked, the dealer shall:

(1) If the cards were shuffled using an automated card shuffling device, deal the cards in accordance with § 679a.8, § 679a.9 or § 679a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe).

(2) If the cards were shuffled manually or were reshuffled, cut the cards in accordance with subsection (d).

(d) If a cut of the cards is required, the dealer shall place the cover card in the stack at least ten cards in from the top of the stack. Once the cover card has been inserted, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before any cards have been dealt, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game.

(f) If there is no gaming activity at a Three Card Prime table which is open for gaming, the cards shall be removed from the dealing shoe and discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the procedures in § 679a.4(c) (relating to opening of the table for gaming) and this section shall be completed.

(g) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (d)—(f) do not apply.

§ 679a.6. Three Card Prime rankings.

(a) The rank of the cards used in Three Card Prime, in order of highest to lowest rank, shall be: ace, king, queen, jack, 10, 9, 8, 7, 6, 5, 4, 3 and 2. Notwithstanding the foregoing, an ace may be used to complete a straight flush or a straight with a 2 and 3 but may not be combined with any other sequence of cards (for example, king, ace and 2). All suits shall be equal in rank.

(b) The permissible Poker hands in the game of Three Card Prime, in order of highest to lowest rank, shall be:

(1) A mini-royal, which is a hand consisting of an ace, king and queen of the same suit.

(6) A pair, which is a hand consisting of two cards of the same rank, with two aces being the highest ranking pair and two 2s being the lowest ranking pair.

(c) When comparing two Poker hands that are of identical rank under subsection (b), or that contain none of the hands in subsection (b), the hand that contains the highest ranking card under subsection (a), which is not contained in the other hand, shall be considered the higher ranking hand. If the hands are of equal rank after the application of this section, the hands shall be considered a tie.

(d) If a certificate holder offers the All-Six Bonus Wager, the rank of the hands shall be:

(1) A six-card royal flush, which is a hand consisting of an ace, king, queen, jack, 10 and 9 of the same suit.

§ 679a.7. Wagers.

(a) Wagers at Three Card Prime shall be made by placing value chips, plaques or other Board-approved table game wagering instruments on the appropriate areas of the table layout. Verbal wagers accompanied by cash may not be accepted.

(b) Only players who are seated at a Three Card Prime table may wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and may be treated as losing wagers.

(c) All wagers, except the Play Wager, shall be placed prior to the dealer announcing “no more bets” in accordance with the dealing procedures in § 679a.8, § 679a.9 or § 679a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe). Except as provided in § 679a.11(b) (relating to procedures for completion of each round of play), a wager may not be made, increased or withdrawn after the dealer has announced “no more bets.”

(d) The following wagers may be placed in the game of Three Card Prime:

(1) A player may compete solely against the dealer's Three Card Prime hand by placing an Ante Wager then a Play Wager, in an amount equal to the player's Ante Wager, in accordance with § 679a.11(b).

(2) If specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), a certificate holder may offer to each player at a Three Card Prime table the option to make an additional Prime Wager which shall win if all three of player's cards are of the same color.

(3) If specified in its Rules Submission under § 601a.2, a certificate holder may offer to each player at a Three Card Prime table the option to make an additional Pair Bonus Wager, which shall win if the player's hand contains a pair or better as provided in § 679a.6(b) (relating to Three Card Prime rankings).

(4) If specified in its Rules Submission under § 601a.2, a certificate holder may offer to each player at a Three Card Prime table the option to make an additional All-Six Bonus Wager, which shall win if the player's three cards and the dealer's three cards form a three-of-a-kind or better as provided in § 679a.6(d).

(e) A certificate holder shall specify in its Rules Submission under § 601a.2 the number of adjacent boxes on which a player may place a wager in one round of play.

§ 679a.8. Procedures for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 679a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe by the dealer or by an automated card shuffling device.

(b) Prior to dealing any cards, the dealer shall announce “no more bets.” To deal the cards, the dealer shall remove each card from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and place it on the appropriate area of the layout with the opposite hand.

(c) Starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, the dealer shall deal one card at a time to each player who has placed an Ante Wager in accordance with § 679a.7(d)(1) (relating to wagers) and to the dealer until each player who placed a wager and the dealer have three cards. If a player has placed a Pair Bonus Wager, the dealer shall deal an additional card to the area of the layout for the player's fourth card. All cards shall be dealt face down.

(d) After three cards have been dealt to each player and the dealer, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (e), place the stub in the discard rack without exposing the cards.

(e) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(f) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(g) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(h) If specified in its Rules Submission form required under § 601a.2 (relating to table games Rules Submissions), a certificate holder may deal one community card to be used by all players who placed a Pair Bonus Wager authorized under § 679a.7(d)(3) instead of dealing each player who placed a Pair Bonus Wager an additional card as provided in subsection (c). If the certificate holder elects to utilize one Pair Bonus community card, the community card shall be dealt after each player who placed an Ante Wager and the dealer have three cards. The community card shall be dealt to the area on the table layout designated for the placement of the Pair Bonus community card.

§ 679a.9. Procedures for dealing the cards from the hand.

(a) If the cards are dealt from the dealer's hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 679a.5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the stacked deck of cards in either hand. After the dealer has chosen the hand in which to hold the cards, the dealer shall continue to use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing any cards, the dealer shall announce “no more bets.”

(b) To deal the cards, the dealer shall hold the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout. The dealer shall, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal one card at a time to each player who has placed an Ante Wager in accordance with § 679a.7(d)(1) (relating to wagers) and to the dealer until each player who placed a wager and the dealer have three cards. If a player has placed a Pair Bonus Wager, the dealer shall deal an additional card to the area of the layout for the player's fourth card. All cards shall be dealt face down.

(c) After three cards have been dealt to each player and the dealer, the dealer shall, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device that counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(g) If specified in its Rules Submission form required under § 601a.2 (relating to table games Rules Submissions), a certificate holder may deal one community card to be used by all players who placed a Pair Bonus Wager authorized under § 679a.7(d)(3), instead of dealing each player who placed a Pair Bonus Wager an additional card as provided in subsection (b). If the certificate holder elects to utilize one Pair Bonus community card, the community card shall be dealt after each player who placed an Ante Wager and the dealer have three cards. The community card shall be dealt to the area on the table layout designated for the placement of the Pair Bonus community card.

§ 679a.10. Procedures for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 679a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce “no more bets.”

(b) The dealer shall deliver the first stack of three cards dispensed by the automated dealing shoe face down to the player farthest to the dealer's left who has placed an Ante Wager in accordance with § 679a.7(d)(1) (relating to wagers). As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other players who has placed an Ante Wager. The dealer shall then deliver a stack of three cards face down to the area designated for the placement of the dealer's cards.

(c) After each stack of three cards has been dispensed and delivered in accordance with subsection (b), the dealer shall remove the stub from the automated dealing shoe and, except as provided in subsection (d), place the cards in the discard rack without exposing the cards. If a player has placed a Pair Bonus Wager, after removing the stub from the automated dealing shoe, the dealer shall deal an additional card face down to the area of the layout for the player's fourth card. Except as provided in subsection (d), the dealer shall then place the cards in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(g) Notwithstanding the requirements in subsections (b) and (c), if a certificate holder is utilizing an automated dealing shoe that automatically reshuffles the cards, the dealer may distribute four cards to each player and the dealer provided that as the cards are dispensed and distributed to each player:

(1) The top card of a stack dealt to a player who placed a Pair Bonus Wager shall be moved off the top of the stack and placed face down on the table layout until it is revealed by the dealer in accordance with § 679a.11(d)(2) (relating to procedures for completion of each round of play).

(2) The top card of a stack dealt to a player who did not place a Pair Bonus Wager and to the dealer shall be collected and placed face down in the discard rack.

The community card shall be dealt to the area on the table layout designated for the placement of the Pair Bonus community card.

§ 679a.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 679a.8, § 679a.9 or § 679a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards subject to the following limitations:

(2) Each player shall keep his three cards in full view of the dealer at all times.

(b) After each player has examined his cards, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player who placed an Ante Wager if he wishes to make a Play Wager in an amount equal to the player's Ante Wager or

If a player has placed an Ante Wager and an optional Prime, Pair Bonus or All-Six Bonus Wager but does not make a Play Wager, the player shall forfeit the Ante Wager but does not forfeit the Prime, Pair Bonus or All-Six Bonus Wager.

(c) After each player who has placed an Ante Wager has either placed a Play Wager on the designated area of the layout or forfeited his Ante Wager, the dealer shall collect all forfeited wagers and associated cards, except for the cards of those players who placed an optional Prime, Pair Bonus or All-Six Bonus Wager, and place the cards in the discard rack. The dealer shall then reveal the dealer's cards and place the cards so as to form the highest possible ranking Three Card Prime hand. (1) The dealer shall turn the three cards of each player face up on the layout.

(2) The dealer shall examine the cards of the player and form the highest possible ranking Three Card Prime hand for each player.

(d) After settling the player's Ante and Play Wagers, the dealer shall settle any optional wagers as follows:

(e) After all wagers of the player have been settled, the dealer shall remove any remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

(b) If an automated card shuffling device is utilized, Saigon 5 Card may be played with two decks of cards in accordance with the following requirements:

(1) The cards in each deck must be of the same design. The backs of the cards in one deck must be of a different color than the cards included in the other deck.

(e) If the decks of cards received at the table are preinspected and reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

§ 680a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each round of play has been completed or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) If an automated card shuffling device is being used, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 53 cards are present, and the device reveals that an incorrect number of cards are present, the deck shall be removed from the table.

(c) After the cards have been shuffled and stacked, the dealer shall:

(f) If the count of the stub indicates that 53 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(g) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 53 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. All cards shall be dealt face down.

(c) After five cards have been dealt to each player and the dealer, the dealer shall, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device that counts the number of cards in the deck after the completion of each shuffle and indicates whether 53 cards are present is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct

number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 53 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 53 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 680a.10. Procedures for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 680a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce “no more bets.”

(b) The dealer shall deliver the first stack of five cards dispensed by the automated dealing shoe face down to the player farthest to the dealer's left who has placed an Ante Wager in accordance with § 680a.7(d)(1) (relating to wagers). As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other players who has placed an Ante Wager. The dealer shall then deliver a stack of five cards face down to the area designated for the placement of the dealer's cards.

(c) After each stack of five cards has been dispensed and delivered in accordance with subsection (b), the dealer shall remove the stub from the automated dealing shoe and, except as provided in subsection (d), place the cards in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 53 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 53 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 53 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards

were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 680a.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 680a.8, § 680a.9 or § 680a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards subject to the following limitations:

(1) Each player who wagers at Saigon 5 Card shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

(2) Each player shall keep his five cards in full view of the dealer at all times.

(b) Each player shall examine his cards and shall set them into two hands. If any three of the player's five cards:

(1) Have a combined total value of 10, 20 or 30, the player's hand qualifies and the player shall set those three cards as the player's three-card hand. The remaining two cards shall be set as the player's two-card showdown hand. For example, if a player's hand contains a joker, 8, 6, 5 and 2, the player's three-card hand would contain the joker (used as a 9 value card), the 5 and the 6 for a total value of 20, which would qualify, and the 8 and 2 would compose the player's showdown hand with a Point Count of 10.

(2) Does not have a combined total value of 10, 20 or 30, the player's hand does not qualify and the player may place any three cards as the player's three-card hand and the remaining two cards in the player's two-card showdown hand.

(c) After each player has set his two hands, the dealer shall then reveal and arrange the dealer's cards. If any three of the dealer's five cards:

(1) Have a combined total value of 10, 20 or 30, the dealer's hand qualifies and the dealer shall set those three cards as the three-card hand. The remaining two cards shall be set as the dealer's two-card showdown hand.

(2) Does not have a combined total value of 10, 20 or 30, the dealer's hand does not qualify.

(d) After the dealer's cards are turned face up and set, the dealer shall, beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, complete the following applicable procedures in succession for each player. The dealer shall turn the player's three-card hand face up on the layout and compare the dealer's three-card hand to the player's three-card hand. If the dealer's three-card hand:

(1) Does not qualify and the player's three-card hand:

(i) Does not qualify, the dealer shall return the player's Ante Wager.

(ii) Qualifies, the dealer shall reveal the player's showdown hand. If the player's two-card showdown hand:

(A) Has a Point Count of 1—4 or 6—10, the dealer shall pay the winning Ante Wager in accordance with § 680a.12(a) (relating to payout odds; payout limitation).

(B) Has a Point Count of 5, the dealer shall pay the winning Ante Wager in accordance with § 680a.12(b).

(2) Qualifies, and the player's three-card hand:

(i) Does not qualify, the dealer shall collect the player's losing Ante Wager.

(ii) Qualifies, the dealer shall reveal the player's showdown hand and compare it to the dealer's showdown hand. If the dealer's showdown hand:

(A) Is higher in Point Count than the Point Count of the player's showdown hand, the dealer shall collect the player's losing Ante Wager.

(B) Is lower in Point Count than the Point Count of the player's showdown hand, the dealer shall pay the winning Ante Wager in accordance with § 680a.12(a) if the player's showdown hand had a Point Count of 1—4 or 6—10 and in accordance with § 680a.12(b) if the player's showdown hand had a Point Count of 5.

(C) Is equal in Point Count with the Point Count of the player's showdown hand, the dealer shall return the player's Ante Wager.

(e) After settling the player's Ante Wager, the dealer shall settle any optional Bonus Wager by reconfiguring the player's five cards to form the highest ranking Poker hand. If the player's hand:

(1) Does not contain two pair or better, as provided in § 680a.6(c) (relating to Saigon 5 Card rankings), the dealer shall collect the losing Bonus Wager.

(2) Contains two pair or better, the dealer shall pay the winning Bonus Wager in accordance with § 680a.12(c).

(f) After all wagers of the player have been settled, the dealer shall remove any remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

§ 680a.12. Payout odds; payout limitation.

(a) A certificate holder shall pay winning Ante Wagers at odds of 1 to 1 if the player's showdown hand had a Point Count of 1—4 or 6—10.

(b) A certificate holder shall pay winning Ante Wagers at odds of 1 to 2 if the player's showdown hand had a Point Count of 5.

(c) A certificate holder shall pay out winning Bonus Wagers as provided in the following payout table:

Hand	Paytable A
Five aces	5,000 to 1
Royal flush—no joker	1,000 to 1
Royal flush—with a joker	250 to 1

Full house	20 to 1
Flush	15 to 1
Straight	12 to 1
Three-of-a-kind	10 to 1
Two pair	8 to 1

(d) Notwithstanding the payout odds in subsections (a) and (b), if specified in its Rules Submission form filed in accordance with § 601a.2 (relating to table games Rules Submissions), the certificate holder may establish an aggregate payout limit per player per round of play which may not be less than \$50,000 or the maximum amount that one patron could win per round when betting the minimum wager, whichever is greater. Any maximum payout limit established by the certificate holder must apply only to payouts of Ante Wagers under subsections (a) and (b) but does not apply to payouts for Bonus Wagers under subsection (c).

§ 680a.13. Irregularities.

(a) A card that is found face up in the shoe or the deck while the cards are being dealt may not be used in that round of play and shall be placed in the discard rack. If more than one card is found face up in the shoe or the deck during the dealing of the cards, all hands shall be void, all wagers shall be returned to the players and the cards shall be reshuffled.

(b) A card drawn in error without its face being exposed shall be used as though it were the next card from the shoe or the deck.

(c) If a player or the dealer is dealt an incorrect number of cards, all hands shall be void, all wagers shall be returned to the players and the cards shall be reshuffled.

(d) If an automated card shuffling device is being used and the device jams, stops shuffling during a shuffle or fails to complete a shuffle cycle, the cards shall be reshuffled.

(e) If an automated dealing shoe is being used and the device jams, stops dealing cards or fails to deal all cards during a round of play, the round of play shall be void, all wagers shall be returned to the players and the cards shall be removed from the device and reshuffled with any cards already dealt.

(f) If an automated card shuffling device or automated dealing shoe malfunctions and cannot be used, the automated card shuffling device or automated dealing shoe must be covered or have a sign indicating that the automated card shuffling device or automated dealing shoe is out of order placed on the device before any other method of shuffling or dealing may be utilized at that table.

(d) Each 21 Baccarat table must have a discard rack securely attached to the top of the dealer's side of the table.

§ 681a.3. Cards; number of decks; value of cards.

(a) 21 Baccarat shall be played with four or eight decks of cards.

(b) If an automated card shuffling device is utilized, other than a continuous shuffler, 21 Baccarat shall be played with two batches of four or eight decks of cards in accordance with the following requirements:

(1) An equal number of decks shall be included in each batch.

(2) The cards in each batch must be of the same design but the backs of the cards in one batch must be of a different color than the cards in the other batch.

(3) One batch of cards shall be shuffled and stored in the automated card shuffling device while the other batch is being used to play the game.

(4) Both batches of cards shall be continuously alternated in and out of play, with each batch being used for every other dealing shoe.

(5) The cards from only one batch shall be placed in the discard rack at any given time.

(c) The decks of cards opened for use at a 21 Baccarat table shall be changed at least once every 24 hours.

(d) The value of the cards shall be as follows:

(1) Any card from 2 to 10 shall have its face value.

(2) Any jack, queen or king shall have a value of 10.

(3) An ace shall have a value of 11 unless that value would give the Player's Hand or Banker's Hand a score in excess of 21, in which case the ace shall have a value of 1.

(e) For purposes of the Bonus Wager, the hands eligible for a payout shall be:

(1) Three 7s, which is a hand containing three 7s.

(2) A three-of-a-kind, which is a hand containing three cards of the same rank.

(3) A three-card straight, which is a hand with three cards in consecutive rank regardless of suit. For example: a 5, 7 and 6.

(5) A pair, which is a hand containing two cards of the same rank regardless of suit (such as two 10s or two queens), provided that only the initial two cards dealt to the hand shall be considered for purposes of a payout for a pair. For example, if a player receives a 5 and a 9 in the first two cards, then receives another 5, the player would not be eligible for the payout.

§ 681a.4. Opening of the table for gaming.

(a) After receiving one or more batches of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 681a.5 (relating to shuffle and cut of the cards).

(d) If an automated shuffling device is utilized, other than a continuous shuffler, all the decks in one batch of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c) separate from the decks in the other batch of cards.

(e) If the batches of cards received at the table are preinspected and reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

§ 681a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each shoe of cards is dealt or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or device shall place the decks of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) After the cards have been shuffled, the dealer shall offer the stack of cards, with the backs facing away from the dealer, to the players to be cut. The dealer shall begin with the player seated in the highest number position at the table and, working clockwise around the table, offer the stack to each player until a player accepts the cut. If a player does not accept the cut, the dealer shall cut the cards.

(c) The cards shall be cut by placing a cover card in the stack at least ten cards in from the top or the bottom of the stack.

(d) Once the cover card has been inserted into the stack, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The dealer shall then insert the second cover card in a position at least ten cards above the bottom of the stack.

(e) After the cards have been cut and before the cards have been placed in the dealing shoe, a floorperson or above may require the cards to be reshuffled or recut if the floorperson or above determines that the shuffle or cut was performed improperly or in any way that might affect the integrity or fairness of the game.

(f) A reshuffle of the cards in the shoe shall take place after the cover card is reached in the shoe and the round of play is completed, as provided in § 681a.7 (relating to procedure for dealing the cards; completion of each round of play), except that a floorperson may determine that the cards should be reshuffled after any round of play.

(g) If there is no gaming activity at a 21 Baccarat table which is open for gaming, the cards shall be removed from the dealing shoe and the discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first

player arriving at the table is afforded an opportunity to visually inspect the cards, the cards shall be:

(1) Mixed thoroughly by a washing of the cards, stacked, then shuffled and cut in accordance with this section if there is no automated shuffling device in use.

(2) Stacked and placed into the automated shuffling device to be shuffled if an automated shuffling device is in use. The batch of cards already in the shuffler shall then be removed. Unless a player requests otherwise, the batch of cards removed from the shuffler does not need to be spread for inspection and reshuffled prior to being dealt provided that the automated card shuffling device stores a single batch of shuffled cards inside the shuffler in a secure manner.

(h) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (b)—(g) do not apply.

(b) All wagers shall be placed prior to the first card being dealt for each round of play. A player may not handle, remove or alter any wagers that have been made until a decision has been rendered and implemented with respect to that wager.

(c) To participate in a round of play, a player shall place a wager on either the Player's Hand or Banker's Hand. A wager on:

(1) The Player's Hand shall win if the total value of the cards dealt to the Player's Hand:

(i) Is 21 or less and is greater than the total value of the cards dealt to the Banker's Hand.

(ii) Is over 21 but is lower than the total value of the cards dealt to the Banker's Hand.

The player's Player or Banker Wager shall be settled in accordance with subsections (h)—(j) and the player's Bonus Wager shall be settled in accordance with subsection (k).

(h) After all cards have been dealt, the dealer shall compare the total value of the Player's Hand to the total value of the Banker's Hand. Starting with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction the dealer shall then settle all Player and Banker Wagers as provided in subsections (i) and (j).

(i) For players who wagered on the Player's Hand, if the Player's Hand:

§ 682a.2. Four Card Prime table physical characteristics.

(a) Four Card Prime shall be played at a table having betting positions for no more than six players on one side of the table and a place for the dealer on the opposite side of the table.

(b) The layout for a Four Card Prime table shall be submitted to the Bureau of Gaming Operations in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment) and contain, at a minimum:

(1) The name or logo of the certificate holder.

(3) If the certificate holder offers the optional Prime Wager authorized under § 682a.7(d)(2) (relating to wagers), the Aces Bonus Wager authorized under § 682a.7(d)(3) or the All-Six Bonus Wager authorized under § 682a.7(d)(4), a separate area designated for the placement of each of the wagers for each player.

(4) Inscriptions that advise patrons of the payout odds for all permissible wagers offered by the certificate holder. If payout odds are not inscribed on the layout, a sign indicating the payout odds for all permissible wagers shall be posted at each Four Card Prime table.

(5) If the certificate holder establishes a payout limit per player, per round of play, as authorized under § 682a.12(g) (relating to payout odds; Bad Beat Bonus; payout limitation), inscriptions that advise patrons of the payout limit. If the payout limit is not inscribed on the layout, a sign identifying the payout limit shall be posted at each Four Card Prime table.

(c) Each Four Card Prime table must have a drop box and a tip box attached on the same side of the table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g). The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(d) Each Four Card Prime table must have a discard rack securely attached to the top of the dealer's side of the table.

§ 682a.3. Cards; number of decks.

(a) Except as provided in subsection (b), Four Card Prime shall be played with one deck of 52 cards that are identical in appearance and one cover card.

(b) If an automated card shuffling device is utilized, Four Card Prime may be played with two decks of 52 cards in accordance with the following requirements:

(1) The cards in each deck must be of the same design. The backs of the cards in one deck must be of a different color than the cards included in the other deck.

(2) One deck of cards shall be shuffled and stored in the automated card shuffling device while the other deck is being used to play the game.

(3) Both decks are continuously alternated in and out of play, with each deck being used for every other round of play.

(4) The cards from only one deck are placed in the discard rack at any given time.

(c) The decks of cards used in Four Card Prime shall be changed at least every:

(1) Four hours if the cards are dealt by hand.

(2) Eight hours if the cards are dealt from a manual or automated dealing shoe.

§ 682a.4. Opening of the table for gaming.

(a) After receiving one or more decks of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 682a.5 (relating to shuffle and cut of the cards).

(d) If an automated card shuffling device is utilized and two decks of cards are received at the table, each deck of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c).

(e) If the decks of cards received at the table are preinspected and reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

§ 682a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each round of play has been completed or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or automated shuffling device shall place the deck of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) If an automated card shuffling device is being used, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, and the device reveals that an incorrect number of cards are present, the deck shall be removed from the table.

(c) After the cards have been shuffled and stacked, the dealer shall:

(1) If the cards were shuffled using an automated card shuffling device, deal the cards in accordance with § 682a.8, § 682a.9 or § 682a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe).

(2) If the cards were shuffled manually or were reshuffled, cut the cards in accordance with subsection (d).

(d) If a cut of the cards is required, the dealer shall place the cover card in the stack at least ten cards in from the top of the stack. Once the cover card has been inserted, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before any cards have been dealt, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game.

(f) If there is no gaming activity at a Four Card Prime table which is open for gaming, the cards shall be removed from the dealing shoe and discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the procedures in § 682a.4(c) (relating to opening of the table for gaming) and this section shall be completed.

(g) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. (b) Only players who are seated at a Four Card Prime table may wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the

(c) All wagers, except the Raise Wager, shall be placed prior to the dealer announcing “no more bets” in accordance with the dealing procedures in § 682a.8, § 682a.9 or § 682a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe). Except as provided in § 682a.11(b) (relating to procedures for completion of each round of play), a wager may not be made, increased or withdrawn after the dealer has announced “no more bets.”

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 682a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe by the dealer or by an automated card shuffling device.

(b) Prior to dealing any cards, the dealer shall announce “no more bets.” To deal the cards, the dealer shall remove each card from the dealing shoe with the hand of the dealer that is

closest to the dealing shoe and place it on the appropriate area of the layout with the opposite hand.

(c) If a player has placed an All-Six Bonus Wager, the dealer shall deal the first card face down to the area of the layout designated for the All-Six Bonus card. Thereafter, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, the dealer shall deal one card at a time to each player who has placed an Ante Wager in accordance with § 682a.7(d)(1) (relating to wagers) and to the dealer until each player who placed an Ante Wager has five cards and the dealer has six cards. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(f) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(g) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 682a.9. Procedures for dealing the cards from the hand.

After the dealer has chosen the hand in which to hold the cards, the dealer shall continue to use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing any cards, the dealer shall announce "no more bets."

(b) To deal the cards, the dealer shall hold the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout. If a player has placed an All-Six Bonus Wager, the dealer shall deal the first card

face down to the area of the layout designated for the All-Six Bonus card. Thereafter, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, the dealer shall deal one card at a time to each player who has placed an Ante Wager in accordance with § 682a.7(d)(1) (relating to wagers) and to the dealer until each player who placed an Ante Wager has five cards and the dealer has six cards. All cards shall be dealt face down.

(c) After five cards have been dealt to each player and six cards to the dealer, the dealer shall, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device that counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 682a.10. Procedures for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 682a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce “no more bets.”

(b) The dealer shall deliver the first stack of five cards dispensed by the automated dealing shoe face down to the player farthest to the dealer's left who has placed an Ante Wager in accordance with § 682a.7(d)(1) (relating to wagers). As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other players who has placed an Ante Wager. The dealer shall then deliver a stack of five cards face down to the area designated for the placement of the dealer's cards. The dealer shall then remove the next stack of five cards dispensed by the automated dealing shoe and if any player placed an All-Six Bonus Wager, the dealer shall deal the top card of the stack face down to the area of the layout designated for the All-Six Bonus

card. The dealer shall then deal a sixth card face down to the dealer's hand and place the remaining cards in the discard rack.

(c) After all cards have been dispensed and delivered in accordance with subsection (b), the dealer shall remove the stub from the automated dealing shoe and, except as provided in subsection (d), place the cards in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 682a.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 682a.8, § 682a.9 or § 682a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards subject to the following limitations:

(1) Each player who wagers at Four Card Prime shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

(2) Each player shall keep his five cards in full view of the dealer at all times.

(b) After each player has examined his cards, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player who placed an Ante Wager if he wishes to make a Raise Wager in an amount equal to one, two or three times the player's Ante Wager or forfeit the Ante Wager and end his participation in the round of play. If a player has placed an Ante Wager and an optional Prime, Aces Bonus or All-Six Bonus Wager but does not make a Raise Wager, the player shall forfeit the Ante Wager but does not forfeit the Prime, Aces Bonus or All-Six Bonus Wagers.

(c) After each player who has placed an Ante Wager has either placed a Raise Wager on the designated area of the layout or forfeited his Ante Wager, the dealer shall collect all forfeited wagers and associated cards, except for the cards of those players who placed an optional Prime, Aces Bonus or All-Six Bonus Wager, and place the cards in the discard rack.

(d) The dealer shall then reveal the dealer's cards and place the cards so as to form the highest possible ranking four card hand. After the dealer's cards are turned face up, the dealer shall, beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, complete the following applicable procedures in succession for each player:

(1) The dealer shall turn the cards of each player face up on the layout and compare the player's four card hand to the dealer's four card hand.

(2) If the player's highest ranking four card hand is:

(e) After settling the player's Ante and Raise Wagers, the dealer shall settle any optional wagers as follows:

(1) For the Prime Wager, if four or more of the player's five cards:

(i) Are not the same color, the dealer shall collect the losing Prime Wager.

(ii) Are of the same color, the dealer shall pay the winning Prime Wager in accordance with § 682a.12(d).

(2) For the Aces Bonus Wager, if the player's five card hand:

(ii) Contains a pair of aces or better, as described in § 682a.6(d), the dealer shall pay the winning Aces Bonus Wager in accordance with § 682a.12(e).

(3) For the All-Six Bonus Wager, the dealer shall expose the All-Six Bonus card and combine it with the player's five cards to form the highest ranking six-card hand as provided in § 682a.6(e). If the hand:

(i) Does not contain a three-of-a-kind or better, as described in § 682a.6(e), the dealer shall collect the losing All-Six Bonus Wager.

(ii) Contains a three-of-a-kind or better, as described in § 682a.6(e), the dealer shall pay the winning All-Six Bonus Wager in accordance with § 682a.12(f).

(f) After all wagers of the player have been settled, the dealer shall remove any remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

(d) Each Cajun Stud table must have a discard rack securely attached to the top of the dealer's side of the table.

Once the cards have been stacked, the cards shall be shuffled in accordance with § 683a.5 (relating to shuffle and cut of the cards).

Upon completion of the shuffle, the dealer or automated shuffling device shall place the deck of cards in a single stack. The certificate holder

may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) If an automated card shuffling device is being used, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, and the device reveals that an incorrect number of cards are present, the deck shall be removed from the table.

(c) After the cards have been shuffled and stacked, the dealer shall:

(1) If the cards were shuffled using an automated card shuffling device, deal the cards in accordance with § 683a.8, § 683a.9 or § 683a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe).

(2) If the cards were shuffled manually or were preshuffled, cut the cards in accordance with subsection (d).

(g) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. (b) Prior to dealing any cards, the dealer shall announce “no more bets.” To deal the cards, the dealer shall remove each card from the dealing shoe with the hand of the dealer that is

closest to the dealing shoe and place it on the appropriate area of the layout with the opposite hand.

(c) If a player has placed an All-Six Bonus Wager, the dealer shall deal the first four cards face down to the area of the layout designated for the All-Six Bonus cards. Thereafter, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, the dealer shall deal one card at a time to each player who has placed an Ante Wager in accordance with § 683a.7(d)(1) (relating to wagers) until each player who placed an Ante Wager has two cards. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing any cards, the dealer shall announce “no more bets.”

(b) To deal the cards, the dealer shall hold the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area

(d) If an automated card shuffling device that counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 683a.10. Procedures for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 683a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce “no more bets.”

(b) The dealer shall deliver the first stack of two cards dispensed by the automated dealing shoe face down to the player farthest to the dealer's left who has placed an Ante Wager in accordance with § 683a.7(d)(1) (relating to wagers). As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other players who has placed an Ante Wager.

(c) After each stack of two cards has been dispensed and delivered in accordance with this section, the dealer shall remove the remaining cards from the automated dealing shoe and

follow the procedures in § 683a.9(a)(2) (relating to procedures for dealing the cards from the hand) and deal the remaining cards as follows:

(1) If any player placed an All-Six Bonus Wager, deal four cards face down to the area of the layout designated for the placement of the All-Six Bonus Wager.

(2) Deal the three community cards. Except as provided in subsection (d), after all three community cards have been dealt, the dealer shall place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 683a.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 683a.8, § 683a.9 or § 683a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards subject to the following limitations:

(1) Each player who wagers at Cajun Stud shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

(2) Each player shall keep his two cards in full view of the dealer at all times.

(b) After each player has examined his cards, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player who placed an Ante Wager if he wishes to make a Raise Wager in an amount equal to one, two or three times the player's Ante Wager or forfeit the Ante Wager and end his participation in the round of play. If a player has placed an Ante Wager and an optional Pocket Bonus, Board Bonus, Lo Ball or All-Six Bonus Wager but does not make a Raise Wager, the player shall forfeit the Ante Wager but does not forfeit the Pocket Bonus, Board Bonus, Lo Ball or All-Six Bonus Wagers. After each player who has placed an Ante Wager has either placed a Raise Wager on the designated area of the layout or forfeited his Ante Wager, the dealer shall collect all forfeited wagers and

associated cards, except for the cards of those players who placed an optional Pocket Bonus, Board Bonus, Lo Ball or All-Six Bonus Wager, and place the cards in the discard rack.

(c) Once all players have either placed a Raise Wager or folded, the dealer shall turn over and reveal the first community card.

(d) Each player shall then make a second Raise Wager, in an amount equal to one, two or three times the player's Ante Wager or forfeit the Ante Wager and the first Raise Wager and end his participation in the round of play. If a player has placed an optional Pocket Bonus, Board Bonus, Lo Ball or All-Six Bonus Wager but does not make a Raise Wager, the player shall forfeit the Ante Wager and the first Raise Wager but does not forfeit the Pocket Bonus, Board Bonus, Lo Ball or All-Six Bonus Wagers. After each player who has placed an Ante Wager has either placed a second Raise Wager on the designated area of the layout or forfeited, the dealer shall collect all forfeited wagers and associated cards, except for the cards of those players who placed an optional Pocket Bonus, Board Bonus, Lo Ball or All-Six Bonus Wager, and place the cards in the discard rack.

(g) Once all remaining players have either placed a third Raise Wager or folded, the dealer shall turn over and reveal the third community card.

(h) Beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, the dealer shall turn over and reveal the player's cards. The dealer shall then evaluate and announce the best possible five-card Poker hand that can be formed using the player's two cards and the three community cards. The wagers of each remaining player shall be resolved one player at a time regardless of outcome. All Ante and Raise wagers shall be settled as follows:

(5) If the certificate holder establishes a payout limit per player, per round of play, as authorized under § 684a.12(g) (relating to payout odds; payout limitation), inscriptions that advise patrons of the payout limit. The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(d) Each Four Card Frenzy table must have a discard rack securely attached to the top of the dealer's side of the table.

§ 684a.3. Cards; number of decks.

§ 684a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each round of play has been completed or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or automated shuffling device shall place the deck of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) If an automated card shuffling device is being used, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present,

and the device reveals that an incorrect number of cards are present, the deck shall be removed from the table.

(c) After the cards have been shuffled and stacked, the dealer shall:

(1) If the cards were shuffled using an automated card shuffling device, deal the cards in accordance with § 684a.8, § 684a.9 or § 684a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe).

(g) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. (b) To deal the cards, the dealer shall hold the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout. If a player has placed an All-Six Bonus Wager, the dealer shall deal the first card face down to the area of the layout designated for the All-Six Bonus card. Thereafter, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, the dealer shall deal one card at a time to each player who has placed Ante and Odds Wagers in accordance with § 684a.7(d)(1) (relating to wagers) and to the dealer until each player who placed Ante and Odds Wagers and the dealer have five cards.

(c) After five cards have been dealt to each player and the dealer, except as provided in subsection (d), the dealer shall place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device that counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 684a.10. Procedures for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 684a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce “no more bets.”

(b) The dealer shall deliver the first stack of five cards dispensed by the automated dealing shoe face down to the player farthest to the dealer's left who has placed Ante and Odds Wagers in accordance with § 684a.7(d)(1) (relating to wagers). As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other players who have placed Ante and Odds Wagers. The dealer shall then deliver a stack of five cards face down to the area designated for the placement of the dealer's cards. If any player placed an All-Six Bonus Wager, the dealer shall then remove the next stack of five cards dispensed by the automated dealing shoe and deal the top card of the stack face down to the area of the layout designated for the All-Six Bonus card and place the remaining cards of the stack in the discard rack without exposing the cards.

(c) After all cards have been dispensed and delivered in accordance with subsection (b), the dealer shall remove the stub from the automated dealing shoe and, except as provided in subsection (d), place the cards in the discard rack without exposing the cards.

(d) If an automated card shuffling device that counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 684a.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 684a.8, § 684a.9 or § 684a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards subject to the following limitations:

(1) Each player who wagers at Four Card Frenzy shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

(2) Each player shall keep his five cards in full view of the dealer at all times.

(b) After each player has examined his cards and formed the best possible four-card hand, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player who placed Ante and Odds Wagers if he wishes forfeit the Ante and Odds Wagers and end his participation in the round of play or make a Raise Wager. If the player elects to:

(1) Place a Raise Wager, the player's Raise Wager shall be equal to the player's Ante Wager if player's hand is a pair of kings or lower as provided in § 684a.6(b) (relating to Four Card Frenzy rankings). If the player's hand is a pair of aces or higher, the player's Raise Wager may be equal to one, two or three times the player's Ante Wager.

(2) Forfeit his Ante and Odds Wagers by failing to place a Raise Wager, the dealer shall collect the player's Ante and Odds Wagers and place the player's cards in the discard rack provided that if a player has placed an optional Four Card Bonus, Prime or All Six-Bonus Wager, the player does not forfeit the optional wagers and the player's cards shall remain on the layout until the optional wagers are settled in accordance with subsection (d).

(c) After each player has either placed a Raise Wager on the designated area of the layout or forfeited his Ante and Odds Wagers, the dealer shall reveal the dealer's cards and place the cards so as to form the highest possible ranking four-card hand. After the dealer's cards are turned face up, the dealer shall, beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, complete the following applicable procedures in succession for each player:

(1) The dealer shall turn the cards of each player face up on the layout and compare the player's four-card hand to the dealer's four-card hand. The dealer shall then settle the player's required wagers as provided in paragraphs (2)—(4).

(2) For purposes of the Ante Wager:

(i) If the dealer's highest ranking four-card hand is not a king high or better, as described in § 684a.6(b) and (c), the dealer shall return the player's Ante Wager.

(ii) If the dealer's highest ranking four-card hand is a king high or better, and the player's highest ranking four-card hand:

(i) If a player's highest ranking four-card hand is a straight or higher, as provided in § 684a.6(b) and the player's hand is:

(A) Greater than or equal to the dealer's hand, the dealer shall pay the winning Odds Wager in accordance with § 684a.12(b).

(B) Lower than the dealer's hand, the dealer shall pay a bad beat payout on the player's Odds Wager in accordance with § 684a.12(c).

(ii) If a player's highest ranking four-card hand is two pair or lower, as provided in § 684a.6(b) and the player's hand is:

(A) Greater than or equal to the dealer's hand, the dealer shall return the player's Odds Wager.

(B) Lower than the dealer's hand, the dealer shall collect the player's losing Odds Wager.

(d) After settling the player's Ante, Odds and Raise Wagers, the dealer shall settle any optional wagers as follows:

(1) For the Prime Wager, if four or more of the player's five cards:

(i) Are not the same color, the dealer shall collect the losing Prime Wager.

(ii) Are of the same color, the dealer shall pay the winning Prime Wager in accordance with § 684a.12(d).

(2) For the Four Card Bonus Wager, if the player's four-card hand:

(ii) Contains a three-of-a-kind or better, as described in § 684a.6(e), the dealer shall pay the winning All-Six Bonus Wager in accordance with § 684a.12(f).

(e) After all wagers of the player have been settled, the dealer shall remove any remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

Upon completion of the shuffle, the dealer or device shall place the decks of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) After the cards have been shuffled and stacked, the dealer shall offer the stack of cards to be cut, with the backs facing away from the dealer, to the player determined under subsection (c). If no player accepts the cut, the dealer shall cut the cards.

(d) The player or dealer making the cut shall place the cover card in the stack at least ten cards from the top or bottom of the stack. Once the cover card has been inserted, the dealer shall take all cards on top of the cover card and place them on the bottom of the stack. The dealer shall then insert the cover card in the stack at a position at least 1/4 of the way in from the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before the cards have been placed in the dealing shoe, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game. If a recut is required, the cards shall be recut either by the player who last cut the cards or by the next person entitled to cut the cards, as determined under subsection (c). The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(f) A reshuffle of the cards in the shoe shall take place after the cover card is reached in the shoe, as provided in § 685a.7(d) (relating to procedure for dealing the cards; completion of

each round of play), except that a floorperson may determine that the cards should be reshuffled after any round of play.

(g) If there is no gaming activity at a Down Under Blackjack table which is open for gaming, the cards shall be removed from the dealing shoe and the discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the procedures in § 685a.4 (relating to opening of the table for gaming) and this section shall be completed.

(h) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (b)—(g) do not apply.

(a) Wagers at Down Under Blackjack shall be made by placing value chips, plaques or other Board-approved table gaming wagering instruments on the appropriate areas of the Down Under Blackjack layout. Verbal wagers accompanied by cash may be accepted provided that they are confirmed by the dealer and the cash is expeditiously converted into value chips or plaques.

(b) After the cards have been shuffled as required by § 685a.5 (relating to shuffle and cut of the cards), a certificate holder may prohibit any patron, whether seated at the gaming table or not, who does not make a wager on a given round of play from placing a wager on the next round of play and any subsequent round of play at that gaming table until either:

- (1) The certificate holder chooses to permit the player to begin wagering again.
- (2) A reshuffle of the cards has occurred.

(c) All wagers, except an Insurance Wager under § 685a.8 (relating to Insurance Wager), a wager to double down under § 685a.9 (relating to Double Down Wager) or a wager that splits pairs under § 685a.10 (relating to splitting pairs), shall be placed prior to the first card being dealt for each round of play. A player may not handle, remove or alter any wagers that have been made until a decision has been rendered and implemented with respect to that wager.

(d) A player shall place a Bet Wager to participate in a round of play and compete against the dealer's hand.

(e) If specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), a certificate holder may offer to each player who placed a Bet Wager in accordance with subsection (d), the option of placing a Match-the-Dealer Wager. The Match-the-Dealer Wager may only be offered at Down Under Blackjack tables using a six-deck or eight-deck batch or batches of cards.

(f) The certificate holder shall specify in its Rules Submission under § 601a.2 the number of adjacent boxes on which a player may place a Bet Wager in one round of play.

§ 685a.7. Procedure for dealing the cards; completion of each round of play.

(a) All cards shall be dealt from a dealing shoe which must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures under § 685a.5 (relating to shuffle and cut of the cards) have been completed, the stacked cards shall be placed in the dealing shoe by the dealer or by an automated card shuffling device.

(b) Each card shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand. The dealer may deal cards to the two betting positions closest to the dealing shoe with the same hand.

(c) After each full batch of cards is placed in the shoe, the dealer shall remove the first card and place it in the discard rack. Each new dealer who comes to the table shall also remove one card and place it in the discard rack before dealing any cards to the players.

(d) If the cover card appears as the first card in the dealing shoe at the beginning of a round of play or appears during play, the cover card shall be removed and placed to the side and the hand will be completed. The dealer shall then:

(1) Collect and reshuffle the cards by removing the cards remaining in the shoe and placing them in the discard rack to ensure that no cards are missing.

(2) Shuffle the cards so that they are randomly intermixed.

(e) After all Blackjack and optional Match-the-Dealer Wagers have been placed, the dealer shall, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal the cards as follows:

(1) One card face up to each box on the layout in which a Bet Wager is contained.

(2) One card face up to the dealer.

(3) A second card face up to each box in which a Bet wager is contained.

(4) A second card face down to the dealer.

(f) Immediately after the second card is dealt to each player and the dealer, but prior to any additional cards being dealt or before the dealer's hole card is placed in the Masque Card Reader device, the dealer shall, starting with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, settle the player's optional Match-the-Dealer Wagers by collecting all losing wagers and paying all winning wagers. If a player

placed a Match-the-Dealer Wager and either or both of the player's initial two cards match the rank of the dealer's up card, the dealer shall pay the winning Match-the-Dealer Wager in accordance with § 685a.11(c) (relating to payout odds). Any card with a face value of 10 or a point value of 10 (a jack, queen or king) shall only match an identical card without regard to value.

(g) Immediately after the dealer settles the optional Match-the-Dealer Wagers, if the dealer's first card is an ace, the dealer shall offer the Insurance Wager or even money in accordance with § 685a.8 (relating to Insurance Wager).

(h) After the procedures in subsection (g) have been completed, if applicable, the dealer shall determine the value range of the dealer's hole card. The dealer shall insert the hole card into the Masque Card Reader device by moving the card face down on the layout without exposing it to anyone at the table, including the dealer. If the dealer's hole card is in the Small value range (2-3-4-5), the Masque Card Reader device will illuminate a blue light. If the dealer's hole card is in the Medium value range (6-7-8-9), the Masque Card Reader device will illuminate a red light. If the dealer's hole card is in the Large value range (10-J-Q-K-A), the Masque Card Reader device will illuminate a yellow light. The dealer will then place his hand in the corresponding area on the layout as described in § 685a.2(b)(3) (relating to Down Under Blackjack table; Masque Card Reader device; physical characteristics; inspections). If the dealer's first card and hole card are both in the Large value range, the dealer's hole card shall be exposed to the players prior to the beginning of action. If the dealer has a Blackjack, additional cards may not be dealt and if a player:

(1) Has a Blackjack, the dealer shall return the player's Bet Wager and pay out any Insurance Wager, if applicable.

(2) Does not have a Blackjack, the dealer shall collect the player's Bet Wager and pay out any Insurance Wager, if applicable.

(i) If the dealer's hole card did not give the dealer Blackjack, the dealer shall start with the player farthest to the dealer's left and continue around the table in a clockwise direction and if the player:

(1) Has Blackjack, the dealer shall announce and pay the Blackjack in accordance with § 685a.11(a) (relating to payout odds) and remove the player's cards.

(2) Does not have Blackjack, the player shall indicate whether he wishes to double down as permitted under § 685a.9 (relating to Double Down Wager), split pairs as permitted under § 685a.10 (relating to splitting pairs), stand or draw additional cards. Players may not surrender in Down Under Blackjack.

(j) As each player indicates his decision, the dealer shall deal face upwards whatever additional cards are necessary to effectuate the player's decision.

(k) A player may elect to draw additional cards whenever his point count total is less than 21, except that:

(1) A player having a hard or soft total of 21 may not draw additional cards.

(2) A player electing to double down in accordance with § 685a.9 may draw only one additional card.

(l) After the decisions of each player have been implemented and all additional cards have been dealt, the dealer shall turn the hole card face up, unless the hole card has already been exposed in accordance with this section.

(m) The dealer shall draw additional cards until he has a hard or soft total of 17, 18, 19, 20, 21 or 22. Any additional cards required to be dealt to the hand of the dealer shall be dealt face up. The dealer shall announce the dealer's total point count after each additional card is dealt.

(n) After all additional cards have been drawn, if the total point count of the dealer's hand:

(1) Is a 22, the dealer shall pay out any player's Bet Wager if the player has exactly two original Large value range cards or a hand with a hard or soft total of 21 in accordance with § 685a.11 and shall return all remaining player's Bet Wagers.

(2) Is not a 22, the dealer shall settle the player's Bet Wagers in accordance with subsections (o)—(q).

(o) A player shall win and be paid in accordance with § 685a.11 for the Bet Wager if:

(1) The total point count of the player's hand is 21 or less and the total point count of the dealer's hand is in excess of 22.

(2) The total point count of the player's hand exceeds the total point count of the dealer's hand without exceeding 21.

(p) A Bet Wager shall tie and be returned to the player if the total point count of the player's hand does not exceed 21 and is the same as the total point count of the dealer's hand.

(q) A player's Bet Wager shall lose and shall be collected if:

(1) The total point count of the player's hand is in excess of 21.

(2) The total point count of the dealer's hand exceeds the total point count of the player's hand without exceeding 21.

(r) The dealer shall collect all losing wagers and settle all winning wagers in accordance with one of the following procedures designated in the certificate holder's Rules Submission under § 601a.2 (relating to table games Rules Submissions):

(1) Collect all losing wagers beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction and then settle all winning wagers.

(2) Collect each player's losing wagers and settle each player's winning wagers beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction. The dealer shall place any losing wagers directly into the table inventory and may not pay off any player's winning wagers by using value chips collected from a losing wager.

(s) After all wagers have been settled, the dealer shall remove any remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

(t) Players and spectators may not handle, remove or alter any cards used to play Down Under Blackjack.

§ 685a.8. Insurance Wager.

(a) If the first card dealt to the dealer is an ace, each player may make an Insurance Wager which shall win if the dealer's hole card is a 10, jack, queen or king.

(b) An Insurance Wager may be made by placing a value chip on the insurance line of the layout in an amount not more than 1/2 of the player's initial Bet Wager. A player may wager an amount in excess of 1/2 of the initial Bet Wager to the next unit that can be wagered in chips, when, because of the limitation of the value of chip denominations, half the initial Bet Wager cannot be bet. Insurance Wagers shall be placed prior to the dealer inserting his hole card into the Masque Card Reader device.

(c) Winning Insurance Wagers shall be paid in accordance with the payout odds in § 685a.11(b) (relating to payout odds).

(d) Losing Insurance Wagers shall be collected by the dealer immediately after the dealer inserts his hole card into the Masque Card Reader device and determines that he does not have a Blackjack and before he draws any additional cards.

§ 685a.9. Double Down Wager.

(a) Except when a player has Blackjack, a player may elect to make a Double Down Wager, which may not exceed the amount of his initial Bet Wager, on the first two cards dealt to that player, including any hands resulting from a split pair, provided that only one additional card shall be dealt to the hand on which the player has elected to double down.

(b) If a dealer obtains Blackjack after a player makes a Double Down Wager, the dealer shall collect only the amount of the initial Bet Wager of the player and may not collect the additional Double Down Wager.

(c) Upon a player's election to make a Double Down Wager, the dealer shall deal the one additional card face up and place it sideways on the layout.

§ 685a.10. Splitting pairs.

(a) If the first two cards dealt to a player are identical in value, the player may select to split the hand into two separate hands, provided that he makes a wager on the second hand formed in an amount equal to his initial Bet Wager. For example, if a player has two 8s or a king and a queen, the player may elect to split the hand.

(b) When a player splits pairs, the dealer shall deal a card to and complete the player's decisions to the first incomplete hand on the dealer's left before proceeding to deal any cards to the second hand.

(c) After a second card is dealt to each split pair hand, the player shall indicate his decision to stand, draw or double down with respect to that hand. A player may split pairs a maximum of one time, for a total of two hands.

(d) If the dealer obtains Blackjack after a player splits pairs, the dealer shall collect only the amount of the initial Bet Wager of the player and return the additional amount wagered in splitting pairs.

(e) If a player elects to split a pair of aces, each ace shall receive only one card.

§ 685a.11. Payout odds.

(a) The certificate holder shall pay out each winning Bet Wager at odds of 1 to 1, with the exception of Blackjack which shall be paid at odds of 3 to 2.

(b) The certificate holder shall pay out winning Insurance Wagers at odds of 2 to 1.

(c) The certificate holder shall pay out winning Match-the-Dealer Wagers at the odds in the following payable:

6 decks Result Pay	8 decks Result Pay
Suited match 11 to 1	Suited match 14 to 1
Unsuited match 4 to 1	Unsuited match 3 to 1

§ 685a.12. Irregularities.

(a) A card found face up in the shoe may not be used in that round of play and shall be placed in the discard rack.

(b) A card drawn in error without its face being exposed shall be used as though it were the next card from the shoe.

(c) After the first two cards have been dealt to each player and the dealer and a card is drawn in error and exposed to the players, the card shall be dealt to the players or dealer as

though it were the next card from the shoe. Any player refusing to accept the card may not have additional cards dealt to him during the round. If the card is refused by the players and the dealer cannot use the card, the card shall be placed in the discard rack.

(d) If the dealer has 17 and accidentally draws a card for himself, the card shall be placed in the discard rack.

(e) If there are insufficient cards remaining in the shoe to complete a round of play, all of the cards in the discard rack shall be shuffled and cut in accordance with the procedures in § 685a.5 (relating to shuffle and cut of the cards). The first card shall be drawn face down and placed in the discard rack and the dealer shall complete the round of play.

(f) If no cards are dealt to a player's hand, the hand is dead and the player shall be included in the next deal. If only one card is dealt to a player's hand, at the player's option, the dealer shall deal the second card to the player after all players have received a second card.

(g) If after receiving the first two cards, the dealer fails to deal an additional card to a player who has requested a card, then, at the player's option, the dealer shall either deal the additional card after all other players have received their additional cards but prior to the dealer revealing his hole card, unless that hole card has been exposed in accordance with § 685a.7(h) (relating to procedure of dealing the cards; completion of each round of play), or call the player's hand dead and return the player's initial Bet Wager.

(h) If the Masque Card Reader device wrongly indicates the value range of the dealer's hole card by illuminating the wrong colored light, or if the dealer places the hole card in the incorrect spot on the layout prior to player action on the hand, the dealer shall either allow the player to continue the action on that hand with the decisions already made or call the player's hand dead and return the player's initial Bet Wager, including those Bet Wagers for players who exceeded 21.

(i) If a Masque Card Reader device malfunctions, the dealer may not continue dealing the game of Down Under Blackjack at that table until the Card Reader device is repaired or replaced.

(j) If an automated card shuffling device is being used and the device jams, stops shuffling during a shuffle or fails to complete a shuffle cycle, the cards shall be reshuffled.

(k) If an automated shuffling device malfunctions and cannot be used, the device must be covered or have a sign indicating that it is out of order placed on the device before any other method of shuffling may be utilized at that table.

The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(d) Each Over/Under table must have a discard rack securely attached to the top of the dealer's side of the table. The height of each discard rack must either:

(1) Equal the height of the cards, stacked one on top of the other, in the total number of decks that are to be used in the dealing shoe at that table.

(a) Except as provided in subsection (b), Over/Under shall be played with a six-deck batch of cards that are identical in appearance and at least one cover card. The decks shall consist of 52 cards. The cards may be dealt from a multi-deck shoe or a continuous shuffler.

(1) The cards shall be separated into two batches with six decks included in each batch, with each batch containing the same number of decks.

(2) The cards in each batch must be of the same design but the backs of the cards in one batch must be of a different color than the cards in the other batch.

(3) An ace shall have a value of 11.

§ 686a.4. Opening of the table for gaming.

(a) After receiving the decks of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 686a.5 (relating to shuffle and cut of the cards).

(d) If an automated shuffling device is utilized, other than a continuous shuffler, all the decks in one batch of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c) separate from the decks in the other batch of cards.

(e) If the decks of cards received at the table are preinspected and reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a) and (c)—(e) do not apply.

§ 686a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each shoe of cards is dealt or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or device shall place the decks of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) After the cards have been shuffled and stacked, the dealer shall offer the stack of cards to be cut, with the backs facing away from the dealer, to the player determined under subsection (c). If no player accepts the cut, the dealer shall cut the cards.

(c) The cut of the cards shall be offered to players in the following order:

Once the cover card has been inserted, the dealer shall take all cards on top of the cover card and place them on the bottom of the stack. The dealer shall then insert the cover card in the stack at a position at least 1/4 of the way in from the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before the cards have been placed in the dealing shoe, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game. If a recut is required, the cards shall be recut either by the player who last cut the cards or

by the next person entitled to cut the cards, as determined under subsection (c). The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(f) A reshuffle of the cards in the shoe shall take place after the cover card is reached in the shoe, as provided in § 686a.7(d) (relating to procedure for dealing the cards; completion of each round of play), except that a floorperson may determine that the cards should be reshuffled after any round of play.

(g) If there is no gaming activity at an Over/Under table which is open for gaming, the cards shall be removed from the dealing shoe and the discard rack and spread out on the table face down unless the first player arriving at the table requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the procedures in § 686a.4 (relating to opening of the table for gaming) and this section shall be completed.

(h) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (b)—(g) do not apply.

§ 686a.6. Wagers.

(a) Wagers at Over/Under shall be made by placing value chips, plaques, or other Board-approved table gaming wagering instruments on the appropriate areas of the Over/Under layout. Verbal wagers accompanied by cash may be accepted provided that they are confirmed by the dealer and the cash is expeditiously converted into value chips or plaques.

(b) After the cards have been shuffled as required by § 686a.5 (relating to shuffle and cut of the cards), a certificate holder may prohibit any patron, whether seated at the gaming table or not, who does not make a wager on a given round of play from placing a wager on the next round of play and any subsequent round of play at that gaming table until either:

(1) The certificate holder chooses to permit the player to begin wagering again.

(2) A reshuffle of the cards has occurred.

(c) All wagers, except an Over 23 Wager or Under 18 Wager shall be placed prior to the first card being dealt for each round of play. A player may not handle, remove or alter any wagers that have been made until a decision has been rendered and implemented with respect to that wager.

(d) A player must place an Ante Wager to participate in a round of play.

(e) If specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), a certificate holder may offer to each player who placed an Ante Wager in accordance with subsection (d), the option of placing a Bonus Wager.

(f) The certificate holder shall specify in its Rules Submission under § 601a.2 the number of adjacent boxes on which a player may place an Ante Wager in one round of play.

§ 686a.7. Procedure for dealing the cards; completion of each round of play.

(b) Each card shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand. The dealer may deal cards to the two betting positions closest to the dealing shoe with the same hand.

(c) After each full batch of cards is placed in the shoe, the dealer shall remove the first card and place it in the discard rack. Each new dealer who comes to the table shall also remove one card and place it in the discard rack before dealing any cards to the players.

(d) If the cover card appears as the first card in the dealing shoe at the beginning of a round of play or appears during play, the cover card shall be removed and placed to the side and the hand will be completed. The dealer shall then:

(1) Collect and reshuffle the cards by removing the cards remaining in the shoe and placing them in the discard rack to ensure that no cards are missing.

(2) Shuffle the cards so that they are randomly intermixed.

(e) After all Ante and Bonus Wagers have been placed, the dealer shall, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal one card face up in the rectangular box described in § 686a.2(b)(3) (relating to Over/Under table; physical characteristics; inspections) closest to the player of each position on the layout in which an Ante Wager is placed.

(f) Immediately after the first card is dealt to each player, but prior to any additional cards being dealt the dealer shall start with the player farthest to the dealer's left and continue around the table in a clockwise direction and determine the decision of each player.

(g) Each player when asked by the dealer may elect to either:

(1) Place an Over 23 Wager equal to the amount of the player's Ante Wager.

(2) Place an Under 18 Wager equal to the amount of the player's Ante Wager.

(3) Surrender the Ante Wager, which shall then be collected by the dealer.

(h) A player's decision to surrender and forfeit the Ante Wager does not also forfeit the player's Bonus Wager, if made, and the Bonus Wager shall be settled in accordance with subsection (k).

(i) After a player indicates his decision, the dealer shall deal face up the two additional cards to the player's hand, even if the player decides to surrender his hand and has not placed a Bonus Wager.

(j) After the two additional cards have been dealt to a player, the dealer shall settle the player's wagers placed prior to and during the round of play, remove the cards and place them in the discard rack, and then move to the next player.

(i) A player shall win and be paid in accordance with § 686a.8 (relating to payout odds) if:

(1) The player placed an Ante Wager and an Over 23 Wager, and the total point count of the player's hand is 24, 25, 26, 27, 28, 29, 30, 31, 32 or 33.

(2) The player placed an Ante Wager and an Under 18 Wager, and the total point count of the player's hand is 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16 or 17.

(b) If an automated card shuffling device is being used, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 53 cards are present, and the device reveals that an incorrect number of cards are present, the deck shall be removed from the table.

(c) After the cards have been shuffled and stacked, the dealer shall:

(1) If the cards were shuffled using an automated card shuffling device, deal the cards in accordance with §§ 687a.8, 687a.9 or 687a.10 (relating to procedure for dealing the cards from a manual dealing shoe; procedure for dealing the cards from the hand; and procedure for dealing the cards from an automated dealing shoe).

As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other players who has placed an Ante Wager and Blind Wager.

If the cards were misdealt but 53 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(c) After each player who has placed an Ante Wager and Blind Wager has either placed a Raise Wager on the designated area of the layout or forfeited his Ante Wager and Blind Wager, the dealer shall collect all forfeited wagers and associated cards, except for the cards of those players who placed an optional Trips Bonus Wager or Progressive Bonus Wager and place the cards in the discard rack.

(d) Once all players have either placed a Raise Wager or folded, the dealer shall turn over and reveal his five-card hand and announce the best possible DJ Wild Stud Poker hand that can be formed.

Upon completion of the shuffle, the dealer or device shall place the deck of cards in a single stack. Once the second cover card has been inserted, the dealer shall take the second cover card and all the cards on top of the second cover card and place them on the bottom of the stack. The dealer shall then remove the first cover card and place it on the bottom of the stack. The dealer shall remove one of the cover cards and either place it in the discard rack or use it as an additional cover card to be inserted four cards from the bottom of the deck. If a recut is required, the cards shall be recut either by the player who last cut the cards, or by the next person entitled to cut the cards, as determined under subsection (d).

(g) If there is no gaming activity at a Face Up Pai Gow Poker table which is open for gaming, the cards shall be removed from the dealing shoe and discard rack and spread out on the table face down unless the first player arriving at the table requests that the cards be spread face up on the table. Unless a player requests otherwise, the deck of cards removed from the shuffler does not need to be spread for inspection and reshuffled prior to being dealt, if the automated card shuffling device stores a single deck of shuffled cards inside the shuffler in a secure manner.

(h) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility.

(i) To determine the starting position for the dealing of cards, the certificate holder shall use one of the following:

(1) A Pai Gow Poker shaker in accordance with the following procedures:

(i) The dealer shall shake the Pai Gow Poker shaker at least three times to cause a random mixture of the dice.

(ii) The dealer shall then remove the lid covering the Pai Gow Poker shaker and place the uncovered shaker on the designated area of the table layout. The dealer shall then total the dice and announce the total.

(iii) To determine the starting position, the dealer shall count each betting position in order, regardless of whether there is a wager at the betting position, beginning with the dealer as number one and continuing around the table in a counterclockwise manner, until the count matches the total of the three dice.

Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and may be treated as losing wagers.

(c) All wagers at Face Up Pai Gow Poker shall be placed prior to the dealer announcing “no more bets” in accordance with the dealing procedures in §§ 688a.8, 688a.9 or 688a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe). A wager may not be made, increased or withdrawn after the dealer has announced “no more bets.”

(d) To participate in a round of play and compete against the dealer's high and low hands, a player shall place a Face Up Pai Gow Poker Wager.

(e) A certificate holder may, if specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), offer to each player who placed a Pai Gow Poker Wager, in accordance with subsection (d), the option of placing the following additional wagers:

(1) An Ace High Bonus Wager that the seven cards dealt to the dealer will be an Ace High Pai Gow.

(2) A Fortune Bonus Wager that the seven cards dealt to the player will form a seven-card Poker hand with a rank of a three-pair or better as described in § 688a.6(e) (relating to Face Up Pai Gow Poker rankings).

(3) A Progressive Payout Wager that the seven cards dealt to the player will form a seven-card Poker hand with a rank of a full house or better as described in § 688a.6(f).

(f) A certificate holder may, if specified in its Rules Submission under § 601a.2, permit a player to wager on two adjacent betting areas at a Face Up Pai Gow Poker table. If a certificate holder permits a player to wager on adjacent betting areas, the cards dealt to each betting area shall be played separately. If the two wagers are not equal, the player shall rank and set the hand with the larger wager before ranking and setting the other hand. If the amounts wagered are equal, each hand shall be played separately in a counterclockwise rotation with the first hand being ranked and set before the player proceeds to rank and set the second hand. Once a hand has been ranked, set and placed face down on the layout, the hands may not be changed.

§ 688a.8. Procedures for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures

required under § 688a.5 (relating to shuffle and cut of the cards; procedures for determining the starting position for dealing cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe either by the dealer or by an automated card shuffling device.

(b) Prior to dealing any cards, the dealer shall announce “no more bets” and:

(1) If the Fortune Bonus Wager or Progressive Payout Wager is being offered and a player makes a Qualifying Wager, the dealer shall place an Envy lammer next to that player's wager.

(2) If the Progressive Payout Wager is being offered, the dealer shall use the progressive table game system to prevent the placement of any additional Progressive Payout Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(c) The dealer shall determine the starting position for dealing the cards using one of the procedures authorized under § 688a.5(i).

(d) The dealer shall then deal the first card to the starting position as determined in subsection (c) and, continuing around the table in a clockwise manner, deal one card at a time to all other positions, regardless of whether there is a wager at the position, and the dealer, until each position and the dealer has seven cards. Each card dealt shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed, face down to the player and face up to the dealer, on the appropriate area of the layout with the opposite hand.

(e) After seven cards have been dealt to each position and the dealer, the dealer shall remove the stub from the manual dealing shoe and determine whether four cards are left by spreading them face down on the layout. The four cards that remain may not be exposed to anyone and shall be placed in the discard rack.

(f) If more or less than four cards remain, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player position or the dealer has more or less than seven cards), all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(g) If the dealer determines the cards were dealt properly, the dealer shall collect any stacks dealt to a position where there was no wager and place them in the discard rack without exposing the cards.

§ 688a.9. Procedures for dealing the cards from the hand.

(a) If the cards are dealt from the dealer's hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 688a.5 (relating to shuffle and cut of the cards; procedures for determining the starting position for dealing cards) have been completed, the dealer shall place the deck of cards in either hand. After the dealer has chosen the hand in which to hold the cards, the dealer shall continue to use that hand when holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing any cards, the dealer shall announce “no more bets” and:

(i) If the Fortune Bonus Wager or Progressive Payout Wager is being offered and a player makes a Qualifying Wager, the dealer shall place an Envy lammer next to that player's wager.

(ii) If the Progressive Payout Wager is being offered, the dealer shall use the progressive table game system to prevent the placement of any additional Progressive Payout Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall deal each card by holding the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout. The dealer shall then determine the starting position for dealing the cards using one of the procedures authorized under § 688a.5(i).

(c) The dealer shall then deal the first card to the starting position as determined in subsection (b) and, continuing around the table in a clockwise manner, deal one card at a time to all other positions, regardless of whether there is a wager at the position face down, and to the dealer face up, until each position and the dealer has seven cards.

(d) After seven cards have been dealt to each position and the dealer, the dealer shall determine whether four cards are left by spreading them face down on the layout. The four cards that remain may not be exposed to anyone and shall be placed in the discard rack.

(e) If more or less than four cards remain, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player position or the dealer has more or less than seven cards), all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(f) If the dealer determines the cards were dealt properly, the dealer shall collect any stacks dealt to a position where there was no wager and place them in the discard rack without exposing the cards.

§ 688a.10. Procedures for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures under § 688a.5 (relating to shuffle and cut of the cards; procedures for determining the starting position for dealing cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce “no more bets” and:

(i) If the Fortune Bonus Wager or Progressive Payout Wager is being offered and a player makes a Qualifying Wager, the dealer shall place an Envy lammer next to that player's wager.

(ii) If the Progressive Payout Wager is being offered, the dealer shall use the progressive table game system to prevent the placement of any additional Progressive Payout Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall determine the starting position for delivering the stacks of cards using one of the procedures authorized under § 688a.5(i).

(c) After the starting position for delivering the cards has been determined, the dealer shall deliver the first stack of cards dispensed by the automated dealing shoe face down to that position. As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other positions, regardless of whether there is a wager at the position, and the dealer face up.

(d) After seven cards have been dispensed and delivered to each position and the dealer, the dealer shall remove the remaining cards from the shoe and determine whether four cards are left by spreading them face down on the layout. The four cards that remain may not be exposed to anyone and shall be placed in the discard rack.

(e) If more or less than four cards remain, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player position or the dealer has more or less than seven cards), all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(f) If the dealer determines the cards were dealt properly, the dealer shall collect any stacks dealt to a position where there was no wager and place them in the discard rack without exposing the cards.

§ 688a.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under §§ 688a.8, 688a.9 or 688a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, the dealer shall set his seven cards into two hands by arranging the cards into a high hand and low hand. The certificate holder shall specify in its Rules Submission under § 601a.2 (relating to table games Rules Submissions) the manner in which the hands of the dealer shall be set. The dealer shall then place the high hand and low hand face up on the appropriate area of the layout.

(b) After the high hand and low hand of the dealer have been set, each player shall examine his cards subject to the following limitations:

(1) Each player who wagers at a Face Up Pai Gow Poker table shall be responsible for setting his own hands and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player. If a player requests assistance in the setting of his hands, the dealer shall inform the player of the manner in which the certificate holder requires the hands of the dealer to be set in accordance with the certificate holder's Rules Submission under § 601a.2.

(2) Each player shall keep his seven cards in full view of the dealer at all times.

(3) Once each player has set a high and low hand and placed the two hands face down on the appropriate area of the layout, the player may not touch the cards again.

(c) Each player shall set his hands by arranging the cards into a high hand and a low hand. When setting the two hands, the five-card high hand must be equal to or higher in rank than the two-card low hand. For example, if the two-card hand contains a pair of sevens, the five-card hand must contain at least a pair of sevens and the three remaining cards.

(d) Unless a player has placed an optional wager authorized under § 688a.7(e)(1)—(3) (relating to wagers), a player may surrender his wager after the hands of the dealer have been set. The player shall announce his intention to surrender prior to the dealer exposing either of the two hands of that player as provided in subsection (e). Once the player has announced his intention to surrender, the dealer shall immediately collect the Face Up Pai Gow Poker Wager from that player and collect the seven cards dealt to that player without exposing the cards to anyone at the table. If any Qualifying Wagers have been placed, the cards of the player shall remain on the table until collected in accordance with subsection (h). The dealer shall verify that seven cards were collected by counting them face down on the layout prior to placing them in the discard rack.

(e) After the dealer has set a high hand and a low hand, the dealer shall reveal both hands of each player, beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction. The dealer shall compare the high and low hand of each player to the high and low hand of the dealer and shall announce if the Face Up Pai Gow Poker Wager of that player wins, loses or is a tie.

(f) A Face Up Pai Gow Poker Wager will:

(1) Lose and will immediately be collected if:

(i) The high hand of the player is lower in rank than the high hand of the dealer and the low hand of the player is lower in rank than the low hand of the dealer.

(ii) The high hand of the player is identical in rank to the high hand of the dealer or the low hand of the player is identical in rank to the low hand of the dealer and the other hand of the player is identical in rank or lower in rank than the other hand of the dealer.

(iii) The high hand of the player was not set so as to rank equal to or higher than the low hand of that player.

(iv) The two hands of the player were not otherwise set correctly in accordance with this chapter.

(2) Tie and will be returned to the player if:

(i) The high hand of the player is higher in rank than the high hand of the dealer, but the low hand of the player is identical in rank to the low hand of the dealer or lower in rank than the low hand of the dealer.

(ii) The high hand of the player is identical in rank to the high hand of the dealer or lower in rank than the high hand of the dealer, but the low hand of the player is higher in rank than the low hand of the dealer.

(iii) The dealer has an Ace High Pai Gow.

(3) Win if the high hand of the player is higher in rank than the high hand of the dealer and the low hand of the player is higher in rank than the low hand of the dealer. The dealer shall pay the winning Face Up Pai Gow Poker Wager in accordance with the payout odds in § 688a.12(a) (relating to payout odds; Envy Bonus; rate of progression).

(g) Except as provided in subsection (h), after settling the player's Face Up Pai Gow Poker Wager, the dealer shall place the cards of the player in the discard rack.

(h) After settling the player's Face Up Pai Gow Poker Wager, the dealer shall rearrange the seven cards of any player who placed an optional wager, in accordance with § 688a.7(e)(1)—(3), to form the highest ranking hand and be responsible for creating the hand for purposes of all optional wagers offered by the certificate holder. If any player at the table has placed a Qualifying Wager, the dealer shall rearrange the cards of all players regardless of whether the player placed a Fortune Bonus or Progressive Payout Wager. After rearranging the player's seven cards, the dealer shall:

(1) Settle the player's Ace High Bonus Wager as follows:

(i) If the dealer:

(A) Does not have an Ace High Pai Gow, as described in § 688a.6(d) (relating to Face Up Pai Gow Poker rankings), the dealer shall collect the Ace High Bonus Wager.

(B) Has an Ace High Pai Gow, the dealer shall pay the winning Ace High Bonus Wager in accordance with § 688a.12(b).

(2) Settle the player's Fortune Bonus Wager as follows:

(i) If a player:

(A) Does not have a straight or higher, as described in § 688a.6(e), the dealer shall collect the Fortune Bonus Wager.

(B) Has a straight or higher, the dealer shall pay the winning Fortune Bonus Wager in accordance with § 688a.12(c). If the player has an Envy Bonus Qualifying Hand and any player at the table placed a Qualifying Wager, the dealer shall verbally acknowledge the Envy Bonus Qualifying Hand and leave the cards of the player face up on the table.

(C) Did not place a Fortune Bonus Wager but has an Envy Bonus Qualifying Hand, and another player at the table placed a Qualifying Wager, the dealer shall verbally acknowledge the Envy Bonus Qualifying Hand and leave the cards of the player face up on the table.

(ii) After all Fortune Bonus Wagers have been settled, if any player is the holder of an Envy Bonus Qualifying Hand, the dealer shall pay an Envy Bonus in accordance with § 688a.12(c) to each player who has an Envy lammer at the player's betting position. Players are entitled to multiple Envy Bonuses when another player at the same Pai Gow Poker table is the holder of an Envy Bonus Qualifying Hand. A player is not entitled to an Envy Bonus for his own hand or the hand of the dealer.

(iii) After all Envy Bonuses have been paid, the dealer shall collect all remaining cards and place them in the discard rack.

(3) Settle the player's Progressive Payout Wager as follows:

(i) If a player:

(A) Does not have a full house or better, as described in § 688a.6(f), the dealer shall collect the Progressive Payout Wager.

(B) Has a full house or better, the dealer shall:

(1) Verify that the hand is a winning hand.

(2) Verify that the appropriate light on the progressive table game system has been illuminated.

(3) Have a floorperson or above validate the progressive payout in accordance with the certificate holder's approved internal control procedures.

(4) Pay the winning Progressive Payout Wager in accordance with the payout odds in § 688a.12(d). If a player has won a progressive payout that is a percentage of the progressive meter, the progressive payout may not be paid from the table inventory container. If a player has won a progressive payout that is not being paid from the table inventory, the cards of that player shall remain on the table until the necessary documentation has been completed.

(C) Did not place a Progressive Payout Wager but has an Envy Bonus Qualifying Hand, and another player at the table placed a Qualifying Wager, the dealer shall verbally acknowledge the Envy Bonus Qualifying Hand and leave the cards of the player face up on the table.

(i) Notwithstanding the requirements in subsection (h), if the certificate holder offers more than one optional wager, the dealer shall settle all of the player's optional wagers before placing the player's cards in the discard rack.

(j) All cards removed from the table shall be placed in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

§ 688a.12. Payout odds; Envy Bonus; rate of progression.

(a) A certificate holder shall pay each winning Face Up Pai Gow Poker Wager at odds of 1 to 1, and shall not charge a commission or vigorish on winning hands.

The maximum payout amount shall be at least \$50,000 or the maximum amount that one player could win per round when betting the minimum permissible wager, whichever is greater. Any maximum payout limit established by a certificate holder may not apply to progressive wager meter payouts or envy bonus payouts.

§ 688a.13. Irregularities; invalid roll of dice.

(f) A card drawn in error without its face being exposed shall be used as though it were the next card from the shoe.

(2) The interactive gaming system must be able to identify and properly handle the situation when master resets have occurred on other remote gaming components which affect game outcome, win amount or reporting.

(3) The interactive gaming system must have the ability to restore the system from the last backup.

(4) The interactive gaming system must be able to recover all critical information from the time of the last backup to the point in time at which the interactive gaming system failure or reset occurred.

(h) Recovery plan. An interactive gaming certificate holder or interactive gaming operator shall have a plan in place, approved by the Board, to recover interactive gaming operations in the event that the interactive gaming system is rendered inoperable (that is, Disaster/Emergency Recovery Plan). When reviewing the sufficiency of an interactive gaming certificate holder or interactive gaming operator's plan to recover interactive gaming system operations in the event the interactive gaming system is rendered inoperable, the Board will consider all of the following:

(1) The method of storing player account information and gaming data to minimize loss in the event the interactive gaming system is rendered inoperable.

(2) If asynchronous replication is used, the method for recovering data should be described or the potential loss of data should be documented.

(i) Recovery plan requirements. An interactive gaming certificate holder's or interactive gaming operator's Disaster/Emergency Recovery Plan must also:

(1) Delineate the circumstances under which it will be invoked.

(2) Address the establishment of a recovery site physically separated from the interactive gaming system site.

(3) Contain recovery guides detailing the technical steps required to re-establish gaming functionality at the recovery site.

(4) Include a Business Continuity Plan that addresses the process required to resume administrative operations of interactive gaming activities after the activation of the recovered platform for a range of scenarios appropriate for the operations context of the interactive gaming system.

(j) Location of equipment. Equipment used by a server-based interactive gaming system for the sole purpose of restoring data following a disaster must be located in a location within the United States as approved by the Board.

(k) Player self-exclusion. The interactive gaming system must provide an easy and obvious mechanism for players to access the Board's self-exclusion database to self-exclude from interactive gaming.

(l) Mechanism for temporary suspension. The interactive gaming system must provide a mechanism by which a player may elect to temporarily suspend his or her interactive gaming account for a period of no less than 72 hours in accordance with the terms and conditions agreed to by the player upon registration.

§ 809a.7. Geolocation requirements.

(a) An interactive gaming system must employ a mechanism to detect the physical location of a player upon logging into the interactive gaming system and as frequently as

specified in the Board's technical standards and the interactive gaming certificate holder's or interactive gaming operator's approved internal controls submission. If the system detects that the physical location of the player is in an area unauthorized for an interactive gaming system, the system shall not accept wagers and must disable any interactive gaming activity for that player until the player is in an authorized location.

(b) The geolocation system must be equipped to dynamically monitor the player's location and block unauthorized attempts to access the interactive gaming system throughout the duration of the gaming session.

(c) An interactive gaming certificate holder or interactive gaming operator must prevent registered players within a licensed facility from accessing authorized interactive games on the registered player's own computers or other devices through the use of geolocation technologies.

(d) Interactive gaming shall only occur within this Commonwealth unless the conduct of gaming is not inconsistent with Federal law, law of the jurisdiction, including any foreign nation, in which the participating player is located, or the gaming activity is conducted pursuant to a reciprocal agreement to which the Commonwealth is a party that is not inconsistent with Federal law.

§ 809a.8. Security policy requirements.

Interactive gaming certificate holders and interactive gaming operators shall adopt and maintain a Board-approved information security policy which describes the certificate holder's or licensee's approach to managing information security and its implementation. This policy is required in addition to any similar requirements that may be imposed as part of the certificate holder's or licensee's internal controls. The information security policy must:

(1) Conform to the standards of the most recent version of the NIST cybersecurity framework.

(2) Be reviewed annually as well as when significant changes occur to the interactive gaming system or the processes which alter the risk profile of the interactive gaming system.

(3) Be approved annually by the certificate holder's or operator's management.

(4) Be communicated to all employees and relevant external parties.

(5) Delineate the responsibilities of the certificate- holder's or licensee's staff and the staff of any third parties for the operation, service and maintenance of the interactive gaming system and its components.

§ 810a.1. Scope.

To ensure players are not exposed to unnecessary security risks by choosing to participate in interactive gaming in this Commonwealth and to ensure the integrity and security of interactive gaming operations in this Commonwealth, this chapter applies to all games an interactive gaming certificate holder or interactive gaming operator seeks to offer to players in this Commonwealth.

§ 810a.2. Definitions.

The following words and terms, when used in this chapter, have the following meanings, unless the context clearly indicates otherwise:

Artwork or art—Graphical and auditory information that is sent to the player device for presentation to the player.

Game cycle—The finite set of all possible combinations.

Personal progressive—A progressive jackpot which only one player contributes to with qualifying progressive wagers and which only that player can win.

Player interface—The interface within the software in which the player interacts. The term is also referred to as the gaming window.

Progressive jackpot—

- (i) An increasing prize based on a function of credits that are wagered.
- (ii) A monetary prize that increases in value based on a function of credits wagered.

(iii) The term includes prizes that are awarded based on criteria other than obtaining winning outcomes in the game, such as mystery progressives.

§ 810a.3. Minimum game standards.

All of the following requirements apply to the game information, artwork, paytables and help screens which include all written, graphical and auditory information provided to the player either directly from the game interface or from a page accessible to the player from the game interface through a hyperlink located in a conspicuous location.

- (1) All statements and graphics within the gaming information, artwork, paytables and help screens must be accurate and not misleading.
- (2) All game rules and payable information must be available to the player directly on the player interface or accessible from the player interface through a hyperlink without the need for funds to be deposited or funds to be staked.
- (3) All game rules and payable information must be sufficient to explain all the applicable rules and how to participate in all stages of the game.
- (4) Paytable information must include all possible winning outcomes, patterns, rankings and combinations, and their corresponding payouts with a designated denomination or currency. All displayed payouts must be theoretically possible.
- (5) The rules of the game must inform the players of the imperfections of the communications medium for the game and how this affects them.
- (6) There must be sufficient information regarding any award payout adjustments such as fees, rakes, commissions, and the like.
- (7) If the artwork contains game instructions specifying a maximum win then it must be possible to win this amount from a single game (including features or other game options).
- (8) For games that offer bonus bets that require a base game bet, the minimum percentage return to player of the bonus bet must take into account that a base game bet must be placed.
- (9) If random/mystery prizes are offered, the maximum value obtainable from the random/mystery prize must be indicated. If the value of the random/mystery prize depends on credits wagered or any other factors, this must be stated.
- (10) The artwork should clearly state the rules for payments of prizes when multiple wins are possible.

(i) A description of what combinations will be paid when a pay line may be interpreted to have more than one individual winning combination (“only highest paid win per line”).

(ii) When the game supports multiple pay lines, the artwork should display a message indicating wins on different pay lines are added or equivalent.

(iii) When the game supports scatters, artwork should display a message indicating that scattered wins are added to pay line wins, or equivalent, if this is the rule of the game.

(iv) The artwork should clearly communicate the treatment of coinciding scattered wins with respect to other possible scattered wins. For example, the artwork should state whether combinations of scattered symbols pay all possible prizes or only the highest prize.

(v) The artwork should clearly communicate the treatment of coinciding game outcome (that is, straight flush can be a flush and a straight, three red 7s can be any three 7s).

(11) If it is possible to bet on multiple lines and it is not clear which reel positions are part of each of the possible lines, then the additional lines must be clearly displayed on the artwork and appropriately labeled. The additional lines must either be shown on the displayed artwork, be available for display on a help screen or permanently displayed on all game-play screens in a location separate from the actual reels.

(12) When multiplier instructions are displayed on artwork, there must be no question as to whether the multiplier applies.

(13) All game symbols and objects must be clearly displayed to the player and not be misleading in any way. Game symbols and objects must retain their shape throughout all artwork, except while animation is in progress.

(14) The artwork must clearly state which symbols and objects may act as a substitute or wild and in which winning combinations the substitute/wild may be applied.

(15) The artwork must clearly state which symbols and objects may act as scatter and in which winning combinations the scatter may be applied.

(16) The game may not advertise upcoming wins unless the advertisement is accurate and mathematically demonstrable.

(17) All of the following requirements apply to games depicting cards being drawn from a deck:

(i) A game which utilizes multiple decks of cards must clearly indicate the number of cards and card decks in play.

(ii) Once removed from the deck, cards may not be returned to the deck except as provided by the rules of the game depicted.

(iii) The deck may not be reshuffled except as provided by the rules of the game depicted.

(18) All of the following requirements apply to multiwager games:

(i) Each individual wager to be played must be clearly indicated to inform the player as to which wagers have been made and the credits bet per wager.

(ii) Each winning prize obtained must be displayed to the player in a way that clearly associates the prizes to the appropriate wager. When there are wins associated with multiple wagers, each winning wager must be indicated in turn.

§ 810a.4. Minimum display standards.

All of the following game information must be visible or easily accessible to the player at all times during a player session:

(1) The name of the game being played.

(2) Restrictions on play or betting such as any play duration limits, maximum win values, and the like.

(3) The player's current session balance.

(4) The current bet amount. This is only during the phase of the game when the player can add to or place additional bets for that phase.

(5) Current placement of all bets.

(6) The denomination of the bet.

(7) The amount won for the last completed game (until the next game starts or betting options are modified).

(8) The player options selected for the last completed game (until the next game starts or a new selection is made).

(9) Initial player selection options are to be described. Player selection options once the game has commenced should be clearly shown on the screen.

(10) The winning amount for each separate wager and total winning amount are to be displayed on the screen.

§ 810a.5. Random number generator standards.

(a) The random number generator must be cryptographically strong at the time of submission for approval. When more than one instance of a random number generator is used in an interactive gaming system, each instance must be separately evaluated and certified. When each instance is identical but involves a different implementation within a game/application, each implementation shall also be separately evaluated and certified. Any outcomes from the random number generator used for game symbol selection/game outcome determination must be shown, by data analysis and a source code read, to:

(1) Be statistically independent, unless the submission has been approved for a persistent-state outcome determination.

(2) Be fairly distributed (within statistically expected bounds) over their range.

(3) Pass various recognized statistical tests.

(4) Be cryptographically strong.

(b) Random number generators must adhere to standards in § 461a.7 (relating to slot machine minimum design standards).

(c) The gaming laboratory may employ the use of various recognized tests to determine whether or not the random values produced by the random number generator pass the desired confidence level of 95%. These tests include the following:

(1) Chi-square test.

(2) Equi-distribution (frequency) test.

(3) Gap test.

(4) Overlaps test.

(5) Poker test.

(6) Coupon collectors test.

(7) Permutation test.

(8) Kolmogorov-Smirnov test.

(9) Adjacency criterion tests.

(10) Order statistic test.

(11) Runs tests (patterns of occurrences should not be recurrent).

(12) Interplay correlation test.

(13) Serial correlation test potency and degree of serial correlation (outcomes should be independent of the previous game, unless the submission has been approved for a persistent-state outcome determination).

(14) Tests on subsequences.

(15) Poisson distribution.

(d) The scaling method may not compromise the cryptographic strength of the random number generator. The scaling method must preserve the distribution of the scaled values. For example, if a 32-bit random number generator with a range of the set of integers in the closed interval (0, 232-1) were to be scaled to the range of the set of integers in the closed interval (1, 6) so that the scaled values can be used to simulate the roll of a standard six-sided die, then each integer in the scaled range should theoretically appear with equal frequency. In the example given, if the theoretical frequency for each value is not equal, then the scaling method is considered to have a bias. Thus, a compliant scaling method must have bias equal to zero.

(e) If the interactive gaming system utilizes hard-based random number generators, there must be dynamic/active, real-time monitoring of the output with a sample size large enough to allow for reasonably high statistically powerful testing so that game play is disabled when an output testing failure is detected.

(f) If the interactive gaming system utilizes a software-based random number generator, it must adhere to all of the following:

(1) The period of the random number generator, in conjunction with the methods of implementing the random number generator outcomes, must be sufficiently large to ensure that all game independent outcome combinations/permutations are possible for the given game/application, unless the submission has been approved for a persistent-state outcome determination.

(2) The methods of seeding/reseeding must ensure that all seed values are determined in a manner that does not compromise the cryptographic security of the random number generator.

(3) To ensure that random number generator outcomes cannot be predicted, adequate background cycling/activity must be implemented in between games. Whenever a game outcome is made up of multiple mapped random number generator values, background cycling/activity must be implemented during the game (that is, in between the selection of each mapped random number generator value) to ensure that the game outcome is not comprised of sequential mapped random number generator outcomes. The rate of background cycling/activity must be sufficiently random in and of itself to prevent prediction.

§ 810a.6. Software authentication.

The acquisition and development of new software must follow defined processes in accordance with the information security policy.

(1) The production environment must be logically and physically separated from the development and test environments.

(2) Development staff shall be precluded from having access to promote code changes into the production environment. If, due to staffing limitations, this requirement cannot be met by the entity, the internal controls submitted to the Board shall describe what measures will be implemented to ensure the integrity of interactive games in the production environment.

(3) There must be a documented method to verify that test software is not deployed to the production environment.

(4) To prevent leakage of personal identifiable information, there must be a documented method to ensure that raw production data is not used in testing.

(5) All documentation relating to software and application development should be available and retained for the duration of its lifecycle.

§ 810a.7. Changes to game.

A change or modification to an interactive game shall be handled in accordance with the Change Management guidelines issued and distributed to interactive gaming certificate holders, interactive gaming operators and interactive gaming manufacturers.

§ 810a.8. Game rules.

(a) Interactive gaming certificate holders and interactive gaming operators shall adopt and adhere to written, comprehensive house rules governing wagering transactions by and between authorized players that are available for review at all times by players through a conspicuously displayed link. House rules must include all of the following:

- (1) Clear and concise explanation of all fees.
- (2) The rules of play of a game.
- (3) Any monetary wagering limits.
- (4) Any time limits pertaining to the play of a game.

(b) House rules must be approved by the Board.

(c) House rules that deviate from Board regulations shall be submitted to the Board's Office of Gaming Laboratory Operations for review and approval prior to submission to the Board for approval prior to implementation.

§ 810a.9. Fairness.

(a) All critical functions including the generation of the result of any game (and the return to the player) must be generated by the interactive gaming platform and be independent of the player device. All of the following also apply:

(1) Game outcome may not be affected by the effective bandwidth, link utilization, bit error rate or other characteristic of the communications channel between the interactive gaming platform and the player device.

(2) Determination of events of chance that result in a monetary award may not be influenced, affected or controlled by anything other than numerical values derived in an approved manner from the certified random number generator when applicable and in conjunction with the rules of the game.

(3) Each possible permutation or combination of game elements that produces winning or losing game outcomes must be available for random selection at the initiation of each play, unless otherwise denoted by the game.

(4) As game symbols are selected or game outcomes are determined, they must be immediately used as directed by the rules of the game.

(5) When the game requires a sequence or mapping of symbols or outcomes to be set up in advance, the symbols or outcomes should not be resequenced or remapped, except as provided for in the rules of the game.

(6) After selection of the game outcome, the game may not make a variable secondary decision which affects the result shown to the player.

(7) Except as provided by the rules of the game, events of chance within games should be independent and not correlated with any other events within the game or events within the previous game, unless the submission has been approved for a persistent-state outcome determination.

(8) For game types such as a spinning reel game, unless otherwise disclosed to the player, the mathematical probability of a symbol appearing in a position for any game outcome must be constant.

(b) A game may not be designed to give the player a false expectation of better odds by misrepresenting any occurrence or event.

(1) Games that are designed to give the player the perception that they have control over the game due to player skill when they actually do not must fully address this behavior in the game help screens.

(2) The final outcome of each game must be displayed for a sufficient length of time that permits a player to verify the outcome of the game.

§ 810a.10. Prohibitions.

(a) Forced game play.

(1) The player may not be forced to play a game just by selecting that game.

(2) It must not be possible to start a new game in the same player interface instance before all relevant meters have been updated on the interactive game system and all other relevant connections and player session balance or, if applicable, the player's total balance has been updated.

(3) If an auto play mode is incorporated, it must be possible to turn this mode off at any time during game play.

(b) Bots and computerized players. Bots or computerized players are only permitted when employed by the interactive gaming system in free play or training mode, or if use of the bot or computerized player satisfies all of the following:

(1) The use of artificial intelligence software must be clearly explained in the help menus.

(2) All computerized players must be clearly marked at the tables so that players are aware of which players are not human.

(c) Incomplete games. A game is incomplete when the game outcome remains unresolved or the outcome cannot be properly seen by the player.

(1) The interactive gaming certificate holder or interactive gaming operator may provide a mechanism for a player to complete an incomplete game.

(2) Incomplete games shall be resolved before a player is permitted to participate in another instance of the same game.

(3) Wagers associated with an incomplete game must be voided within 30 days and the wagers can be forfeited or returned to the player provided that:

(i) The terms and conditions or the game rules, or both, must clearly define how wagers will be handled when they remain undecided beyond the specified time period and the interactive gaming system must be capable of returning or forfeiting the wagers, as appropriate.

(ii) In the event that a game cannot be continued due to an interactive gaming system action, all wagers must be returned to the players of that game.

(d) Auto play prohibited. Game play shall be initiated only after a registered player has affirmatively placed a wager and activated play. An auto play feature is not permitted in game software unless authorized by the Board, and if permitted shall not exceed 50 spins.

§ 810a.11. Controls.

(a) A replay last game feature either as a re-enactment or by description must be available to players. The replay must clearly indicate that it is a replay of the entire previous game cycle, and must provide, at a minimum, all of the following information:

(1) The date and time the game started or ended, or both.

(2) The display associated with the final outcome of the game, either graphically or by a clear text message.

(3) Total player cash/credits at start or end of play, or both.

(4) Total amount bet.

(5) Total cash/credits won for the prize (including progressive jackpots).

(6) The results of any player choices involved in the game outcome.

(7) Results of any intermediate game phases, such as gambles or feature games.

(8) Amount of any promotional awards received, if applicable.

(b) For each individual game played, all of the following information must be recorded, maintained and easily demonstrable by the interactive gaming system:

(1) Unique player ID.

(2) Contributions to progressive jackpot pools, if applicable.

(3) Game status (in progress, complete, and the like).

(4) The table number, if applicable, at which the game was played.

(5) The paytable used.

(6) Game identifier and version.

(c) An organized event that permits a player to either purchase or be awarded the opportunity to engage in competitive play against other players may be permitted providing all of the following rules are met:

(1) While enabled for tournament play, a game may not accept real money from any source, nor pay out real money in any way, but must utilize tournament specific credits, points or chips which have no cash value.

(2) Interactive gaming contest/tournament rules are available to a player on the web site where the interactive gaming contest/tournament is being conducted. The rules must include, at a minimum, all of the following:

(i) All conditions players shall meet to qualify for entry into and advancement through the contest/tournament.

(ii) Any conditions concerning late arrivals or complete tournament no-shows and how auto-blind posting or initial entry purchase, or both, is handled.

(iii) Specific information pertaining to any single contest/tournament, including the amount of money placed in the prize pool.

(iv) The distribution of funds based on specific outcomes.

(v) The name of the organization or person that conducted the contest/tournament on behalf of, or in conjunction with, the operator, if applicable.

(3) The results of each contest/tournament shall be made available on the interactive gaming web site for the players to review. Subsequent to being posted on the web site, the results of each contest/tournament shall be available upon request. The recording must include all of the following:

(i) Name of the event.

(ii) Date of event.

(iii) Total number of entries.

(iv) Amount of entry fees.

(v) Total prize pool.

(vi) Amount paid for each winning category.

(d) All of the following requirements apply to the disabling and re-enabling of gambling on the interactive gaming system:

(1) The interactive gaming system must be able to disable or enable all gambling on command.

(2) When any gambling is disabled or enabled on the interactive gaming system an entry must be made in an audit log that includes the reason for any disable or enable.

(e) When a game or gaming activity is disabled:

(1) The game is not to be accessible to a player once the player's game has fully concluded.

(2) The player should be permitted to conclude the game in play (that is, bonus rounds, double up/gamble and other game features related to the initial game wager should be fully concluded).

(3) If wagers have been placed on pending real-life events:

(i) The terms and conditions must clearly define what happens to the wagers if the gaming activity is to remain disabled and the corresponding real-life event is completed, and the interactive gaming system must be capable of returning all bets to the players or settling all bets, as appropriate.

(ii) The terms and conditions must clearly define what happens to the wagers if the gaming activity is to re-enable before the corresponding real-life event is completed, and the interactive gaming system must be capable of returning all bets to the players, or leaving all bets active, as appropriate.

(f) When one or more feature/bonus prize may be paid to the player, the bonus game must be part of the overall payable theoretical return to player.

(g) All progressive jackpots must adhere to all of the following:

(1) All players that play progressive jackpot games must be made aware of actions which would make them eligible to win the progressive jackpot.

(2) When progressive jackpot contributions are part of the return to player calculation, the contributions may not be assimilated into revenue. If a cap is established on any progressive jackpot all additional contributions once that cap is reached are to be credited to a diversion pool.

(3) The rules of the game must incorporate how the progressive jackpot is funded and determined.

(4) If a minimum bet amount exists for a player to win a progressive jackpot, then the return to player (excluding the progressive jackpot) must meet the minimum player return in accordance with § 461a.7(a) (relating to slot machine minimum design standards). The calculation of the theoretical payout percentage may not include the amount of any progressive jackpot in excess of the initial reset amount.

(5) The current progressive jackpot amount should be displayed on all player devices participating in the progressive jackpot. This display should be updated on all participating player devices at least every 30 seconds.

(6) The rules of the game must inform the players of any maximum awards or time limits, or both, which may exist for each progressive jackpot.

(7) For progressive jackpots offering multiple levels of awards, the player must always be paid the higher amount if a particular combination is won that should trigger the higher paying award. This may occur when a winning combination may be evaluated as more than one of the available payable combinations (that is, a flush is a form of a straight flush and a straight flush is a form of a royal flush). There may be situations when the progressive jackpot levels must be swapped to ensure the player is being awarded the highest possible value based on all combinations the outcome may be defined as.

(8) If multiple progressive jackpots occur at approximately the same time and there is no definitive way of knowing which jackpot occurred first, the operator shall adopt procedures, approved by the Board, for resolution. The rules of the game must include information which addresses the resolution of this possibility.

(9) All progressive jackpots must adhere to standards in §§ 461a.12 and 461a.13 (relating to progressive slot machines; and wide area progressive systems), except for any physical requirements deemed inapplicable by the Board and subject to the following modifications:

(i) Notice of intent to transfer a progressive jackpot must be conspicuously displayed on the interactive game icon and at all times during a gameplay by means of methodology approved by the Board for a period at least 10 days immediately preceding the transfer of the progressive jackpot.

(ii) Within § 461a.12, the term “gaming floor” used regarding land-based progressives shall be analogous to the term “interactive gaming platform” used regarding interactive gaming progressives.

(10) If a progressive jackpot is offered as a personal progressive that only one player contributes to and only that player can win, the player's contributions to the progressive jackpot must be refunded to the player within 30 days if the player's interactive gaming account is closed for any reason.

§ 810a.12. Test accounts.

(a) Interactive gaming certificate holders and interactive gaming operators may establish test accounts to be used to test the various components and operation of an interactive gaming system in accordance with internal controls, which, at a minimum, address all of the following:

(1) The procedures for the issuance of funds used for testing, including the identification of who is authorized to issue the funds and the maximum amount of funds that may be issued.

(2) The procedures for assigning each test account for use by only one person.

(3) The maintenance of a record for all test accounts to include when they are active, to whom they are issued and the employer of the person to whom they are issued.

(4) The procedures for the auditing of testing activity by the interactive gaming certificate holder or interactive gaming operator to ensure the accountability of funds used for testing and proper adjustments to gross interactive gaming revenue.

(5) The ability to withdraw funds from a test account without the Board's prior approval must be disabled by the interactive gaming system.

(6) For testing of peer-to-peer games:

(i) A person may utilize multiple test accounts.

(ii) Test account play shall be conducted without the participation of players.

(b) In addition to the required internal controls in subsection (a)(1)—(6), for any wagering on test accounts conducted outside the boundaries of this Commonwealth, the procedures for auditing of testing activity must include the method for ascertaining the location from which persons using test accounts access the interactive gaming system.

§ 1112a.7. Video gaming terminal minimum design standards.

(a) A video gaming terminal may not be set to pay out less than the theoretical payout percentage, which may not be less than 85%, calculated using the lowest possible wager that could be played for any single play, or equal or exceed 100%, calculated using the highest eligible wager available. The theoretical payout percentage for the total value of video gaming terminal wagers will be calculated using the following:

- (1) The defined set of all symbols that will be displayed using spinning reels or video displays, or both.
- (2) The finite set of all possible combinations which shall be known as the cycle of the game. All possible combinations in a video gaming terminal cycle must be independent of each other and of all possible combinations from cycles in other video gaming terminal.
- (3) The value of each winning combination that corresponds with the set from paragraph (2) which, whether by reason of skill or application of the element of chance, or both, may deliver or entitle the person or persons playing the video gaming terminal to wins.

(4) The odds of any winning combination may not exceed 50 million to 1.

(b) The calculation of the theoretical payout percentage may not include the amount of any progressive wins in excess of the initial or reset amount.

(c) A play offered by a video gaming terminal may not have a theoretical payout percentage which is less than, when calculated to one hundredth of a percentage point, the theoretical payout percentage for any other play offered by that video gaming terminal which is activated by a video gaming terminal wager in a lesser amount than the video gaming terminal wager required for that play. Notwithstanding the foregoing, the theoretical payout percentage of one or more particular plays may be less than the theoretical payout percentage of one or more plays which require a lesser wager provided that:

(1) The aggregate total of the decreases in the theoretical payout percentage for plays offered by the video gaming terminal is not more than 1/2 of 1%.

(2) The theoretical payout percentage for every play offered by the video gaming terminal is equal to or greater than the theoretical payout percentage for the play that requires the lowest possible wager that will activate the video gaming terminal.
